(2) PRESENTATION OF THE INTERIM FINANCIAL STATEMENTS

The individual (Parent Company) and consolidated quarterly financial statements were prepared in accordance with (i) generally accepted accounting principles in Brazil, having fully complied with all the concepts introduced by Law nº 11,638/07 and Provisional Measure nº 449/08, (ii) the Accounting Manual of the Public Electric Energy Service, (iii) the regulations laid down by ANEEL, and (iv) based on the guidelines provided by the Brazilian Committee on Accounting Pronouncements (Comitê de Pronunciamentos Contábeis - CPC) and approved by the Brazilian Securities Commission (Comissão de Valores Mobiliários - CVM), consistent with those used in preparation of last fiscal year's financial statements, and should be analyzed in conjunction with those.

2.1 Law nº 11,638/07 and Provisional Measure nº 449/08

Law nº 11,638 was enacted on December 28, 2007, amending, revoking and adding to the provisions of Brazilian Corporate Law (Law nº 6.404/76), relating to the preparation and disclosure of Financial Statements. On December 3, 2008, Provisional Measure nº 449 amended and added to certain aspects of that law and introduced the transition tax regime, among other measures.

The quarterly financial statements for March 31, 2009 and the financial statements for December 31, 2008 reflect, in all material respects, the changes proposed by Law nº 11,638/07 and Provisional Measure nº 449/08. Pursuant to "CPC 13 – Initial Adoption of Law nº 11,638/07 and Provisional Measure nº 449/08", the Company and its subsidiaries have modified the quarterly financial statements for the period to March 31, 2008 so as to reflect the changes introduced by the legislation.

Accordingly, the effects of the changes in accounting practices and reclassifications on the income for the quarters ended March 31, 2009 and 2008 are shown below:

	Net income		Shareholders' equity
	1st quarter 2009	1st quarter 2008	March 31, 2009

Position after adoption of Law nº 11,638/07	282,703	265,332	5,301,322
Reclassifications:			
Income - From "financial expenses" to "operating expenses" (Amortization of intangible asset of concession)	(37,586)	(38,476)	
Income - From "nonoperating income" to "other operational expenses"	(4,490)	(6,435)	

2.2 Consolidation Principles

The consolidated quarterly financial statements include the balances and transactions of the Company and its direct subsidiaries (Note 1). To December 31, 2008 the financial statements of Perácio were consolidated by the Company. Since the corporate restructuring (Note 12.1), in which Perácio was merged by CPFL Jaguariúna, the Company holds a direct interest in the subsidiaries CPFL Leste Paulista, CPFL Jaguari, CPFL Sul Paulista, CPFL Mococa, CPFL Serviços, CPFL Planalto, CPFL Jaguari Geração and CPFL Jaguariúna.

Prior to consolidation into the Company's financial statements, the financial statements of CPFL Geração, CPFL Jaguarí Geração and CPFL Brasil are consolidated with those of their subsidiaries, fully (majority) controlled subsidiaries or proportionally (jointly) controlled subsidiaries.

In compliance with the conditions described above, the portion relating to the non-controlling shareholders is stated separately in liabilities and income statements for each year presented.

All significant intercompany balances and transactions have been eliminated.

The accounting practices of the subsidiaries are consistent with those adopted by the Company, in December 31, 2008, in accordance with initial compliance with Law nº 11,638/07 and Provisional Measure nº 449/08 (above).

(**) Deferred Tariff Costs and Gains Variations from Parcel "A" itens - ("CVA")

a) Rationing ("RTE", "Free Energy" and Parcel "A")

a.1) Extraordinary Tariff Adjustment (RTE)

At the end of 2001, as a result of the Emergency Program for the Reduction of Electric Energy Consumption, in effect between June 2001 and February 2002, the generators, the power distributors and the Federal Government signed the "Overall Agreement for the Electric Energy Sector". This agreement introduced, as a mechanism to reimburse the energy sector for the losses incurred as a result of this program, an Extraordinary Tariff Increase of 2.9% on energy supplied to residential consumers (except those regarded as "low income consumers") and for rural and public lighting, and 7.9% for all other consumers.

Due to the end of the period stipulated for recovery of RTE, the subsidiaries CPFL Paulista and CPFL Piratininga recorded losses of R\$ 115,863 and R\$ 36,227, respectively, in 2007, writing off accounts receivable and the provision for losses on RTE. The deadline for recovery of RTE by CPFL Sul Paulista ended in January 2009, resulting in a total loss of R\$ 2,659, with no impact in this quarter, as a provision had already been recorded.

The subsidiaries CPFL Leste Paulista, CPFL Jaguari and CPFL Mococa realized the full amount of RTE in June 2005, December 2004 and December 2006, respectively.

a.2) Electric energy from Independent Suppliers ("Free Energy")

Corresponds to the energy produced and made available to the consumer market during the rationing period by the independent producers and self-producers of energy.

The distribution utilities collected the funds from the consumer through the extraordinary tariff adjustment and passed them on to the generators, according to percentage established to each concessionaire, recording an asset and a liability. These amounts are monetarily restated in accordance with the ANEEL instructions.

In the case of the subsidiary RGE, the Free Energy regulatory asset derives from the assignment, by the distributor, of its quota of Itaipu to the rationing program.

As in the case of the RTE, as of March 31, 2009, the subsidiaries RGE and CPFL Geração have a reserve for losses on realization of Free Energy amounting to a total of R\$ 7,766. The subsidiary CPFL Geração also recorded a loss of R\$ 5,501 related to a pass-through from distributors whose terms for receipt have already ended. The amounts recorded are net of these provisions.

a.3) Parcel "A"

Corresponds to the variation in the financial amounts of non-manageable costs representing Parcel "A" of the concession contracts, between January 1 and October 25, 2001. These amounts are restated based on the variation in the SELIC rate.

The subsidiary CPFL Paulista started to offset Parcel "A" as from January 2008, using a mechanism similar to that used for the RTE. For the subsidiary CPFL Sul Paulista, amortization of Parcel "A" started to be offset from February 2009, over the period required to reach the amount recorded. In the case of the subsidiaries CPFL Piratininga, CPFL Santa Cruz, CPFL Leste Paulista, CPFL Mococa and CPFL Jaguari, Parcel "A" was amortized in May 2008, November 2007, September 2005, March 2007 and August 2005, respectively.

For the subsidiary CPFL Piratininga, due to the need to bill for the full monthly cycle, collection was in excess of the existing balance, and this amount was submitted to ANEEL in the 2008 Tariff Adjustment process. The process of reimbursement to the consumer through the tariff started after approval by ANEEL, from October 2008, resulting, at the end of the quarter, in a liability of R\$ 5,696.

b) Tariff Review and Tariff Adjustment

b.1) 2nd cycle of Tariff Review

ANEEL provisionally established the tariff review of 2008 and 2007 for the subsidiaries, as follows:

(*) Represents the average effect perceived by consumers, as a result of the elimination from the tariff base of financial components added in the annual adjustment for the previous year.

