(2) PRESENTATION OF THE INTERIM FINANCIAL STATEMENTS

The parent company's and consolidated interim financial statements have been prepared in accordance with principles, practices and criteria consistent with those adopted for preparing the prior year's financial statements and should be analyzed together with those statements. These interim financial statements were prepared in accordance with generally accepted accounting principles in Brazil, rules of the Accounting Manual of the Public Electric Energy Service, standards defined by ANEEL, and the standards published by the Brazilian Securities Commission ("CVM").

In order to improve the information presented to the market, the Cash Flow and Added Value Statements for the quarter ended in March 31, 2008 and 2007, are presented as additional information, in APPENDICES I and II.

The Cash Flow Statements were prepared in accordance with the criteria established by "FAS 95 – Statement of Cash Flows", with respect to the presentation format, within the context of registering the Company's financial statements with the Securities and Exchange Commission ("SEC").

Consolidation Principles

The consolidated financial statements include the balances and transactions of the Company and its subsidiaries CPFL Paulista, CPFL Piratininga, CPFL Geração, CPFL Brasil, CPFL Santa Cruz, RGE and Perácio. The asset, liability, income and expense balances were fully consolidated. Prior to consolidation into the Company's financial statements, the financial statements of CPFL Geração, CPFL Brasil and Perácio are consolidated with those of their subsidiaries, fully (majority) controlled subsidiaries or proportionally (jointly) controlled subsidiaries, according to the rules defined in CVM Instruction No. 247/96.

In compliance with the conditions described above, the portion relating to the non-controlling shareholders is stated separately in liabilities and income statements for the presented period.

All significant intercompany balances and transactions have been eliminated.

The accounting policies of the parent company's subsidiaries are consistent with those of the parent company. The main difference in accounting policies relates to the revaluation of property, plant and equipment recorded by the indirect subsidiary RGE, which is eliminated in the shareholders' equity base for calculation of equity interest and, consequently, in consolidation.

a) Rationing

At the end of 2001, as a result of the Emergency Program for the Reduction of Electric Energy Consumption, in effect between June 2001 and February 2002, the generators, the power distributors and the Federal Government signed the "Overall Agreement for the Electric Energy Sector". The agreement introduced an Extraordinary Tariff Increase of 2.9% on electric power supply to residential consumers (except those regarded as "low income consumers") and for rural and public lighting, and 7.9% for all other consumers, as a mechanism to reimburse the electricity sector for the losses incurred as a result of this program.

The changes in balances for the quarter ended in March 31, 2008 in relation to RTE, Free Energy and Parcel "A", net of the provision for losses, are shown below:

Description	Consolidated			
	RTE	Free Energy		Parcel "A" Net
		Asset	Liability	
Balances as of December 31, 2007	3,904	2,404	(35,832)	496,391
Monetary restatement	172	280	(117)	12,056
Provision for losses	(115)	(326)	78	-
Realization	(913)	(951)	6,004	(99,586)
Balances as of March 31, 2008	3,048	1,407	(29,867)	408,861

• **Extraordinary Tariff Adjustment (RTE)** – Corresponds to the loss of revenue determined by comparison of the sales revenues from energy effectively recorded in the rationing period, and projected revenue for this period, not taking into account the effects of the Energy Rationing Program.

Due to the deadline's end of other distributors, the RTE balance refers to the indirect subsidiary CPFL Sul Paulista, which established a provision for losses of R\$ 2,136, based on estimated projections of revenue, taking into consideration the market growth and expectations of inflation, interest and regulatory aspects. The deadline established by ANEEL for recovery of the RTE by CPFL Sul Paulista is January 2009.

The distributors CPFL Paulista and CPFL Piratininga recorded losses of R\$ 152,090 in previous years, due to the deadline for recovery of the full amount of the RTE having passed.

• **Electric energy from Independent Suppliers ("Free Energy")** – Corresponds to the energy produced and made available to the consumer market during the rationing period by the independent producers and self-producers of energy.

The distribution utilities collected the funds from the consumer through the extraordinary tariff adjustment and passed them on to the generators, according to the percentage established to each concessionaire, recording an asset and a liability. These amounts are monetarily restated in accordance with the ANEEL instructions.

The subsidiary CPFL Sul Paulista has a reserve for losses on realization of Free Energy amounting R\$ 1,816.

Regarding the subsidiary RGE, the Free Energy regulatory asset derives from the assignment, by the distributor, of its quota of Itaipu to the rationing program. As in the case of the RTE, as of March 31, 2008, the subsidiaries RGE and CPFL Geração have a reserve for losses on realization of Free Energy amounting to a total of R\$ 5,369. The subsidiary CPFL Geração also recorded a loss of R\$ 4,521 relating to funds to be passed on by distributors, for which the deadlines for receipt have passed.

• **Parcel “A”** – Refers to the variation in the financial amounts of non-manageable costs representing Parcel "A" of the concession contracts, between January 1 and October 25, 2001. These amounts are restated based on the variation in the SELIC rate.

The subsidiaries CPFL Piratininga and CPFL Paulista started to offset Parcel “A” as from February 2007 and January 2008, respectively, using a mechanism similar to that used for the RTE. For the subsidiary CPFL Sul Paulista, amortization of parcel “A” will start from February 2009, over the period required to reach the amount recorded. In the case of the subsidiaries CPFL Santa Cruz, CPFL Leste Paulista, CPFL Mococa and CPFL Jaguari, Parcel “A” was amortized in November 2007, September 2005, March 2007 and August 2005, respectively.

The amortization of Parcel “A” in the quarter for CPFL Paulista, CPFL Piratininga and CPFL Jaguariúna is as follows:

	Consolidated
	March 31,
	2008
Energy purchased	72,149
System service charge	7,374
Fuel Consumption Account - CCC	21,629
RGR	(1,645)
Inspection fee	79
Total	99,586

b) Review and Adjustment Tariff

b.1) 1st Tariff review cycle (2003/2004)

a) CPFL Paulista – Depreciation Difference

In 2007, by Ratification Resolution nº 443, ANEEL amended the final result of the first periodic tariff review of the subsidiary CPFL Paulista, approved in April 2005, adjusting the energy supply tariffs by 20.66%, due to a review of the calculation of the average depreciation percentage used in the 2003 tariff review. The difference in income resulting from the change in the tariff adjustment from 20.29% to 20.66%, and of the X component of the X Factor from 1.1352% to 1.2530%, corresponds to a financial adjustment of R\$ 44,868, which is being offset in the 2007 tariff adjustment. This regulatory asset was recorded in the “Consumers, concessionaires and licensees – Tariff review - Depreciation” account, including the effects of PIS and COFINS, and has been amortized since the adjustment.

b) CPFL Piratininga – Remuneration Base

In 2006, by Ratification Resolution nº 385, and in answer to the application filed by Bandeirante Energia S.A. (“Bandeirante”) for reconsideration of the tariff review, ANEEL amended the amounts of the subsidiary CPFL Piratininga remuneration base.

In accordance with this amendment, ANEEL established that the electric energy supply tariffs should be reset at 10.14% . Accordingly, in line with the new provisional percentage established by ANEEL, the subsidiary CPFL Piratininga recorded a regulatory asset of R\$ 26,970 in 2006, in the “Consumers, Concessionaires and Licensees” account, including PIS and COFINS, which was amortized until October 2007.

