01.01 - IDENTIFICATION

1 - CVM CODE 01866-0	2 - COMPANY NAME CPFL ENERGIA S.A.	3 - CNPJ (Federal Tax ID) 02.429.144/0001-93
--------------------------------	--	--

A meeting of the Board of Directors held on March 29, 2006 approved the implementation of the first stage of the Corporate Reorganization process, which separates the corporate participations held by the subsidiary CPFL Paulista in the companies CPFL Piratininga, Companhia de Gás de São Paulo – COMGAS (“COMGAS”) and Energias do Brasil S.A. (“Energias do Brasil”), in compliance with the provisions of Law nº 10.848/04 and ANEEL Resolution Authorizing nº 305/05 and in accordance with National Electric Energy Agency “ANEEL” Order nº 454/06.

This stage of the Corporate Reorganization consisted of a reduction in the capital of the subsidiary CPFL Paulista, approved in the Extraordinary General Meeting held on April 13, 2006, without cancellation of shares and through the return to the Company, holder of 100% of the capital of CPFL Paulista, of the assets represented by the investments in the companies mentioned above, with a total book value of R\$ 413,288. These assets were evaluated at book values, in accordance with the Evaluation Report prepared by specialists as of December 31, 2005. The Interim Financial Statements as of June 30 and September 30, 2006 reflect this operation and the individual balances of the parent company reflect the direct impacts of these investments, which were previously shown through the subsidiary CPFL Paulista.

The assets previously held directly by the subsidiary CPFL Paulista and transferred to the direct control of CPFL Energia, in accordance with the report, are as follows:

Description	Book Value As of December 31, 2005
Investment CPFL Piratininga	230,538
Goodwill CPFL Piratininga	154,826
Investment COMGÁS	27,152
Investment Energias do Brasil	772
Total	413,288

On June 23, 2006, CPFL Energia acquired from the Public Service Enterprise Group (“PSEG”) 100% of Ipê Energia Ltda. (“Ipê”), PSEG Trader S.A and PSEG Brasil Ltda. The names of these companies were changed to CPFL Serra Ltda., CPFL Comercialização Cone Sul S.A. and CPFL Missões Ltda., respectively. Since this acquisition, CPFL Energia holds 99.76% of RGE, through its subsidiaries CPFL Paulista (67.07%) and CPFL Serra (32.69%), as well as 99.95% of the capital of Sul Geradora, through the subsidiaries CPFL Brasil (67.20%) and CPFL Serra (32.75%).

(2) PRESENTATION OF THE INTERIM FINANCIAL STATEMENTS

The parent company's and consolidated interim financial statements have been prepared in accordance with principles, practices and criteria consistent with those adopted for preparing the prior year's financial statements and interim financial statements as of March 31, 2006 and June 30, 2006 and should be analyzed together. These interim financial statements are presented in thousands of Brazilian reais and were prepared in accordance with generally accepted accounting principles in Brazil, in accordance with the Accounting Manual of the Public Electric Energy Service, as defined by ANEEL and the standards published by the Brazilian Securities Commission (“CVM”).

In order to improve the information presented to the market, as supplementary information, the Cash Flow Statements of the parent company and consolidated are being presented for the nine month period ended September 30, 2006 and 2005 (note 35).

The Cash Flow Statements were prepared in accordance with the criteria established by FAS 95 – Statement of Cash Flows, with respect to the presentation format, within the context of registering the Company's financial statements with the Securities and Exchange Commission ("SEC").

Consolidation Principles

The consolidated interim financial statements includes the balances and transactions of the Company and its subsidiaries CPFL Paulista, CPFL Piratininga, CPFL Geração, CPFL Brasil, CPFL Serra, CPFL Missões and Nova 4. The asset, liability and income balances were fully consolidated. Prior to consolidation into the Company's financial statements, the financial statements of CPFL Paulista, CPFL Geração and CPFL Brasil were consolidated with those of their subsidiaries, fully or proportionally (joint subsidiaries), according to the rules defined in CVM Instruction No. 247/96.

With the acquisition of CPFL Serra in June 2006, the indirect subsidiaries RGE and SGP no longer consolidate its balance sheet and income statement proportionally, but rather fully. This transaction impacted the balance sheet and the income statement since June 2006.

a) Rationing

At the end of 2001, as a result of the Emergency Program for the Reduction of Electric Energy Consumption which remained in effect between June 2001 and February of 2002, an agreement was signed between the generators, power distributors and the Federal Government, called the "Overall Agreement for the Electric Energy Sector", which introduced, as a mechanism to reimburse the losses incurred by the electrical sector with this program, an Extraordinary Tariff Increase of 2.9% on electric power supply tariffs to residential consumers (except those considered to be a "low income consumer"), rural and public lighting and 7.9% for all other consumers.

This tariff adjustment is being offset against the regulatory assets recorded by the subsidiaries in relation to the Extraordinary Tariff Adjustment (RTE) and Free Energy. The periods stipulated for realizing the regulatory assets relating to RTE and Free Energy for the subsidiaries CPFL Paulista and CPFL Piratininga are 72 and 61 months respectively, as from January 1, 2002. After this period, offsetting of Parcel "A" will commence, using a mechanism similar to that of the Extraordinary Tariff Adjustment, except in respect of the recovery period not defined by ANEEL.

As of September 30, 2006 the subsidiaries established a provision for losses on the realization of the Extraordinary Tariff Adjustment in the amount of R\$ 127,812, set against accounts receivable, based on the projections of expected income by the subsidiaries and taking into account market growth, estimated inflation, interest and regulatory aspects.

