Safe Harbor Statement

Statements in this presentation that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements involve risks and uncertainties that could cause actual outcomes and results to differ materially from those described in forward-looking statements. We believe that the expectations represented by our forward looking statements are reasonable, yet there can be no assurance that such expectations will prove to be correct. Furthermore, unless otherwise stated, the forward looking statements contained herein are made as of the date of the presentation, and we do not undertake any obligation to update publicly or to revise any of the included forward-looking statements, whether as a result of new information, future events or otherwise unless required by applicable law. The forward-looking statements contained herein are expressly qualified by this cautionary statement. Readers are cautioned that these forward-looking statements involve certain risks and uncertainties, including those described in our filings with the Securities and Exchange Commission (the "SEC").

This presentation references financial measures that are not in accordance with U.S. generally accepted accounting principles ("GAAP"), that our management uses in order to assist analysts and investors in evaluating our financial results. These financial measures not in accordance with GAAP ("Non-GAAP Financial Measures") are defined in the Appendix. In each case, the most directly comparable GAAP financial measure, if available, is presented, and a reconciliation of the Non-GAAP Financial Measure and GAAP financial measure is provided.

Reconciliation of non-GAAP Measures

Adjusted EBITDA is a non-U.S. GAAP measure. We calculate adjusted EBITDA to eliminate the impact of certain items we do not consider to be indicative of the performance of our ongoing operations. In addition, in evaluating adjusted EBITDA, you should be aware that in the future, we may incur expenses similar to the adjustments in the presentation of adjusted EBITDA. Our presentation of adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. We present adjusted EBITDA because we consider it to be an important supplemental measure of our performance and because we believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry, many of which present EBITDA and a form of adjusted EBITDA when reporting their results. Adjusted EBITDA has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for analysis of our results as reported under U.S. GAAP. We compensate for these limitations by relying primarily on our U.S. GAAP results and using adjusted EBITDA only supplementally. The following tables show our adjusted EBITDA and the reconciliation from net income on a consolidated basis and from operating income for our operating units.