ANEEL Resolution nº 336, of 2001, concerning approval of the request for spin-off of Bandeirante and the partial transfer of its concession area to the subsidiary CPFL Piratininga, established that, in the first periodic tariff review, the lower of the rates of the two concessionaires would apply. As the rate for Bandeirante was 10.14%, against 11.52% for CPFL Piratininga, the rate of 10.14% applies.

ANEEL Order nº 3209, of October 22, 2007, ratified the result of the subsidiary CPFL Piratininga’s first tariff review, making it final.

c) CPFL Santa Cruz, CPFL Mococa and CPFL Leste Paulista – Remuneration Base

In 2005, ANEEL finally approved the results of the first periodic tariff review of February 2004 for the subsidiaries CPFL Santa Cruz, CPFL Leste Paulista, CPFL Sul Paulista, CPFL Jaguari and CPFL Mococa. The differences between the provisional and the final percentages for subsidiaries CPFL Santa Cruz, CPFL Leste Paulista e CPFL Mococa were recovered until January 2008.

b.2) 2nd tariff review cycle (2007/2008)

ANEEL provisionally readjusted the tariffs and financial components relating to the tariff review on October 23, 2007, for the subsidiary CPFL Piratininga, on February 3, 2008, for the subsidiaries CPFL Santa Cruz, CPFL Jaguari, CPFL Mococa, CPFL Leste Paulista and CPFL Sul Paulista, on April 08, 2008, for the subsidiary CPFL Paulista and on April 19, 2008, for RGE, as detailed below:

	CPFL Santa Cruz	CPFL Jaguari	CPFL Mococa	CPFL Leste Paulista	CPFL Sul Paulista	CPFL Piratinunga	CPFL Paulista	RGE
Verified revenue	213,312	87,989	54,148	77,145	92,390	2,136,914	5,175,546	1,950,452
Parcel A - Total	124,331	68,585	30,989	42,854	58,690	1,423,875	3,314,145	1,324,735
Sector charges	21,504	12,294	4,687	8,072	10,594	257,170	540,872	191,416

Total repositioning	-7.13%	-1.58%	-5.65%	-1.65%	-3.57%	-10.11%	-13.61%	4.77%
Factor Xe	0.22%	2.10%	0.24%	1.07%	1.31%	0.73%	0.83%	0.66%
Consumer perception (**)	-8.14%	-3.56%	-8.15%	-1.45%	-7.11%	-15.29%	-17.21%	2.52%

(*) In addition to the CVA (see item “c”), the main additional financial components are deferred tariff costs and gains variations Parcel “A” (“CVA”), overcontracting of electric energy, discounts on collection of TUSD, adjustments of connection charges, basic network and CUSD, and other components. In the subsidiary RGE 56% of the financial components refer to the subsidies to cooperatives located within the concession area.

(**) Represents the average effect perceived by the consumer, as a result of the elimination from the tariff base of financial components added in the annual adjustment for the previous year.

In the tariff review process of the subsidiary CPFL Paulista, ANEEL provisionally recalculated the amount to be passed on to the tariffs relating to “Overcontracting” as of December 31, 2007. The regulatory agency included a refund to the consumer of R\$ 27,534 in the tariff review, while the balance at the same date was an asset of R\$ 76,798.

The management of the subsidiary CPFL Paulista, analysing the process, reassessed their procedures and applied to the CCEE for reassessment of part of the transactions involving the supply agreement of electric energy dealt between the subsidiaries CPFL Paulista and CPFL Brasil.

Considering the aforementioned, pending the final result of the analysis by the regulatory agency, in March 2008 the subsidiary CPFL Paulista conservatively recorded a provision of R\$ 39,853 for accounts receivable in relation to the CCEE reassessment for the period from January 2005 to February 2008, set against an increase of R\$ 17,749 in CCEE revenue and a reduction of R\$ 22,104 in CCEE cost. As a result of the reassessment, a provision of R\$ 25,769 was recorded for the overcontracting asset and a provision of R\$ 14,084 for a liability to refund to the consumers in the next tariff adjustment, set against “Electric energy costs”. These records did not affect CPFL Paulista’s income.

Conservatively, and in order to fully comply with the amounts approved by the regulatory agency, provisions of R\$ 51,029 and R\$ 27,534, respectively, were recorded in the first quarter of 2008 by the subsidiary CPFL Paulista for realization of an asset and a provision for a liability, set against the electric energy costs – overcontracting, relating to seasonal effects and losses, as defined

provisionally by ANEEL. The provision on account of seasonal effects generated a CVA credit of R\$ 9,487. These provisions will be maintained until ANEEL concludes its analyses and ratifies the final result of this review.

Since similar transactions were performed between the subsidiaries CPFL Piratininga and CPFL Brasil, the same provisions procedure was applied in CPFL Piratininga. A provision of R\$ 14,453 related to reassessment of CCEE (increase of R\$ 4,945 in CCEE income and reduction of R\$ 9,507 in CCEE cost, respectively) and a provision of R\$ 45,398 in overcontracting for CCEE operations and losses.

Also in relation to the CCEE reassessment, a provision of R\$ 71,879 was recorded in CPFL Brasil for accounts payable to CCEE (note 17), set against R\$ 66,438 (reversal of income) of CCEE sales and R\$ 5,441 in financial expenses.

In the consolidated statements, the effects on income of the provisions made in relation to ANEEL's understanding as to overcontracting of energy in the provisional tariff adjustment was R\$ 186,352 (R\$ 111,895 net of taxes).

b.3) Reajuste tarifário

By establishing the Annual Tariff Adjustment Rate ("IRT") of the subsidiary CPFL Paulista on April 3, 2007, in Ratification Resolution No. 445, and in order to review the PIS and COFINS amounts of the generators, ANEEL recalculated the electric energy cost of the first 2005 IRT initial contracts of the subsidiary CPFL Paulista. As the cost of electric energy affects adjustment of the consumer tariff and calculation of CVA, the recalculation, which resulted in a reduction in the average energy price, generated a liability to be reimbursed to the consumers and an additional CVA asset. Also, the CVA amounts approved by ANEEL in the 2007 IRT excluded the surpluses of the electric energy contracts, in accordance with item 61 of ANEEL Technical Note nº 069 of March 22, 2007. Accordingly, these effects basically explain the adjustments made in the first quarter of 2007 of R\$ 98,635, recorded in "Other Accounts Payable", and R\$ 177,710, recorded in "Deferral of Tariff Costs", both set against "Cost of Electric Energy" (note 25).

In addition to the CVA (see item "c"), the main additional financial components of the assets and liabilities recorded are as follows:

• Increase in PIS and COFINS

Refers to the difference between the costs relating to PIS and COFINS calculated by applying the current legislation, and those incorporated into tariff until April 2005 for the subsidiary CPFL Paulista and October 2005 for the subsidiary CPFL Piratininga.

The amounts approved in 2006 and 2007 were recorded in the "Prepaid Expenses" account and will be amortized until April 2008.

In view of the discussions in respect of the nature of this credit, the Company conservatively opted to record a liability of the same assets amount, posted in the account "Other Accounts Payable" (note 22), which is monetarily restated based on the variation of the IGP-M.

• Overcontracting

The electricity distribution concessionaires are obliged to guarantee 100% of their energy and power market through contracts approved, registered and ratified by ANEEL. The distribution

concessionaires are also guaranteed that costs or income derived from overcontracting of electric energy will be passed on to the tariffs, limited to 3% of the energy load requirement. See item b.3 for further details on movement during this period.

The constitution and amortization of overcontracting are being recorded as "Prepaid Expenses" (note 9) and set against a credit recorded in the "Cost of Electric Energy" (note 25).