In the case of the indirect subsidiary RGE, the Free Energy regulatory asset is derived from the allocation of its partial quota from Itaipu for the rationing program. As in the case of the RTE, the indirect subsidiary RGE and the subsidiary CPFL Geração have established an accumulated provision of R\$ 10,560 for losses on realization of Free Energy.

As a result of court orders, the subsidiaries CPFL Paulista and CPFL Piratininga are prevented from pass-through on Free Energy amounts to certain generators, as certain sector agents have raised legal questions in respect of the free market regulations. Accordingly, the amounts received are greater than the amounts pass-through on to the generators up to September 30, 2006.

The movements of these regulatory assets and liabilities for the quarter ended September 30, 2006, net of the provision for losses, are as follows:

b) Review and Adjustment Tariff

b.1) Tariff Review of 2003

CPFL Paulista

In April 2005, ANEEL approved the final results of the first periodic tariff review of April 2003, for the subsidiary CPFL Paulista, and determined that the electricity supply tariffs should be adjusted by 20.29% (which had been set provisionally at 21.10%). In addition it established the **Xe** factor which

reflects the productivity gains at 1.1352% to be applied as a reduction factor to the manageable costs "Parcel B", for the subsequent Annual Tariff Increases until the next periodic review in April of 2008.

Accordingly, in order to reflect the final percentage, the subsidiary CPFL Paulista recognized a regulatory liability of R\$ 48,888 in the first quarter of 2005, set against for Revenue from Electricity Sales (note 27), and amortized the entire liability in the same accounts up to April 2006.

Additionally the subsidiary CPFL Paulista recognized a regulatory asset of R\$ 22,398 in the first quarter of 2005, set against Revenue from Electricity Sales (note 27), resulting from the difference between the tariff approved in the review of the regulatory depreciation rate of 4.64% p.a., used by ANEEL to calculate the reintegration quota, and the percentage of 4.85% p.a. calculated by the subsidiary CPFL Paulista based on information provided to the granting authority. The subsidiary CPFL Paulista is currently recognizing and restating this asset, as a result of the tariff lag caused by the difference between the two rates.

The ANEEL Economic and Financial Inspection Office carried out a specific inspection confirming the correctness of the percentage of 4.85%. Through Order nº 2.057, of September 5, 2006, ANEEL granted the administrative appeal filed by the parent company CPFL Paulista, accepting the request for a review of the calculation of the average depreciation rate used from 4.64% to 4.85%. According to this order, this regulatory asset will be taken into consideration in the next tariff adjustment.

CPFL Piratininga

Through Resolution of Approval nº 385, of October 19, 2006, and further to the request for reconsideration of the Tariff Review proposed by Bandeirante Energia S.A., ANEEL changed the amounts of the CPFL Piratininga remuneration base approved in October 2005, and consequently, the result of the first tariff review of October 2003, which had been final, became provisional. Through this change, ANEEL established that CPFL Piratininga's electricity supply tariffs should be adjusted by 10.14% (the percentage of 9.67% had been considered final). It also established the provisional value of the "Xe" factor, which reflects the productivity gains of 0.8571%, to be applied as a reduction factor to the "Parcel B" manageable costs for the subsequent annual tariff increases. The final percentage is to be established on definition of the final percentage of the tariff adjustment.

ANEEL Resolution nº 336, of August 16, 2001, referring to consent to the request for the partial spin-off of Bandeirante Energia S.A. and the partial transfer of its concession area to the subsidiary CPFL Piratininga, established that, in the first tariff review for these companies, the lower of the tariff adjustment for the two concessionaires will be applied. As Bandeirante obtained an index of 10.14% and the subsidiary CPFL Piratininga one of 11.52%, the index of 10.14% prevailed.

Accordingly, to reflect the new provisional percentage established by ANEEL, the subsidiary CPFL Piratininga recognized a regulatory asset of R\$ 26,970 thousand, including the effects of PIS and COFINS, set against Revenue from Electricity Sales.

b.2) Tariff Adjustments of 2006

CPFL Paulista

Through Approving Resolution nº 313, of April 6, 2006, ANEEL established the average Annual Tariff Adjustment of the subsidiaries at 10.83%, of which 7.12% refers to the annual tariff adjustment and 3.71% to the financial components.

The financial components are the CVA, energy surpluses, restatement of purchase costs of energy from Itaipu, discount on collection of the TUSD, and other adjustment related to previous period.

In accordance with the Addendum to the Concession Contract signed on March 14, 2005, PIS and COFINS expense actually incurred by the subsidiary CPFL Paulista were included in the electricity supply accounts as from July 1, 2005, and are accordingly not included in the tariff mentioned above.

ANEEL also took into account of the provisions of art. nº.109 of Law nº 11,196/2005, which ordered the return by the generators of the amounts of R\$ 32,869, received as a result of the effects of the increase in PIS and COFINS passed on to consumers during the previous tariff period. This return is being made in 12 monthly installments starting as from May 2006. Accordingly, the subsidiary CPFL Paulista recorded an asset, set against Cost of Electricity (note 28), equivalent to the amount to be reimbursed to consumers recorded in liabilities (note 25), set against Income (note 27). Additionally, on June 5, 2006, ANEEL ratified the amount to be returned by the generators to R\$ 19,932, maintaining however the amount of R\$ 32,869 to be refunded to the consumers. This difference will be reimbursed by ANEEL in the next tariff adjustment.

During the quarter, the subsidiary CPFL Paulista recorded the amount of R\$ 4,990 (R\$ 9,117 in the nine month period) relating to discounts given in the TUSD referring to supply of electric power from alternative sources, which will be received in the next tariff adjustment. This amount was recorded under "Consumers, Concessionaires and Licensees", and set off against the respective "Operating Income" account.

