**( 2 ) PRESENTATION OF THE INTERIM FINANCIAL STATEMENTS**

The parent company's and consolidated interim financial statements have been prepared in accordance with principles, practices and criteria consistent with those adopted for preparing the prior year's financial statements and should be analyzed together with those statements. These interim financial statements were prepared in accordance with generally accepted accounting principles in Brazil, rules with the Accounting Manual of the Public Electric Energy Service, as defined by ANEEL and the standards published by the Brazilian Securities Commission ("CVM").

During the quarter, approval was granted for implementation of the last stage of the Corporate Reorganization, which segregates the corporate participations held by the subsidiary CPFL Paulista, pursuant to Law nº 10.848/2004, ANEEL Authorization Resolution nº 305/2005 and ANEEL order nº 669 of March 14, 2007. This process involved a reduction of the capital of the subsidiary CPFL Paulista, approved in the Extraordinary General Meeting held on March 14, 2007, with no cancellation of shares, through the return to the Company of the assets relating to the investment in RGE, amounting to a total of R\$ 1,050,411. On the same date, the Company paid up the amount of this investment in the subsidiary CPFL Serra.

In order to improve the information presented to the market, as supplementary information, the Cash Flow Statements and Added Value Statements of the parent company and consolidated are being presented for the three months ended March 31, 2007 and 2006 (notes 30 and 31, respectively).

**Consolidation Principles**

The consolidated interim financial statements includes the balances and transactions of the Company and its subsidiaries CPFL Paulista, CPFL Piratininga, CPFL Geração, CPFL Brasil, Cone Sul, CPFL Serra, and Nova 4. The asset, liability and income balances were fully consolidated. Prior to consolidation into the Company's financial statements, the financial statements of CPFL Paulista (up December 31, 2006), CPFL Geração, CPFL Brasil, CPFL Serra and Nova 4 were consolidated with those of their subsidiaries, fully or proportionally, according to the rules defined in CVM Instruction No. 247/96.

In compliance with the conditions described above, the portion relating to the non-controlling shareholders is stated separately in liabilities and income statements for the fiscal year.

All significant intercompany balances and transactions have been eliminated.

The accounting policies of CPFL Energia's subsidiaries are consistent with those of CPFL Energia. The main difference in accounting policies relates to the revaluation of property, plant and equipment

**a) Rationing**

At the end of 2001, as a result of the Emergency Program for the Reduction of Electric Energy Consumption which remained in effect between June 2001 and February of 2002, an agreement was signed between the generators, power distributors and the Federal Government, called the "Overall Agreement for the Electric Energy Sector", which introduced, as a mechanism to reimburse the losses incurred by the electrical sector with this program, an Extraordinary Tariff Increase of 2.9% on electric power supply tariffs to residential consumers (except those considered to be a "low income consumer"), rural and public lighting and 7.9% for all other consumers.

The adjustment is being used by the subsidiary CPFL Paulista and has already been used by the subsidiary CPFL Piratininga to offset the regulatory assets recorded in respect of Extraordinary Tariff Adjustment ("RTE") and Free Energy. Deadlines of 72 and 61 months were established for realization of the regulatory assets relating to RTE and Free Energy for the subsidiaries CPFL Paulista and CPFL Piratininga. This asset is being realized through the income derived from the extraordinary tariff adjustment, up to December 2007, in the case of CPFL Paulista and terminated in January 2007, in the case of CPFL Piratininga. CPFL Piratininga started to offset Parcel "A" in February 2007, using a mechanism similar to the RTE system, over the time necessary to reach the amount recorded. In the case of CPFL Paulista, Parcel "A" will be offset as from January 2008.

As of March 31, 2007 the subsidiary CPFL Paulista established a provision for losses on the realization of the Extraordinary Tariff Adjustment in the amount of R\$ 96,479, set against accounts receivable, based on the projections of expected income by the subsidiaries and taking into account market growth, estimated inflation, interest and regulatory aspects.

In the case of the indirect subsidiary RGE, the Free Energy regulatory asset is derived from the allocation of its partial quota from Itaipu for the rationing program. As in the case of the RTE, the indirect subsidiary RGE and the subsidiary CPFL Geração as of March 31, 2007, have established an accumulated provision of R\$ 11,626 for losses on realization of Free Energy.

Due to the legal provision for termination of collection of RTE, the subsidiary CPFL Paulista recorded a provision for Free Energy losses of R\$ 101,508, credited to the "Consumers" account and set against the "Suppliers" account.

