Mr. Marek J. Kreczmer
President and Chief Executive Officer
Uranium International Corp.
10475 Park Meadows Drive, Suite 600
Lone Tree, CO 80124

Re: Uranium International Corp.
Form 10-KSB for Fiscal Year Ended February 29, 2008
Filed June 12, 2008
File No. 000-52660

Dear Mr. Kreczmer:

We have reviewed your filing and have the following comments. Where indicated, we think you should revise your document in response to these comments. If you disagree, we will consider your explanation as to why our comment is inapplicable or a revision is unnecessary. Please be as detailed as necessary in your explanation. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filing. We look forward to working with you in these respects. We welcome any questions you may have about our comments or any other aspect of our review. Feel free to call us at the telephone numbers listed at the end of this letter.

Form 10-KSB for Fiscal Year Ended February 29, 2008

Report of Independent Registered Public Accounting Firm, page 37

1. We note that the auditors' report does not state the audit was conducted in accordance with standards of the Public Company Accounting Oversight Board ("PCAOB"). Please provide an audit report indicating an audit was performed in accordance with standards of the PCAOB. Refer to paragraph 3 of the PCAOB's Audit Standard No. 1 as well as Interpretive Release 33-8422 "Commission Guidance Regarding the Public Company Accounting Oversight Board's Auditing

and Related Professional Practice Standard No. 1”, which can be located on the Commissions website at:

<http://www.sec.gov/rules/interp/33-8422.htm>

2. We note that the independent auditor issued its report in Vancouver, Canada, your optioned properties are in New Mexico and Sweden, your principal executive offices are in Colorado, and you are incorporated in Nevada. In the instance that your auditor relied on the opinion of other auditors, your auditor’s report should state this fact and the opinion of the other auditors should also accompany your auditor’s report on your financial statements. Refer to Rule 2-05 of Regulation S-X and Note 2 to Item 310 of Regulation S-B. Please tell us where the accounting records for the operations are maintained. Please provide us with more information regarding the manner in which the Canadian auditors audited the company’s operations such that reliance on other auditors was not necessary.

Engineering Comments

General

3. We note that your website and some press releases refer to or use the terms “measured,” “indicated,” and “inferred,” resources. If you continue to make references on your web site or press releases to reserve measures other than those recognized by the SEC, please accompany such disclosure with the following cautionary language or provide a legal disclaimer tab or page:

Cautionary Note to U.S. Investors -The United States Securities and Exchange Commission permits U.S. mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. We use certain terms on this website (or press release), such as “measured,” “indicated,” and “inferred” “resources,” which the SEC guidelines strictly prohibit U.S. registered companies from including in their filings with the SEC. U.S. Investors are urged to consider closely the disclosure in our Form 10-K which may be secured from us, or from our website at <http://www.sec.gov/edgar.shtml>.

Please indicate the location of this disclaimer in your response.

Current Business Operations, page 8

4. We note you are an exploration company currently engaged in the exploration and development of uranium projects. The terms development and production have very specific meanings within Industry Guide 7 (see www.sec.gov/about/forms/industryguides.pdf). These words/terms reference the development stage when companies are engaged in preparing reserves for production, and the production stage when companies are engaged in commercial-scale, profit-oriented extraction of minerals. Since you do not disclose any reserves as defined by Guide 7, please remove the terms develop, development or production throughout your document, and replace this terminology, as needed, with the terms such as explore or exploration. This includes the use of the terms in the Financial Statement head notes and footnotes, please see Instruction 1 to paragraph (a) of Industry Guide 7.
5. Early in this section, your company should indicate that it is an exploration state company and that there is no assurance that a commercially viable mineral deposit exists on any of your properties, and that further exploration will be required before a final evaluation as to the economic and legal feasibility is determined. See Industry Guide 7(a) (4).
6. We note your disclosure of historical demonstrated resources in your filing. The provisions in Industry Guide 7 preclude the use of any terms other than proven or probable reserves for disclosure in SEC documents. Please remove all resource disclosure from your filing.

Uranium Exploration Regulation, page 15

7. We note your reference to extensive regulation due to foreign law. Please describe the countries to which you refer, as you are a U. S. domestic company with properties located in the United States.

Description of Property, page 24

8. Please disclose the following information for each of your properties:
 - The nature your ownership or interest in the property.
 - A description of all interests in your properties, including the terms of all underlying agreements and royalties.

- Describe the process by which mineral rights are acquired at this location and the basis and duration of your mineral rights, surface rights, mining claims or concessions.
- An indication of the type of claim or concession such as placer or lode, exploration or exploitation, whether the mining claims are State or Federal mining claims, patented or unpatented claims, mining leases, or mining concessions.
- Please include certain identifying information, such as the property names, claim numbers, grant numbers, mining concession name or number, and dates of recording and expiration that is sufficient to enable the claims to be distinguished from other claims that may exist in the area or your properties.
- The conditions that must be met to retain your claims or leases, including quantification and timing of all necessary payments.
- The area of your claims, either in hectares or in acres.

