Form 10-K for the Year Ended December 31, 2006

Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Year Ended December 31, 2006 and 2005

Revenue, page 43

1. We note that the increases in revenue were due to increases in financing source customers and automobile dealers as well as an increase in volume from existing customers. However, you have provided no indication of the relative impact of each factor. Further, your disclosures do not address the amount of revenue

increase attributed to businesses acquired during the periods presented. Please explain to us how you considered Item 303(a)(3)(iii) of Regulation S-K and Section III.D of SEC Release No. 33-6835.

2. We note the quantitative disclosure of customer-related measures, such as active dealers and active financing sources, provided on page 31. Please tell us whether you use any transaction-based measures as key indicators when measuring performance. For example, please tell us what consideration you have given to disclosing the volume of transactions processed when discussing changes in transaction services revenue.

Financial Statements

Note 12. Stock Option and Deferred Compensation Plans

Long Term Incentive Equity Awards, page 82

3. We note that you record expense for EBITDA performance awards when management believes with 100% certainty that the performance target will be achieved. Please tell us how your accounting complies with paragraph 44 of SFAS 123(R) which indicates that compensation expense should be accrued if it is probable that the performance condition will be achieved.