In the case of all the companies, the provisional nature of the tariff review is due to the "Reference Company" and the "Xe factor". Additionally, the remuneration basis of the subsidiaries RGE and CPFL Santa Cruz are also on a provisional basis, while the financial component for the subsidiary CPFL Paulista is linked to overcontracting.

However, final approval was given in the subsequent tariff adjustments, except in the case of CPFL Piratininga, where in spite of the adjustment, the review is still provisional, as shown below.

On account of the process of approval of the financial components in the tariff adjustments of the subsidiaries CPFL Paulista and RGE, the following negative adjustments were recorded in the quarter:

CPFL Paulista: CVA liability of R\$ 24,118 due to recalculation of the K factor (the lower of regulatory and actual losses), reversal of R\$ 14,263 in relation to overcontracting of energy, and other regulatory liabilities of R\$ 9,133, mainly in respect of the CCEAR exposure and discounts for TUSD and Irrigation.

RGE: liabilities in relation to the subsidy of R\$ 5,156 to cooperatives and TUSD Generation of R\$ 5,495.

c) Financial components

c.1) Tariff review

The difference between the provisional and the final tariff reviews generated a liability to be returned to consumers, which was treated as a financial component in the subsequent tariff adjustment, as mentioned in item 3b.1.

c.2) Discounts TUSD and Irrigation

The subsidiaries record regulatory assets for the special discounts applied on the TUSD to the free consumers, in respect of supplying electric energy from alternative sources and on the tariffs for energy supplied for irrigation and aquaculture.

As from the 2008 tariff review, ANEEL established tariff advances in relation to the anticipation of these discounts for the next tariff period. The difference between the amount taken into consideration and the amount actually realized is offset in the next tariff adjustment.

c.3) CVA

Relates to the mechanism for offsetting the variations in unmanageable costs incurred by the electric energy distribution concessionaires. These variations are calculated in accordance with the difference between the expenses effectively incurred and the expenses estimated at the time of establishing the tariffs in the annual tariff adjustments. The amounts taken into consideration in the CVA are restated at the SELIC rate.

The net balances of CVA assets and liabilities, separated by type and accrual period, are shown below:

									368,067

c.4) Increase in PIS and COFINS

Refers to the difference between the costs relating to PIS and COFINS calculated in accordance with the current legislation, and those incorporated in the tariff.

The amounts approved in 2007 and 2006 were recorded as assets and amortized until April 2008.

In view of the discussions in respect of the nature of this credit, the Company conservatively opted to record a liability of the same amount, posted in the account "Other Accounts Payable" (note 22).

c.5) Overcontracting

Electric energy distribution concessionaires are obliged to guarantee 100% of their energy market through contracts approved, registered and ratified by ANEEL. The distribution concessionaires are also assured that costs or income derived from overcontracting will be passed on to the tariffs, limited to 3% of the energy load requirement.

In the 2008 Tariff Review process, ANEEL 2008 revised the methodology and the overcontracting amounts of the subsidiary CPFL Paulista, to include the seasonal processes and modulation of energy required. In order to maintain the consistency of the information, the subsidiaries CPFL Paulista and CPFL Piratininga also revised their procedures, including the contracts with the subsidiary CPFL Brasil, and made the appropriate adjustments to the accounts.

Consequently, in the first quarter of 2008, the subsidiaries CPFL Paulista and CPFL Piratininga recorded increases in "Revenue - Electric Energy Supplied" and "Costs - Cost of Electric Energy" totaling R\$ 22,694 and R\$ 137,169, respectively.

Additionally, the subsidiary CPFL Brasil recorded a provision for accounts payable of R\$ 71,879, set against reversal of revenue from energy supplied of R\$ 66,438 and financial expense of R\$ 5,441.

c.6) Low Income Consumers' Subsidy

Law nº 10,438, of April 26, 2002 and Decree nº 4.336, of August 15, 2002, established new guidelines and criteria for classification of consumer units in the low-income residential subcategory. According to the legislation, this new criteria encompasses consumer units served by monophasic circuits, with average monthly consumption in the last 12 months of less than 80kWh, and consumer units with average monthly consumption in the last 12 months of 80 to 220kWh, provided certain specific requirements are complied with, such as enrollment in Federal Government Social Programs.

Since the subsidies granted to consumers should be recovered, as from the 2008 tariff review of the distribution subsidiaries, with the exception of CPFL Piratininga, it was decided that part of this subsidy would be reimbursed through the tariff in the ambit of the concessionaire itself (in accordance with the DNAEE Administrative Ruling) and the remaining part (in accordance with Law nº 10,438/02) through the receipt of CDE funds.

However, since reimbursement with CDE funds is not possible, due to the lack of resources for this purpose, the receivables were taken into account as a financial component in the 2009 tariff adjustment of the subsidiary CPFL Paulista, and in the case of the other subsidiaries will be reimbursed in the next tariff review. In the case of the subsidiary CPFL Piratininga, it was decided that the full amount of the subsidy will be reimbursed through the tariff in the ambit of the concessionaire itself.

As from the 2009 and 2008 tariff adjustments, ANEEL introduced a new system granting tariff adjustments to cover in full subsidies granted to the consumers. Accordingly, the difference between the subsidy actually made and the advance received will be calculated monthly for purposes of inclusion in the next tariff adjustment.

c.7) Other financial components

Mainly refers to CCEAR exposure, financial guarantees, subsidies to cooperatives and licensees and consultancy (measures to be taken and remuneration basis).

(6) FINANCIAL INVESTMENTS

In 2005, through a Private Credit Agreement, the Company acquired the credit arising from the Purchase and Sale of Electric Energy Agreement between Companhia Energética de São Paulo ("CESP") (seller) and CPFL Brasil (purchaser), referring to the supply of energy for a period of 8 years. The amounts handed over by the Company to CESP will be settled using the funds derived from the acquisition of energy produced by that company for CPFL Brasil.

As of March 31, 2009, the current assets balance of the parent company is R\$ 38,904 (R\$ 38,249 as of December 31, 2008), and the noncurrent assets balance is R\$ 80,832 (R\$ 87,117 as of December 31, 2008). The operation is subject to interest of 17.5% p.a., plus the annual variation of the IGP-M, and is amortized in monthly installments of amounts corresponding to the purchase of energy.

The estimate for recovery of the deferred tax credits recorded in noncurrent assets, derived from tax loss carryforwards, negative social contribution bases, temporarily non-deductible differences and the tax benefit of merged goodwill, is based on the projections of future income, approved by the Board of Directors and examined by the Fiscal Council. For the quarter ended March 31, 2009, Management does not anticipate significant changes in the projections disclosed in the December 31, 2008 financial statements.

