Report of Independent Registered Public Accounting Firm

To the Plan Participants and the Plan Administrator of Shell Provident Fund

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of Shell Provident Fund (the Plan) as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2019 and 2018, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Plan’s management. Our responsibility is to express an opinion on the Plan’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Schedule

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2019, has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The information in the supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the information, we evaluated whether such information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Ernst + Young LLP

We have served as the Plan's auditor since 2016.

1. Plan Description

General

The Shell Provident Fund ("the Plan") is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and is described more fully in the Plan Instrument (the Regulations) and Trust Agreement, which govern the Plan.

Eligibility

Employees of Shell Oil Company ("Shell") and certain affiliated companies ("Contributing Companies") may elect to contribute up to 50% of their eligible compensation on a pre-tax basis, up to 50% on an after-tax Roth 401(k) basis and up to 25% on a standard after-tax basis (non-Roth 401(k)) to the Plan, subject to federal tax limitations for all contributions. All new employees or rehired employees who do not elect otherwise are automatically enrolled to contribute 3% of their base pay on a pre-tax basis. The Contributing Companies make contributions to each eligible employee's account based on their base and variable pay immediately upon hire at a rate of 2.5% until the completion of 6 years of accredited service, at a rate of 5.0% after completion of 6 years of accredited service until the completion of 9 years of accredited service, and at a rate of 10.0% after completion of 9 years of accredited service. The Plan also allows Roth in-plan conversions.

Each participant's account is credited with the participant's and company contributions along with investment returns based on each participant's investment direction. Participants may direct the investment of their account balances into various investment options including short-term investments, a company stock fund, common/collective funds, registered investment company funds (mutual funds), and a self-directed brokerage account ("BrokerageLink"). For participants who do not select an investment election, contributions, as well as rollovers to the Plan, loan repayments, and restored forfeitures are credited to a BlackRock LifePath Fund (default fund) based on their date of birth.

Investment managers of the investment options invest funds at their discretion, as governed by the Plan instrument, investment manager agreements and prospectuses. The BrokerageLink account provides participants access to zero coupon, mortgage-backed, corporate, and government bonds, US Treasuries, certificates of deposit, equities, and various mutual funds. Investments in the Plan are valued at the end of each business day.

Vesting and Withdrawals

Participants are immediately vested in all contributions to their accounts plus actual earnings or losses thereon. Participants may withdraw their account balances upon termination of service or may delay distribution until as late as April 1 following the year in which they reach age 70-1/2. Active employees age 59-1/2 or older may elect to withdraw their entire account balances or any portion thereof, without incurring any suspension of contributions. Active employees may withdraw their own standard after-tax contributions (plus any such after-tax contributions converted into Roth amounts) without any time or limit restriction. Active employees may also withdraw their own Roth 401(k) contributions, former pre-tax contributions that were converted into Roth amounts and pre-tax contributions in the event that they satisfy the Plan's financial hardship requirements (employee contributions are suspended for six months following such a withdrawal). A variable payment option, which provides unlimited monthly, quarterly, semi-annual or annual drawdowns of a participant's account, is available for certain qualified Plan distributions.

Employees may elect to roll over an account from another qualified retirement plan or IRA into the Plan if certain requirements are met (current Federal law prevents the Plan from accepting rollovers from Roth IRAs). An employee may withdraw funds that were rolled into the Plan at any time.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000, after considering the highest loan balance during the previous twelve months, or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate established by the Plan Administrator, generally based upon the Prime Rate.

Forfeiture Account

At December 31, 2019 and 2018, the forfeiture account totaled \$13,607 and \$19,272 respectively. The account is used to reduce current and future employer contributions and to pay Plan expenses. In 2019 and 2018, forfeitures in the amount of \$346,537 and \$340,134, respectively, were used to reduce Plan expenses.

Plan Expenses

There are investment fees and expenses associated with each Plan investment option. Investment fees are generally charged directly against assets of the investment option and include such items as the costs expressed in the expense ratio plus brokerage fees incurred by the fund. Participants who utilize the Plan's BrokerageLink investment feature are also responsible for brokerage fees and commissions. Participants that enroll in the Plan's managed account service will incur a separate fee for that service.

The administrative expenses associated with the Plan include costs for accounting, custodial, recordkeeping, and other internal or external service providers. While participant accounts have not been charged for such administrative expenses in recent years due to the application of various credits applied towards Plan expenses, under the terms of the Plan, operating and administrative expenses can be charged directly to participants' accounts.

Under the Plan's recordkeeping agreement, the Plan receives payments (revenue credits) for the amount that revenue sharing related to the Plan's investment options exceeds specified Plan expenses. The Plan uses revenue credits to pay for additional costs of operating the Plan. In the event that revenue credits exceed these Plan costs, residual amounts will be allocated to participant accounts on a schedule and in a manner established by the Plan Administrator. During 2019 and 2018, the Plan received revenue credit deposits in the amount of \$3,672,860 and \$3,988,757 respectively. During 2019 and 2018, the Plan used revenue credits in the amount of \$460,394 and \$500,438 respectively to pay direct expenses and allocated \$2,900,000 and \$3,400,000 respectively to participants' account. Amounts received on account of litigation settlements can also be used by the Plan to pay Plan expenses. In the event that Plan expenses exceed the amounts available as described above, residual operating expenses will be charged to participants' accounts.

Some Plan service providers are paid directly by Shell on the Plan's behalf. When service providers are paid by Shell on the Plan's behalf, Shell is reimbursed by the Plan for such expenses to the extent permitted by law. Unreimbursed expenses incurred by Shell to be reimbursed by the Plan totaled \$107,921 and \$118,409 at December 31, 2019 and 2018, respectively, and are included in accounts payable. Other indirect costs (including Trustee/Plan Administrator salaries and data processing expenses) are absorbed by the Contributing Companies.

