Form 10-K for fiscal year ended December 31, 2005

Item 7. Managements Discussion and Analysis of Financial Condition and Results of Operations

Critical Accounting Policies and Estimates, page 22

1. Please refer to your response to prior comment two. Based on your disclosure in Note 9, the net carrying amount of other intangible assets totaled \$608.6 million at December 31, 2005, and indefinite lived trademarks increased almost threefold

during the year. Also, it appears that you perform your impairment analysis at the specific brand level. Given the significance of these assets, please provide the following information in disclosure-type format.

- Quantify the carrying value of trademarks by segment and primary brand consistent with your MD&A discussion of net sales.
 - Explain the facts and circumstances that you considered in determining which trademarks have an indefinite useful life and the trademarks that have a finite life.
2. Your response to prior comment three does not appear to have provided the information requested in items “c” and “f”. Please provide this information in disclosure-type format. Discuss the nature and quantify the amount of all significant dilutions from revenue (e.g. product returns) for each period presented. In particular, provide an analysis of the factors underlying changes in gross sales, such as the impact of coupons, customer incentives and cooperative advertising on prices and volume, consistent with Item 303 (a)(3) (iii) of Regulation S-K. Also, consider our Interpretative MD&A Guidance, Financial Reporting Release No. 72 dated December 29, 2003.