10.2 - Tax Benefit on Merged Goodwill:

The tax benefit on merged goodwill refers to the tax credit calculated on the merged goodwill on acquisition of permanent interests and is recorded in accordance with CVM Instructions nº 319/99 and nº 349/01. The benefit is realized in proportion to amortization of the merged goodwill, in accordance with the net projected net income of the subsidiaries during the remaining term of the concession, as shown in Note 14.

Corporate Restructuring: Perácio, CPFL Jaguariúna and subsidiaries

On December 30, 2008, in Authorization Resolution nº 1,737, ANEEL approved a corporate restructuring involving Perácio, CPFL Jaguariúna and its subsidiaries. The operation was put into effect in the quarter, and consisted of:

• Increase in the capital of Perácio:

With a view to the merger of Perácio by CPFL Jaguariúna, an Extraordinary General Meeting (“AGM”) held on January 29, 2009 approved an increase of R\$ 413,543 in the capital of Perácio by the Company, by capitalization of AFAC amounting to R\$ 409,310 and other accounts receivable of R\$ 4,233.

• Merger of Perácio by CPFL Jaguariúna:

An AGE held on February 18, 2009 approved the merger of Perácio by CPFL Jaguariúna. The merged company was consequently terminated and CPFL Jaguariúna succeeded to all its assets, rights and obligations.

• Partial spin-off of CPFL Jaguariúna:

An AGE held on March 25, 2009 approved the partial spin-off and reduction of capital of CPFL Jaguariúna.

In the spin-off, the goodwill, the related provision and the tax benefit on the merged goodwill (Perácio), recorded according to the CVM Instruction nº 319/99 e nº 349/01, amounting net to R\$ 40,824, were merged into the CPFL Leste Paulista, CPFL Sul Paulista, CPFL Jaguari, CPFL Mococa and CPFL Serviços. Additionally, the capital of CPFL Jaguariúna was reduced by R\$ 290,248, consisting of transfer to CPFL Energia of the investment in the subsidiaries CPFL Leste Paulista, CPFL Sul Paulista, CPFL Mococa, CPFL Jaguari, CPFL Planalto, CPFL Serviços and CPFL Jaguari Geração, totaling R\$ 201,339; of dividend receivable of R\$ 66,776; cash of R\$ 2,000; liabilities of R\$ 23,917; and net goodwill balance of R\$ 44,050 (adjusted goodwill of R\$ 41,614 and R\$ 2,436 related to the goodwill on acquisition of non-controlling shareholders).

The capital of CPFL Jaguariúna was also reduced by R\$ 290,248, by transfer to CPFL Energia of the investments in the subsidiaries CPFL Leste Paulista, CPFL Sul Paulista, CPFL Mococa, CPFL Jaguari, CPFL Planalto, CPFL Serviços and CPFL Jaguari Geração, amounting to R\$ 201,339; Dividend Receivable of R\$ 66,776; cash of R\$ 2,000; liabilities amounting to R\$ 23,917 and the net goodwill balance of R\$ 44,050 (R\$ 41,614 in adjusted goodwill and R\$ 2,436 in relation to goodwill on acquisition of minority interests). The goodwill on acquisition of minority, after being merged and application of CVM nº 319/99 and nº 349/01, generated a tax credit of R\$ 808 in the subsidiaries and adjusted goodwill of R\$ 1,628 for the Company.

The additional investment of R\$ 245,452 in the Company shown in the previous changes refers to the remaining equity of CPFL Jaguariúna, amounting to R\$ 2,481, capital reduction of R\$ 201,339 and the transfer and recording of the tax benefits of R\$ 40,824 and R\$ 808, respectively.

After completion of the corporate restructuring, the Company holds direct control of these subsidiaries.

Capital Reduction:

The AGE of March 25, 2009 also approved a reduction of capital of the subsidiaries CPFL Leste Paulista, CPFL Sul Paulista, CPFL Mococa and CPFL Jaguari. The objective of this reduction, which resulted in a financial reimbursement of R\$ 58,236 to the Company, was to adjust the capital structure, to standardise it was the other group. This operation did not result in cancellation of shares.

(*) Changes due to the corporate restructuring of CPFL Jaguariúna

In the first quarter of 2009, the Company received R\$ 8,000 from the subsidiary CPFL Geração and R\$ 3,000 from the subsidiary CPFL Santa Cruz, in relation to dividends declared in prior periods.

12.3 – Investment at cost

Refers mainly to the indirect subsidiary Paulista Lajeado Energia S.A.'s 5.91% participation in the total capital of Investco S/A, comprising 25,829 common shares and 16,412 preferred shares. This investment is recorded on a cost basis. Due to the participation of minority shareholders in the form of (i) preferred shares representing 40.07% of the total capital of Paulista Lajeado, and (ii) beneficiaries (founder-shares) which assign the right to 10% of net income before profit sharing, these effects, totaling R\$ 73,895, were registered in consolidated financial statements in the Non-Controlling Shareholders Interest liabilities.

12.4 – Goodwill

With regard to the type of goodwill recorded in the parent company, see Note 14.

(*) Information about corporate restructuring - see note 12.

Until December 31, 2007, goodwill on the acquisition or increase in equity interest was recorded under Investments (“Goodwill”) and Property, plant and equipment (“Other assets not tied to the concession”). Since the enactment of Law nº 11,638/07 and the publication of CPC 04 “Intangible Assets”, in 2008, these amounts are defined and classified as intangible assets.

• Intangible assets – Concession

The difference between the amount paid and the equity of acquired companies on the acquisition dates. Correspond to the parent company’s future benefit of the right to exploit the concession and are classified as intangible assets with a fixed useful life, amortized in proportion to the concessionaires’ projected net income curves for the remaining term of the concession contract. The intangible concession assets are as follows:

- Intangible assets acquired, not merged

In the parent company, refer mainly to goodwill on the acquisition of the remaining shares held by the minority shareholders of CPFL Geração in June 2005, CPFL Paulista and CPFL Piratininga in November 2005 and RGE in December 2007. In the consolidated 2008 financial statements, includes the intangible asset of acquisition of CPFL Jaguariúna, which was merged in the quarter (Note 12.1) .

- Intangible assets acquired and merged – Deductible

Relates to the goodwill on the acquisition of the subsidiaries that was merged with the respective net equities, without application of CVM Instructions 319/99 and 349/01, that is, without segregation of the amount corresponding to the tax benefit.

