BOC INTERNATIONAL (USA) INC.  
NOTES TO FINANCIAL STATEMENT  
DECEMBER 31, 2020

NOTE 1. ORGANIZATION AND NATURE OF BUSINESS

BOC International (USA) Inc. (the "Company") was incorporated in Delaware on April 13, 2004 and began operations on October 3, 2006. The Company is a wholly-owned subsidiary of BOC International (USA) Holdings Inc. (the "Parent"), a Delaware corporation. The Company is registered as a broker-dealer with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). The Company acts as an introducing broker for institutional clients, primarily effecting transactions in the Hong Kong and China securities markets.

In 2021, the Company will restructure its business activities in the United States ("U.S.") and terminate its fully-disclosed clearing relationship with Pershing LLC. Thereafter, it will continue to serve as the U.S. chaperone contemplated by Rule 15a-6 under the Securities Exchange Act of 1934 and may introduce transactions in foreign securities to its foreign broker affiliates pursuant to its current contractual relationship with those affiliates.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company maintains its books and records on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of the financial statement in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statement. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENT  
DECEMBER 31, 2020  
(continued)

NOTE 2.      SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and Cash Equivalents

The Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months that are not held for sale in the ordinary course of business.

Revenue Recognition

The Company recognizes revenue in accordance with the Financial Accounting Standards Board Accounting Standards Codification (“FASB ASC”) Accounting Standard Updates (“ASU”) Topic 606, *Revenue from Contracts with Customers*, which creates a single framework for recognizing revenue from contracts with customers that fall within its scope. The adoption of ASC 606 did not result in change to the accounting for any of the in-scope revenue streams and no cumulative effect adjustment was recorded. During 2020, the Company earned revenue mainly from service income and commission income.

The Company is compensated for sales and trade execution-related support and services provided to foreign affiliate, BOCI Securities Limited (“BOCI SL”), as the BOCI Group operating subsidiary for the securities markets in the United States. The performance obligation is satisfied at the point in time the services are provided. The Company invoiced BOCI SL on a monthly basis in arrears for any support and service performed or provided, plus a 5% mark-up. Payment for services is received in the following month.

NOTES TO FINANCIAL STATEMENT  
DECEMBER 31, 2020  
(continued)

NOTE 2.      SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue Recognition (continued)

The Company earns revenue from trading activities for their U.S. institutional clients through a clearing agreement arrangement with Pershing, LLC (“Pershing”) and its affiliate, BOCI SL. Revenue is determined based on an agreed commission rate multiplied by the volume of trades executed. Revenue is recognized on trade date of the transaction because that is when the underlying financial instrument or buyer/seller is identified. The pricing is agreed upon and the risks and rewards of ownership to be transferred to/from the client. The Company’s performance obligation is satisfied on trade date and commission is received on the settlement date of the transactions.

Depreciation

Property and equipment is stated at cost less accumulated depreciation. The Company provides for depreciation as follows:

<u>Asset</u>	<u>Estimated Useful Life</u>	<u>Principal Method</u>
Computer equipment	3 Years	Straight –line
Computer software	3 Years	Straight –line
Furniture and fixtures	5 Years	Straight –line

Income Taxes

The Company complies with FASB ASC Topic 740, *Income Taxes* (“ASC 740”), which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

BOC INTERNATIONAL (USA) INC.  
NOTES TO FINANCIAL STATEMENT  
DECEMBER 31, 2020  
(continued)

NOTE 2.      SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes (continued)

ASC 740 provides guidance on how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statement. ASC 740 also requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year.

The Company is included in the consolidated tax return of the Parent. The provision for income taxes is computed using a "separate return" method. Under this method, the Company is assumed to file a separate return with the tax authority, thereby reporting taxable income or loss and applying the applicable tax to or receiving the appropriate refund from the Parent. The current provision is the amount of tax payable or refundable on the basis of a hypothetical, current year separate tax return. Deferred taxes are provided on temporary differences and on any carry forwards that could be claimed on the hypothetical return and the need for a valuation allowance is assessed on the basis of projected separate return results.

The effect of graduated rates and other tax differences from the consolidated tax structure are allocated among the members of the consolidated group.

The Company is subject to federal, and New York State and New York City income taxes. The Company's effective tax rate differs from the statutory rate of 21% due primarily to state and local income taxes. The Company has a combined federal, state and city deferred income tax asset of approximately \$1,631,000 as of December 31, 2020, which is primarily related to net operating loss carry forwards. A valuation allowance has been established offsetting this \$1,631,000, as the ultimate realization of these benefits is uncertain.

BOC INTERNATIONAL (USA) INC.  
NOTES TO FINANCIAL STATEMENT  
DECEMBER 31, 2020  
(continued)

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes (continued)

The valuation allowance decreased by approximately \$46,000 for the year ended December 31, 2020. The Company has federal net operating loss carry forwards of approximately \$6,126,000 as of December 31, 2020, of which will begin to expire in 2033. As a result of the Tax Cut and Jobs Act, federal net operating losses incurred in 2018 and thereafter carryforward indefinitely.

The Company has determined that there are no uncertain tax positions which require adjustment or disclosure on the financial statement. The tax years that remain subject to examination are 2017, 2018, 2019, and 2020.

