(b) Basis of Presentation

The Company’s Statement of Financial Condition is prepared in accordance with U.S. generally accepted accounting principles (US GAAP), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Statement of Financial Condition. Estimates, and matters that affect the reported amounts and disclosure of contingencies in the Statement of Financial Condition, may vary from actual results.

(c) Fair Value of Financial Instruments

In accordance with FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, AFD categorizes its assets and liabilities that are accounted for at fair value in the Statement of Financial Condition in the fair value hierarchy as defined by ASC 820. The Company’s taxable income is primarily reported in the tax return of the parent of AGIH, Allspring Intermediate II, LLC. Based upon a more likely than not recognition threshold, the Company determined there are no material uncertain tax positions, interest, or penalties as of December 31, 2023.

In accordance with ASC 820, AFD groups its financial assets and financial liabilities measured at fair value in three levels, based on markets in which the assets and liabilities are traded, and the reliability of the assumptions used to determine fair value. These levels are:

ALLSPRING FUNDS DISTRIBUTOR, LLC

Notes to Statement of Financial Condition

December 31, 2023

- Level 1 – Valuation is based upon quoted prices for identical instruments traded in active markets.
- Level 2 – Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.
- Level 3 – Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect AFD's own estimates of assumptions market participants would use in pricing the asset or liability. Valuation techniques include use of discounted cash flow models, option pricing models, and similar techniques.

The balances of assets and liabilities measured at fair value on a recurring basis as of December 31, 2023 are as follows:

Description	Total	Level 1	Level 2	Level 3
Money Market Fund	\$ 25,000,000	\$ 25,000,000	----	----
