Registration Statement on Form SB-2

General

1. Please provide us, with a view toward disclosure in the prospectus, with the total dollar value of the securities underlying the convertible note that you have registered for resale (using the number of underlying securities that you have registered for resale and the market price per share for those securities on the date of the sale of the convertible note).
2. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of the dollar amount of each payment (including the value of any payments to be made in common stock) in connection with the transaction that you have made or may be required to make to any selling shareholder, any affiliate of a selling shareholder, or any person with whom any selling shareholder has a contractual relationship regarding the transaction (including any interest payments, liquidated damages, payments made to “finders” or “placement agents,” and any other payments or potential payments). Please provide footnote disclosure of the terms of each such payment. Please do not include any repayment of principal on the convertible notes in this disclosure.

Further, please provide us, with a view toward disclosure in the prospectus, with disclosure of the net proceeds to the issuer from the sale of the convertible notes and the total possible payments to all selling shareholders and any of their affiliates in the first year following the sale of convertible notes.

3. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of:
  - the total possible profit the selling shareholders could realize as a result of the conversion discount for the securities underlying the convertible note, presented in a table with the following information disclosed separately:
    - the market price per share of the securities underlying the convertible note on the date of the sale of the convertible note;
    - the conversion price per share of the underlying securities on the date of the sale of the convertible note, calculated as follows:
      - if the conversion price per share is set at a fixed price, use the price per share established in the convertible note; and

- if the conversion price per share is not set at a fixed price and, instead, is set at a floating rate in relationship to the market price of the underlying security, use the conversion discount rate and the market rate per share on the date of the sale of the convertible note and determine the conversion price per share as of that date;
- the total possible shares underlying the convertible note (assuming no interest payments and complete conversion throughout the term of the note);
- the combined market price of the total number of shares underlying the convertible note, calculated by using the market price per share on the date of the sale of the convertible note and the total possible shares underlying the convertible note;
- the total possible shares the selling shareholders may receive and the combined conversion price of the total number of shares underlying the convertible note calculated by using the conversion price on the date of the sale of the convertible note and the total possible number of shares the selling shareholders may receive; and
- the total possible discount to the market price as of the date of the sale of the convertible note, calculated by subtracting the total conversion price on the date of the sale of the convertible note from the combined market price of the total number of shares underlying the convertible note on that date.

If there are provisions in the convertible note that could result in a change in the price per share upon the occurrence of certain events, please provide additional tabular disclosure as appropriate. For example, if the conversion price per share is fixed unless and until the market price falls below a stated price, at which point the conversion price per share drops to a lower price, please provide additional disclosure.

4. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of:
- the total possible profit to be realized as a result of any conversion discounts for securities underlying any other warrants, options, notes, or other securities of the issuer that are held by the selling shareholders or any affiliates of the selling shareholders, presented in a table with the following information disclosed separately:
    - market price per share of the underlying securities on the date of the sale of that other security;

- the conversion/exercise price per share as of the date of the sale of that other security, calculated as follows:
    - if the conversion/exercise price per share is set at a fixed price, use the price per share on the date of the sale of that other security; and
    - if the conversion/exercise price per share is not set at a fixed price and, instead, is set at a floating rate in relationship to the market price of the underlying security, use the conversion/exercise discount rate and the market rate per share on the date of the sale of that other security and determine the conversion price per share as of that date;
  - the total possible shares to be received under the particular securities (assuming complete conversion/exercise);
  - the combined market price of the total number of underlying shares, calculated by using the market price per share on the date of the sale of that other security and the total possible shares to be received;
  - the total possible shares to be received and the combined conversion price of the total number of shares underlying that other security calculated by using the conversion price on the date of the sale of that other security and the total possible number of underlying shares; and
  - the total possible discount to the market price as of the date of the sale of that other security, calculated by subtracting the total conversion/exercise price on the date of the sale of that other security from the combined market price of the total number of underlying shares on that date.
5. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of:
- the gross proceeds paid or payable to the issuer in the convertible note transaction;
  - all payments that have been made or that may be required to be made by the issuer that are disclosed in response to comment 2;
  - the resulting net proceeds to the issuer; and

- the combined total possible profit to be realized as a result of any conversion discounts regarding the securities underlying the convertible notes and any other warrants, options, notes, or other securities of the issuer that are held by the selling shareholders or any affiliates of the selling shareholders that is disclosed in response to comments 3 and 4.