- Intangible asset acquired and merged – Reassessed

In order to comply with ANEEL instructions and avoid the goodwill amortization resulting from the merger of a parent company causing a negative impact on dividends paid to the shareholders, the subsidiaries applied the concepts of CVM Instructions nº 319/99 and nº 349/01 on the acquisition goodwill. A reserve was therefore recorded to adjust the goodwill, set against the equity reserves of the subsidiaries, so that the effect on the equity reflects the tax benefit of the merged goodwill. These changes affected the Company's investment in the subsidiaries, and in order to adjust this, non-deductible goodwill was recorded for tax purposes.

The Company and its subsidiaries hold swap converting the local cost of currency variation to interest tax variation in reais, corresponding to

(1) 133.9% to 174% of CDI (3) 104.5% of CDI (5) 106.0% of CDI (7) 104.2% and 104.5% of CDI

(2) 106.5% and 107.0% of CDI (4) 102.9% of CDI (6) 103.5% of CDI

(8)As certain assets are dollar indexed (note11), a partial swap of R\$27,635 converting the currency variation to 98%, 98.5% and 99.4% of CDI.

As shown in the breakdown in the figures above, the Company and its subsidiaries, in compliance with CPC 14 Financial Instruments, classified their debts as (i) financial liabilities not measured at fair value (or measured at cost), and (ii) financial liabilities calculated at fair value through profit or loss.

The objective of classification as financial liabilities measured at fair value is to compare the effects of recognition of income and expenses derived from marking to market the derivatives used as a hedge tied to the respective debts in order to obtain more relevant and consistent accounting information. The following figure provides additional information as to the cost value of the debts and the comparison with the respective fair values:

The changes in the fair values of these debts are recorded in the financial income (expense) of the Company and its subsidiaries. The gains obtained by marking these debts to market (R\$ 24,447) are offset by the effects of R\$ 34,341 obtained by marking to market the derivative financial instruments contracted as a hedge against exchange and interest variations (Note 28), generating a net loss of R\$ 9,894.

BNDES – Investment (CERAN) – The last installment of the BNDES loan of R\$ 4,832 (R\$ 3,141 in proportion to the participation of CPFL Geração) contracted in February 2004 to finance the 14 de Julho project was released in the quarter. The interest and principal have been paid monthly since November 2008.

Financial Institutions (RGE) – The subsidiary contracted a loan from HSBC Corretora de Títulos e Valores Mobiliários in March 2009, in the form of 16 (sixteen) promissory notes with a unit face value of R\$ 10,000, amounting to a total of R\$ 160,000. The funds raised by public distribution of the promissory notes will be used to pay 2nd series debentures of the 2nd issue, in April 1st 2009. There are no restrictive clauses.

RESTRICTIVE COVENANTS

The loan and financing agreements are subject to certain restrictive covenants, containing clauses that, among other conditions, require the subsidiaries to maintain certain financial ratios within predefined parameters. Details of these restrictive covenants are presented in the financial statements as of December 31, 2008. The Management of the Company and its subsidiaries monitor these indices systematically and constantly to ensure that the contractual conditions are complied with.

In the opinion of Management of the Company and its subsidiaries, these restrictive covenants and clauses are being adequately complied with.

(19) EMPLOYEE PENSION PLANS

The subsidiaries CPFL Paulista, CPFL Piratininga and CPFL Geração, through Fundação CESP, the subsidiary RGE, through Fundação CEEE de Seguridade Social - ELETROCEEE, the subsidiary CPFL Santa Cruz through BB Previdência – Fundo de Pensão Banco do Brasil and the subsidiary CPFL Jaguariúna through IHPREV Fundo de Pensão, sponsor supplementary retirement and pension plans for their employees. The main characteristics of these plans are as follows:

I – CPFL Paulista

The plans currently in effect for the employers of the subsidiary CPFL Paulista are a “Proportional Paid-Up Supplementary Benefit Plan” and a “Mixed Benefit Plan”. On modification of the Pension Plan in October 1997, the subsidiary recognized an obligation to pay in respect of the plan deficit determined at the time by the external actuaries of Fundação CESP. This deficit will be liquidated in 260 installments, amortized monthly, plus interest of 6% p.a. and restatement based on the IGP-DI (FGV). Through the addendum to the agreement with Fundação CESP dated January 17, 2008, the payment terms were changed to 238 monthly payments and 19 annual installments, in relation to the base date of December 31, 2007, with final maturity on October 31, 2027. In accordance with the contract, the liability is adjusted annually in accordance with the deficit/ surplus determined in an actuarial report, performed in accordance with the Secretaria de Previdência Complementar (“SPC”) rules, which differ from the accounting criteria adopted by the subsidiary in accordance with CVM Ruling nº 371/00. The balance of the liability as of March 31, 2009 is R\$ 690,738 (R\$ 702,696 as of December 31, 2008).

II – CPFL Piratininga

As a result of the split-off of Bandeirante Energia S.A. (the subsidiary's predecessor), the subsidiary CPFL Piratininga assumed the responsibility for the actuarial liabilities for its retired and discharged employees up to the date of the split-off, as well as the responsibilities relating to the active employees transferred to CPFL Piratininga.

A Proportional Supplementary Defined Benefit ("BSPS") and a Mixed Benefit Plan are currently in effect for CPFL Piratininga's employees.

In September 1997, through a contractual instrument of adjustment of reserves to be amortized, Eletropaulo Metropolitana Eletricidade São Paulo S.A. (the predecessor of Bandeirante) recognized an obligation to pay in respect of the plan deficit determined at the time by the external actuaries of Fundação CESP, to be liquidated in 260 installments, amortized on a monthly basis, plus interest of 6% p.a. and restatement based on the IGP-DI (FGV). Under the Contractual Amendment, signed with Fundação CESP on January 17, 2008, the payment terms were amended to 221 monthly payments and 18 annual installments, in relation to the base date of December 31, 2007, with final maturity on May 31, 2026. In accordance with the contract, the liability is adjusted annually in accordance with the deficit/ surplus determined in an actuarial report, performed in accordance with the SPC rules, which differ from the accounting criteria adopted by the subsidiary in accordance with CVM Ruling nº 371/00. The balance of the liability as of March 31, 2009 is R\$ 180,183 (R\$ 183,507 as of December 31, 2008).

III – RGE

A defined benefit type plan, with a benefit level equal to 100% of the adjusted average of the most recent salaries, including the presumed Social Security benefit, with a Segregated Net Asset administered by ELETROCEEE. Only those employed prior to the spin-off from CEEE to RGE are entitled to this benefit.

IV – CPFL Santa Cruz

Since November 1, 2007, management of the benefits plan of the subsidiary CPFL Santa Cruz, originally performed by FUNSEJEM, has passed to BB Previdência Fundo de Pensão do Banco do Brasil. The subsidiary CPFL Santa Cruz plan is a defined contribution plan.

