Forward-Looking Statement

The following slide show was furnished to the Securities and Exchange Commission (SEC) as part of a Current Report on Form 8-K/A filed by Highbury Financial Inc. (Highbury) with the SEC on November 24, 2009.

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act, with respect to Highbury's and Aston Asset Management LLC's (Aston) future financial or business performance, strategies and expectations. Forward-looking statements are typically identified by words or phrases such as "trend," "potential," "opportunity," "pipeline," "believe," "comfortable," "expect," "anticipate," "current," "intention," "estimate," "position," "assume," "outlook," "continue," "remain," "maintain," "sustain," "seek," "achieve," and similar expressions, or future or conditional verbs such as "will," "would," "should," "could," "may" and similar expressions.

Highbury cautions that forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made, and Highbury assumes no duty to and does not undertake to update forward-looking statements. Actual results could differ materially from those anticipated in forward-looking statements and future results could differ materially from historical performance.

In addition to factors previously disclosed in Highbury's SEC filings and those identified elsewhere in this press release, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance: (1) the impact of legislative and regulatory actions and reforms and regulatory, supervisory or enforcement actions of government agencies; (2) changes in political, economic or industry conditions, the interest rate environment or financial and capital markets, which could result in changes in demand for products or services or in the value of assets under management; (3) terrorist activities and international hostilities, which may adversely affect the general economy, financial and capital markets, specific industries, and Highbury; (4) changing conditions in global financial markets generally and in the equity markets particularly, and decline or lack of sustained growth in these markets; (5) Highbury's business strategy and plans; (6) the introduction, withdrawal, success and timing of business initiatives and strategies; (7) the unfavorable resolution of legal proceedings and/or harm to Highbury's reputation; (8) fluctuations in customer demand; (9) management of rapid growth; (10) the impact of fund performance on redemptions; (11) changes in investors' preference of investing styles; (12) changes in or loss of sub-advisers; (13) the impact of increased competition; (14) the results of future financing efforts; (15) the impact of future acquisitions or divestitures; (16) the relative and absolute investment performance of Highbury's investment products; (17) investment advisory agreements subject to termination or non-renewal; (18) a substantial reduction in fees received from third parties; (19) Highbury's success in finding or consummating add-on acquisitions of investment management firms for Aston; (20) the ability to retain major clients; (21) the ability to attract and retain highly talented professionals; (22) significant limitations or failure of software applications; (23) expenses subject to significant fluctuations; (24) the impact, extent and timing of technological changes and the adequacy of intellectual property protection; (25) the impact of capital improvement projects; (26) the extent and timing of any share repurchases; (27) the impact of changes to tax legislation and, generally, the tax position of Highbury; and (28) expenses associated with the formation of the Special Committee and responding to initiatives of dissident stockholders.

Highbury's filings with the SEC, accessible on the SEC's website at <http://www.sec.gov>, discuss these factors in more detail and identify additional factors that can affect forward-looking statements.

Disclosure - Adjusted EBITDA

As supplemental information, we provide information regarding Adjusted EBITDA, a non-GAAP liquidity measure. This measure is provided in addition to, but not as a substitute for, cash flow from operations. Adjusted EBITDA means the sum of (a) net income determined in accordance with GAAP, plus (b) amortization of intangible assets, plus (c) interest expense, plus (d) depreciation, plus (e) other non-cash expenses, plus (f) income tax expense. This definition of Adjusted EBITDA is consistent with the definition of EBITDA used in our credit facility. Adjusted EBITDA, as calculated by us, may not be consistent with computations of Adjusted EBITDA by other companies. As a measure of liquidity, we believe that Adjusted EBITDA is useful as an indicator of our ability to service debt, make new investments and meet working capital requirements. We provide this non-GAAP measure because our management uses this information when analyzing the Company's financial position. The following table provides a reconciliation of net income to Adjusted EBITDA.

Disclosure - Cash Net Income

As supplemental information, we provide a non-GAAP performance measure that we refer to as Cash Net Income. This measure is provided in addition to, but not as a substitute for, GAAP net income. Cash net income means the sum of (a) net income determined in accordance with GAAP, plus (b) amortization of intangible assets, plus (c) deferred taxes related to intangible assets, plus (d) affiliate depreciation, plus (e) other non-cash expenses. We consider Cash Net Income an important measure of our financial performance, as we believe it best represents operating performance before non-cash expenses relating to the acquisition of our interest in our affiliated investment management firm. Cash Net Income is not a measure of financial performance under GAAP and, as calculated by us, may not be consistent with computations of Cash Net Income by other companies. Cash Net Income is used by our management and board of directors as a performance benchmark.

Since our acquired assets do not generally depreciate or require replacement by us, and since they generate deferred tax expenses that are unlikely to reverse, we add back these non-cash expenses to Net Income to measure operating performance. We will add back amortization attributable to acquired client relationships because this expense does not correspond to the changes in value of these assets, which do not diminish predictably over time. The portion of deferred taxes generally attributable to intangible assets (including goodwill) that we do not amortize but which generates tax deductions is added back, because these accruals would be used only in the event of a future sale of Aston or an impairment charge. We will add back the portion of consolidated depreciation expense incurred by Aston because under Aston's operating agreement we are not required to replenish these depreciating assets. We also add back expenses that we incur for financial reporting purposes for which there is no corresponding cash expense because such expenses cause our Net Income to be understated relative to our ability to generate cash flow to service debt, if any, finance accretive acquisitions, and repurchase securities, if appropriate.

Disclosure - Cash Net Income Per Share

Cash Net Income per share represents Cash Net Income divided by the diluted average shares outstanding. In this calculation, the potential share issuance in connection with our warrants is measured using a treasury stock method. Under this method, only the net number of shares of common stock equal to the value of the warrants in excess of the exercise price, if any, is deemed to be outstanding. We believe the inclusion of net shares under a treasury stock method best reflects the benefit of the increase in available capital resources (which could be used to repurchase shares of common stock) that occurs when these securities are exercised. This method does not take into account any increase or decrease in our cost of capital in an assumed exercise.

Disclosure

Source of data on pages 20, 24 and 25 is Morningstar, Inc. Past performance is no guarantee of future results. For each fund with at least a 3-year history, Morningstar calculates a Morningstar Rating™ based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive five stars, the next 22.5% receive four stars, the next 35% receive three stars, the next 22.5% receive two stars and the bottom 10% receive one star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating for a fund is derived from a weighted-average of the performance figures associated with its 3-, 5-and 10-year (if applicable) Morningstar Rating metrics.