Further, please provide us, with a view toward disclosure in the prospectus, with disclosure – as a percentage – of the total amount of all possible payments, as disclosed in response to comment 2, and the total possible discount to the market price of the shares underlying the convertible note, as disclosed in response to comment 3, divided by the net proceeds to the issuer from the sale of the convertible notes, as well as the amount of that resulting percentage averaged over the term of the convertible notes.

6. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of all prior securities transactions between the issuer (or any of its predecessors) and the selling shareholders, any affiliates of the selling shareholders, or any person with whom any selling shareholder has a contractual relationship regarding the transaction (or any predecessors of those persons), with the table including the following information disclosed separately for each transaction:
  - the date of the transaction;
  - the number of shares of the class of securities subject to the transaction that were outstanding prior to the transaction;
  - the number of shares of the class of securities subject to the transaction that were outstanding prior to the transaction and held by persons other than the selling shareholders, affiliates of the company, or affiliates of the selling shareholders;
  - the number of shares of the class of securities subject to the transaction that were issued or issuable in connection with the transaction;
  - the percentage of total issued and outstanding securities that were issued or issuable in the transaction (assuming full issuance), with the percentage calculated by taking the number of shares issued and outstanding prior to the applicable transaction and held by persons other than the selling shareholders, affiliates of the company, or affiliates of the selling shareholders, and dividing that number by the number of shares issued or issuable in connection with the applicable transaction;
  - the market price per share of the class of securities subject to the transaction immediately prior to the transaction (reverse split adjusted, if necessary); and

- the current market price per share of the class of securities subject to the transaction (reverse split adjusted, if necessary).
7. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure comparing:

- the number of shares outstanding prior to the convertible note transaction that are held by persons other than the selling shareholders, affiliates of the company, and affiliates of the selling shareholders;
- the number of shares registered for resale by the selling shareholders or affiliates of the selling shareholders in prior registration statements;
- the number of shares registered for resale by the selling shareholders or affiliates of the selling shareholders that continue to be held by the selling shareholders or affiliates of the selling shareholders;
- the number of shares that have been sold in registered resale transactions by the selling shareholders or affiliates of the selling shareholders; and
- the number of shares registered for resale on behalf of the selling shareholders or affiliates of the selling shareholders in the current transaction.

In this analysis, the calculation of the number of outstanding shares should not include any securities underlying any outstanding convertible securities, options, or warrants.

8. Please provide us, with a view toward disclosure in the prospectus, with the following information:
- whether the issuer has the intention, and a reasonable basis to believe that it will have the financial ability, to make all payments on the overlying securities; and
  - whether – based on information obtained from the selling shareholders – any of the selling shareholders have an existing short position in the company's common stock and, if any of the selling shareholders have an existing short position in the company's stock, the following additional information:
    - the date on which each such selling shareholder entered into that short position; and

- the relationship of the date on which each such selling shareholder entered into that short position to the date of the announcement of the convertible note transaction and the filing of the registration statement (*e.g.*, before or after the announcement of the convertible note transaction, before the filing or after the filing of the registration statement, etc.).
9. Please provide us, with a view toward disclosure in the prospectus, with:
- a materially complete description of the relationships and arrangements that have existed in the past three years or are to be performed in the future between the issuer (or any of its predecessors) and the selling shareholders, any affiliates of the selling shareholders, or any person with whom any selling shareholder has a contractual relationship regarding the transaction (or any predecessors of those persons) – the information provided should include, in reasonable detail, a complete description of the rights and obligations of the parties in connection with the sale of the convertible notes; and
  - copies of all agreements between the issuer (or any of its predecessors) and the selling shareholders, any affiliates of the selling shareholders, or any person with whom any selling shareholder has a contractual relationship regarding the transaction (or any predecessors of those persons) in connection with the sale of the convertible notes.

If it is your view that such a description of the relationships and arrangements between and among those parties already is presented in the prospectus and that all agreements between and/or among those parties are included as exhibits to the registration statement, please provide us with confirmation of your view in this regard.

10. Please provide us, with a view toward disclosure in the prospectus, with a description of the method by which the company determined the number of shares it seeks to register in connection with this registration statement. In this regard, please ensure that the number of shares registered in the fee table is consistent with the shares listed in the “Selling Shareholders” section of the prospectus.