CPFL Piratininga

Through Resolution of Approval nº 386, of October 19, 2006, ANEEL established the Annual Tariff Adjustment at an average percentage of 10.79%, of which 4.40% refers to the annual tariff adjustment and 6.39% to the additional financial components.

The financial components are basically the CVA, energy surpluses, increase in PIS and COFINS, discounts on collection of the Tariff for Use of the Distribution System – TUSD and the effects of the tariff review mentioned in the previous item.

In accordance with the Addendum to the Concession Contract signed on September 1, 2005, the PIS and COFINS expense actually incurred by the subsidiary CPFL Piratininga have been included in the electricity supply accounts as from October 23, 2005, and are accordingly not included in the tariff mentioned above.

ANEEL also took into account application of the provisions of art. 109 of Law nº 11.196/2005, which ordered the refund by the generators of the amount of R\$ 7,764 received as a result of the effects of the increase in PIS and COFINS passed on to consumers during the previous tariff period. This refund is to be made in 12 monthly installments as from November 2006. Accordingly the subsidiary CPFL Piratininga recorded an asset, set against Cost of Electricity (note 28), equivalent to the amount to be reimbursed to consumers recorded in liabilities (note 25), set against Income (note 27).

As of September 30, 2006, the subsidiary CPFL Piratininga recorded the amounts of R\$ 609 and R\$ 634, corresponding respectively to Assets and Liabilities in respect of the increase in the PIS and COFINS rate of the Generators, in accordance with ANEEL Resolution of Approval nº 229, of October 18, 2005.

RGE

Tariff Adjustment

Through Approving Resolution nº 320, of April 18, 2006, ANEEL established the Annual Tariff Adjustment of the indirect subsidiary RGE, increasing the electricity tariffs by an average of 10.19%, consisting of 5.07% relating to the Annual Tariff Adjustment and 5.13% relating to the financial tariff components outside the annual adjustment. The main external components are the CVA and the discount on the TUSD.

ANEEL also advised, in Official Letter nº 177/ANEEL, of July 28, 2006, that there were errors in the adjustment calculation data base for the 2006 annual tariff adjustment of 10.19% of the indirect subsidiary RGE. The adjustments made to this calculation resulted in a new rate of 10.69%, and the difference between the rates will result in a regulatory asset of R\$ R\$ 7,678, to be restated pro rata in accordance with the IGP-M and approved for charging to consumers in the next tariff adjustment. Of the total amount mentioned, the indirect subsidiary RGE had recorded a pro rata asset of R\$ 3,497 up to September 30, 2006, recorded in "Prepaid Expenses", and set off against the "Operating Revenue" account.

The indirect subsidiary RGE recognized the amount of R\$ 4,127 in the quarter (R\$ 4,453 in the nine-month period), in relation to the discounts on the TUSD in respect of the supply of electricity from alternative sources to be approved in the next tariff adjustment. This amount was recorded in the "Consumers, Concessionaires and Licensees" account and set off against the respective "Operating Revenue" account.

In accordance with the Addendum to the Concession Contract signed on April 7, 2005, the PIS and COFINS expense actually incurred by the indirect subsidiary RGE was included in the electricity supply accounts as from July 1, 2005, and is accordingly not included in the above mentioned tariff.

b.3) Increase in PIS and COFINS

Refers to the difference between the costs relating to PIS and COFINS calculated by applying the current legislation, and those incorporated in the tariff.

Although the 2005 tariff adjustments already cover the majority of these costs, this matter should give rise to final regulation after the conclusion of the Public Hearing set up by ANEEL on July 20, 2005 (ANEEL call notice nº 014/2005). In view of their provisional nature, these amounts are subject to change at the time of the final approval by the regulatory agency.

CPFL Paulista

The constitution and realization of the asset were recorded in the account "Prepaid Expenses" (note 11), set against the respective "Deductions from Operating Income" accounts.

CPFL Piratininga

In accordance with Resolution of Approval nº 386, of October 19, 2006, ANEEL approved the amount of R\$ 34,263 as realignment of tariffs with the PIS and COFINS costs, eliminating the amounts already taken into consideration in the 2005 tariff adjustment, and the amount of R\$ 30,842 was recorded in the quarter in the "Prepaid expenses" account, in addition to the remaining balance, setting off the amount R\$ 29,153 against the "Deductions from Operating Revenue" accounts, and R\$ 1,689 against the Financial Income account.

In view of the provisional nature of these amounts, and considering the discussions in respect of the nature of the credit, the subsidiary CPFL Piratininga conservatively opted to record a liability of the same amount (Note 25), setting R\$ 29,153 off against the "Deductions from Operating Revenue" accounts and R\$ 1,689 against Financial Expense.

b.4) Energy Surpluses or Shortfalls

The electricity distribution concessionaires are obliged to guarantee 100% of their energy and power market through contracts approved, registered and ratified by ANEEL. The distribution concessionaires are also guaranteed that costs or income derived from construction work or electricity shortfalls will be passed on to the tariffs, limited to 3% of the energy load requirement.

c) Deferred Tariff Costs and Gains Variations ("CVA")

Refer to the mechanism for compensation of the variations in unmanageable costs incurred by the electric power distribution concessionaires. These variations are calculated in accordance with the difference between the expenses effectively incurred and the expenses estimated at the time of composing the tariffs for the annual tariff adjustments.

The following expenses are currently considered unmanageable costs: (i) tariff for electricity purchased, (ii) tariff for the electric energy transmission from Itaipu Binacional, (iii) System Service Charges, (iv) usage tariff for the transmission installations forming the basic network, (v) payment quota to the Fuel Consumption Account – CCC, (vi) payment quota to the Energy Development Account – CDE and (vii) Incentive Program for Alternatives to Electric Energy - PROINFA. The amounts included in the CVA are restated based on the SELIC rate.