With the end of collection of the extraordinary tariff adjustment in the subsidiary CPFL Piratininga, losses of R\$ 47,988 and R\$ 45,807 were confirmed for RTE and Free Energy, respectively.

**b) Review and Adjustment Tariff**

**b.1) Tariff Review of 2003 and 2004**

• **CPFL Paulista**

In April 2007, through Ratification Resolution nº 443, ANEEL amended the final result of the first periodic tariff review of the subsidiary CPFL Paulista approved in April 2005, adjusting the energy supply tariffs by 20.66%, due to a review of the calculation of the average depreciation percentage used in the 2003 tariff review of the subsidiary CPFL Paulista. The difference in income resulting from the change in the tariff adjustment from 20.29% to 20.66%, and of the "Xe" component of the "X" factor from 1.1352% to 1.2530% corresponds to a financial adjustment of R\$ 44,868, which will be offset in the 2007 tariff adjustment for CPFL Paulista. This regulatory asset is recorded in the "Consumers, Concessionaires and Licensees" account – Tariff Review Depreciation, including the effects of PIS and COFINS.

• **CPFL Piratininga**

In October 2006, in answer to the application filed by Bandeirante Energia S.A. ("Bandeirante") for reconsideration of the tariff review, ANEEL altered the CPFL Piratininga remuneration base amounts approved in October 2005, and consequently, the result of the first tariff review of October 2003,

previously considered final, once more became provisional. Through this alteration, ANEEL decided that the electricity supply tariffs of the subsidiary CPFL Piratininga should be reset at 10.14% (the percentage of 9.67% had been considered final). It also set the provisional value of the "Xe" factor, which reflects productivity gains, at 0.8571%, to be applied as a reduction factor for the "Parcel B" manageable costs for subsequent annual tariff adjustments. The final percentage should be established on definition of the final percentage of the tariff adjustment.

To reflect the new percentage approved by ANEEL, in September 2006, CPFL Piratininga recognized a regulatory asset of R\$ 26,970, including the effects of PIS and COFINS, in the "Consumers, Concessionaires and Licensees" – Tariff Review Remuneration Base account, set against Revenue from Electricity Sales, and is recording the amortization of this asset.

• **Santa Cruz**

In December 2005, ANEEL finally approved the result of the first February 2004 periodic tariff review of the indirect subsidiary Santa Cruz.

In accordance with the Resolution, the final rate of 15.95%, as against the periodic tariff adjustment of 10.23% granted in February 2004, resulted in deferral of R\$ 5,468 of Parcel "B", to be added cumulatively to Parcel "B", in the 2005, 2006 and 2007 Tariff Adjustments, at February 3, 2004 prices, restated by the variation in the Consumer Price Index - IGP-M between the date of the Tariff Review (February 3, 2004) and the date of the tariff adjustments.

A final "X" Factor of 1.73% was also established, with an "Xe" component of 0.9907% to be applied as a reduction factor to "Parcel B" in adjustments subsequent to approval of the final result of the first periodic tariff review, through Ratification Resolution nº 260, of December 19, 2005.

As of March 31, 2007, the balance of R\$ 4,434 recorded as "Tariff Review – Remuneration Base" refers to adjustment of the accrual period to that date, although it will be received until January 2008.

**b.2) Tariff Adjustments of 2006 and 2007**

In Ratification Resolution nº 445, of April 3, 2007, ANEEL set the Annual Tariff Adjustment ("IRT") rate of the subsidiary CPFL Paulista at an average 7.06%, of which 2.60% refers to the annual economic tariff adjustment and 4.46% to the additional financial components. The main additional financial components are the Parcel "A" Amounts to be offset ("CVA"), the financial adjustments relating to the 2004 to 2006 tariff adjustment rates, energy surpluses and shortfalls, the PIS and COFINS increases, discounts on irrigation, collection of the Tariff for Use of the Distribution System ("TUSD") and the tariff review effects mentioned in the previous item.

In order to review the PIS and COFINS amounts of the Generators, ANEEL recalculated the electricity cost of the first 2005 tariff adjustment. As the cost of electricity affects adjustment of the consumer tariff and calculation of CVA, the recalculation, which resulted in a reduction in the average energy price, generated a liability to be reimbursed to the consumers and an additional CVA asset. The CVA amounts approved by ANEEL in the 2007 Tariff Review Rate excluded the surpluses of the electricity contracts, in accordance with item 61 of ANEEL Technical Note nº 069 of March 22, 2007. Accordingly, these effects basically explain the adjustments of R\$ 98,635 recorded in "Other Accounts Payable" and R\$ 177,710 in "Deferral of Tariff Costs", both set against "Cost of Electricity" (Note 24).

