Form 51-102F3
MATERIAL CHANGE REPORT

ITEM 1 REPORTING ISSUER

ZENA CAPITAL CORP
(the "Company")
604 – 750 West Pender Street
Vancouver, BC V6C 2T7

ITEM 2 DATE OF MATERIAL CHANGE

April 18, 2007

ITEM 3 PRESS RELEASES

Issued April 18, 2007 at Vancouver, BC

ITEM 4 SUMMARY OF MATERIAL CHANGE

1. The TSX.V has accepted for filing five promissory note agreements dated March 27, 2007.
2. Convertible debentures outstanding totalling \$100,000 were converted on November 30, 2006.
3. The Company extracted and crushed approximately 50 tonnes of barite ore as a test sample.

ITEM 5 FULL DESCRIPTION OF MATERIAL CHANGE

Zena Capital Corp (the "Company") announces that the Toronto Stock Exchange - Venture has accepted for filing five promissory note agreements (the "Notes") dated March 27, 2007 entered into between the Company and its wholly-owned subsidiary Rock Creek Minerals Inc. ("Rock Creek") and each of Global Capital Group LLC, Greg Burnett (a significant shareholder), Alan Crawford (director of the Company) and two companies each individually controlled by Kevin Hanson and Terry Amisano (directors of the Company) (the "Lenders"). Pursuant to the Notes, each Lender will provide a loan of \$20,000 to the Company, for a total of \$100,000. The Notes are payable on demand and bear interest of 15% per year payable annually on the anniversary date of the Notes. The Notes are secured against the assets of Rock Creek and the Company. The Company expects to have this funding completed in the next two weeks. The proceeds of this financing will be applied to exploration on the Company's industrial mineral property and for general working capital purposes.

The Company also advises that convertible debentures outstanding totalling \$100,000 were converted on November 30, 2006 at \$.1017 per share for 983,605 common shares. There were no warrants issued on this conversion. \$80,000 of the debentures was due to related parties, including Terry Amisano, Brenda Hanson, Greg Burnett and Alan Crawford.

The Company also advises that after obtaining access to its mineral claims in October 2006, located in the Bridesville/Rock Creek area in British Columbia, the Company extracted and crushed approximately 50 tonnes of barite ore as a test sample, which is intended to be used for market suitability testing and for delivery to potential purchasers. The Company is currently seeking contracts for the sale of this industrial mineral and in that regard, during March 2007, entered into a confidentiality agreement with a company to negotiate with each other concerning the sale of mining assets, sale of materials from the mineral property and/or any other venture between the two parties.

Rock Creek is continuing with its claim against the landowner and defence of a counterclaim filed against Rock Creek by the landowner. The Company views the counterclaim as frivolous and is confident that it will be successful in its defence. The Company may also seek to recover from the applicable responsible parties, including the landowner and the B.C. Ministry of Energy, any financial loss that arose from the unreasonable delay in obtaining access and work permits.