During the quarter, the subsidiaries changed the CVA classifications corresponding to the transfers shown in the following table to improve the controls and presentation method. This transfer had not effect on the statement of operations, shareholders' equity and working capital of the subsidiaries.

d) Low Income Consumers' Subsidy

Due to the new guidelines and criteria for classification of consumer units in the low-income residential sub-category, a lag was noted between the subsidies provided for and those built into the tariffs. As these differences affect the energy distribution concessionaires and their final consumers, ANEEL established a calculation methodology to facilitate settlement of accounts by means of pre-established liquidation criteria. In months in which the concessionaire records losses, the amount should be reimbursed through an economic subsidy from ELETROBRÁS, using resources from the Energy Developments Account – CDE. In months in which the concessionaire records gains, the amount should be reimbursed to the consumer by means of a reduction in the tariff adjustments. These differences were calculated on a monthly basis and are still pending to supervision by the regulatory agency.

The movements in the balances in the quarter as of September 30, 2006 are as follows:

Granting of Credit – CESP - The granting of credit was realized by the Company in April 2005 and refers to the Purchase and Sale of Electricity agreement between Companhia Energética de São Paulo - CESP (seller) and CPFL Comercialização Brasil S.A. (buyer), relating to the supply of electricity for a period of eight years. The total funds handed over by the Company to CESP will be settled with the funds derived from the acquisition of energy produced by CESP by CPFL Comercialização.

The granting of credit is subject to interest of 17.5% p.a., plus the annual variation in the IGP-M, and is amortized in monthly installments of amounts corresponding to the energy purchase transaction.

CPFL Energia shares - Until November 23, 2005, the subsidiary CPFL Paulista held its own issue shares. In the process of migration of the minority shareholders from the subsidiary CPFL Paulista to the Company, a reciprocal participation was established between the subsidiary (CPFL Paulista) and the parent company (CPFL Energia). Accordingly, in order to comply with the legislation, the subsidiary CPFL Paulista sold the shares on August 30, 2006, within the legally-established timeframe, for the amount of R\$ 21,479, generating a gain on the transaction of R\$ 6,364, recorded as Non-Operating Income.

The tax benefit for the merged goodwill is derived from the mergers of the former controlling companies DOC 4 Participações S.A. and Draft I Participações S.A., into CPFL Paulista and CPFL Piratininga, respectively, and has been realized proportionally to the amortization of the merged goodwill, in accordance with the net projected profit of the subsidiaries during the remaining term of the concession. During 2006, the annual amortization rates were 5.151565% and 5.449291%, respectively.

The projections of future results that guide and support the establishing of deferred tax credits of the Company and the subsidiaries were approved by the Boards of Directors and examined by the Audit Committees.

(a) CPFL Serra, CPFL Missões and Nova 4 expressed in quotas.

(b) Net Income refers to the 3rd Quarter of 2006.

a) As mentioned in Note 1, was approved during the 1st quarter of 2006, the reduction of the capital of the subsidiary CPFL Paulista by transfer to the Company the investments that such subsidiary had in CPFL Piratininga, COMGAS and Energias do Brasil. The effects of these investments on the accounts as from January 1 were recorded directly by the Company.

In due course, the Company will inform the market in general of the implementation of the next and final stage of the Corporate Restructuring process, consisting of segregation of the shareholding of the subsidiary CPFL Paulista in the indirect subsidiary RGE. This reorganization will be made to comply with the requirements of Law 10.848/04 and ANEEL Authorizing Resolution nº 305/05.

b) As also mentioned in Note 1, in June 23, 2006, CPFL Energia acquired from Public Service Enterprise Group ("PSEG") 100% of Ipê Energia Ltda. ("Ipê"), PSEG Trader S.A and PSEG Brasil Ltda. The names of these companies were changed to CPFL Serra Ltda., CPFL Comercialização Cone Sul S.A. and CPFL Missões Ltda., respectively. This acquisition left CPFL Energia with 99.76% of RGE through its subsidiaries CPFL Paulista (67.07%) and CPFL Serra (32.69%), and with 99.95% of Sul Geradora, through its subsidiaries CPFL Brasil (67.20%) and CPFL Serra (32.75%). This operation was approved by ANEEL in May 2006, and the value of the acquisition was R\$ 414,957, which includes R\$ 1,355 in administrative acquisition costs. The net goodwill generated by the acquisition of these companies was R\$ 98,617. CPFL Serra (formerly Ipê) also recorded goodwill of R\$ 8,315 in respect of the acquisition of RGE shares. This goodwill was consolidated by the Company as from the date of acquisition of Ipê.

c) On August 8, 2006, the subsidiary CPFL Geração signed a Share Purchase and Sale Agreement with Companhia Estadual de Electricity - CEEE, for the acquisition of 55% of CEEE's participation in Foz do Chapecó, for the amount of R\$ 8,972. As a result of this acquisition, the subsidiary CPFL Geração now holds an 85% participation in Foz do Chapecó, equivalent to an indirect participation of 51% in Consórcio Energético Foz do Chapecó. On that date an advance of R\$ 1,795 was made to CEEE, recorded in noncurrent assets. This transaction is conditional on ANEEL approval, and only after this approval will the remaining portion be settled and the increased participation recorded.

d) On September 1, 2006, the subsidiary CPFL Brasil acquired a 32.75% participation in SGP from the subsidiary CPFL Serra. As a result of this acquisition CPFL Brasil now holds 99.95% of the capital of SGP. The value of the acquisition was R\$ 37.

e) On September 1, 2006, the subsidiaries CPFL Serra and CPFL Missões reduce their capital by R\$ 244,744 and R\$ 18,788, respectively, with partial absorption of accumulated losses.

f) On June 20, 2006, through an explanatory note to the market, the Company advised that an increase had been noted in the water flow through one of the bypass tunnels of the Campos Novos hydroelectric plant, located on the Canoas River (SC), causing a lowering of the level of the reservoir; this was a localized occurrence and restricted to the structure of the bypass tunnel. On August 9, 2006, the Company informed the market that repairs to the bypass tunnel had already started. Further to these explanations, the Company advised that the work of rehabilitation of the bypass tunnels is proceeding to schedule and that filling the reservoir is scheduled to recommence in November 2006. Commercial generation will be dependent on reaching the minimum reservoir operating level, which is conditional on rainfall after closing the gates of the bypass tunnels (information not reviewed by the Independent Accountants).