Also in connection with the events mentioned above, the Company recorded a reversal of R\$ 10,910 in the PIS and COFINS - Generators pass-through regulatory asset and of R\$ 15,834 in the Energy surpluses and shortfalls, estimated based on the methodology proposed in ANEEL Technical Note nº 151/2006.

Assets of R\$ 14,854 were also recorded in the quarter for other financial components of the 2007 IRT, relating mainly to the Research and Development and Energy Efficiency Program ("P & D") on the financial components of the 2004 to 2006 Tariff Review Rates, the Electricity for All (*Luz para Todos*) Program and others.

• **CPFL Piratininga**

Through Ratification Resolution nº 386, of October 19, 2006, ANEEL set the IRT at an average percentage of 10.79%, consisting of 4.40% in relation to the annual tariff adjustment and 6.39% in relation to the additional financial components. The main additional financial components are the CVA, energy surpluses and shortfalls, the increase in PIS and COFINS, discounts on collection of the TUSD and the effects of the Tariff Review mentioned in the previous item.

ANEEL also took into consideration application of art. 109 of Law nº 11.196/2005, which ordered the refund by the generators, in 12 monthly installments as from November 2006, of the amount of R\$ 7,764 received as a result of the effects of the PIS and COFINS increase passed on to consumers during the previous tariff period. Accordingly, the subsidiary CPFL Piratininga recorded the amount to be returned to consumers as an asset, set against Cost of Energy, as recorded in liabilities and set against supply income, and has, since that time, recorded amortization of the assets and liabilities in the accounts.

**RGE**

Through Ratification Resolution nº 452, of April 18, 2007, ANEEL set the IRT of the indirect subsidiary RGE, increasing the electricity tariffs by an average of 6.05%, comprising 3.77% in relation to the annual economic tariff adjustment and 2.28% in relation to the additional financial components. The main additional financial components are the CVA, energy surpluses and shortfalls, the increase in PIS and COFINS, discounts on irrigation, collection of the TUSD, R&D on financial components, the Light for All (*Luz para Todos*) Program and others.

**Santa Cruz**

Through Ratification Resolution nº 424, of January 30, 2007, ANEEL set the IRT of the indirect subsidiary Santa Cruz at an average of 5.71%, of which 4.56% refers to the annual tariff adjustment and 1.15% to the additional financial components.

The main financial components include the CVA, energy surpluses and shortfalls, the increase in PIS and COFINS, discounts on collection of the TUSD and others.

**b.3) Increase in PIS and COFINS**

Refers to the difference between the costs relating to PIS and COFINS calculated by applying the current legislation, and those incorporated in the tariff.

**CPFL Paulista**

In accordance with Ratification Resolution nº 445, of April 3, 2007, ANEEL finally approved the passing on to the tariff of a nominal amount of R\$ 97,377 as realignment of tariffs with the PIS and COFINS costs, eliminating the amounts already taken into account in the 2005 tariff adjustment. A complementary posting of the remaining restated balance of R\$ 72,983 was recorded in the period in the "Prepaid Expenses" account.

In view of the discussions in respect of the nature of this credit, the subsidiary CPFL Paulista conservatively opted to record a liability of the same amount, recorded in the account "Other Accounts Payable", which will be monetarily restated based on the variation of the IGP-M.

#### CPFL Piratininga

In accordance with Ratification Resolution nº 386, of October 19, 2006, ANEEL approved passing on to the tariff the amount of R\$ 34,263 as realignment of tariffs with the PIS and COFINS costs, eliminating the amounts already taken into consideration in the 2005 tariff adjustment. The amount of R\$ 30,842 was recorded in September, 2006 in the "Prepaid expenses" account.

Amortization of the asset is recorded in the accounts and set against the deduction of income from PIS and COFINS.

In view of the provisional nature of these amounts, and the discussions involving the nature of the credit, the Company conservatively opted to record a liability of the same amount in the "Other Accounts Payable" account, and records monetary restatement of the amount based on the variation of the IGP-M.

