Microelectronics Technology Company
(formerly China YouTV Corp.)
Notes to Financial Statements
December 31, 2009
(Expressed in US Dollars)

Note 1 - Organization and Business Operations

Microelectronics Technology Company (the "Company") was incorporated in the State of Nevada on May 18, 2005 under the name Admax Resources Inc., which name was changed on February 9, 2007 to China YouTV Corp. and then to Microelectronics Technology Company on August 31, 2009. From May 18, 2005 to March 15, 2007, the Company's business operations were limited to the acquisition of a mineral claim in British Columbia, Canada and the performance of a limited amount of exploration work.

On March 16, 2007, the Company entered into a Joint Venture Agreement with Beijing Hua Ju Net Media Technology Co. Ltd. ("Hua Ju") for a term of 20 years to be organized in Beijing, People's Republic of China ("China"). The purpose of the Joint Venture was to conduct a video sharing website and other related internet interactive media businesses in China. On May 1, 2009, the Joint Venture Agreement was terminated.

On April 1, 2009, the Company acquired certain assets of First Light Resources, Inc. ("First Light"), primarily of mineral claims located in Ontario Canada, pursuant to an Asset Purchase and Sale Agreement. The purchase price for the assets was \$114,000, payable in cash and/or Company common stock. No cash was paid to First Light and a total of 55,000 shares of Company common stock were issued to three designated parties of First Light, increasing the issued and outstanding shares of Company common stock from 30,060 shares to 85,060 shares. The Company also assumed a \$10,912 account payable of First Light in connection with this transaction.

On October 5, 2009, the Company executed a Shares Purchase Agreement with 722868 Ontario Ltd. ("Seller"), an Ontario corporation. The agreement provides for the acquisition from Seller of 51% of the capital stock of Microart Services Inc. ("Microart"), an Ontario corporation engaged

in the electronic manufacturing and design services business, in exchange for \$500,000 cash and 1,250,000 post reverse stock split (see succeeding paragraph) shares of the Company's common stock. The closing, which is subject to satisfaction of certain conditions precedent to closing, is to take place on October 15, 2009, or at such other time as the parties may mutually agree. As at February 23, 2010, the transaction has not closed.

The Company is in the development stage and has not generated any revenues and has incurred losses of \$1,101,652 since inception. At December 31, 2009, the Company had \$2,612 cash and \$283,786 in current liabilities. Further, the Company incurred a loss of \$24,975 during the six months ended December 31, 2009. In view of these conditions, the ability of the Company to continue as a going concern is in substantial doubt and dependent upon achieving a profitable level of operations and on the ability of the Company to obtain necessary financing to fund ongoing operations. To meet these objectives, the Company continues to seek other sources of financing in order to support existing operations and expand the range and scope of its business. However, there are no assurances that any such financing can be obtained on acceptable terms, if at all. These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern.

Note 2 - Summary of Significant Accounting Policies

a) Basis of Presentation

These financial statements and related notes are presented in accordance with accounting principles generally accepted in the United States, and are expressed in US dollars. The Company's fiscal year end is June 30.

Interim Financial Statements

These interim unaudited financial statements have been prepared on the same basis as the annual financial statements and in the opinion of management, reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the Company's financial position, results of operations and cash flows

for the periods shown. The results of operations for such periods are not necessarily indicative of the results expected for a full year or for any future period.

b) Use of Estimates

The preparation of these financial statements in conformity with US generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The Company regularly evaluates estimates and assumptions related to stock-based compensation and deferred income tax valuations. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

c) Basic and Diluted Net Income (Loss) Per Share

The Company computes net income (loss) per share in accordance with SFAS No. 128, "*Earnings per Share*". SFAS No. 128 requires presentation of both basic and diluted earnings per share (EPS) on the face of the income statement. Basic EPS is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible securities using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential shares if their effect is anti dilutive.

d) Comprehensive Loss

SFAS No. 130, *"Reporting Comprehensive Income,"* establishes standards for the reporting and display of comprehensive loss and its components in the financial statements. For the years ended June 30, 2009 and 2008, the Company has no items that represent a comprehensive loss and, therefore, has not included a schedule of comprehensive loss in the financial statements.

e) Cash and Cash Equivalents

The Company considers all highly liquid instruments with maturity of three months or less at the time of issuance to be cash equivalents.

f) Financial Instruments

SFAS No. 157, *"Fair Value Measurements"*, requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. SFAS No. 157 establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

SFAS No. 157 prioritizes the inputs into three levels that may be used to measure fair value:

Level 1

Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2

Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3

Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

The Company's financial instruments consist principally of cash, accounts payable and accrued liabilities, and due to a former related party. Pursuant to SFAS No. 157, the fair value of our cash equivalents is determined based on "Level 1" inputs, which consist of quoted prices in active markets for identical assets. The Company believes that the recorded values of all of the other financial instruments approximate their current fair values because of their nature and respective maturity dates or durations.