Functional Currency and Presentation Currency

Items included in the financial statement of the Company are measured using the currency of the primary economic environment in which the entity operates (the “Functional Currency”). The Functional Currency of the Company is United States Dollars (“USD”).

Foreign currency transactions are translated into the Functional Currency using the prevailing exchange rates. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the Statement of Operations.

Statement of Cash Flows

For the statement of cash flows, certain prior year balances have been reclassified to conform to current year presentation.

NOTE 2.      SIGNIFICANT ACCOUNTING POLICIES (continued)

Leases Accounting Standard

In February 2016, FASB issued ASU 2016-02 Leases (“Topic 842”) amending the guidance for leases to increase transparency and comparability among organizations. Topic 842 requires the recognition of lease assets and lease liabilities on the Statement of Financial Condition as well as disclosing key information about leasing arrangements. The right-of-use (“ROU”) asset and lease liability are measured using the present value of the remaining rental payments. The Company adopted the standard on January 1, 2019, under the Parent operating lease agreement.

The result of the new standard is a gross-up on the Statement of Financial Condition of ROU assets and lease liabilities for the office space operating leases. The implementation process included: an assessment of our lease arrangements and an evaluation of practical expediency and accounting policy elections to meet the reporting requirements of this standard. Additionally, the firm evaluated the changes in controls and processes that are necessary to implement the standard. The lease liabilities and ROU assets were recognized at approximately the same amount based on the new standards. The implementation did not have a material impact on the Company’s Statement of Financial Condition.

(continued)

NOTE 2.      SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial Instruments – Credit Losses

In June 2016, the FASB issued ASU 2016-13, Measurement of Credit Losses on Financial Instruments, which significantly changes the way entities recognize impairment of many financial assets by requiring immediate recognition of estimated credit losses expected to occur over their remaining life, instead of when incurred.

Additionally, in November 2018, the FASB issued ASU 2018-19, Codification Improvements to Topic 326, Financial Instruments–Credit Losses, which amends Subtopic 326-20 (created by ASU 2016-13) to explicitly state that operating lease receivables are not in the scope of Subtopic 326-20. The adoption of this ASU on January 1, 2020 did not have a material impact on the Company’s financial statement.

NOTE 3.      FAIR VALUE MEASUREMENT

FASB ASC 820, *Fair Value Measurement*, has no material effect on these financial statement.

NOTE 4.      NET CAPITAL REQUIREMENTS

The Company is subject to the uniform net capital requirements of 17 C.F.R. §240.15c3-1, which requires the Company to maintain sufficient liquid assets to cover indebtedness (as defined in SEC rules). At December 31, 2020, the Company had net capital (as defined in SEC rules), of \$2,545,386 which was \$2,295,386 in excess of its required net capital of \$250,000.

Less accumulated depreciation	<u>(35,153)</u>
Net property and equipment	<u><u>\$ 10,346</u></u>

NOTE 6. OFF-BALANCE SHEET RISK

The Company utilizes a clearing broker on a fully-disclosed basis for all U.S. securities transactions. All of its customers' money balances and long and short security positions are carried on the books of the clearing broker. In accordance with its clearing agreement, the Company indemnifies the clearing broker for losses, if any, which the clearing broker may sustain from carrying securities transactions introduced by the Company. In accordance with industry practice and regulatory requirements, the Company and clearing broker monitor collateral on the customers' accounts. In addition, the due from broker on the Statement of Financial Condition is pursuant to this clearing agreement and includes a clearing deposit of \$100,000. The Company's business also involves brokering customer securities transactions in non-US markets, mainly in Asia. Such transactions are conducted on a receive-versus-payment and delivery-versus-payment basis and are settled through the Company's affiliates. To the extent a customer of the Company fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices in order to fulfill the customer's obligations.

BOC INTERNATIONAL (USA) INC.  
NOTES TO FINANCIAL STATEMENT  
DECEMBER 31, 2020  
(continued)

NOTE 7. SIGNIFICANT GROUP CONCENTRATION OF RISK

In the normal course of its business, the Company enters into financial transactions where the risk of potential loss due to changes in the market (market risk), or failures of the other parties to the transaction to perform (counterparty risk), exceeds the amounts recorded for the transaction.

The Company's policy is to continuously monitor its exposure to the market and counterparty risk through the use of a variety of financial, position and credit exposure reporting and control procedures. In addition, the Company has a policy of reviewing the customers and/or other parties with which it conducts business.

As of December 31, 2020, there were no customer accounts having debit balances which presented any risks nor was there any exposure with any other transaction conducted with any other broker.

The Company's business is primarily dependent on the Asian market and geographical area, which presents risk exposure related to economic and political matters.

The receivables from the clearing broker are subject to counterparty risk. The Company has total due from broker \$589,949 from Pershing as of December 31, 2020. The total due from broker includes a minimum clearing deposit of \$100,000 pursuant to the clearing agreement.

The Company's cash and cash equivalents are primarily deposited at two banks and subject to credit concentration risk, and one of these banks is a related party (see Note 9. Related Party). As of December 31, 2020, the cash balances exceed federally insured limits by approximately \$1,780,000. The Company has not experienced any losses in such accounts. Management does not believe the Company has significant exposure to any credit risk on cash balances.