V – CPFL Geração

The plans currently in force for the employees of subsidiary CPFL Geração are a Proportional Supplementary Defined Benefit ("BSPS") and a Mixed Benefit Plan, along the same lines as the CPFL Paulista plan.

With the modification of the Retirement Plan, at that point maintained by CPFL Paulista, in October 1997, a liability was recognized as payable by the subsidiary CPFL Geração, relating to the plan deficit calculated by the external actuaries of Fundação CESP, which is being amortized on a monthly basis, in 260 installments, plus interest of 6% p.a. and restatement according to the IGP-DI

(FGV). Under the Contractual Amendment, signed with Fundação CESP on January 17, 2008, the payment terms were amended to 238 monthly installments and 19 annual installments, in relation to the base date of December 31, 2007, with final maturity on October 31, 2027. Under the contract, the liability is adjusted annually in accordance with the deficit/surplus determined in the actuarial report, carried out in accordance with the regulations of the SPC, which differ from the entry criteria followed by the subsidiary in conformity with CVM Decision nº 371/00. The balance of the obligation, as of March 31, 2009, is R\$ 13,994 (R\$ 14,237 as of December 31, 2008).

VI – CPFL Jaguariúna

In December 2005, the companies joined the CMSPREV private pension plan, administered by IHPREV Pension Fund. The plan is structured through the defined contribution type.

The reserves for contingencies were based on appraisal of the risks of losing litigation to which the Company and its subsidiaries are parties, where a loss is probable in the opinion of the legal advisers and the management of the Company and its subsidiaries. Details of the nature of the provisions for contingencies and judicial deposits are presented in the financial statements as of December 31, 2008.

Possible Losses - The Company and its subsidiaries are parties to other suits processes and risks in which management, supported by its legal advisers, believes that the chances of a successful outcome are possible, due to a solid defensive base in these cases. These questions do not yet indicate a trend in the decisions of the courts or any other decision in similar proceedings considered probable or remote, and therefore no provision has been established for these. As of March 31, 2009, the claims relating to possible losses were as follows: (i) R\$ 238,250 for labor suits (R\$ 230,267 as of December 31, 2008); (ii) R\$ 437,039 for civil suits, mainly for suits for personal injuries, environmental damages and tariff increases (R\$ 492,093 as of December 31, 2008); and (iii) 550,981 in respect of tax suits, relating basically to Income Tax, ICMS, FINSOCIAL and PIS and COFINS (R\$ 525,326 as of December 31, 2008).

Based on the opinion of their legal advisers, Management of the Company and of its subsidiaries consider that there are no significant contingent risks that are not covered by adequate provisions in the Financial Statements, or that might result in the significant impact on future earnings.

(28) FINANCIAL INSTRUMENTS AND OPERATING RISKS**Classification of the financial instruments**

The financial instruments are classified as:

Financial assets, in the categories: (i) loans and receivables, (ii) calculated at fair value through profit or loss, (iii) held-to-maturity investments and, (iv) available for sale. Classification is based on the following criteria:

i. Loans and receivables

These are financial assets with fixed or calculable payments that are not quoted in an active market. These financial assets are recorded at historic cost by the amortized cost method.

The main financial assets of the Company and its subsidiaries classified in this category are: (i) consumers, concessionaires and licensees (Note 5), (ii) dividends and interest on capital (Note 12.2) and (iii) other credits (Note 11).

ii. Calculated at fair value through profit or loss

These are financial assets that are (i) maintained for short-term trading, (ii) designated at fair value with the objective of comparing the effects of recognition of income and expenses in order to obtain more relevant and consistent accounting information or, (iii) derivatives. These assets are recorded at their fair values and, in the case of any subsequent change in these fair values, they are set against the income statement.

The main financial assets of the Company and its subsidiaries classified in this category are: (i) cash and cash equivalents and short-term financial investments (Note 4) and (ii) derivatives.

iii. Held-to-maturity investments

These are non derivative financial assets with fixed or calculable payments and defined maturities, which the Company intends to maintain until maturity. The financial assets in this classification are recorded at historic cost by the amortized cost method.

The Company and its subsidiaries classified the following financial assets in this category: (i) security receivable from CESP (Note 6) and, (ii) credits receivable by the subsidiary CPFL Paulista from CESP (Note 11).

iv. Available for sale

Refers to the financial assets that do not fall into any of the above classifications or that are designated as available for sale. These financial assets are recorded at the respective fair values and, in the case of any subsequent change in these fair values, they are set against the equity.

The Company and its subsidiaries have no financial assets classified in this category.

Financial liabilities, in the categories: (i) calculated at fair value through profit or loss, (ii) not calculated at fair value through profit or loss. They are classified in accordance with the following criteria:

i. Calculated at fair value through profit or loss

These are financial liabilities that are: (i) maintained for short-term trading, (ii) denominated at fair value with the objective of comparing the effects of recognition of income and expenses in order to obtain more relevant and consistent accounting information or, (iii) derivatives. These liabilities are recorded at their fair values and, in the case of any change in the calculation of these subsequent fair values, they are set against the income statement.

The Company and its subsidiaries classified the following financial liabilities in this category: (i) certain debts in foreign currencies (Note 15) and, (ii) derivatives.

ii. Not calculated at fair value through profit or loss

These are other financial liabilities that do not fall into the above category. The financial liabilities in this category are recorded and amortized basically by the amortized cost method.

The main financial liabilities classified in this category are: (i) suppliers (note 17), (ii) loans and financing (Note 15), (iii) debt charges (Note 15); (iv) debenture charges (Note 16); (v) debentures (Note 16) and (vi) other accounts payable (Note 22).

Risk Considerations:

The business of the Company and its subsidiaries comprises principally generation, sale and distribution of electric energy. As public service concessionaires, the operations and/or tariffs of its principal subsidiaries are regulated by ANEEL.

The principal market risk factors that affect the business are the following:

Exchange rate risk: This risk derives from the possibility of the subsidiaries incurring losses and cash constraints on account of fluctuations in exchange rates, increasing the balances of foreign currency denominated liabilities. The exposure in relation to raising funds in foreign currency is largely covered by contracting swap operations, which allow the Company and its subsidiaries to exchange the original risks of the operation for the cost of the variation in the CDI.

The Company's subsidiaries are also exposed in their operations to exchange variations on the purchase of electric energy from Itaipu. The compensation mechanism - CVA protects the companies against possible losses.

Interest Rate Risk: This risk derives from the possibility of the Company and its subsidiaries incurring losses due to fluctuations in interest rates that increase financial expenses on loans, financing and debentures. The Company and its subsidiaries set certain loans taken out in local currency against regulatory assets restated in accordance with the variation in the SELIC rate. Swap operations have been contracted for a portion of the debentures issued as a hedge against changes in interest rates. The subsidiaries have also tried to increase the portion of loans tied to the variation in the TJLP, an index less susceptible to the oscillations of the financial market.