g) Mineral Property Costs

Mineral property exploration costs are expensed as incurred. Mineral property acquisition costs are initially capitalized when incurred using the guidance in EITF 04-02, "Whether Mineral Rights Are Tangible or Intangible Assets". The Company assesses the carrying costs for impairment under SFAS 144, "Accounting for Impairment or Disposal of Long Lived Assets" at each fiscal quarter end. When it has been determined that a mineral property can be economically developed as a result of establishing proven and probable reserves, the costs then incurred to develop such property, are capitalized. Such costs will be amortized using the units-of -production method over the estimated life of the probable reserve. If mineral properties are subsequently abandoned or impaired, any capitalized costs will be charged to operations.

h) Income Taxes

Potential benefits of income tax losses are not recognized in the accounts until realization is more likely than not. The Company has adopted SFAS No. 109 "Accounting for Income Taxes" as of its inception. Pursuant to SFAS No. 109 the Company is required to compute tax asset benefits for net operating losses carried forward. The potential benefit of net operating losses have not been recognized in these financial statements because the Company cannot be assured it is more likely than not it will utilize the net operating

losses carried forward in future years.

i) Foreign Currency Translation

The Company's functional and reporting currency is the United States dollar. Monetary assets and liabilities denominated in foreign currencies are translated in accordance with SFAS No. 52 "*Foreign Currency Translation*", using the exchange rate prevailing at the balance sheet date. Gains and losses arising on settlement of foreign currency denominated transactions or balances are included in the determination of income. Foreign currency transactions are primarily undertaken in Canadian dollars. The Company has not, to the date of these financials statements, entered into derivative instruments to offset the impact of foreign currency fluctuations.

j) Reclassifications

Certain reclassifications have been made to the prior year's financial statements to conform to the current year period's presentation.

k) Recently Issued Accounting Pronouncements

In May 2009, FASB issued ASC 855, *Subsequent Events*, which establishes general standards of for the evaluation, recognition and disclosure of events and transactions that occur after the balance sheet date. Although there is new terminology, the standard is based on the same principles as those that currently exist in the auditing standards. The standard, which includes a new required disclosure that an entity has evaluated subsequent events through the date the financial statements have been issued, is effective for interim or annual periods ending after June 15, 2009. The adoption of ASC 855 did not have a material effect on the Company's financial statements. Refer to Note 4.

In June 2009, the FASB issued guidance now codified as ASC 105, *Generally Accepted Accounting Principles* as the single source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with U.S. GAAP, aside from those issued by the SEC. ASC 105 does not change current U.S. GAAP, but is intended to simplify user access to all authoritative U.S. GAAP by providing all authoritative literature

related to a particular topic in one place. The adoption of ASC 105 did not have a material impact on the Company's financial statements, but did eliminate all references to pre-codification standards.

The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

In June 2009, the FASB issued SFAS No. 168 (ASC Topic 105), "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles - a replacement of FASB Statement No. 162" ("SFAS No. 168"). Under SFAS No. 168 the "FASB Accounting Standards Codification" ("Codification") will become the source of authoritative US GAAP to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission ("SEC") under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. SFAS No. 168 is effective for financial statements issued for interim and annual periods ending after September 15, 2009. On the effective date, the Codification will supersede all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the Codification will become non-authoritative. SFAS No. 168 is effective for the Company's interim quarterly period beginning July 1, 2009. The Company does not expect the adoption of SFAS No. 168 to have an impact on the financial statements.

Note 3 - Mineral Claims

As discussed in Note 1, the Company acquired mineral claims located in Ontario Canada for total consideration of \$124,912, which represents First Light's represented amount of exploration costs on the properties. Title to the mineral claims is being held in trust, on behalf of the Company, by Dog Lake Exploration Inc.

Note 4 - Due to Related Parties

As at December 31, 2009, \$24,182 was due to several

corporations related to the Company. These amounts bear no interest, unsecured and have no specific terms of repayment.

As at December 31, 2009, \$190,084 was due to former related party who is the Company's former President and Director who resigned in June 2007. This amount is non-interest bearing, unsecured and have no specific terms of repayment.

Note 5 - Common Stock

Effective October 6, 2009, the Company effectuated a 1 for 1,000 reverse stock splits, thereby reducing the issued and outstanding shares of Common Stock from 100,060,000 prior to the reverse split to 100,060 following the reverse split. The financial statements have been retroactively adjusted to reflect this reverse stock split.

On October 15, 2009, the Company issued 3,500,000 restricted common shares at \$0.01 per share. This included 1,250,000 shares to an Ontario Corporation described above.

On October 15, 2009, the Company authorized issuance of 110,000 Class A preferred shares at \$0.01 per share.

On October 20, 2009, the Company authorized issuance of 3,600,000 common shares at \$0.01 per share.

The Company has not issued any stock options or other convertible securities.

Note 6- Subsequent Events

On February 15, 2010, the Company authorized issuance of 40,000,000 restricted common shares at \$0.001 per share.

On March 8, 2010, the Company authorized issuance of 10,132,430 common shares at \$0.001 per share for settlement of debt.

The Company has evaluated subsequent events through March 31, 2010 and has determined that there were no additional subsequent events to recognize or disclose in these financial statements.

