1. Business and Summary of Significant Accounting Policies

Business

US Arma Partners, LP (the "Partnership") is a Delaware limited partnership formed in 2006. The Partnership is registered with the Securities and Exchange Commission ("SEC") as a fully disclosed securities broker-dealer and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). The Partnership is subject to various governmental rules and regulations including the Net Capital Rule set forth in Rule 15c3-1 of the Securities Exchange Act of 1934. Arma Partners, LLC serves as the general partner of the Partnership. All limited partners of the Partnership are also the members of Arma Partners, LLP ("UK Arma or Affiliate"), a United Kingdom-based limited liability partnership formed in March 2004. UK Arma is a broker-dealer regulated by the Financial Conduct Authority in the United Kingdom. Arma Partners, LLC does not have any capital balance in the Partnership.

Cash

Cash consists of cash in deposit accounts and a money market savings account with two commercial banks which at times may exceed federally insured limits. The Partnership has not experienced any losses in such accounts. At March 31, 2019, the Partnership held £30,683 in a US bank account denominated in British Pounds equivalent to \$39,959 US Dollars.

Revenue Recognition

Effective April 1, 2018, the Partnership adopted the requirements of Financial Accounting Standard Board's ASU No. 2014-09, *Revenue from Contracts Customers (Topic 606)*, as amended, utilizing the modified retrospective transition method for its contracts. The Partnership completed its implementation analysis, including identification of revenue streams and reviews of customer contracts under ASU No. 2014-09 framework. The analysis included reviewing current accounting policies and practices to identify potential differences that would result from applying the requirements under the new standard. The Partnership had evaluated the potential impacts of the new revenue recognition standards on its financial statements and has not identified any material changes in the timing of revenue recognition. The adoption of the new guidance for revenue recognition did not result in any changes to the financial statements for the year ended March 31, 2019.

1. Business and Summary of Significant Accounting Policies (continued)

Revenue Recognition

The Partnership earns a service income for having and making available the knowledge and capability to provide certain administrative and consulting services, which represents a performance obligation which are provided and consumed simultaneously, to the Affiliate under an expense sharing agreement. Intercompany service income is earned monthly and is calculated based on direct costs incurred plus a 5% markup. Expense reimbursement is recorded on a gross basis.

Recent Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases. The objective of the update is to increase transparency and comparability among organizations by recognizing lease assets and liabilities on the balance sheet for leases with a lease term of more than 12 months. In addition, the update will require additional disclosures regarding key information about leasing arrangements. Under existing guidance, operating leases are not recorded as lease assets and lease liabilities on the balance sheet. The update will be effective for fiscal years after December 15, 2019, with early adoption permitted. The Partnership is currently evaluating the impact of the adoption of this accounting guidance on its financial statements.

Accounts Receivable

Accounts receivable are recorded at the invoiced amount and generally do not bear interest. To the extent deemed necessary, the Partnership maintains an allowance for estimated losses from the inability of clients to make required payments. The collectability of outstanding invoices is continually assessed. In estimating the allowance, the Partnership considers factors such as historical collections, a client's current creditworthiness, age of the receivable balance and general economic conditions that may affect a client's ability to pay.

Fixed Assets

Fixed assets are stated at cost and are depreciated using the straight-line method over estimated useful lives of three to five years.

Income Taxes

The Partnership elects to be treated as a pass-through entity for all relevant jurisdictions and therefore files informational income tax returns which attribute taxable income and taxes paid, if any, to the partners. Management has concluded that the Partnership is not subject to income taxes in any jurisdiction and that there are no uncertain tax positions that would require recognition in the financial statements. Accordingly, no provision for income taxes is reflected in the accompanying financial statements. If the Partnership were to incur an income tax liability in the future, interest on any income tax liability would be reported as interest expense and penalties on any income tax liability would be reported as income taxes.

Management's conclusions regarding uncertain tax positions may be subject to review and adjustment at a later date based upon ongoing analyses of tax laws, regulations and interpretations thereof as well as other factors.

Use of Estimates

The process of preparing the financial statement in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statement. Accordingly, upon settlement, actual results may differ from estimated amounts.

Translation of Foreign Currencies

The books and records of the Partnership are maintained in U.S. dollars. Assets and liabilities denominated in foreign currencies are translated at the rates of exchange prevailing at the date of the statement of financial condition.