• Discounts on the TUSD and Irrigation

The subsidiaries record regulatory assets, relating to (i) the special discounts applied on the TUSD related to the supply of electricity from alternative sources, and on (ii) activities of irrigation and aquaculture.

The provisions and realization of the discounts on the TUSD and irrigation are recorded in "Consumers, Concessionaires and Licensees" and set against the "Revenue from Electricity Sales" (Note 24) account.

The following table shows the changes in the items described above, relating to tariff review and Adjustments, occurred during the quarter ended March 31, 2008:

Consolidated													
Description	Tariff review- Remuneration base (b.1)	Tariff review - Depreciation (b.1)	Tariff adjustment- Other asset and liability (1)	PIS and Cofins - Generators pass-through (b.3)		Tariff review - Refund to consumer- IRT 2005 and 2006 recalculated (b.3)	Increase in PIS and COFINS (b.3)		Overcontracting (b.3)		Discounts on the TUSD and irrigation (b.3)	Refund to consumer - Irrigation (b.3)	Total
				Asset (2)	Liability		Asset	Liability	Asset	Liability			
Balance as of December 31,2007	1,443	13,147	20,361	1,210	(8)	(26,213)	25,097	(113,964)	110,309	(142)	83,872	-	115,112
Constitution	728	-	4,907	622	-	-	-	-	11,327	(4,030)	10,344	(2,070)	21,828
Restatement	22	-	-	-	-	-	72	(2,648)	-	-	1,847	-	(707)
Amortization	(2,193)	(12,199)	(14,743)	(1,317)	8	24,321	(22,773)	-	(1,047)	-	(12,241)	-	(42,184)
Allowance	-	-	-	-	-	-	-	-	(119,535)	(58,319)	-	-	(177,854)
Balance as of March 31,2008	-	948	10,525	515	-	(1,892)	2,396	(116,612)	1,054	(62,491)	83,822	(2,070)	(83,805)

(1) The effects of constitution were recorded in Operating Income R\$ 3,748, Energy Cost R\$ 1,426, accounts receivable (R\$ 224) and Energy Cost (R\$ 43).

The effects of amortization were recorded in Operating Income R\$ 13,254, Energy Cost R\$ 91, Operating Expense R\$ 612, Charges for Use of Network R\$ 962 and Financial Income R\$ 6.

(2) The effects of constitution were recorded in Operating Expense R\$ 364 and Operating Income R\$ 258. The effects of amortization were recorded in Operating Income R\$ 491 and Accounts Receivable R\$ 826.

c) Deferred Tariff Costs and Gains Variations ("CVA")

Refer to the mechanism for compensation of the variations in unmanageable costs incurred by the electric power distribution concessionaires. These variations are calculated in accordance with the difference between the expenses effectively incurred and the expenses estimated at the time of composing the tariffs for the annual tariff adjustments.

The amounts of CVA are monetarily restated based on the SELIC rate.

	Balance as of December 31, 2007	Consolidated Changes			Balance as of March 31, 2008
		Deferral	Amortization	Restatement	
ASSET

Total	(283,869)	(64,164)	26,706	(8,762)	(330,089)

d) Low Income Consumers' Subsidy

Law n° 10.438, of April 26, 2002 and Decree n° 4.336 of August 15, 2002 established new guidelines and criteria for classification of consumer units in the low-income residential sub-category. According to the legislation, this new criteria encompasses consumer units served by monophasic circuits, with an average monthly consumption in the last 12 months of less than 80kWh, and consumer units with an average monthly consumption in the last 12 months of 80 to 220kWh, provided certain specific requirements are complied with, such as enrollment in Federal Government Social Programs.

As the subsidies granted to the consumers should be offset in the ambit of the concessionaire itself, through the tariff charged to the other consumers of the market served, and as the introduction of this new criteria has an impact on the tariff levels, in addition to the principal of reasonable tariffs for the rest of the market, ANEEL established a new methodology for calculating the subsidy, which has been applied monthly since May 2002.

After ratification by ANEEL, the amounts calculated using this new methodology should be settled as follows:

- For months in which losses are recorded by the concessionaire, the amounts should be reimbursed through granting of an economic subsidy by Eletrobrás (Governmental institution), through the Energy Development Account – CDE.
- For months in which gains are recorded by the concessionaire, the amounts should be reimbursed to the customer through a reduction in the annual tariff adjustments.

The movements in the balances in the quarter as of March 31, 2008, are as follows:

	Consolidated	
	Asset	Liability
Balances as of December 31, 2007	55,967	(8,624)
Gain (Loss) of revenue	7,643	(933)
Amortization of tariff adjustment	(107)	454
Receivables approved by ANEEL	(24,014)	-
Monetary restatement	-	(105)
Balances as of March 31, 2008	39,489	(9,208)

(4) CASH AND BANKS

	Parent Company		Consolidated	
	March 31,2008	December 31, 2007	March 31,2008	December 31, 2007
Bank deposits	623	216	189,293	679,937
Short-term financial investments	4,267	17,587	957,955	426,371
Total	4,890	17,803	1,147,248	1,106,308

The short-term financial investments refer to operations with financial institutions under normal market conditions and rates, mainly remunerated based on the variation of the CDI, and are available for use in the operations of the Company and its subsidiaries.

(5) CONSUMERS, CONCESSIONAIRES AND LICENSEES

The consolidated balance mainly refers to electricity sales activities as of March 31, 2008 and December 31, 2007, as follows:

	Consolidated				
	Balances Coming due	Past due		Total	
		Up to 90 days	More than 90 days	March 31,2008	December 31, 2007

Total	191,975	-	-	191,975	215,014

a) Electric Energy Trading Chamber ("CCEE") transactions

The amounts refer to the accounting records of the Electric Energy Trading Chamber – CCEE for the period September 2000 to March 2008. As of March 31, 2008, a provision of R\$ 53,040 was recorded relating to the application to the CCEE for reassessment, as mentioned in note 3 b.2. The non-current amount receivable for energy sales as of March 31, 2008 mainly comprises: (i) legal adjustments, made as the result of suits brought by agents in the sector; (ii) lawsuits challenging the CCEE accounting for the period September 2000 to December 2002; (iii) provisional accounting entries made by the CCEE; (iv) amounts negotiated bilaterally pending settlement. The subsidiaries consider that there is no significant risk on the realization of these assets and consequently no provision were posted in the accounts.

b) Concessionaires and Licensees

Refers basically to accounts receivable in respect of the supply of electricity to other Concessionaires and Licensees, mainly by the subsidiaries CPFL Geração and CPFL Brasil, and to certain transactions

relating to the partial spin-off of Bandeirante by the subsidiary CPFL Piratininga. The amounts are set off against accounts payable, through a settlement of accounts.

(6) FINANCIAL INVESTMENTS

In April 2005, through a Private Credit Agreement, the Company acquired the credit arising from the Purchase and Sale of Electricity Agreement between Companhia Energética de São Paulo ("CESP") (seller) and CPFL Brasil (purchaser), referring to the supply of energy for a period of 8 years. The amounts handed over by the Company to CESP will be settled using the funds derived from the acquisition of energy produced by that company for CPFL Brasil.

As of March 31, 2008 the short-term balance is R\$ 37,243 (R\$ 34,555 as of December 31, 2007), and the long-term balance is R\$ 93,659 (R\$ 97,521 as of December 31, 2007). The operation is subject to interest of 17.5% p.a., plus the annual variation of the IGP-M, and is being amortized in monthly installments of amounts corresponding to the purchase of energy.