Please ensure that you fully discuss the material terms of the land or mineral rights securing agreements, as required under paragraph (b)(2) of Industry Guide 7.

9. Please quantify the annual maintenance fees for your mining properties and disclose who is responsible for paying these fees.
10. Please disclose the information required under paragraph (b) of Industry Guide 7 for all your material properties listed under this heading. For any properties identified that are not material, please include a statement to that effect, clarifying your intentions. For each material property, include the following information:
 - The location and means of access to your property, including the modes of transportation utilized to and from the property.
 - Any conditions that must be met in order to obtain or retain title to the property, whether you have surface and/or mineral rights.
 - A brief description of the rock formations and mineralization of existing or potential economic significance on the property.

- A description of any work completed on the property and its present condition.
- The details as to modernization and physical condition of the plant and equipment, including subsurface improvements and equipment.
- A description of equipment, infrastructure, and other facilities.
- The current state of exploration of the property.
- The total costs incurred to date and all planned future costs.
- The source of power and water that can be utilized at the property.
- If applicable, provide a clear statement that the property is without known reserves and the proposed program is exploratory in nature.

You may refer to Industry Guide 7, paragraphs (b) (1) through (5), for specific guidance pertaining to the foregoing, available on our website at the following address:

www.sec.gov/about/forms/industryguides.pdf

11. Please insert a small-scale map showing the location and access to each property, as suggested in paragraph (b) (2) to Industry Guide 7. Please note the EDGAR program now accepts Adobe PDF files and digital maps, so please include these maps in any amendments that are uploaded to EDGAR. It is relatively easy to include automatic links at the appropriate locations within the document to GIF or JPEG files, which will allow figures and diagrams to appear in the right location when the document is viewed on the Internet. For more information, please consult the EDGAR manual, and if additional assistance is required, please call Filer Support at 202-551-8900. We believe that maps and drawings having the following features would be beneficial:

- A legend or explanation showing, by means of pattern or symbol, every pattern or symbol used on the map or drawing.
- A graphical bar scale or representations of scale, such as "one inch equals one mile," may be utilized if the original scale of the map has not been altered.
- A north arrow.

- An index map showing where the property is situated in relationship to the state or province or other geographical area in which it is located.
- A title of the map or drawing, and the date on which it was drawn.
- In the event interpretive data is submitted in conjunction with any map, the identity of the geologist or engineer that prepared such data.

Any drawing should be simple enough or of sufficiently large scale to clearly show all features on the drawing.

12. In the description of each exploration property, please provide a clear statement that the property is without known reserves and the proposed program is exploratory in nature to comply with the guidance in paragraph (b) (4) (i) of Industry Guide 7, applicable under the instructions to Item 4 of Form 20-F.
13. On a related point, it appears you should also expand your disclosure concerning the exploration plans for the properties to address the following points.
 - Disclose a brief geological justification for each of the exploration projects written in non-technical language.
 - Give a breakdown of the exploration timetable and budget, including estimated amounts that will be required for each exploration activity, such as geophysics, geochemistry, surface sampling, drilling, etc. for each prospect.
 - If there is a phased program planned, briefly outline all phases.
 - If there are no current detailed plans to conduct exploration on the property, disclose this prominently.
 - Disclose how the exploration program will be funded.
 - Identify who will be conducting any proposed exploration work, and discuss what their qualifications are.

Closing Comments

As appropriate, please amend your filing and respond to these comments within 10 business days or tell us when you will provide us with a response. You may wish to

Mr. Marek J. Kreczmer
Uranium International Corp.

Page 7

provide us with marked copies of the amendment to expedite our review. Please furnish a cover letter with your amendment that keys your responses to our comments and provides any requested information. Detailed cover letters greatly facilitate our review. Please understand that we may have additional comments after reviewing your amendment and responses to our comments.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes all information required under the Securities Exchange Act of 1934 and that they have provided all information investors require for an informed investment decision. Since the company and its management are in possession of all facts relating to a company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.

In connection with responding to our comments, please provide, in writing, a statement from the company acknowledging that:

- the company is responsible for the adequacy and accuracy of the disclosure in the filing;
- staff comments or changes to disclosure in response to staff comments do not foreclose the Commission from taking any action with respect to the filing; and
- the company may not assert staff comments as a defense in any proceeding initiated by the Commission or any person under the federal securities laws of the United States.

In addition, please be advised that the Division of Enforcement has access to all information you provide to the staff of the Division of Corporation Finance in our review of your filing or in response to our comments on your filing.

You may contact James Giugliano at (202) 551-3319 if you have questions regarding comments on the financial statements and related matters. You may contact George Schuler, Mining Engineer, at (202) 551-3718 with questions about engineering comments. Please contact me at (202) 551-3683 with any other questions.

Sincerely,

Jill Davis
Branch Chief
