Silver Wheaton Acquires Shares of Revett Minerals

Vancouver, British Columbia – Silver Wheaton Corp. (TSX, NYSE:SLW) is pleased to announce that it has acquired, by way of private placement financing, 9,600,000 units of Revett Minerals Inc. ("Revett") at a price of C\$1.13 per unit for total consideration of C\$10,848,000. Each unit is comprised of one common share and one-quarter of one common share purchase warrant. Each whole warrant entitles the holder to purchase one additional common share of Revett at a price of C\$1.36 for a period of 30 months from the date of issuance, providing that if the closing price of the common share is above C\$2.00 for 15 consecutive trading days, Revett may accelerate the expiry of the warrants. As part of this investment, Silver Wheaton has been granted the right, under certain conditions, to maintain its pro rata interest in Revett in the event that Revett issues additional equity securities.

As a result of this transaction, Silver Wheaton owns 12,382,900 common shares of Revett and warrants exercisable to acquire an additional 2,400,000 common shares, representing approximately 17.3% of the outstanding shares of Revett on an undiluted basis, and 19.9% after giving effect to the exercise of the warrants held by Silver Wheaton.

Revett Minerals Inc., through its subsidiaries, owns 67% of both the Rock Creek Project and the Troy Mine located in northwest Montana. Based on the drilling to date, Rock Creek has an estimated inferred resource of 137 million tons grading 1.67 ounces silver per ton and 0.73% copper, containing approximately 229 million ounces of silver and over 2 billion pounds of copper using a cut-off grade of US \$10.00 per ton. The proceeds of the offering are intended for use on further development of the Rock Creek Project and other items.

Silver Wheaton has acquired the Revett shares for investment purposes only and may acquire additional securities or dispose of its beneficial ownership, control or direction over securities through market transactions, private placements, treasury issuances or otherwise as circumstances or market conditions warrant or arise.

Silver Wheaton is the only public mining company with 100% of its operating revenue from silver production. The Company expects to have annual silver sales of approximately 16 million ounces in 2007, increasing to 20 million ounces by 2009 and thereafter. Silver Wheaton is unhedged and well positioned for further growth.