The projections of future results that guided and support the recording of deferred tax credits of the Company and its subsidiaries were approved by the Boards of Directors and examined by the Audit Committees. For the quarter ended in March 31, 2008, management does not expect relevant changes in the projections disclosed in the financial statements as of December 31, 2007.

10.2 – Tax Credit on Tax Benefit on Merged Goodwill:

The tax benefit on merged goodwill refers to the tax credit calculated on the merged goodwill on purchase and is recorded in accordance with CVM Instructions nº 319/1999 and nº 349/2001. The benefit is realized in proportion to amortization of the merged goodwill, in accordance with the net projected profit of the subsidiaries during the remaining term of the concession, as shown in note 13.2.

	Consolidated			
	March 31,2008		March 31,2007	
	Social Contribution Tax (CSLL)	Income Tax (IRPJ)	Social Contribution Tax (CSLL)	Income Tax (IRPJ)
Income before CSLL and IRPJ	444,401	444,401	677,077	677,077
Adjustments to reflect effective rate:				
- Goodwill amortization	27,064	38,476	18,657	37,969
- CMC realization	3,849	-	4,466	-
- Other permanent additions (deductions), net	(26,122)	3,875	21,669	2,236
Calculation base	449,192	486,752	721,869	717,282
Statutory tax rate	9%	25%	9%	25%
Tax (debit) credit result	(40,427)	(121,688)	(64,968)	(179,321)
- Tax credit realized	(434)	(948)	-	-
- Tax credit allocated (not allocated)	(2,328)	(3,881)	-	40,234
Total	(43,189)	(126,517)	(64,968)	(139,087)

The tax credit of R\$ 40,234 allocated in the first quarter of 2007, in the consolidated statements, refers to the tax benefit of the merged goodwill of the indirect subsidiary SEMESA, amortization of which, since the merger, is deductible for income tax purposes. The tax credit not allocated and realized in the quarter is due to the fact that the Company recorded a tax loss in the first quarter and the allocation of credits is limited to projected income over the next 10 years.

The changes in the balance of equity interests over the period refer to the result of equity adjustment.

Start of commercial operations of the CASTRO ALVES Hydropower Plant

In March and April 2008, commercial operations began at two generator units of the Castro Alves Hydropower Plant, the total installed capacity of which is 130 MW. The final unit of this plant is scheduled to start operating in May 2008. The portion of the plant's energy relating to CPFL Geração already has energy sales agreements approved by ANEEL and signed with the distributors CPFL Paulista and CPFL Piratininga and the commercial agent CPFL Brasil.

The goodwill arising from the acquisitions of the equity interests is amortized in proportion to the net income curves projected for the remaining term of the concession contract. The rates are subject to periodical review.

Goodwill on Purchase:

Parent Company: Refers mainly to acquisition of all the shares held by minority shareholders (share merger) of CPFL Geração's in June 2005, CPFL Paulista and CPFL Piratininga in November 2005, and RGE in December 2007.

Goodwill reassessment

In order to comply with ANEEL instructions and avoid the goodwill amortization resulting from the merger of the parent company causing a negative impact on dividends paid to the shareholders, the subsidiaries apply the concepts of CVM Instructions nº 319/1999 and nº 349/2001 in relation to this goodwill. Accordingly, a reserve was recorded, set against to the reserve of subsidiaries' equity, to maintain the integrity of the subsidiaries' equity, so that the effect on the equity reflects the tax benefit of the merged goodwill. These changes affected the Company's investment in the subsidiaries, and goodwill was recorded in the parent company in order to restore it. The goodwill is amortized by the Company in proportion to the projected net income curves for the remaining term of the subsidiaries' concession.

13.3 - Leased Assets

In the consolidated financial statements, the leased assets refer principally to the assets of the Serra da Mesa Plant, owned by the subsidiary CPFL Geração, leased to the concession holder (FURNAS) for a 30-year period ending in 2028. These assets are depreciated over their estimated useful life at annual rates defined by ANEEL, and in accordance with general conditions of the concession agreement held by FURNAS.

13.4 – Other

Refers mainly to the indirect subsidiary Paulista Lajeado Energia S.A.'s 5.84% participation in the total capital of Investco S/A, comprising 25,829 common shares and 16,412 preferred shares. This investment is recorded on a cost basis. Due to the participation of minority shareholders in the form of (i) preferred shares representing 40.07% of the total capital of Paulista Lajeado, and (ii) beneficiaries (founder-shares) who assign the right to 10% of net income before profit sharing, these effects, totaling R\$ 73,471, were registered in consolidated financial statements in the Non-Controlling Shareholders Interest liabilities.

(4) 103.5% and 105.5% of CDI	(8) 106.0% of CDI	(12) 104.5% of CDI

Main funding in the period:

Local Currency

BNDES - Investment (CERAN) – In the quarter, installments of the loan contracted in February 2004 from the BNDES, amounting to R\$ 9,342 (R\$ 6,072 in proportion to the participation of the subsidiary CPFL Geração), were released to the indirect subsidiary for financing of the 14 de Julho project.

Foreign Currency

Financial Institutions – (CPFL Piratininga) – the subsidiary contracted a foreign currency loan of R\$ 42,428 from Banco BNP Paribás in March 2008, in order to reinforce working capital.

Financial Institutions – (CPFL Energia) – In the quarter, the Company contracted foreign currency loans of R\$ 100,000 from Banco Safra, and R\$ 76,000 from Banco Unibanco, to increase working capital.

Financial Institutions - (CPFL Geração) – In order to honor existing commitments, during the quarter the subsidiary carried out a transaction to repay existing loans of R\$ 230,617 from Banco do Brasil and contracted a new credit line of R\$ 406,760 from the same financial institution, significantly extending the due dates.

SWAP OPERATIONS

The net gains and losses on the swap operations made by the Company and its subsidiaries, including contracting on short-term operations, are recorded, net, under Derivatives, and corresponding amounts are recognized under financial income or expense. These operations resulted, in March 31, 2008, in an asset of R\$ 67,392 and a liability of R\$ 45,151 (asset of R\$ 995 and a liability of R\$ 176,739 as of December 31, 2007).

RESTRICTIVE COVENANTS

The loan and financing agreements are subject to certain restrictive covenants, including clauses that require the Company and its subsidiaries to maintain certain financial ratios within predefined parameters. Details of these restrictive covenants are presented in the financial statements as of December 31, 2007.

ENERCAN's loan from the BNDES and IDB establishes restrictive clauses that require the subsidiary to maintain certain financial ratios within preestablished parameters. As a result of the damage that occurred in the bypass tunnels of the Campos Novos hydropower plant, which caused the postponement of the start of the commercial operations of the three generator sets, generation of the cash required to meet certain contractual obligations by the deadline originally foreseen was delayed. ENERCAN's management has already asked the respective financial institutions to review the contractual parameters, and has obtained confirmation that this review will not involve declaration of early maturity of the loan contract.

The management of the Company, except for the mentioned above, monitor these indices systematically and constantly to ensure that the contractual conditions are complied with. In the opinion of the Company's management, these restrictive covenants and clauses are being adequately complied with.

RGE

On December 1, 2007, the subsidiary RGE issued a third issuance of simple unsecured registered book-entry debentures, without share certificates, not convertible into shares, with no scheduled renegotiation option. The 1st serie, totaling R\$ 100,000, was subscribed and paid up in December 2007. The 2nd and 3rd series, totaling R\$ 140,000 and R\$ 40,000, respectively, were subscribed and paid up in the quarter.