(21) ASSOCIATES, SUBSIDIARIES AND PARENT COMPANY

Of the total amount of the tax credits recorded by the subsidiary CPFL Piratininga in the second quarter of 2006, as mentioned in Note 8, CPFL Piratininga passed on the amount of R\$ 16,218 to VBC in the quarter, in respect of reimbursement of the PIS and COFINS contributions relating to financial income on intercompany loan contracts between VBC Participações S.A. and DRAFT I Participações S.A.

(22) EMPLOYEE PENSION PLANS

The subsidiaries CPFL Paulista, CPFL Piratininga and CPFL Geração, through Fundação CESP, and the jointly-controlled subsidiary RGE, through Fundação ELETROCEEE, sponsor supplementary retirement and pension plans for their employees. The main characteristics of these plans are as follows:

I – CPFL Paulista

A Proportional Supplementary Defined Benefit (“BSPS”) and a Mixed Benefit Plan are currently in effect for the employees of the subsidiary CPFL Paulista.

At the time of modification of the Pension Plan in September 1997, the subsidiary recognized an obligation to pay in respect of the plan deficit determined at the time by the external actuaries of the Fundação CESP. This deficit will be liquidated in 294 installments, amortized monthly, plus interest of 6% p.a. and restatement based on the IGP-DI (FGV). The balance of the obligation as of September 30, 2006 is R\$ 712,499 (R\$ 704,725 as of June 30, 2006), and the amount of the liability is duly adjusted to comply with the criteria of CVM Decision 371/00.

II – CPFL Piratininga

As a result of the split-off of Bandeirante Energia S.A. (the Subsidiary’s predecessor), the subsidiary CPFL Piratininga assumed the responsibility for the actuarial liabilities for its retired employees up to the date of the split-off, as well as the responsibilities relating to the active employees transferred to CPFL Piratininga.

A Proportional Supplementary Defined Benefit ("BSPS") and a Mixed Benefit Plan are currently in effect for the employees of CPFL Piratininga.

In September 1997, through a contractual instrument of adjustment of reserves to be amortized, Eletropaulo (the predecessor of Bandeirante) recognized an obligation to pay referring to the plan deficit determined at the time by the external actuaries of the Fundação CESP, to be liquidated in 260 installments, amortized on a monthly basis, plus interest of 6% p.a. and restatement based on the IGP-DI (FGV). The balance of the obligation of the subsidiary CPFL Piratininga, as of September 30, 2006, is R\$ 186,202 (R\$ 184,080 as of June 30, 2006), and the amount of the liability is duly adjusted to comply with the criteria of CVM Decision 371/00.

III – RGE

In accordance with the privatization notice, the subsidiary RGE is responsible for payment of supplementary retirement benefits for past service granted by the INSS to the participants of the Fundação CEEE Welfare Fund – ELETROCEEE, who have not yet fulfilled all the requirements to obtain the benefit. The supplementary plan is of the "defined-benefit" type.

IV – CPFL Geração

A Proportional Supplementary Defined Benefit ("BSPS") and a Mixed Benefit Plan are currently in effect for the employees of CPFL Geração.

With the modification of the Pension Plan, maintained at the time by CPFL Paulista, the subsidiary recognized an obligation to pay referring to the plan deficit determined at the time by the external actuaries of the Fundação CESP. The deficit is being liquidated in 297 monthly installments, plus interest of 6% p.a. and restatement based on the IGP-DI (FGV). The balance of the obligation is R\$ 13,948 (R\$ 13,793 as of June 30, 2006), and the amount of the liability is duly adjusted to comply with the criteria of CVM Decision 371/00.

The movements occurred in net actuarial liabilities are as follows:

The reserves for contingencies were based on appraisal of the risks of losing litigation to which the Company and its subsidiaries are parties, where a loss is probable in the opinion of the legal advisers and the management of the Company and its subsidiaries.

Increase PIS and COFINS: As mentioned in Note 8, in this quarter the subsidiaries CPFL Piratininga and CPFL Paulista obtained a favorable and unappealable decision on the appeal challenging the legality of the increase in the calculation base for PIS and COFINS contributions introduced by art. 3º, of Law nº 9.718/98. As a result of this favorable decision, the subsidiaries CPFL Piratininga and CPFL Paulista reversed the provisions recorded in this respect, amounting to R\$ 18,194 (provision as of July 31, 2006) and R\$ 86,613 (provision as of August 31, 2006), respectively, set off against Financial Income (Note 30).

Possible Losses: The Company and its subsidiaries are parties to other suits in which, management, supported by its legal advisers, believes that the chances of a successful outcome are possible, due to a solid defensive base in these cases. These questions do not yet indicate a trend in the decisions of the courts or any other decision in similar proceedings considered probable or remote, and therefore no provision has been established for these. As of September 30, 2006, the claims relating to possible losses were as follows: (i) R\$ 159,003 for labor suits; (ii) R\$ 320,081 for civil suits, mainly for civil suits for bodily injury and tariff increases; and (iii) R\$ 328,933 in respect of tax suits, relating basically to Income Tax, ICMS, FINSOCIAL and PIS and COFINS.

