We note that the agreement provides that you are to invest a total of approximately \$2.2 million, of which \$625,000 has been paid and the balance is due within two years. Financial Statements and Notes

General

2. Please update your financial statements in accordance to Rule 310(g) of Regulation S-B.

Unaudited Financial Statements for the Periods Ended March 31, 2006 and 2005

Note 15 – Stockholders' Equity, page F-38 – F-39

3. You estimated the fair market value of your warrants to be zero on the date of issuance and as of March 31, 2006. Tell us and disclose the method and significant assumptions used to estimate the fair value of your warrants.
4. We have read your response to comment 12 and note that you still have not recorded value for the conversion feature because you determined it did not qualify as a beneficial conversion feature. Determination of whether a beneficial conversion feature exists does not preclude you from analyzing your conversion feature under EITF 00-19. As such, we reissue our previous comment. You should evaluate your conversion feature to determine whether you need to bifurcate the conversion feature from the preferred stock and account for it at fair market value under SFAS 133. If you qualify for the scope exception under paragraph 11(a) of SFAS 133, you would then consider guidance under APB 14. Please advise us and revise your filing as appropriate to reflect your consideration of EITF 00-19.

As appropriate, please amend your registration statement in response to these comments. You may wish to provide us with marked copies of the amendment to expedite our review. Please understand that we may have additional comments after reviewing your amendment and responses to our comments.

We will consider a written request for acceleration of the effective date of the registration statement as a confirmation of the fact that those requesting acceleration are aware of their respective responsibilities under the Securities Act of 1933 and the Securities Exchange Act of 1934 as they relate to the proposed public offering of the securities specified in the above registration statement. We will act on the request and, pursuant to delegated authority, grant acceleration of the effective date.

We direct your attention to Rules 460 and 461 regarding requesting acceleration of a registration statement. Please allow adequate time after the filing of any amendment for further review before submitting a request for acceleration. Please provide this request at least two business days in advance of the requested effective date.