RESTRICTIVE COVENANTS

The debentures are subject to certain restrictive covenants, including clauses that require the subsidiaries to maintain certain financial ratios within pre-established parameters. Details of these restrictive covenants are presented in the financial statements as of December 31, 2007. In the opinion of the subsidiary's Management, these restrictive covenants and clauses are being adequately complied with.

(19) EMPLOYEE PENSION PLANS

The subsidiaries CPFL Paulista, CPFL Piratininga and CPFL Geração, through Fundação CESP, the subsidiary RGE, through Fundação CEEE de Seguridade Social - ELETROCEEE, the indirect subsidiary CPFL Santa Cruz, through BB Previdência – Fundo de Pensão Banco do Brasil, and the subsidiary CPFL Jaguariuna through IHPREV Fundo de Pensão, sponsor supplementary retirement and pension plans for their employees. The main characteristics of these plans are as follows:

I – CPFL Paulista

A Proportional Supplementary Defined Benefit (“BSPS”) and a Mixed Benefit Plan are currently in effect for the employees of the subsidiary CPFL Paulista.

On modification of the Pension Plan in September 1997, the subsidiary recognized an obligation to pay in respect of the plan deficit determined at the time by the external actuaries of the Fundação CESP. This deficit will be liquidated in 260 installments, amortized monthly, plus interest of 6% p.a. and restatement based on the IGP-DI (FGV). Through the addendum to the agreement with Fundação CESP dated January 17, 2008, the payment terms were changed to 238 monthly payments and 19 annual installments, in relation to the base date of December 31, 2007, with final maturity on October 31, 2027. The balance of the liability as of March 31, 2008 is R\$ 568,143 (R\$ 560,190 as of December 31, 2007).

II – CPFL Piratininga

As a result of the split-off of Bandeirante Energia S.A. (the subsidiary’s predecessor), the subsidiary CPFL Piratininga assumed the responsibility for the actuarial liabilities for its retired and discharged employees up to the date of the split-off, as well as the responsibilities relating to the active employees transferred to CPFL Piratininga.

A Proportional Supplementary Defined Benefit (“BSPS”) and a Mixed Benefit Plan are currently in effect for the employees of CPFL Piratininga.

In September 1997, through a contractual instrument of adjustment of reserves to be amortized, Eletropaulo Metropolitana El São Paulo S.A. (the predecessor of Bandeirante) recognized an obligation to pay in respect of the plan deficit determined at the time by the external actuaries of the Fundação CESP, to be liquidated in 260 installments, amortized on a monthly basis, plus interest of 6% p.a. and restatement based on the IGP-DI (FGV). Under the Contractual Amendment, signed with Fundação CESP on January 17, 2008, the payment terms were amended to 221 monthly payments and 18 annual installments, in relation to the base date of December 31, 2007, with final maturity on May 31, 2026. The balance of the liability as of March 31, 2008 is R\$ 147,710 (R\$ 145,813 as of December 31, 2007).

III – RGE

A defined benefit type plan, with a benefit level equal to 100% of the adjusted average of the most recent salaries, including the presumed Social Security benefit, with a Segregated Net Asset administered by ELETROCEEE. Only those employed prior to the spin-off from CEEE to RGE are entitled to this benefit.

IV – CPFL Santa Cruz

The subsidiary CPFL Santa Cruz plan has a defined benefit plan.

V – CPFL Geração

The plans currently in force for the employees of subsidiary CPFL Geração are a Proportional Supplementary Defined Benefit (“BSPS”) and a Mixed Benefit Plan, along the same lines as the CPFL Paulista plan.

With the modification of the Retirement Plan, at that point maintained by CPFL Paulista, in October 1997, a liability was recognized as payable by the subsidiary CPFL Geração, relating to the plan deficit calculated by the external actuaries of Fundação CESP, which is being amortized on a monthly basis, in

260 installments, plus interest of 6% p.a. and restatement according to the IGP-DI (FGV). Under the Contractual Amendment, signed with Fundação CESP on January 17, 2008, the payment terms were amended to 238 monthly installments and 19 annual installments, in relation to the base date of December 31, 2007, with final maturity on October 31, 2027. As of March 31, 2008, the balance of the liability, which is restated annually in line with the evolution of the actuarial deficit calculated in accordance with the criteria of the Supplementary Pensions Department, was R\$ 11,480 (R\$ 11,318 as of December 31, 2007).

VI – CPFL Jaguariúna

The plan is structured through the defined contribution type.

The changes in net actuarial liability recorded during this quarter, in line with CVM Resolution nº 371/2000, are as follows:

	March 31, 2008				
	CPFL Paulista	CPFL Piratininga	RGE	CPFL Geração	Consolidated
Net actuarial liability at the beginning of the quarter	533,948	144,136	(3,520)	9,655	684,219
Income recognized in income statement	(16,580)	(3,091)	(921)	(447)	(21,039)
Sponsor's contributions during the period	(16,684)	(4,605)	-	(353)	(21,642)
Net actuarial liability at the end of the period	500,684	136,440	(4,441)	8,855	641,538
Other contributions	12,010	236	13,298	160	25,704

The changes in the balances in the quarter ended March 31, 2008, are as follows:

	Consolidated					
	December 31, 2007	Addition	Reversal	Payment	Monetary Restatement	March 31, 2008
Labor	66,610	232	(1,092)	(1,462)	-	64,288
Civil	81,189	2,410	(2,211)	(3,624)	-	77,764
Tax	128,254	3,445	(1,653)	(51)	1,485	131,480
Reserve for contingencies - Gross	276,053	6,087	(4,956)	(5,137)	1,485	273,532
Escrow Deposits (1) + (2)	656,920	22,714	(11,442)	(4,616)	10,832	674,408

The reserves for contingencies were based on appraisal of the risks of losing litigation to which the Company and its subsidiaries are parties, where a loss is probable in the opinion of the legal advisers and the management of the Company and its subsidiaries. Details of the reserves for contingencies are presented on the financial statements as of December 31, 2007.

Possible Losses: The Company and its subsidiaries are parties to other suits in which management, supported by its legal advisers, believes that the chances of a successful outcome are possible, due to a solid defensive base in these cases. These questions do not yet indicate a trend in the decisions of the courts or any other decision in similar proceedings considered probable or remote, and therefore no provision has been established for these. As of March 31, 2008, the claims relating to possible losses were as follows: (i) R\$ 210,357 for labor suits (R\$ 211,432 as of December 31, 2007); (ii) R\$ 396,882 for civil suits, mainly for civil suits for personal injuries, environmental damages and tariff increases (R\$ 398,739 as of December 31, 2007); and (iii) R\$ 475,372 in respect of tax suits, relating basically to Income Tax, ICMS, FINSOCIAL and PIS and COFINS (R\$ 466,769 as of December 31, 2007).

Based on the opinion of their legal advisers, Management of the Company and of its subsidiaries consider that there are no significant contingent risks that are not covered by adequate provisions in the Interim Financial Statements, or that might result in the significant impact on future earnings.

(28) FINANCIAL INSTRUMENTS AND OPERATING RISKS**28.1 RISK CONSIDERATIONS**

The business of the Company and its subsidiaries comprises principally generation, sale and distribution of electric energy. As public service concessionaires, the operations and tariffs of its principal subsidiaries are regulated by ANEEL.

