Further information regarding persons who may be deemed participants will be available in Highbury's proxy statement to be filed with the SEC in connection with the acquisition.

Highbury has filed with the SEC a preliminary proxy statement on Schedule 14A in connection with the proposed transaction. Such persons can also read Highbury's final prospectus, dated January 25, 2006, for a description of the security holdings of the Highbury officers and directors and of TEP and EBC and their respective interests in the successful consummation of this business combination. The definitive proxy statement will be mailed to stockholders as of a record date to be established for voting on the acquisition. Stockholders will also be able to obtain a copy of the definitive proxy statement, without charge, once available. The final prospectus and other relevant documents can also be obtained, without charge, at the SEC's Internet site <http://www.sec.gov> or by contacting Highbury's secretary at Highbury Financial Inc., 999 18th Street, Suite 3000, Denver, Colorado 80202. The firm's clients include public and corporate pension plan sponsors, foundations, endowments, and other institutional and high net worth individual investors. In 1999, Praedium separated from Credit Suisse and presently operates as an independent investment firm. In addition to his responsibilities with Praedium, Mr. Appel ran Credit Suisse's Commercial Mortgage Finance business from 1991 to 1994, where he became a managing director. Source of data on pages 9, 11, 18 and 19: Morningstar, Inc. Past performance is no guarantee of future results. For each fund with at least a 3-year history, Morningstar calculates a Morningstar Rating™ based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive five stars, the next 22.5% receive four stars, the next 35% receive three stars, the next 22.5% receive two stars and the bottom 10% receive one star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating for a fund is derived from a weighted-average of the performance figures associated with its 3-, 5-and 10-year (if applicable) Morningstar Rating metrics.