Effective as of May 1, 2018, the BG US Services, Inc. Savings and Investment Plan ("BG") merged into the Plan. The amount transferred into the Plan from BG was \$92 million.

Plan Termination

The Plan is intended to be an ongoing part of the benefit plans of the Contributing Companies. However, the right is reserved to amend or terminate the Plan. Should the Plan be terminated, participants will receive payment of their account balances.

2. Accounting Policies

The financial statements of the Plan are prepared on the accrual basis of accounting.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 7 for fair value measurement.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Brokerage commissions, transfer taxes, and other fees are added to the cost of purchases or deducted from the proceeds of sales. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Participant distributions or withdrawals are recorded when paid.

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018 13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement, which eliminates, adds and modifies certain disclosure requirements for fair value measurements. The amendments are effective for all entities for fiscal years beginning after December 15, 2019, but entities are permitted to early adopt either the entire standard or only the provisions that eliminate or modify the fair value disclosures. Management is currently assessing any impact that the adoption of this ASU may have on the Plan's financial statements.

3. Line of Credit of the Plan

The Thrift Fund and Royal Dutch Shell Stock Fund have an available line of credit to fund redemptions as needed. At December 31, 2019 and 2018 the Shell Provident Fund had no amounts outstanding under the line of credit.

4. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. As a result, the Plan's investment portfolio has incurred a significant decline in fair value since December 31, 2019. However, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

5. Federal Income Tax Exemption

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated December 20, 2016, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in

compliance with the applicable requirements of the Code, and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for the Plan for any tax periods in progress.

6. Reconciliation of the Financials to Schedule H of Form 5500

The following is a reconciliation of the Plan's net assets available for benefits per the financial statements at December 31, 2019 and 2018 to Schedule H of Form 5500:

	2019	2018
Net assets per financial statements	\$11,735,473,639	\$ 10,101,738,263
Deemed distributions of participant loans	<u>(2,137,404)</u>	<u>(1,808,900)</u>
Net assets available for benefits per Schedule H	<u>\$11,733,336,235</u>	<u>\$ 10,099,929,363</u>

The following is a reconciliation of total expenses paid per the financial statements for the year ending December 31, 2019 to Schedule H of Form 5500:

Total deductions per the financial statements	\$932,681,767
Deemed distributions of participant loans	568,268
Deemed distributions of participant loans – offset during plan year	<u>(239,763)</u>
Total expenses paid per Schedule H of Form 5500	<u>\$933,010,272</u>

Amounts allocated to deemed distributions of participant loans are recorded as notes receivables from participants in the financial statements and recorded as an expense on Schedule H on Form 5500.

7. Fair Value Measurement

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liability;

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques—maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018.

Common Stocks and Rights/Warrants

Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate Bonds/Other Fixed Income Funds

Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Registered Investment Company Funds (Mutual Funds)

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Funds

Valued at the NAV of units of a bank collective trust. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

U.S. Government Securities

Valued using the pricing models maximizing the use of observable inputs for similar securities.

Short-Term Investments

Short-Term investments, including commercial paper having 60 days or less to maturity are recorded at amortized cost, which approximates fair value.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Assets at Fair Value as of December 31, 2019			
	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>
Common stock	\$ 646,531,093	\$	\$ 646,531,093
Registered Investment Co Funds	3,833,318,716		3,833,318,716
Short-Term Investments		888,445,857	888,445,857
Self-directed brokerage acct:			
Common Stock	162,099,471		162,099,471
Registered investment co.	244,518,164		244,518,164
Money market	82,261,578		82,261,578
Rights/warrants	3,993		3,993
Corporate bonds/other		6,739,905	6,739,905
Short-Term investments		18,219,498	18,219,498
US Government securities		5,544,786	5,544,786
	<u>\$ 4,968,733,015</u>	<u>\$ 918,950,046</u>	<u>5,887,683,061</u>
Investments measured at net asset value:			
Common/collective funds			5,732,516,812
Total assets at fair value			<u>\$ 11,620,199,873</u>

Assets at Fair Value as of December 31, 2018			
	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>
Common stock	\$ 670,922,120	\$	\$ 670,922,120
Registered Investment Co Funds	3,158,131,196		3,158,131,196
Short-Term Investments		901,415,138	901,415,138
Self-directed brokerage acct:			
Common Stock	127,383,407		127,383,407
Registered investment co.	176,189,171		176,189,171
Money market	75,350,193		75,350,193
Rights/warrants	5,033		5,033
Corporate bonds/other		7,008,157	7,008,157
Short-Term investments		20,652,673	20,652,673
US Government securities		8,066,148	8,066,148
	<u>\$ 4,207,981,120</u>	<u>\$ 937,142,116</u>	<u>5,145,123,236</u>
Investments measured at net asset value:			
Common/collective funds			4,843,257,574
Total assets at fair value			<u>\$ 9,988,380,810</u>

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

8. Related Party and Parties-in-Interest Transactions

Shell, the Trustees, the Plan Administrator and certain other Plan service providers qualify as parties-in-interest. In addition, the Plan invests in Royal Dutch Shell plc American Depositary Shares and certain funds maintained by affiliates of the Plan's record keeper, which qualify as related party and party-in-interest transactions. These transactions qualify for exemptions from the prohibited transaction rules. Notes receivable from participants also qualify as party-in-interest transactions.

9. Subsequent Events

Management has evaluated subsequent events through the date on which the financial statements were issued, and there are no subsequent events that would require adjustment to or disclosure in the statements.