Additionally, the indirect subsidiary SEMESA is jointly cited with Furnas as defendants in the suit asking these companies to take steps to remedy and mitigate the environmental impacts caused by the construction and operation of the Serra da Mesa Hydroelectric Plant. The amount attributable to the indirect subsidiary SEMESA is estimated at R\$ 74 million. The risk of the suit is classified by the company's legal advisers as possible, and it is not necessary to record it in the accounts. In the event of an adverse judgment in the case, SEMESA's liability is essentially in respect of the acquisition of land and creation of the permanent preservation area around the reservoir. If and when these costs are incurred, they will be included in fixed assets.

Based on the opinion of their legal advisers, the Managements of the Company and of its subsidiaries consider that there are no significant contingent risks that are not covered by adequate provisions in the Interim Financial Statements, or that might result in the significant impact on future earnings.

(31) NONOPERATING INCOME (EXPENSE)

As mentioned in Notes 7 and 14, the non-operating income refers basically to the disposals of shares in CPFL Energia held by the subsidiary CPFL Paulista, and COMGÁS shares held by the Company, respectively.

(32) FINANCIAL INSTRUMENTS AND OPERATING RISKS

32.1 RISK CONSIDERATIONS

The business of the Company and its subsidiaries comprises principally generation, sale and distribution of electric energy. As public service concessionaires, the operations and tariffs of its principal subsidiaries are regulated by ANEEL.

The principal market risk factors that affect business are related basically to fluctuations in exchange rates and interest, credit, energy shortages, and prepayments of debts. The Company and its subsidiaries manage these risks in such a way as to minimize them through the compensation mechanism ("CVA"), contracting hedge/swap operations, adopting collection policies, obtaining guarantees and cutting off supplies to defaulting customers and monitoring contractual obligations.

32.2 VALUATION OF FINANCIAL INSTRUMENTS

The Company and its subsidiaries maintain operating and financial policies and strategies aimed at ensuring the liquidity, security and profitability of their assets. As a result, control and follow-up procedures are in place on the transactions and balances of financial instruments, for the purpose of monitoring the risks and current rates in relation to those used in the market.

As of September 30, 2006, the principal financial asset and liability instruments of the Company and its subsidiaries are as follows:

- Cash and banks – with market values approximately equivalent to the amounts stated in the balance sheets (note 4);
- Investments – investments are valued by the equity method (note 14);
- Regulatory Assets and Liabilities – the amounts are recorded in accordance with the criteria defined by ANEEL rules and instructions (note 3);
- Loans and Financing - are valued in accordance with the criteria stipulated in the contracts and the characteristics defined in note 17;
- Debentures – may be traded on the market and are valued in accordance with the criteria stipulated at the time of issue and the characteristics defined in note 18.

The book values of the loans and financing, debentures and derivatives, for the Company and its subsidiaries compared with the market borrowing rates as of September 30, 2006 and June 30, 2006, are as follows:

	Parent Company			
	September 30,2006		June 30,2006

Total	5,148,746	5,100,423	5,077,901	4,969,283

The estimated of the market value of these financial instruments for the Company and its subsidiaries were based on models that discount future cash flows to present value, comparison with similar transactions contracted on dates close to the end of the quarter and comparisons with average market parameters. In cases where there are no similar transactions in the market, principally related to the loan linked to the regulatory assets and credits receivable from CESP, the subsidiaries assumed that the market value corresponds to the respective book value.

(33) RELEVANT FACT

The shareholders of the joint subsidiary BAESA intend to carry out a corporate restructuring through the partial spin-off of its assets and liabilities, so that the sole shareholders of BAESA would be the subsidiary CPFL Geração and DME Energética Ltda. Management of the Barra Grande Hydroelectric Plant, in which BAESA invests, would be conducted by setting up a consortium, comprising the company resulting from the spin-off of BAESA, and the shareholders that would no longer have a participation in its capital, Alcoa Alumínio S.A., Companhia Brasileira de Alumínio and Camargo Corrêa Cimentos S.A.

The Consortium to be set up will share the concession of the assets and production of the Barra Grande Hydroelectric Plant, in the same proportions as currently in effect, as shown below:

	Percentage
Alcoa Alumínio S.A.	42.1752%
Companhia Brasileira de Alumínio	15.0000%
Camargo Corrêa Cimentos S.A.	9.0000%
BAESA (after spin-off)	33.8248%
Total	100.0000%

In 2004, BAESA issued 18,000 regular debentures ("Debentures"), not convertible into shares, totaling R\$ 180,000. If the spin-off takes place, BAESA will propose to the debenture holders changes in the characteristics of the Debentures, including, among other aspects, substitution of the bond put up by Alcoa, CPFL Energia S.A, Hejoassu Administração S.A. and Camargo Corrêa S.A., so that CPFL Energia would be the guarantor of 100% (one hundred percent) of the debt corresponding to the Debentures, which will all remain in BAESA after the spin-off.

The corporate restructuring will be analyzed by the BNDES and will be subject to the legal and regulatory procedures and be submitted in advance to the government authorities, especially ANEEL.

(34) SUBSEQUENT EVENTS

34.1 On October 2, 2006, Nova 4, a Company subsidiary, signed a contract with the Companhia Brasileira de Alumínio ("CBA") for the acquisition of 99.99% of the capital of Companhia Luz e Força Santa Cruz ("Santa Cruz") for the amount of R\$ 203,000, which may be adjusted on closing the transaction. Implementation of this acquisition is subject to certain conditions established in the contract, including the prior approval of ANEEL, and to be subject to analysis by the Brazilian Anti-Trust System.