Credit Risk: This risk arises from the possibility of the subsidiaries incurring losses resulting from difficulties in receiving amounts billed to customers. This risk is evaluated by the subsidiaries as low, as it is spread over the number of customers and in view of the collection policy and cancellation of supply to defaulting consumers.

Risk of Energy Shortages: The energy sold by the subsidiaries is basically generated by hydropower plants. A prolonged period of low rainfall, together with an unforeseen increase in demand, could result in a reduction in the volume of water in the power plants' reservoirs, compromising the recovery of their volume, and resulting in losses due to the increase in the cost of purchasing energy or a reduction in revenue due to the introduction of another rationing program, as in 2001.

Risk of Acceleration of Debts: The Company and its subsidiaries have loan agreements, financing and debentures with restrictive clauses (covenants) normally applicable to these kinds of operation, related to compliance with economic and financial ratios, cash generation, etc. These covenants are monitored appropriately and do not restrict the capacity to operate normally.

Management of Risks on Financial instruments

The Company and its subsidiaries maintain certain operating and financial policies and strategies with a view to ensuring the liquidity, security and profitability of their assets. As a result, control and follow-up procedures are in place on the transactions and balances of financial instruments, for the purpose of monitoring the risks and current rates in relation to those used in the market.

Risk management controls: In order to manage the risks inherent to the financial instruments and to monitor the procedures established by management, the Company and its subsidiaries use the MAPS software system to calculate the VaR - *Value at Risk*, and *Mark to Market*, *Stress Testing* and *Duration* of the instruments, and assesses the risks to which the Company and its subsidiaries are exposed. Historically, the financial instruments contracted by the Company and the subsidiaries supported by these tools have produced adequate risk mitigation results. We stress that the Company and its subsidiaries contract derivatives, always with the appropriate levels of approval, only in the event of exposure that management regards as a risk. The Company and its subsidiaries do not enter into transactions involving exotic or speculative derivatives. Furthermore, the Company

and its subsidiaries meet the requirements of the Sarbanes-Oxley Law, and accordingly have internal control policies that aim for a strict control environment to minimize the exposure to risks.

Valuation of Financial Instruments

The estimates of the market value of the financial instruments were based on pricing models, applied individually for each transaction, taking into consideration the future payment flows, based on the conditions contracted, discounted to present value at market interest rates, based on information obtained from the BM&F, Bovespa and Andima websites.

Accordingly, the market value of a security corresponds to its maturity value (redemption value) marked to present value by the discount factor (relating to the maturity date of the security) obtained from the market interest graph.

In the case of specific electricity sector operations, where there are no similar transactions in the market and with low liquidity, mainly related to the emergency electric energy rationing program, regulatory aspects and credits receivable from CESP, the subsidiaries assumed that the market value is represented by the respective book value. This is due to the uncertainties reflected in the variables which have to be taken into consideration in creating a pricing model.

In addition to the assets and financial liabilities calculated at fair value through profit or loss, the Company and its subsidiaries have other financial liabilities not calculated at fair value. The market values of these financial instruments as of March 31, 2009 and December 31, 2008, applying the above methodology, are shown below:

Derivatives

As previously mentioned the Company and its subsidiaries use derivatives as a hedge against the risks of variations in exchange and interest rates, without any speculative purposes. The Company and its subsidiaries have an exchange hedge compatible with the net exposure to exchange risks, including all the assets and liabilities tied to exchange variation.

The hedge instruments contracted by the Company and its subsidiaries are currency or interest rate swaps with no leverage component, margin call requirements or daily or periodical adjustments. As terms of the majority of the derivatives contracted by the Company and its subsidiaries are fully aligned with the debts protected, and in order to obtain more relevant and consistent accounting information through the recognition of income and expenses, the respective debts were denominated, for accounting purposes, at fair value. Other debts with different terms from the derivatives contracted as a hedge continue to be recorded at cost. Furthermore, the Company and its subsidiaries do not use hedge accounting for derivative operations.

As of March 31, 2009, the Company and its subsidiaries had the following swap operations:

(1) The interest rate hedge swaps have half-yearly validity, so the notional value reduces in accordance with amortization of the debt.

(2) The interest rate hedge swaps have monthly validity, so the notional value reduces in accordance with amortization of the debt.

In spite of the net losses determined by marking the derivatives shown above to market, the effects were minimized by the option exercised by the Company and its subsidiaries also to mark to market the debts tied to hedge instruments. We show below the effects of marking the debts to market, offsetting the losses determined only for the respective tied derivatives:

Subsidiary	Derivative (*)	Debt	Net
CPFL Paulista	(27,076)	21,283	(5,793)
CPFL Geração	(7,145)	3,092	(4,053)

(*) Refer only to debt derivatives designated at fair values.

The Company and its subsidiaries have recorded gains and losses on their derivatives. However, as these derivatives are used as a hedge, these gains and losses minimized the impact of variations in exchange and interest rates on the protected indebtedness. In the first quarter of 2009 and 2008, the derivatives resulted in the following impacts on the consolidated result:

Company	Hedged risk / Operation	Account	March 31, 2009	March 31, 2008

Other exchange exposure

It should be noted that the indirect subsidiary ENERCAN has no swaps, as an exchange hedge, in relation to the debt of R\$ 103,548 to the BID and BNDES since a percentage of its tariff adjustments covers the exchange variation in the tariff period. In spite of the existence of a natural hedge against this exposure, the effect of exchange variations on these debts generated a gain of R\$ 1,203, in the first quarter of 2009, which will only be offset as from the subsidiary's next tariff adjustment.

The subsidiary CPFL Paulista also has a total indebtedness in foreign currency of R\$ 665,784. As a hedge against exchange exposure, it contracted derivatives used as a hedge directly tied to the indebtedness of R\$ 590,929. To minimize the exchange exposure, the subsidiary also contracted a non tied derivative of R\$ 27,635 and also has sufficient assets indexed in dollars (credit receivable from CESP and a fund tied to foreign currency loans – Note 11) to offset any exchange impact.