#### Santa Cruz

In accordance with Ratification Resolution nº 424, of January 30, 2007, ANEEL approved the passing on to the tariff of R\$ 3,309 as realignment of tariffs with the PIS and COFINS costs, and recorded in December, 2006, this amount in the "Prepaid Expenses" account. Amortization of this asset is recorded in the accounts and set against deduction of the PIS and COFINS income.

#### b.4) Energy Surpluses or Shortfalls

The electricity distribution concessionaires are obliged to guarantee 100% of their energy and power market through contracts approved, registered and ratified by ANEEL. The distribution concessionaires are also guaranteed that costs or income derived from construction work or electricity shortfalls will be passed on to the tariffs, limited to 3% of the energy load requirement.

The constitution and amortization of the net energy surpluses or shortfalls of the distributors are recorded as "Prepaid Expenses" and credited to "Cost of Electricity" (note 24).

#### b.5) Discounts on the TUSD and Irrigation

The subsidiaries record regulatory assets, arising from the special discounts applied on the TUSD from the supply of electricity from alternative sources, and on irrigation and aquaculture. The provisions and realization of the discounts on the TUSD and irrigation are recorded in "Consumers, Concessionaires and Licensees" (Note 5) and set against the "Operating Income" (Note 23) account.

The following expenses are currently considered unmanageable costs: **(i)** tariff for electricity purchased, **(ii)** tariff for the electric energy transmission from Itaipu Binacional, **(iii)** System Service Charges, **(iv)** usage tariff for the transmission installations forming the basic network, **(v)** payment quota to the Fuel Consumption Account – CCC, **(vi)** payment quota to the Energy Development Account – CDE and **(vii)** Incentive Program for Alternatives to Electric Energy - PROINFA. **d) Low Income Consumers' Subsidy**

Law nº 10.438, of April 26, 2002 and Decree nº 4.336 of August 15, 2002 established new guidelines and criteria for classification of consumer units in the low-income residential sub-category. According to the legislation, this new criteria encompasses consumer units served by monophasic circuits, with an average monthly consumption in the last 12 months of less than 80kWh, and consumer units with an average

monthly consumption in the last 12 months of 80 to 220kWh, provided certain specific requirements are complied with, such as enrollment in Federal Government Social Programs.

As the subsidies granted to the consumers are to be offset in the ambit of the concessionaire itself, through the tariff charged to the other consumers of the market served, and as the introduction of this new criteria has an impact on the tariff levels, in addition to the principal of reasonable tariffs for the rest of the market, ANEEL established a new methodology for calculating the subsidy, which has been applied monthly since May 2002.

After ratification by ANEEL, the amounts calculated using this new methodology should be settled as follows:

- For months in which losses are recorded by the concessionaire, the amounts should be reimbursed through granting of an economic subsidy by Eletrobrás (Governmental institution), through the Energy Development Account – CDE.
- In the months when gains by the concessionaire are calculated, the amounts should be reimbursed to the customer through a reduction in the annual tariff adjustments.

The movements in the balances in the quarter as of March 31, 2007 are as follows:

**( 18 ) EMPLOYEE PENSION PLANS**

The subsidiaries CPFL Paulista, CPFL Piratininga and CPFL Geração, through Fundação CESP, and the indirect subsidiary RGE, through Fundação ELETROCEEE, and the indirect subsidiary Santa Cruz, through FUNSEJEM – Fundação Senador José Ermínio de Moraes, sponsor supplementary retirement and pension plans for their employees. The main characteristics of these plans are as follows:

**I – CPFL Paulista**

A Proportional Supplementary Defined Benefit (“BSPS”) and a Mixed Benefit Plan are currently in effect for the employees of the subsidiary CPFL Paulista.

At the time of modification of the Pension Plan in September 1997, the subsidiary recognized an obligation to pay in respect of the plan deficit determined at the time by the external actuaries of the Fundação CESP. This deficit will be liquidated in 294 installments, amortized monthly, plus interest of 6% p.a. and restatement based on the IGP-DI (FGV). The balance of the liability, which is restated annually in line with the evolution of the actuarial deficit calculated in accordance with the criteria of the Supplementary Pensions Department as of March 31, 2007 is R\$ 572,017 (R\$ 573,715 as of December 31, 2006).

**II – CPFL Piratininga**

As a result of the split-off of Bandeirante Energia S.A. (the Subsidiary’s predecessor), the subsidiary CPFL Piratininga assumed the responsibility for the actuarial liabilities for its retired employees up to the date of the split-off, as well as the responsibilities relating to the active employees transferred to CPFL Piratininga.

