Form 10-K for Fiscal Year Ended December 31, 2012

Item 1. Business, page 1

1. Based on the market value of your public float as of the last business day of your most recently completed second fiscal quarter ended June 30, 2013, it appears you may no longer meet the eligibility requirements as a smaller reporting company beginning with your Form 10-K for the year ended December 31, 2013. In this regard:
 - We note from your balance sheets that you make advances to suppliers and that such advances have increased materially from December 31, 2012 to June 30, 2013. Pursuant to Item 101(c)(vi) of Regulation S-K, please disclose the practices of you and your industry relating to working capital items (e.g., where you have provided advances to suppliers and the reasons for such advances, where you provide rights to return

merchandise, or where you have provided extended payment terms to customers). Please provide us with a copy of your intended disclosure.

- Pursuant to Item 101(c)(vii) of Regulation S-K, please disclose the dependence of your business or reportable segments upon a single customer, or a few customers, the loss of any one or more of which would have a material adverse effect on your business or reportable segments. The name of any customer and its relationship, if any, with the registrant or its subsidiaries shall be disclosed if sales to the customer by one or more segments are made in an aggregate amount equal to 10 percent or more of the registrant's consolidated revenues and the loss of such customer would have a material adverse effect on the registrant and its subsidiaries taken as a whole. The names of other customers may be included, unless in the particular case the effect of including the names would be misleading. Please note that a group of customers under common control or customers that are affiliates of each other shall be regarded as a single customer. Please provide us with a copy of your intended disclosure.

6. You disclose that the longest credit term granted, in connection with certain select customers, is 120 days. Based on this disclosure, it is not clear what your typical credit term is. You disclose on page 29 that revenues were \$26.3 million for the fourth quarter of 2012, or \$7.3

million less than outstanding gross accounts receivable of \$33.6 million as of December 31, 2012. Therefore, it appears that a significant portion of your receivables relate to sales made prior to the fourth quarter of 2012. However, we note that you have no allowance for doubtful accounts as of December 31, 2012. Given the apparent large balance of receivables from sales made at least 90 days prior to year end, please tell us how you determined that no allowance for doubtful accounts was required at December 31, 2012. Please clarify for us whether the \$10.1 million and \$9.8 million amounts listed as change in construction in progress are actual cash inflows and outflows in their respective reporting periods.