Sensitivity Analysis

In compliance with CVM Instruction n° 475/08, the Company and its subsidiaries performed sensitivity analyses of the main risks to which their financial instruments (including derivatives) are exposed, mainly comprising variations in exchange and interest rates, as shown below:

Exchange variation

If the level of exchange exposure at March 31, 2009 were maintained, the simulation of the consolidated effects by type of financial instrument for three different scenarios would be:

Instruments	Exposure	Risk	Consolidated		
			Exchange depreciation of 7%*	Exchange depreciation of 25%**	Exchange depreciation of 50%**
Financial asset instruments	53,479	apprec.dollar	4,156	13,370	26,740

Variation in interest rates

Supposing that (i) the scenario of exposure of the financial instruments indexed to variable interest rates as of March 31, 2009 were to be maintained, and (ii) the respective accumulated annual indexes as of that date were to remain stable (CDI – 11.13% p.a.; IGP-M – 6.27% p.a.; TJLP – 6.25% p.a.), the effects on the consolidated financial statements for the coming year would be a net financial expense of R\$ 497,783. In the event of fluctuations in the indexes in accordance with the three scenarios described, the effect on the net financial expense would as follows:

Instruments	Consolidated				
	Exposure (R\$ thousands)	Risk	Scenario I*	Raising index by 25%**	Raising index by 50%**
Financial asset instruments	1,438,631	CDI variation	(20,427)	40,030	80,059

(29) SUBSEQUENT EVENTS

Promissory Notes

In order to raise funds to adjust the economic and financial profile, regulating the cash flow to obtain sufficient liquidity to support their investments, a meeting of the Board of Directors held on April 2, 2009, in the case of the subsidiaries CPFL Paulista, RGE and CPFL Geração and an AGE held on April 3, 2009, in the case of the subsidiaries CPFL Leste Paulista, CPFL Sul Paulista and CPFL Jaguari, approved the first issue of commercial Promissory Notes for distribution. The amounts were released on April 29, 2009 and the Promissory Notes have the following features and conditions

	CPFL Paulista	RGE	CPFL Geração	CPFL Leste Paulista	CPFL Sul Paulista	CPFL Jaguari
Total value of single-series issue:	175,000	185,000	85,000	24,000	16,000	10,000
Promissory Notes issue:	175	185	85	48	32	20
Unit value of the Promissory Notes	1,000	1,000	1,000	500	500	500
Maturity term from issue date:	360 days	360 days	360 days	180 days	180 days	180 days

The promissory notes will be guaranteed by CPFL Energia, and will be entitled to interest equivalent to the accrued variation of 118% of the daily overnight deposit rate in unrelated financial institutions ("Taxa DI over extra-grupo").

Analysis of Results – CPFL Energia (parent company)

Net income was R\$ 282,703 in the quarter, a increase of 6.5% (R\$ 17,371) compared to the same quarter of the previous year, due mainly to results of equity in subsidiaries, as shown below:

	<u>1st quarter 2009</u>	<u>1st quarter 2008</u>
CPFL Paulista	85,279	168,633
CPFL Piratininga	66,010	32,596

CPFL Jaguariúna	(231)	7,577
CPFL Jaguari Geração	1,309	-
	<u>331,144</u>	<u>314,875</u>

The following main points affected the subsidiaries' results in the quarter:

- CPFL Paulista's negative periodic tariff review of 17.21%, applied to the tariffs from April 2008;
- Positive tariff adjustment for CPFL Geração and other distributors;
- Negative adjustments to the 2008 results as a result of overcontracting of energy by CPFL Paulista, CPFL Piratininga and CPFL Brasil (Note 3.c.5);
- Operational start-up of CPFL Geração plants;
- The corporate restructuring process that resulted in the direct participation of CPFL Energia in the following subsidiaries: CPFL Leste Paulista, CPFL Jaguari, CPFL Sul Paulista, CPFL Mococa, CPFL Serviços, CPFL Planalto, CPFL Jaguari Geração and CPFL Jaguariúna.

Gross Operating Revenue

The Gross Operating Revenue in the first quarter of 2009 was R\$ 3,587,755, down in 2.6% (R\$ 94,128) on the revenue obtained in the same period of the previous year.

The main factors that contributed to this change were:

- a) Decrease of 5.6 % (R\$ 181,507) in the provision of electric energy, justified by the reduction of 5.2% in the average tariffs applied, mainly as a result of the CPFL Paulista's -17.21% tariff review from April 2008 and a reduction in the quantity of energy billed (0.4%, 44 GWh);
- b) Increase of 32.0% (R\$ 69,014) in energy supplied, mainly due to the increase of 25.2% in the amount sold, largely as a result of the good performance of the commercialization segment.

► Quantity of Energy Sold

A decrease of 0.4% was recorded in the quantity of energy billed to final consumers in the first quarter of 2009. The residential and commercial classes, which account for 49.9% of the energy sold to end users in the quarter and have the highest average tariffs, registered growth of 8.7% and 6.5% respectively, compared with the same quarter of the previous year, due to the migration of certain rural consumers to the residential consumers class, the high temperatures in the period and the expansion of sales to the retail trade.

The amount sold to the industrial class, which accounts for 34.4% of the energy billed, decreased by 9.9%, due mainly to the impact of the international crisis on the industry in our concession area.

The total energy sales, taking into account the supply to end users and to concessionaires and licensees (bilateral agreements), increased by 3.63% in relation to the same quarter of the previous year.

There was a reduction of -2.2% in the quantity of energy sold in CPFL Energia's concession areas, affecting both the supply billed and collection of TUSD, compared with the same period of the previous year.

► Tariffs

In the first quarter of 2009, the energy supply tariffs applied decreased by an average of 5.2%, mainly due to the impacts of the tariff adjustments of the subsidiaries:

- CPFL Paulista: decrease of 17.21% and RGE: increase of 2.52%, both as from April 2008;
- CPFL Santa Cruz: increase of 24.09%, CPFL Jaguari: increase of 11.36%, CPFL Mococa: increase of 11.18%, CPFL Leste Paulista: increase of 12.94% and CPFL Sul Paulista: increase of 11.64%, as from February 3, 2009;
- CPFL Piratininga: increase of 16.54% as from October 2008.

Deductions from Operating Revenue

Deductions from Operating Income in the first quarter of 2009 amounted to R\$ 1,196,059, a reduction of 0.1% (R\$ 1,460) in relation to the same quarter of 2008, as a result of:

- a) Reduction of PIS, COFINS and ICMS, amounting R\$ 41,205 (4.2%), mainly due to a reduction in the supply billed;
- b) Offset by the increase of R\$ 39,477 in the CCC sector charges.

Cost of Electric energy

Cost of Electric Energy in the quarter totaled R\$ 1,448,316, a decrease of 6.7% (R\$ 104,349) in relation to the same period of the previous year. In spite of the effects of the prices readjustment of the generators, the variation is explained by:

- reduction of 0.1% in the amount of energy purchased;
- Reduction of R\$ 31,949 in the Parcel "A" amortization, compared with the same quarter of 2008;
- a cost increase was recorded in the first quarter of 2008 in relation to the energy overcontracting adjustment of R\$ 137,167, of which R\$ 86,824 relates to CPFL Paulista and R\$ 50,343 to CPFL Piratininga (Note 3c.5).
- Negative impact of energy overcontracting (R\$ 14,263) and CVA (R\$ 24,118) on CPFL Paulista in the first quarter of 2009 as a result of ratification of the 2009 tariff review;
- Reduction of R\$ 36,995 in the cost of energy purchased from CPFL Brasil in the quarter, mainly as a result of the drop in prices.

