Management's Discussion and Analysis of Financial Condition and Results of Operations, page 17

Critical Accounting Policies, page 18

2. We note that your critical accounting policies disclosure is substantially similar to your accounting policy note 2 to the consolidated financial statements and is solely a duplication of the majority of your accounting policies included in that note. In this regard, we believe that not all of your accounting policies are critical in a similar or equal manner. Specifically, accounting policies contain different levels of uncertainties associated with their respective methods, assumptions, and estimates underlying their critical accounting measurements. Therefore, please limit the disclosure to the specific policies where the nature of the estimates and assumptions is material due to the levels of subjectivity and judgment necessary to account for highly uncertain matters and the impact of the estimates and assumptions is material to the consolidated financial statements. Furthermore, this disclosure in MD&A should supplement, not duplicate, the description of accounting policies disclosed in the notes. In this regard, please ensure that your critical accounting estimates disclosure – (i) provides greater insight into the quality and variability of information in the consolidated financial statements; (ii) addresses specifically why the accounting estimates or assumptions bear the risk of change; (iii) analyzes the factors on how the company arrived at material estimates including how the estimates or assumptions have changed in the past and are reasonably likely to change in the future; and (iv) analyzes the specific sensitivity to change of your critical accounting estimates or assumptions based on other outcomes with quantitative and qualitative disclosure, as necessary. Refer to the guidance in Section V of FRR-72 (Release No. 33-8350) and please revise future filings accordingly.

Consolidated Financial Statements, page F-1

Consolidated Statements of Operations, page F-5

3. We note from pages 23 and 24 that you classify the gains and losses on the sales and dispositions of assets as a component of other income (expense). Please revise to reflect these amounts as components of operating income. Refer to the guidance outlined in paragraphs 25 and 45 of SFAS No.144 and footnote 68 to SAB Topic 13.

Consolidated Statements of Changes in Stockholders' Deficit, page F-6

4. We note your presentation of dividends on Series A convertible preferred stock and accretion of issuance costs and the related entries to Additional Paid in Capital in the amounts of \$903,851 and \$1,488,071 for fiscal years ended June 30, 2008 and 2009, respectively. Please tell us what portion of these amounts represents dividends and why you believe dividends are appropriately classified in Additional Paid in Capital rather than in the Accumulated Deficit. Please note that typically dividends are charged to retained earnings, unless legally declared out of additional paid in capital, even if those earnings are insufficient to cover them. Your response should include the authoritative accounting literature which supports the basis for your conclusions.

Note 7 – Commitments and Contingencies, page F-18

Purchase Commitment, page F-19

6. We refer to the assignment of rights and obligations to purchase 20 aircraft to Share 100 Holdings. Your disclosure indicates that as a result of the assignment of Avantair's rights and sale of Class A shares of Share 100 to EAS, EAS is now responsible for 18 of the 20 aircraft. Please tell us how EAS is related to the company, if applicable. Furthermore, please tell us what, if any, accounting consideration has been given to the assignment to EAS for the rights and obligations to purchase 18 aircraft and the fact that Avantair will be responsible for the rights and obligations of such aircraft in the event that EAS defaults under its obligations to purchase the aircraft positions.

Note 8 – Capital Lease Transactions, page F-19

7. We note that you entered into a Lease Agreement with Midsouth in April 2009 for a ten-year lease term and as part of the agreement, you are required to provide Midsouth with 100 hours of flight time per year during the lease term. In this regard, please tell us what, if any, accounting consideration you have given to the 100 hours of flight time per year. If you believe no accounting consideration was required, please explain to us the reason(s) why and provide us with the accounting guidance you relied upon in determining your conclusion.

CNM, Inc., page F-21

8. We note that the company accounted for the conversion of an outstanding note to a term loan payable under EITF 98-14. It appears as though the outstanding note does not meet the criteria of a line of credit or revolving credit agreement under the EITF. Please tell us the nature of the original note prior to conversion and why your accounting treatment under EITF 98-14 is appropriate. Please refer to EITF 96-19 for guidance in the accounting for modifications of term debt. Your response should include the amount of any unamortized deferred financing fees associated with the original note that were either expensed or deferred with the new term loan payable. We may have further comment upon receipt of your response.

10. We note that a waiver was obtained from the lender in September 2009 related to covenant non-compliance. Please tell us the nature of the covenant violation and how such violation will impact the classification of the related debt as of September 30, 2009. As part of your response, please indicate the period for which Wachovia has provided the company with a waiver of the covenant violation and indicate the next date or period in which the company must comply with similar covenant requirement. Also, please indicate the likelihood that the company will be able to comply with this covenant at the next measurement date. Refer to the guidance outlined in EITF 86-30. We may have further comment upon receipt of your response.

Note 11 – Capital Stock, page F-22
Registration of Shares, page F-23

11. We note a registration rights agreement in connection with the issuance of units on June 30, 2009. Please tell us if you have accrued any amounts of liquidated damages to date in accordance with FSP-EITF 00-19-2 or tell us why you are not required to do so.

Note 15 – Vendor Service Reimbursement, page F-25

12. We note that you replaced your engine maintenance vendor during January 2009 and as a result of terminating the agreement with your former engine service vendor, you recognized a credit of \$2.9 million during the third quarter of fiscal 2009. Please explain to us in greater detail the nature, facts and circumstances surrounding the termination of the agreement and why you believe recognition of a credit in the amount of \$2.9 million was appropriate in light of your accounting policy to record maintenance expense as incurred and that \$2.0 of the \$2.9 million was related to expenses recorded for the first six months of fiscal 2009. Please include as part of your response, any authoritative accounting guidance you relied upon in determining your accounting treatment. We may have further comment upon receipt of your response.