34.2 On October 2, 2006, the subsidiary Nova 4 contracted a foreign currency loan (US dollar) from the Banco do Brasil in the amount of R\$ 200,000 for acquisition of a share participation in Santa Cruz, maturing in September 2009. Nova 4 made a hedge transaction converting this debt for the equivalent of 103.5% of the variation in the CDI.

34.3 On October 25, 2006, the subsidiary CPFL Paulista filed with the CVM an application for registration for public distribution of its 3rd Debenture Issue, in the amount of R\$ 640 million. The 3rd Debentures Issue is subject to internal corporate approval of the subsidiary CPFL Paulista and granting of registration of the issue by the CVM.

In June 2006, CPFL Energia acquired 100% of the shares and quotas of the companies CPFL Serra Ltda, CPFL Comercialização Cone Sul S.A. and CPFL Missões Ltda (previously named Ipê Energia Ltda, PSEG Trader S.A. and PSEG Brasil Ltda, respectively). As a result of these purchases, the Company now has additional indirect participations of 32.69% and 32.7538%, respectively, in RGE and Sul Geradora, which have been fully consolidated as from June in the Company's Interim Financial Statements. Accordingly, CPFL Energia's Consolidated Comments on Company Performance includes 100% of the results of RGE and Sul Geradora, which should be taken into account when comparing the results of the periods. In the same way, it must be remembered that BAESA started operations in November, 2005, so comparison with the same period of the previous year is not possible.

Gross Operating Revenue

The Gross Operating Revenue in the 3rd quarter of 2006 was R\$ 3,219,836, representing growth of 16.5% (R\$ 456,806) compared with the same period of the previous year.

The main factors that contributed to this growth were:

- i. An increase of 11.5% in the amount of electricity sold to the end consumers and other concessionaires and licensees (bilateral agreements). Of this total increase, 4.8% refers to the acquisition of 32.69% of RGE;
- ii. Impacts of the CPFL Paulista and RGE tariff increase in 2006, from 10.83% and 10.19%, respectively, and of the CPFL Piratininga 2005 tariff increase of 1.54% ;
- iii. The effects of the tariff adjustments in relation to the CPFL Piratininga tariff review in 2003, which resulted in a reversal of revenue of R\$ 28,649 in the 3rd quarter of 2005 against a revenue increase of R\$ 57,069 in this quarter;
- iv. Reduction of R\$ 49,317 in the Emergency Charges (ECE/EAAE) due to an instruction from ANEEL to cancel the billing of this charge;
- v. An increase of 41.3% (R\$ 52,635) in revenue from TUSD, due principally to the migration of industrial customers to the Free Contracting mode.

➤ Quantity of Energy Sold

Excluding the effects of acquisition of 32.69% of RGE, the quantity of energy sold increased by 6.7% in relation to the same quarter of the previous year. In spite of a reduction of 3.2% in the industrial class, due basically to the migration of customers to the Free Market, there was an increase in the consumption of all the other classes of consumers, especially the residential class, which expanded by 6.2%, and the commercial class, with an increase of 6.6%. The amount sold to concessionaires and licensees (bilateral agreements) also increased by 119.6%, due mainly to the positive performance of commercialization of electricity.

The growth of consumption in the CPFL Energia concession areas in the 3rd quarter of 2006, compared with the same period of the previous year, which impacts both the invoiced supply and the TUSD the billing, was 4.8%. Taking into account the effects of acquisition of 32.69% of RGE, the increase was 10.6%.

Deductions from Operating Revenue

The deductions from Operating Revenue in the 3rd quarter of 2006 amounted to R\$ 876,027, a growth of 8.6% (R\$ 69,420) in relation to the same quarter of 2005.

Disregarding the effect of suspension of the Emergency Charges (ECE/EAE), there was an increase of 15.7% (R\$ 118,737), which basically reflects the increase in Gross Revenue.

Cost of the Electricity Service

In the 3rd quarter of 2006, the Cost of the Electricity Service was R\$ 1,105,653, an increase of 11.0% (R\$ 109,882) compared with the same quarter of the previous year, due mainly to:

- i. an increase of 4.8% in the amount of energy acquired;
- ii. an increase in the average price of energy purchased.

Operating Costs and Expenses

The Operating Costs and Expenses in the quarter were R\$ 591,900, an increase of 23.3% compared with the same period of the previous year. This increase is due largely to the following factors:

➤ **Manageable Operating Expenses**

These comprise costs for Personnel, Material, Outsourced Services and Others, totaling R\$ 257,261 in the 3rd quarter of 2006, an increase of 24.7% (R\$ 51,036) in relation to the same quarter of 2005. This increase is due largely to the following factors:

- i. Personnel: the increase of 16.7% (R\$ 13,549) is mainly due to the effects of the 4% salary increase awarded to the employees and to the special payment of Profit Participation (PLR) amounting to R\$ 1,491, resulting from advance payment of the company's last proposal for the 2006 Collective Agreement, pending the decision on the Collective Labor Agreement in the TRT, and R\$ 4,779 referring to BAESA and the acquisition of 32.69% of RGE;
- ii. Outsourced Services: The increase of 20.1% (R\$ 12,904) is due mainly to the effects of BAESA and of the acquisition of 32.69% of RGE, in addition to the increase in hiring of third parties to sell value added products and services;
- iii. Material: The increase of 29.8% (R\$ 4,195) refers mainly to expenditure in connection with the Research and Development and Energy Efficiency Programs, and the impacts relating to BAESA and the acquisition of 32.69% of RGE;
- iv. Others: The increase of 43.7% (R\$ 20,388) is due principally to the increase of R\$ 10,677 in the provision for doubtful accounts, relating basically to amounts receivable from certain city halls, and the increased expense of R\$ 4,561 in relation to BAESA and the acquisition of 32.69% of RGE.