A Proportional Supplementary Defined Benefit (“BSPS”) and a Mixed Benefit Plan are currently in effect for the employees of CPFL Piratininga.

In September 1997, through a contractual instrument of adjustment of reserves to be amortized, Eletropaulo Metropolitana El São Paulo S.A. (the predecessor of Bandeirante) recognized an obligation to pay referring to the plan deficit determined at the time by the external actuaries of the Fundação CESP, to be liquidated in 260 installments, amortized on a monthly basis, plus interest of 6% p.a. and restatement

#### ( 27 ) FINANCIAL INSTRUMENTS AND OPERATING RISKS

##### 27.1 RISK CONSIDERATIONS

The business of the Company and its subsidiaries comprises principally generation, sale and distribution of electric energy. As public service concessionaires, the operations and tariffs of its principal subsidiaries are regulated by ANEEL.

The principal market risk factors that affect business are related basically to fluctuations in exchange rates and interest, credit, energy shortages, and prepayments of debts. The Company and its subsidiaries manage these risks in such a way as to minimize them through the compensation mechanism ("CVA"), contracting hedge/swap operations, adopting collection policies, obtaining guarantees and cutting off supplies to defaulting customers and monitoring contractual obligations.

The estimated of the market value of these financial instruments for the Company and its subsidiaries were based on models that discount future cash flows to present value, comparison with similar transactions contracted on dates close to the end of the quarter and comparisons with average market parameters. In cases where there are no similar transactions in the market, principally related to the loan linked to the regulatory assets and credits receivable from CESP, the subsidiaries assumed that the market value corresponds to the respective book value.

--------------------------------	--	--

The following factors should be taken into account in comparing the results for the periods:

In June 2006, CPFL Energia acquired 100% of the shares and quotas of CPFL Serra Ltda, CPFL Comercialização Cone Sul S.A. and CPFL Missões Ltda. As a result of these acquisitions, the Company now indirectly holds an additional participation of 32.69% and 32.7538% in RGE and Sul Geradora, respectively, fully consolidated as from June in the company's financial statements.

Additionally, in December 2006, CPFL Energia acquired 99.99% of the shares of Santa Cruz, and ENERCAN started its operations in February 2007.

In view of the lack of comparability with the first quarter of 2006, these facts should be taken into account in a comparative analysis of the periods.

**Gross Operating Income**

The Gross Operating Income in the first quarter of 2007 was R\$ 3,341,728, an increase of 19.8% (R\$ 552,350) compared to the same period of the previous year.

The main reasons for this difference were:

- i. An increase of 9.3% in the amount of Electricity sold to end users, of which 8.3% refers to the acquisitions of RGE and Santa Cruz;
- ii. Impacts of the 2006 tariff adjustments of CPFL Paulista, CPFL Piratininga and RGE, of 10.83%, 10.79% and 10.2% respectively;
- iii. An increase of 29.0% (R\$ 44,589) in the income from TUSD, due mainly to the migration of industrial clients to the Free Market Environment.

➤ **Amount of Energy Sold**

Although energy sales to end users increased by 9.3%, total energy sales, taking into account sales to other concessionaires, grew by 4.1%. The increase in sales to end users was mainly influenced by the good performance of the residential and commercial classes, with growth of 18.5% and 14.5% respectively.

The increase in the CPFL Energia concession areas, which takes into account the supply billed with collection of TUSD, grew by 6.1% in the first quarter of 2007, compared with the same period of the previous year. Taking into consideration the effects of the acquisitions of RGE and Santa Cruz, the increase was 14.6%.

**Deductions from Operating Income**

The deductions from operating income in the first quarter of 2007 amounted to R\$ 1,188,534, an increase of 22.8% (R\$ 220,962) in relation to the same quarter of 2006, largely due to the increase in Gross Revenue.

**01.01 - IDENTIFICATION**

1 - CVM CODE <b>01866-0</b>	2 - COMPANY NAME <b>CPFL ENERGIA S.A.</b>	3 - CNPJ (Federal Tax ID) <b>02.429.144/0001-93</b>
--------------------------------	--	--

**Cost of Electricity Services**

In the first quarter of 2007, the Cost of the Electricity Service was R\$ 1,051,176, an increase of 12.5% (R\$ 116,944) compared with the same quarter of the previous year, mainly due to:

- i. An increase of 10.7% in the amount of energy acquired, of which 7.2% refers to the acquisitions of RGE and Santa Cruz;
- ii. An increase in the average price of the energy purchased;
- iii. Effects relating to recalculation of the energy cost in the 2005 and 2006 Tariff Reviews for the subsidiary CPFL Paulista, of R\$ 79,075 (Note 3.b.2).