Operating Costs and Expense

Operating costs and expenses in the quarter amounted to R\$ 426,702, an increase of 4.6% (R\$ 18,756) compared to the same period of the previous year, mainly due to:

► Manageable Operating Expenses

Comprising costs for Personnel, Material, Third-party Services and Others, these expenses totaled R\$ 282,765 in the quarter, a decrease of 0.6% (R\$ 1,665), mainly as a result of:

- reduction of 17.8% (R\$ 11,548) in Other Expenses, largely due to reversal of the provision for recovery of doubtful accounts by the subsidiary RGE (R\$ 16,774), offset against reversal of the provision for doubtful accounts in 2008 by CPFL Paulista (R\$ 4,871);
- increase of 4.0% (R\$ 4,727) in Personnel, due mainly to the 2008 Collective Agreement;
- increase of 6.1% (R\$ 5,244) in Outsourced Services.

► Private Pension Plan

The Private Pension Plan produced expense of R\$ 919 in the quarter against income of R\$ 21,039. This was mainly to the expected return on the plan assets, as defined in the Actuarial Report prepared in December 2008.

Financial Income (Expense)

The net Financial Income (Expense) in the quarter was an expense of R\$ 62,960, compared with R\$ 91,069 in the same period of 2008, a decrease of 30.9% (R\$ 28,109): The financial income increased R\$ 6,876, mainly due to:

- a) A decrease of R\$ 7,505 in income from short-term financial investments due to the decrease in cash equivalents;
- b) Increase of R\$ 9,945 in monetary restatement, largely due to the recovery of long overdue credits (RGE), amounting R\$ 18,226;
- c) Increase of R\$ 8,061 in the interest on CVA and parcel "A" due to the increase in the net balance of regulatory assets and liabilities

The financial expense decreased R\$ 21,233 mainly due to:

- a) Reduction of R\$ 27,302 in monetary and exchange restatement on gains recorded on financial instruments and derivatives, at market value (R\$ 16,026) and the negative variation in the Market Price Index - IGP-M in the period.
- b) Increase of R\$ 11,223 in interest on debts, mainly due to the higher indebtedness of subsidiaries CPFL Piratininga and RGE and due to the variation of CDI in the period.

Social Contribution and Income Tax

Taxes on income in the first quarter of 2009 totaled R\$ 168,929, an increase of 1.9% (R\$ 3,205) in relation to the same quarter of 2008, mainly as a result of the reduction in pre-tax income.

Net income and EBITDA

As a result of the above factors, the net income for the quarter was R\$ 282,703, or 6.5% (R\$ 17,371) higher than in the same period of 2008.

The adjusted EBITDA (net income for the quarter, eliminating the effects of the private pension plan, depreciation, amortization, financial income (expense), equity accounting, social contribution, income tax and extraordinary item) for the first quarter of 2009 was R\$ 658,529, 2.0% (R\$ 12,888) higher than the EBITDA for the same period of 2008.

21.01 – REPORT ON SPECIAL REVIEW-UNQUALIFIED

(Convenience Translation into English from the Original Previously Issued in Portuguese)

Independent auditors' review report

To
The Shareholders and Directors
CPFL Energia S.A.
São Paulo - SP

1. We have reviewed the accompanying quarterly financial information individual and consolidated of CPFL Energia S.A. ("the Company") as of March 31, 2009, comprising the balance sheet, and the statements of income, cash flows and added value, the performance reports and relevant information, prepared under the responsibility of the Company's Management.

2. The quarterly financial information of the jointly-owned indirect subsidiary BAESA - Energética Barra Grande S.A. as of March 31, 2009 was reviewed by other independent auditors, who issued a non qualified special review report on April 24, 2009. CPFL Energia S.A. values its indirect interest in BAESA - Energética Barra Grande S.A. by the equity method of accounting and consolidates this investment by the proportional consolidation method. As of March 31, 2009, the balance of this investment is R\$ 141,093 thousand, and the equity in income of subsidiaries and associated companies of this investment in the net income for this three-month period is a profit of R\$ 2,563 thousand. The quarterly financial information of this indirect investee included in the consolidated quarterly financial information presents proportional assets of R\$ 369,828 thousand as of March 31, 2009. Our report, in relation to the amounts generated by this company during the aforementioned three-month period is based exclusively on the report of the review conducted by the independent auditors of BAESA - Energética Barra Grande S.A.

3. The quarterly financial information of the jointly-owned indirect subsidiary Campos Novos Energia S.A. as of March 31, 2009 was reviewed by other independent auditors, who issued a non qualified special review report on April 24, 2009. CPFL Energia S.A. values its indirect interest in Campos Novos Energia S.A. by the equity method of accounting and consolidates this investment by the proportional consolidation method. As of March 31, 2009, the balance of this investment is R\$ 289,257 thousand, and the equity in income of subsidiaries and associated companies of this investment in the net income for this three-month period is a profit of R\$ 11,876 thousand. The quarterly financial information of this indirect investee included in the consolidated quarterly financial information presents proportional assets of R\$ 742,663 thousand as of March 31, 2009. Our report, in relation to the amounts generated by this company during the aforementioned three-month period is based exclusively on the report of the review conducted by the independent auditors of Campos Novos Energia S.A.

4. Our review was conducted in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON) and the Federal Accounting Council (CFC), which consisted mainly of (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas of the Company and its subsidiaries about the main criteria adopted in preparing the quarterly financial information, and (b) review of the information and subsequent events that have or may have material effects on the financial position and operations of the Company and its subsidiaries.

5. Based on our special review and the review report issued by other independent auditors, we are not aware of any material modifications that should be made to the quarterly financial information mentioned in paragraph 1 for it to be in conformity with the regulations issued by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory quarterly financial information.

6. As mentioned in Note 3 - item (b) to the quarterly financial information, as result of the second periodical tariff review established on the concession agreement, the Brazilian Electricity Agency (ANEEL) ratified, on a temporary basis, the percentage to be applied to the tariffs of its direct subsidiary Companhia Piratininga de Força e Luz. The possible effects resulting from this final review, if any, will be recorded in the Company's equity and financial position in subsequent periods.

7. As mentioned in Note 2.1, as a result of the changes in accounting practices adopted in Brazil during 2008, the quarterly financial information related to the three months period ended as of March 31, 2008, presented for comparison purposes, were restated and are being presented as established in NPC 12 - Accounting Practices, Changes in Accounting Estimates and Correction of Errors, except for the Statement of Changes in Financial Position which was replaced, in accordance with Law 11638/07, by the Statement of Cash Flows.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