The principal market risk factors that affect business are related basically to fluctuations in exchange rates and interest, credit, energy shortages and prepayments of debts. The Company and its subsidiaries manage these risks in such a way as to minimize them through the compensation mechanism ("CVA"), contracting swap operations, adopting collection policies, obtaining guarantees and cutting off supplies to defaulting customers and monitoring contractual obligations.

28.2 VALUATION OF FINANCIAL INSTRUMENTS

The Company and its subsidiaries maintain certain operating and financial policies and strategies with a view to ensuring the liquidity, security and profitability of their assets. As a result, control and follow-up procedures are in place on the transactions and balances of financial instruments, for the purpose of monitoring the risks and current rates in relation to those used in the market.

As of March 31, 2008, the principal financial asset and liability instruments of the Company and its subsidiaries are as follows:

- Cash and banks – with market values approximately equivalent to the amounts stated in the balance sheets (note 4);
- Investments – investments are valued by the equity method accounting (note 13);
- Regulatory Assets and Liabilities – the amounts are recorded in accordance with the criteria defined by ANEEL rules and instructions (note 3);
- Loans and Financing - are valued in accordance with the criteria stipulated in the contracts and the characteristics defined in note 15;
- Debentures – may be traded on the market and are valued in accordance with the criteria stipulated at the time of issue and the characteristics defined in note 16.

The book values of the main financial instruments for the Company and its subsidiaries compared with the market funding amounts as of March 31, 2008 and December 31, 2007, are as follows:

Parent Company				
March 31, 2008		December 31, 2007		
Book Value	Fair Value	Book Value	Fair Value	
Loans and financing (note 15)	180,990	181,298	183,756	181,642
Debêntures (note 16)	453,737	461,927	465,983	474,493
Derivatives (note 15)	(4,148)	(4,014)	47,935	51,724
Total	630,579	639,211	697,674	707,859

Consolidated				
March 31, 2008		December 31, 2007		
Book Value	Fair Value	Book Value	Fair Value	
Loans and financing (note 15)	3,674,681	3,523,427	3,813,001	3,695,602
Debêntures (note 16)	2,631,282	2,663,545	2,434,613	2,466,855
Derivatives (note 15)	(22,241)	(6,174)	175,744	188,560
Total	6,283,722	6,180,798	6,423,358	6,351,017

The estimates of the market value of these financial instruments for the Company and its subsidiaries were based on models that discount future cash flows to present value, comparison with similar transactions contracted on dates close to the end of the quarter and comparisons with average market parameters. In cases where there are no similar transactions in the market, principally relating to the loan linked to the regulatory assets and credits receivable from CESP, the subsidiaries assumed that the market value corresponds to the respective book value.

(29) CHANGE IN THE LEGISLATION – AMENDMENT OF LAW 6.404/76 – LAW 11.638/07

Law 11.638/07 was enacted on December 28, 2007, amending, revoking and adding to the provisions of Brazilian Company Law (Law 6.404/76) relating to preparation and disclosure of Financial Statements. These changes came into effect as from January 1, 2008.

Exclusively to comply with the provisions of CVM Instruction nº 469, of May 2, 2008, the Company analyzed the effects of Law 11.638/2007 on its financial statements for the first quarter of 2008. These analyses cannot be used as a final indication of the actual impact on these financial statements, if the International Accounting Standards Board (“IASB”) rulings were applied in their entirety.

The main changes included in this law, which came into effect as from January 1, 2008, and the related impacts to the Company are summarized below:

- Certain financial instruments and derivatives should be recorded at market value.

As of March 31, 2008, the impact on consolidated financial statements of recording the derivatives, net of taxes, in shareholders' equity and net income for the period would be a decrease of R\$ 10,604 and R\$ 2,146, respectively. The difference between the accumulated amounts recorded in shareholders' equity and in net income for the period refers to the accumulated adjustment for periods prior to the base date of December 31, 2007. The effects of market valuation of the derivatives are disclosed in Note 28;

- Mandatory registration in fixed assets of the rights on physical assets to be used in maintaining the Company's operations, including those deriving from operations that transfer to the Company the benefits, risks and control of the assets, such as financial leasing.

Adoption of the requirements of the new law in respect of treatment of leasing operations and considering the orientation included in the IASB ruling IAS 17 – Leases will result in the actual accounting practice change, affecting the manner of recognition for some assets and liabilities. Although, at this moment the related amounts can not be measured, since a survey of historic information in order to quantify the impact and application of this regulation will require a longer period. Management is evaluating all the elements required to obtain a reasonable estimate of the potential effects related to adoption of this requirement.

- Prefixed long term financial assets and liabilities, and short-term assets and liabilities when relevant, should be adjusted to present value when the effects are relevant.

Based on the rulings issued by the CVM, Company management believes that no significant adjustments are required to the quarterly financial information disclosed.

- The use of deferred assets is restricted to preoperating expenses and to incremental restructuring costs.

Company management is of the opinion that no significant adjustments are required in relation to this matter.

- Assets and liabilities should be recorded at market value in the case of mergers, amalgamations or spin-offs between unrelated parties and tied to the effective transfer of control.

The Company was not involved in any transactions of this nature in the quarter.

Additionally, the Company (i) was not affected by the change in the rule for evaluation of investments in associated companies, (ii) did not effect any transactions involving premiums received on the issuing of debentures, donations or investment subsidies, (iii) does not have an accounting policy of revaluation of assets, and (iv) has no remuneration based on shares.

As announced to the market, CVM intends to conclude, in 2008, the regulatory process for the provisions of corporate law that have been altered and that require regulation, and to review all its regulatory rulings on accounting matters, in order to check and eliminate any divergences in relation to the specific changes made by the new law.

The effects of application of the new Law on the Company's quarterly information have been evaluated based on the legislation and regulations in force as of this date, and may still change as a result of regulations to be issued by the appropriate agencies.

(30) SUBSEQUENT EVENTS

30.1 – Distribution of Dividends

The Ordinary and Extraordinary General Meetings held on April 9, 2008 approved the declaration of dividends of R\$ 718,889 corresponding to the remaining portion of the net income for 2007.

(*) information not reviewed by the Independent Auditors

Comparing the results of the periods, the following factors that generated income in the quarter, with no equivalent in the previous quarter, should be taken into consideration:

- i. Operational start-up in the quarter of the first turbine of the Castro Alves hydropower plant, part of the CERAN energy complex, in March 2008;
- ii. Operational start-up of ENERCAN, in February 2007;
- iii. In June 2007, CPFL Energia acquired 100% of the shares of CPFL Jaguariúna, income from which has been fully consolidated as from July 2007.

Gross Operating Income

In the first quarter of 2008, the gross operating income amounted to R\$ 3,682,015, an increase of 10.2% (R\$ 340,287) compared to the same period of the previous year.

The main factors that contributed to this variation were:

- i. An increase of R\$ 230,885 in the supply of electric energy, due mainly to an increase of 4.5% in the amount of energy sold to end users and 2.6% in the average prices charged;
- ii. An increase of R\$ 95,757 in the electric energy supplied to other Concessionaires and Licensee, mainly as a result of energy commercialization by CPFL Brasil;
- iii. A reduction of R\$ 43,745 in the energy sold in the CCEE due to the effects of the tariff review for CPFL Paulista (see note 3 b.2).

• Quantity of Energy Sold

The amount of energy sold to end consumers increased by 4.5% in the first quarter of 2008, largely due to the additional amount of energy added by the acquisition of CPFL Jaguariúna and subsidiaries, which were responsible for an increase of 3.3% in the period.