**Operating Costs and Expenses**

The operating costs and expenses in the quarter amounted to R\$ 315,056, an increase of 2.0% (R\$ 6,048) over the same period of the previous year. This increase was mainly due to:

➤ **Manageable Operating Expenses**

These expenses, comprising Personnel, Materials, Outsourced Services and Other expenses, totaled R\$ 230,159 in the first quarter of 2007, a decrease of 0.7% (R\$ 1,634) in relation to the same quarter of 2006. This reduction was mainly due to the following factors:

- i. Personnel: the reduction of 9.5% (R\$ 10,258) is due mainly to the expense recognized in the first quarter of 2006 in relation to the Early Retirement Program, partially offset by the increase of R\$ 9,977 in expense for ENERCAN and the acquisitions of RGE and Santa Cruz;
- ii. Materials, Outsourced Services and Other Expenses: an increase of 7.0% (R\$ 8,661) due mainly to ENERCAN and the acquisitions of RGE and Santa Cruz.

➤ **Private Pension Fund**

The Private Pension plan generated income of R\$ 12,583 in the quarter (R\$ 10,745 more than in the same period of 2006). This variation is mainly due to the impacts on the actual expected income on the plan assets, as established in the Actuarial Report prepared in December 2006.

➤ **Depreciation and Amortization**

The increase of 16.7% (R\$ 12,745) refers basically to ENERCAN and the acquisitions of RGE and Santa Cruz.

--------------------------------	--	--

**Financial Income (Expense)**

The net financial expense was 30.6% (R\$ 25,058) higher than in the same quarter of 2006, mainly due to:

- i. The decrease in income on investments resulting from the decrease in cash and cash equivalents;
- ii. Recording of the net financial expense of R\$ 9,724 in respect of ENERCAN and the acquisitions of RGE and Santa Cruz.

**Social Contribution and Income Tax**

Taxes on income amounted to 13.1% (R\$ 23,645), higher than in the same period of the previous year. Although pre-tax profit was 36.8% higher than in the first quarter of 2006, the increase was offset by the income tax credit of R\$ 40,234 recorded on the merged goodwill from acquisition of the subsidiary Semesa (Note 10).

**Net Income and EBITDA**

Due to the factors mentioned above, the net income for the quarter was R\$ 472,928, 54.3% (R\$ 166,440) higher in the same period of 2006.

The adjusted EBITDA (net income for the quarter before the effects of the private pension fund, depreciation, amortization, financial income (expense), equity accounting, social contribution, income tax and extraordinary item) for the first quarter of 2007 was R\$ 868,926, 32.8% (R\$ 214,686) higher than the EBITDA determined in the same period of 2006 (information not reviewed by the Independent Auditors).

The effects of the operating start-up of ENERCAN and the acquisitions of RGE and Santa Cruz, resulted in increases in EBITDA of R\$ 16,047 (2.5%), R\$ 32,274 (4.9%) and R\$ 11,228 (1.7%), respectively, (information not reviewed by the Independent Auditors).

We have performed a special review of the accompanying interim financial statements of CPFL Energia S.A. and subsidiaries, consisting of the individual (Company) and consolidated balance sheets as of March 31, 2007, the related statements of operations for the quarter then ended and the performance report, all expressed in Brazilian reais and prepared in accordance with Brazilian accounting practices under the responsibility of the Company's management.
2. The interim financial statements for the quarters ended March 31, 2007 and 2006 of the indirect subsidiary Rio Grande Energia S.A. – RGE were reviewed by other independent auditors, who issued review reports thereon, dated April 23, 2007 and April 27, 2006, respectively. Those auditors audited the balance sheet as of December 31, 2006 and issued an opinion thereon, dated January 26, 2007. The review reports and opinion were unqualified. 3. Our review was conducted in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, and consisted principally of: (a) inquiries of and discussions with certain officials of the Company and its subsidiaries who have responsibility for accounting, financial and operating matters about the criteria adopted in the preparation of the interim financial statements, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company and its subsidiaries.
4. Based on our special review and the reports of the other auditors, we are not aware of any material modifications that should be made to the interim financial statements referred to in paragraph 1 for them to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory interim financial statements.