Selling Stockholders, page 18

11. We note that for each of the selling stockholders, you indicate in the table that they do not own any shares of common stock prior to the offering. Please note that a person shall be deemed to be the beneficial owner of a security if the person has the right to acquire beneficial ownership of such security, as defined in Rule 13d-3(a), within 60 days. Please revise the table to include common shares that the selling stockholders have the right to acquire within 60 days or advise.

Signatures

12. Please have your principal accounting officer or controller sign the registration statement in this capacity. See Instructions for signatures to Form SB-2.

Controls and Procedures

13. We note your disclosure, "Our management, under the supervision and with the participation of our chief executive officer, conducted an evaluation..." Please confirm that the evaluation also included the participation of your principal financial officer. In this regard, we do note that both your chief executive and chief financial officers did make the effectiveness conclusion. Please also confirm that in future filings, you will disclose that both your principal executive and principal financial officers participated in the evaluation.
14. We note your reference to Rules 13a-14(c) under the Exchange Act. Please note that disclosure controls and procedures are defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Please confirm that in future filings, you will refer to Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Further, we note that your chief executive officer and principal financial officer evaluated the effectiveness of your disclosure controls and procedures "[a]s of the Evaluation Date..." Please note that the effectiveness evaluation should be made as of the end of the period covered by the report. Please confirm that in future filings, you will disclose the effectiveness conclusion of your principal executive officer and principal financial officer based on an evaluation as of the end of the period covered by the report.
15. We note your disclosure that your chief executive officer and chief financial officer concluded that your disclosure controls and procedures "[a]re effective to ensure that all material information required to be filed in this quarterly report on Form 10QSB has been made known to him in a timely fashion." As you have included a portion of the definition of disclosure controls and procedures with your effectiveness conclusion, you must include the entire and accurate definition. Please confirm that in future filings, you will revise to disclose, if true, that your disclosure controls and procedures are effective to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms and to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is

accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. See Exchange Act Rule 13a-15(e).

16. We note your disclosure that there were "[n]o significant changes (including corrective actions with regard to significant deficiencies or material weaknesses) in our internal controls or in other factors that could significantly affect these controls subsequent to the Evaluation Date set forth above." Your disclosure does not appear to specifically address Item 308(c) of Regulation S-B. Please confirm, if true, that there were no changes in your internal control over financial reporting that occurred during the last fiscal quarter that has materially affected or is reasonably likely to materially affect, your internal control over financial reporting. Further, please confirm that in future filings, you will disclose any change in your internal control over financial reporting that occurred during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, your internal control over financial reporting.

Exhibits 31.1 and 31.2

17. Please note that the exact wording of the certification provided in Item 601(b)(31) of Regulation S-B is required. For example, in certain parts of the certification, the term "quarterly report" should be replaced with "report," "registrant" should be replaced with "small business issuer" and "as of a date 90 days prior to the filing date of this quarterly report (the 'Evaluation Date')" should be replaced with "as of the end of the period covered by this report based on such evaluation." We also note that paragraph 4(b) appears to be missing the phrase "and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures" and paragraph 4(c) appears to contain typographical errors. Please confirm that in future filings, your 302 certifications will use the exact wording of the certification provided in Item 601(b)(31) of Regulation S-B.

Controls and Procedures, page 18

19. We note your disclosure that your chief executive officer and chief financial officer "judged," as opposed to "concluded," that your disclosure controls and procedures were effective. Please confirm that your chief executive and financial officers

Notwithstanding our comments, in the event the company requests acceleration of the effective date of the pending registration statement, it should furnish a letter, at the time of such request, acknowledging that:

- should the Commission or the staff, acting pursuant to delegated authority, declare the filing effective, it does not foreclose the Commission from taking any action with respect to the filings;
- the action of the Commission or the staff, acting pursuant to delegated authority, in declaring the filing effective, does not relieve the company from its full responsibility for the adequacy and accuracy of the disclosure in the filing; and
- the company may not assert staff comments and the declaration of effectiveness as a defense in any proceeding initiated by the Commission or any person under the federal securities laws of the United States.

In addition, please be advised that the Division of Enforcement has access to all information you provide to the staff of the Division of Corporation Finance in connection with our review of your filings or in response to our comments on your filings.