The increase in the amount of energy sold to end consumers related mainly to the energy distributed to the residential, commercial and rural categories, which increased by 7.4%, 6.3% and 15.3%, respectively. The quantities sold to the industrial category dropped slightly by 0.7%, due to the reduction in the sale by CPFL Brasil to independent customers, which was offset by the higher sales under bilateral agreements. The growth in CPFL Energia's concession areas, which affected both the supply billed and the TUSD charged, was 8.1% in the first quarter of 2008, compared to the same period of the previous year. Eliminating the gain from the purchase of CPFL Jaguariúna, the growth would be 4.8% .

Deductions from Operating Income

The deductions from operating income amounted to R\$ 1,197,531 in the first quarter of 2008, an increase of 0.8% in relation to the same quarter of 2007, due mainly to (i) a reduction of R\$ 59,559 in the CCC sector charge and (ii) an increase in the taxes on sales in line with the increase in operating income.

Cost of Electric Energy

The Cost of Electric Energy totaled R\$1,552,665 in the quarter, an increase of 47.7% in relation to the same period of the previous year.

In the first quarter of 2008, Electric Energy Purchased for Resale amounted to R\$ 1,350,539, an increase of 55.0% (R\$ 479,356) compared to the same quarter of the previous year. The main reasons were:

- i. A cost increase of R\$ 137,168 in relation to the regulatory overcontracting asset/liability, due to the adjustments made as a result of the tariff review (see note 3.b.3);
- ii. The start of amortization of R\$ 58,336 of Parcel "A", in this quarter, by CPFL Paulista in relation to energy purchased and charges (see note 3.a);
- iii. The effects of recalculation of the 2005 and 2006 IRT of CPFL Paulista, made in the previous year at the time of the 2007 tariff adjustment, which generated an additional CVA asset of R\$ 177,710 and a regulatory liability – refund to the consumer of R\$ 98,635 (reduction of R\$ 79,075 in net cost in that year – see note 3.b.2);
- iv. Acquisition of CPFL Jaguariúna, generating an increase in the cost of electric energy of R\$ 34,040;
- v. The increase of R\$ 26,091 in the cost of electric energy for the generators compared with the same quarter of 2007 is mainly due to the purchases made by the Castro Alves plant, amounting to R\$ 19,784, due to the delay in energy generation and the commitment assumed to deliver energy already contracted, and to the energy acquisition cost of R\$ 4,560 paid by the subsidiaries Baesa and Enercan due to the lack of rain in the period;
- vi. Increase of R\$ 53,548 on purchased energy in the Free Market ("Ambiente de Contratação Livre – ACL");
- vii. Price adjustment in relation to inflation passed on in the period.

Although there was an increase of 4.5% in the amount of energy sold, energy purchases remained stable. This was mainly due to the energy supplied to the distributors by the generation subsidiaries, eliminated in the consolidation process.

Operating Costs and Expense

Operating Cost and Expense amounted to R\$ 363,176 in the quarter, an increase of 15.3% (R\$ 48,120) compared to the same period of the previous year. This increase was mainly due to:

- **Manageable Operating Expenses**

These comprise costs of Personnel, Material, Outsourced Services and Other Expenses, and totaled R\$ 278,136 in the first quarter of 2008, an increase of 20.8% (R\$ 47,940) in relation to the same quarter of 2007. In addition to the adjustments in relation to inflation for the period, the increase was due to (i) the effects of the operational start-up of Castro Alves (CERAN complex) and acquisition of CPFL Jaguariúna (R\$ 20,184), (ii) provision for taxes of Fundação CESP paid by the sponsors (R\$ 3,979) and (iii) increase in the expense for outsourced services due to the activities carried out by our commercial agents (R\$ 6,482).

- **Private Pension Plan**

The Private Pension Plan recorded income of R\$ 21,039 in the quarter (R\$ 8,456 higher than in the same period of 2007). The variation was mainly due to the anticipated earnings on the plan's assets, in accordance with the Actuarial Report of December 2007.

- **Depreciation and Amortization**

The increase of 8.1% (R\$ 7.3 million) refers basically to the effects of ENERCAN (R\$ 2.5 million) and CPFL Jaguariúna (R\$ 2.7 million).

Financial Income (Loss)

The net financial results for the quarter were an expense of R\$ 117,807, in comparison with R\$ 107,046 in the same period of 2007, due mainly to:

- i. The increase in monetary and exchange charges related to the higher indebtedness, due to issuing of debentures amounting to R\$ 450,000 for the acquisition of CPFL Jaguariúna and the operational start-up of Enercan and Ceran, amounting to R\$ 8,557 and R\$ 2,429, respectively;
- ii. A reduction of R\$ 18,665 in banking expense, mainly due to suspension of the Provisional Contribution on Financial Movement - CPMF;
- iii. A reduction of R\$ 23,735 in financial income in relation to interest on regulatory assets, mainly due to realization of the Extraordinary Tariff Adjustment (RTE) and Parcel "A" and the reduction in the indexes for restating a portion of the regulatory assets;
- iv. Favorable impact on the financial result of the reduction in the indexes, including the CDI and the TJLP.

Social Contribution and Income Tax

Taxes on income amounted to R\$ 169,706 in the first quarter of 2008, a reduction of 16.8% (R\$ 34,349) in relation to the same quarter of 2007, due to (i) the reduction in the pre-tax profit and (ii) recording, in March 2007, of the income tax credit of R\$ 40,234, resulting from the merger of SEMESA's operations by CPFL Geração.

Net Income and EBITDA

Due to the factors mentioned above, with the emphasis on the effect of R\$ 186,352 (R\$ 111,895 net of taxes) in relation to the adjustments of overcontracting of energy, the net income recorded in the quarter was R\$ 273,067, 42.3% (R\$ 199,861) lower than the same period of 2007.

The adjusted EBITDA (Net income for the quarter, eliminating the effects of the private pension plan, depreciation, amortization, financial income (loss), equity pick-up, social contribution, income tax and extraordinary item) for the first quarter of 2008 was R\$ 645,620, 25.7% (R\$ 223,269) less than the EBITDA for the same period of 2007.

15.01 – INVESTMENTS

(Not reviewed by independent auditors)

Our principal capital expenditure in the last years have been for the maintenance and upgrading of our distribution network and generation projects. The following table sets forth our capital expenditure for the first quarter of 2008, as well as the three years ended December 31, 2007, 2006 and 2005.

	In million of R\$			
	Three Months	Year Ended December 31,		
		2007	2006	2005
Distribution:				
CPFL Paulista	62	291	245	189
CPFL Piratininga	29	144	131	86
RGE	37	221	151	93
CPFL Santa Cruz	4	11	-	-
CPFL Jaguariúna	3	9	-	-
Total distribution	136	676	527	368
Generation	91	445	266	255
Commercialization	2	9	4	4
Other	1	2	-	-
Total	229	1,132	797	627

We plan to make capital expenditures totaling approximately R\$ 1,233 million in 2008 and approximately R\$ 1,126 million in 2009. Of total budgeted capital expenditure over this period, R\$ 1,505 million is for distribution, R\$ 815 million is for generation, R\$ 0.4 million is for holding and R\$ 39 million is for commercialization.

16.01 OTHER IMPORTANT INFORMATION ON THE COMPANY

17.01 REPORT ON SPECIAL REVIEW-UNQUALIFIED

(Convenience Translation into English from the Original Previously Issued in Portuguese)

Independent auditors' review report

To
The Shareholders and Directors
CPFL Energia S.A.
São Paulo - SP

1 We have reviewed the accompanying quarterly financial information individual and consolidated of CPFL Energia S.A. as of March 31, 2008, comprising the balance sheet, and the statements of income, cash flows and added value, the performance reports and relevant information, prepared under the responsibility of the Company's Management.