PART I

This Interim Report on Form 10-Q contains forward-looking statements that have been made pursuant to the provisions of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and the Private Securities Litigation Reform Act of 1995 and concern matters that involve risks and uncertainties that could cause actual results to differ materially from historical results or from those projected in the forward-looking statements. Discussions containing forward-looking statements may be found in the material set forth under "Business," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and in other sections of this Form 10-Q. Words such as "may," "will," "should," "could," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential," "continue" or similar words are intended to identify forward-looking statements, although not all forward-looking statements contain these words. Although we believe that our opinions and expectations reflected in the forward-looking statements are reasonable as of the date of this Report, we cannot guarantee future results, levels of activity, performance or achievements, and our actual results may differ substantially from the views and expectations set forth in this Interim Report on Form 10-Q. We expressly disclaim any intent or obligation to update any forward-looking statements after the date hereof to conform such statements to actual results or to changes in our opinions or expectations.

Readers should carefully review and consider the various disclosures made by us in this Report, set forth in detail in Part I, under the heading "Risk Factors," as well as those additional risks described in other documents we file from time to time with the Securities and Exchange Commission, which attempt to advise interested parties of the risks, uncertainties, and other factors that affect our business. We undertake no obligation to publicly release the results of any revisions to any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This section of this report includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like: believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements, which apply only as of the date of this report. These forward-looking states are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or our predictions.

Overview of the Company's Business

We are a start-up, development stage company and have not yet generated or realized any substantial revenues from our business activities. We were incorporated in the State of Nevada on May 18, 2005. Initially, we acquired the right to conduct exploration activities on one property, but we did not own the property. The property consists of one mineral claim containing 622 acres located in Similkameen region of British Columbia, Canada. We had intended to explore for gold on the property. We have not found any commercially viable mineral deposit, or a reserve, yet. We do not plan to have further exploration on this property.

On March 16, 2007, the Company entered into a Joint Venture Agreement with Beijing Hua Ju Net Media Technology Co. Ltd. ("Hua Ju") for a term of 20 years to be organized in Beijing, People's Republic of China ("China"). The purpose of the Joint Venture was to conduct a video sharing website and other related internet interactive media businesses in China. On May 1, 2009, the Joint Venture Agreement was terminated.

On April 1, 2009, the Company acquired certain assets of First Light Resources, Inc. ("First Light"), primarily 6 mineral claims located in Ontario Canada, pursuant to an Asset Purchase and Sale Agreement. The purchase price for the assets was \$114,000, payable in cash and/or Company common stock. No cash was paid to First Light and a total

of 55,000 shares of Company common stock were issued to three designated parties of First Light, increasing the issued and outstanding shares of Company common stock from 30,060 shares to 85,060 shares. The Company also assumed a \$10,912 account payable of First Light in connection with this transaction.

On October 5, 2009, the Company executed a Shares Purchase Agreement with 722868 Ontario Ltd. ("Seller"), an Ontario corporation. The agreement provides for the acquisition from Seller of 51% of the capital stock of Microart Services Inc. ("Microart"), an Ontario corporation engaged in the electronic manufacturing and design services business, in exchange for \$500,000 cash and 1,250,000 post reverse stock split (see succeeding paragraph) shares of the Company's common stock. The closing, which is subject to satisfaction of certain conditions precedent to closing, is to take place on October 15, 2009, or at such other time as the parties may mutually agree. As at February 23, 2010, the transaction has not closed.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

None

ITEM 4. CONTROLS AND PROCEDURES

Our Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report, have concluded that, based on the evaluation of these controls and procedures, that our disclosure controls and procedures were not effective.

There were no changes in our internal controls or in other factors during the period covered by this report that have materially affected, or are likely to materially affect the Company's internal controls over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None

ITEM 1A. RISK FACTORS

There were no material changes to the Risk Factors disclosed in the Form 10-K/A filed February 23, 2010.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On April 10, 2009, the Company issued 55,000 restricted shares of common stock as payment to First Light Resources Inc. as per the Asset Purchase and Sale Agreement on April 1, 2009.

On June 4, 2009, the Company issued 15,000 free trading shares of common stock to four consultants as per the Company's 2009 Non-Qualified Stock Compensation Plan which was approved on April 8, 2009.

Effective October 6, 2009, the Company effectuated a 1 for 1,000 reverse stock splits, thereby reducing the issued and outstanding shares of Common Stock from 100,060,000 prior to the reverse split to 100,060 following the reverse split. This Form 10-K has been retroactively adjusted to reflect this reverse stock split.

In addition, effective October 6, 2009, the Company's quotation symbol on the Over-the-Counter Bulletin Board and Pink Sheets were changed from CYTV to MELY.

On October 15, 2009, the Company issued 3,500,000 restricted common shares at \$0.01 per share. This included 1,250,000 shares to an Ontario Corporation described above.

On October 15, 2009, the Company authorized issuance of 110,000 Class A preferred shares at \$0.01 per share.

On October 20, 2009, the Company authorized issuance of 3,600,000 common shares at \$0.01 per share.

The Company has not issued any stock options or other convertible securities.