➤ **Private Pension Plan**

The Private Pension Plan recorded income of R\$ 1,991 in the quarter against an expense of R\$ 22,409 in the same period of the previous year. This variation was mainly due to the expected increase in the nominal rate of return on plan assets, as defined in the Actuarial Report as of December 2005.

➤ **Fuel Consumption Account– CCC and Energy Development Account – CDE**

The CCC and CDE expenses increased by 43.7% (R\$ 75,961) in relation to the same period of the previous year. This increase is basically due to the adjustment of the contributions. The variations in these costs are fully covered by the electricity tariffs.

Financial Income (Expense)

The Financial Income of R\$ 1,075 in the quarter was an improvement of 101.5% (R\$ 72,445) in relation to the same period of the previous year, mainly due to winning the case referring to PIS/COFINS paid on the increase in the calculation base, ruled in favor of CPFL Paulista and CPFL Piratininga, generating a reversal of expense of R\$ 114,015.

Additionally, there was an increase in the expense due to the variations in the General Market Price Index - IGP-M in the quarters, as well as a negative result of R\$ 12,978 in relation to BAESA and the acquisition of 32.69% of RGE.

Non-operating income (expense)

The non-operating result of income of R\$ 60,710 in the quarter refers basically to:

- i. A gain of R\$ 62,747 on the Company's disposal of all the shares held in COMGÁS;
- ii. A gain of R\$ 6,364 recorded by the subsidiary CPFL Paulista, arising from the sale of CPFL Energia shares (Note 7).

Net Income and EBITDA

Based on the above factors, the income for this quarter, after Income Tax and Social Contribution, was R\$ 446,761, or 86.2% (R\$ 206,797) higher than in the same period of 2005.

The adjusted EBITDA (Net Income for the quarter, eliminating the effects of the private pension plan, depreciation, amortization, financial income (expense), equity pickup, income tax, social contribution and extraordinary item) for the 3rd quarter of 2006 was R\$ 791,627, or 38.8% (R\$ 221,486) greater than the EBITDA for the same period of 2005 (information not reviewed by the Independent Accountants).

Eliminating the effects of a non-operating income, EBITDA in the 3rd quarter of 2006 would be R\$ 730,917, or 28.3% (R\$ 161,240) greater than the EBITDA for the same quarter of the previous year (information not reviewed by the Independent Accountants).

The effects of the start of BAESA's operations and the acquisition of 32.69% of RGE, produced increases of R\$ 13,558 (6.1%) and R\$ 27,738 (13.9%) in EBITDA, and of R\$ 2,730 and R\$ 8,798 in Net Income, respectively (information not reviewed by the Independent Accountants).

17.01 REPORT ON SPECIAL REVIEW-UNQUALIFIED

(Convenience Translation into English from the Original Previously Issued in Portuguese)

INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To the Shareholders and Management of
CPFL Energia S.A.
São Paulo - SP

1. We have performed a special review of the accompanying interim financial statements of CPFL Energia S.A. and subsidiaries, consisting of the individual (Company) and consolidated balance sheets as of September 30, 2006, the related statements of income for the quarter and nine-month period then ended and the performance report, all expressed in Brazilian reais and prepared in accordance with Brazilian accounting practices under the responsibility of the Company's management.
2. The interim financial statements for the quarter and nine-month period ended September 30, 2006 and the balance sheet as of June 30, 2006 of the indirect subsidiary Rio Grande Energia S.A. – RGE were reviewed by other independent auditors, who issued unqualified review reports thereon, dated October 24, 2006 and July 25, 2006, respectively. Those auditors have also reviewed the interim financial statements for the quarter and nine-month period ended September 30, 2005 and issued an unqualified review report thereon, dated October 25, 2006. Our reviews, insofar as they relate to: (a) total assets of this subsidiary as of September 30, 2006 and June 30, 2006, which represent 14.2% and 14.0%, respectively, of the consolidated total assets; (b) the subsidiary's net result for the nine-month periods ended September 30, 2006 and 2005, which represent 6.3% and 4.3%, respectively, of the consolidated total balances; and (c) the respective investment recorded under the equity method in the Company's financial statements, are based solely on the review reports of those auditors.
3. We conducted our review in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, which consisted principally of: (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas as to the criteria adopted in preparing the interim financial statements, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company and its subsidiaries.
4. Based on our special review and the reports of other auditors, we are not aware of any material modifications that should be made to the interim financial statements referred to in paragraph 1 for them to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory interim financial statements.
5. As discussed in note 3, item (b.1), on October 19, 2006, the National Electric Power Agency (ANEEL) changed, on a provisional basis, the periodic tariff revision rate of 2003 for the subsidiary Companhia Piratininga de Força e Luz from 9.67% to 10.14%. Since this is a provisional tariff revision, it is subject to changes upon definitive approval.

Gross Revenue

The Gross revenue for the 3rd quarter of 2006, which includes the operations of the subsidiary CLION, was R\$ 463,513, an increase of 24.4% in relation to the same quarter of 2005, largely due to the increase in energy sales to free customers and other concessionaires and licensees. A volume of 5,048 GWh was traded in the quarter, against 4,117 GWh in the same quarter of the previous year.

Net Income

Net income of R\$ 37,085 was recorded in the 3rd quarter of 2006, an increase of 8.4% compared to the same quarter of 2005, directly linked to the growth in the commercial operations.

EBITDA (net income before financial income, income tax and social contribution, depreciation and amortization) for the 3rd quarter of 2006 was R\$ 53,086, 7.9% higher than in the same quarter of 2005, which amounted to R\$ 49,203 (information not reviewed by the Independent Accountants).