2 The quarterly financial information of the jointly-owned indirect subsidiary BAESA - Energética Barra Grande S.A. as of March 31, 2008 was reviewed by other independent auditors, who issued a qualified special review report on April 22, 2008, with respect to a lack of recognition of a liability resulted from acquisition of energy in February 2008. If the company had recorded the effect of the adjustment, the shareholders equity and the statement of income would be understated in R\$ 1,123 thousand, and the effect in the indirect controlling company CPFL Energia S.A. would be R\$ 280 thousand. CPFL Energia S.A. values its indirect interest in BAESA - Energética Barra Grande S.A. by the equity method of accounting and consolidates this investment by the proportional consolidation method. As of March 31, 2008, the balance of this investment is R\$ 135,317 thousand, and the equity in income of subsidiaries and associated companies of this investment in the net income for this three-month period is a profit of R\$ 3,986 thousand. The quarterly financial information of this indirect investee included in the consolidated quarterly financial information presents proportional assets of R\$ 378,443 thousand as of March 31, 2008. Our report, as regards the amounts generated by this company during the aforementioned three-month period is based exclusively on the report of the review conducted by the independent auditors of BAESA - Energética Barra Grande S.A.

3 Our review was conducted in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON) and the Federal Accounting Council (CFC), which consisted mainly of (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas of the Company and its subsidiaries about the main criteria adopted in preparing the quarterly financial information, and (b) review of the information and subsequent events that have or may have material effects on the financial position and operations of the Company and its subsidiaries.

4 Based on our special review and the review reports issued by other independent auditors, we are not aware of any material modifications that should be made to the quarterly financial information mentioned in paragraph 1 for it to be in conformity with the regulations issued by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory quarterly financial information, including the CVM instruction 469/08.

5 As described in note 29, Law 11638 was published on December 28, 2007 applicable as from the January 1, 2008. This law amended, revoked and introduced new provisions to law 6404/76 (Corporation Law) and has introduced changes in accounting practices adopted in Brazil. Although the aforementioned law has already come into force, some changes introduced by it depend on regulation on the part of regulatory agencies in order to be applied by the companies. Accordingly, in this transition stage, the Brazilian Securities Commission (CVM), through CVM instruction 469/08, has made the non-application of all the provisions of Law 11638/07 optional in the preparation of the quarterly information. Accordingly, the information contained in the quarterly information for the quarter ended March 31, 2008 was prepared in accordance with the specific instructions of CVM and do not include all the changes in the accounting practices introduced by Law 11638/07.

6 As mentioned in Note 3, item (b.2) to the quarterly financial information, as result of the second periodical tariff review established on the concession agreement, the Brazilian Electricity Agency (ANEEL) ratified, on a temporary basis, the percentage of the subsidiary Companhia Piratininga de Força e Luz, of -10.11%, to be applied to the tariffs as of October 23, 2007. The possible effects resulting from this final review, if any, will be recorded in the Company's equity and financial position in subsequent periods.

7 As mentioned in Note 3, item (b.2) to the quarterly financial information, as result of the second periodical tariff review established on the concession agreement, the Brazilian Electricity Agency (ANEEL) ratified, on a temporary basis, the percentage of the subsidiary Companhia Paulista de Força e Luz, of -13.61%, to be applied to the tariffs as of April 8, 2008. The possible effects resulting from this final review, if any, will be recorded in the

Company's equity and financial position in subsequent periods.

8 As mentioned in Note 3, item (b.2) to the quarterly financial information, as result of the second periodical tariff review established on the concession agreement, the Brazilian Electricity Agency (ANEEL) ratified, on a temporary basis, the percentage of the subsidiary Rio Grande Energia S.A., of 4.77%, to be applied to the tariffs as of April 19, 2008. The possible effects resulting from this final review, if any, will be recorded in the Company's equity and financial position in subsequent periods.

9 As mentioned in Note 3, item (b.2) to the quarterly financial information, as result of the second periodical tariff review established on the concession agreement, the Brazilian Electricity Agency (ANEEL) ratified, on a temporary basis, the percentage of the subsidiary Companhia Luz e Força Santa Cruz, of -7.13%, to be applied to the tariffs as of February 1, 2008. The possible effects resulting from this final review, if any, will be recorded in the

Company's equity and financial position in subsequent periods.

10 As mentioned in Note 3, item (b.2) to the quarterly financial information, as result of the second periodical tariff review established on the

concession agreement, the Brazilian Electricity Agency (ANEEL) ratified, on a temporary basis, the percentage of the indirect subsidiaries of CPFL Jaguariuna group, Companhia Paulista de Energia Elétrica, Companhia Sul Paulista de Energia Elétrica, Companhia Jaguari de Energia e Companhia Luz e Força Mococa respectively in -1.65%, -3.57%, -1.58% e -5.65% to be applied to the tariffs as of February 1, 2008. The possible effects resulting from this final review, if any, will be recorded in the Company's equity and financial position in subsequent periods.

11 The statements of income, cash flows and added value, individual and consolidated of CPFL Energia S.A. for the three-month period ended March 31, 2007, which are presented for comparative purposes, were reviewed by other independent auditors who issued an unqualified special review report thereon, dated April 24, 2007.

18.02 – COMMENTS ON PERFORMANCE OF SUBSIDIARIES

Gross Revenue

The Gross revenue for the 1st quarter of 2008, which includes the operations of the subsidiaries CLION, Sul Geradora and Cone Sul (from May, 2007), was R\$ 435,112, a decrease of 3% in relation to the same quarter of 2007.

Net Income

Net income of R\$ 25,105 was recorded in the 1st quarter of 2008, a decrease of R\$ 49,289 (66%) compared to the same quarter of 2007. The decrease is due principally to the application for recalculation and reassessment of accounting for energy sales to the CCEE in the period April 2005 to February 2008, which resulted in reversal of revenue in the quarter, restated at the IGP-M rate, of R\$ 71.879, or R\$ 43,384 after tax. The reassessment was proposed to the CCEE by CPFL Brasil, in connection with the tariff review of CPFL Paulista and CPFL Piratininga, described by CPFL Energia in Note 3.b.2. The effects on CPFL Brasil's income are shown below:

Reversal of income in the CCEE	(66,438)
PIS and COFINS	6,146
Effects on net revenue	(60,292)
Financial expenses	(5,441)
	(65,733)
Income tax and social contribution	22,349
Effects on net income in the period	(43,384)

EBITDA (net income before financial income, income tax and social contribution, depreciation and amortization) for the 1st quarter of 2008 was R\$ 36,821, a decrease of 67% in relation to the same quarter of 2007, which amounted to R\$ 111,602 (information not reviewed by the Independent Auditors).

Subsidiary: CPFL PIRATININGA DE FORÇA E LUZ

The subsidiary CPFL Piratininga de Força e Luz is a public company and its Comments on the performance in this quarter are attached in the Interim Financial Statements as of March 31, 2008, filed at CVM (Brazilian Securities Commission).

18.02 COMMENTS ON PERFORMANCE OF SUBSIDIARIES

Subsidiary: RIO GRANDE ENERGIA S.A.

The subsidiary Rio Grande Energia S.A. is a public company and its Comments on the performance in this quarter are attached in the Interim Financial Statements as of March 31, 2008, filed at CVM (Brazilian Securities Commission).

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
