1. NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

Brokers International Financial Services, LLC (the “Company”), a wholly-owned subsidiary of AIM, LLC that is ultimately wholly-owned by Integrity Marketing Group, LLC (“Integrity”), is a full-service non-custodial broker-dealer registered under the Securities Exchange Act of 1934, a member of the Financial Industry Regulatory Authority (“FINRA”) and a member of the Municipal Securities Rulemaking Board (“MSRB”). While the MSRB is the principal regulator of the municipal securities market, the MSRB does not carry out the enforcement of its rules or conduct compliance examinations. The MSRB instead provides support to the Financial Industry Regulatory Authority (FINRA), the SEC and federal bank regulators that share responsibility for enforcement and compliance examinations.

The Company provides product sales and client service functions to retail investment clients, investing in a variety of registered products including mutual funds and variable products by application. In addition, the Company is a registered investment advisor. The Company is exempt from Securities and Exchange Commission (“SEC”) Rule 15c3-3, because the Company does not carry customer accounts and is not required to make the periodic computation of reserve requirements for the exclusive benefit of customers.

The Company was approved as a full-service non-custodial Broker Dealer on June 4, 2007. Accordingly, customer transactions are executed and cleared on behalf of the Company by its clearing brokers on a fully disclosed basis and other business activities are limited to transactions via subscriptions on a subscription way basis. The Company’s agreements with its clearing brokers provide that as clearing brokers, these firms will make and keep such records of the transactions effected and cleared in the customer accounts as are customarily made and kept by a clearing broker pursuant to the requirements of Rules 17a-3 and 17a-4 of the Securities and Exchange Act of 1934, as amended. The Company contracts with Pershing, LLC, TD Ameritrade and Charles Schwab to clear accounts.

Leases

The Company recognizes and measures its leases in accordance with FASB ASC 842, *Leases*. The Company is a lessee in several noncancellable operating leases for office space, software and other office equipment. The Company determines if an arrangement is a lease, or contains a lease, at inception of a contract and when the terms of an existing contract are changed. The Company recognizes a lease liability and a right of use (ROU) asset at the commencement date of the lease. The lease liability is initially and subsequently recognized based on the present value of its future lease payments. Variable payments are included in the future lease payments when those variable payments depend on an index or a rate. The discount rate is the implicit rate if it is readily determinable or otherwise the Company uses its incremental borrowing rate. The implicit rates of our leases are not readily determinable and accordingly, we use our incremental borrowing rate based on the information available at the commencement date for the lease. The Company’s incremental borrowing rate for a lease is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments under similar terms and in a similar economic environment.

Brokers International Financial Services, LLC

Notes to Financial Statements

1. NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Leases - continued

The ROU asset is subsequently measured throughout the lease term at the amount of the remeasured lease liability (i.e., present value of the remaining lease payments), plus unamortized initial direct costs, plus (minus) any prepaid (accrued) lease payments, less the unamortized balance of lease incentives received, and any impairment recognized. Lease cost for lease payments is recognized on a straight-line basis over the lease term. The Company's lease agreement expired on November 30, 2023. On December 1, 2023, the Company entered into an expense sharing agreement with an affiliate for its portion of rent and other office expenses. See Note 5 for additional details.

The Company has elected, for all underlying classes of assets, to not recognize ROU assets and lease liabilities for short-term leases that have a lease term of 12 months or less at lease commencement, and do not include an option to purchase the underlying asset that the Company is reasonably certain to exercise. The Company recognizes lease cost associated with our short-term leases on a straight-line basis over the lease term.

The Company made an accounting policy election by class of underlying asset, for computers and other office equipment, to account for each separate lease component of a contract and its associated non-lease components (lessor-provided maintenance) as a single lease component.

Revenue Recognition

Revenue from contracts with customers is recognized following a five-step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize the revenue when (or as) the Company satisfies the performance obligation. See Note 2 for additional details.

Financial Instruments with Off-Balance-Sheet Risk and Concentration of Credit Risk

Customer transactions are introduced to and cleared through a clearing broker. Under the terms of its clearing agreement, the Company is required to guarantee the performance of its customers in meeting contracted obligations. Such transactions may expose the Company to significant off-balance sheet risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. In the event a customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations. In conjunction with the clearing broker, the Company seeks to control the risks associated with its customers' activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines, the customers may be required to deposit additional collateral or reduce positions where necessary.

The Company does not anticipate nonperformance by customers or its clearing broker. In addition, the Company has a policy of reviewing, as considered necessary, the clearing brokers with which it conducts business.

1. NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Financial Instruments with Off-Balance-Sheet Risk and Concentration of Credit Risk (Continued)

At times throughout the year, the Company's cash in financial institutions may exceed Federal Deposit Insurance Corporation insurance limits. As of December 31, 2023, the uninsured cash amount is approximately \$2,700,000. The Company has not experienced any losses in such accounts.

Accounting Estimates

Management uses estimates and assumptions in preparing these financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

Income Taxes

The Company is a single member limited liability company and, therefore, a disregarded entity for federal and state income tax purposes. Therefore, taxes are the responsibility of Integrity Marketing Group, LLC.

The Company follows the accounting guidance for uncertainty in income taxes. Management has evaluated their tax positions and determined there are no material uncertain tax positions. The Company has not been notified of any impending examinations and are no longer subject to examinations by taxing authorities for years before 2021.

Cash and Cash Equivalents and Restricted Cash

The Company considers liquid investments with original maturities of three months or less to be cash equivalents.

Restricted cash includes a deposit account of \$250,000 held at a clearing firm on December 31, 2023.

Leasehold Improvements, Office Furniture and Equipment

Most office furniture is provided to the Company by its affiliate Brokers International, LLC ("BI") in accordance with its cost sharing agreement. Leasehold improvements, office furniture and equipment are stated at cost. Depreciation is provided on a straight-line basis over the estimated useful lives of 5-7 years for office furniture and equipment and 15 years for leasehold improvements. Maintenance and repairs are expensed as incurred; major improvements and betterments are capitalized.

1. NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Commissions and Concessions Receivable

The Company's commissions and concessions receivables consist of commissions due from various insurance, mutual fund companies, investment advisory accounts and receivables from clearing organizations. On December 31, 2023, approximately 85% of these commissions are payable to the Company's sales representatives and are paid upon collection. The Company regularly monitors outstanding receivables and performs an assessment of collectability. No allowance for provision losses was deemed necessary by management as of December 31, 2023.

Other Receivable

Other receivables represent amounts due from registered representatives for insurance and registration fees. Management performs an assessment of collectability throughout the year and amounts are charged off from an evaluation of the aging and/or collectability of past-due accounts.

Financial Instruments – Credit Losses

The Company accounts for estimated credit losses on financial assets measured at an amortized cost basis and certain off-balance sheet credit exposures in accordance with FASB ASC 326-20, *Financial Instruments — Credit Losses*. FASB ASC 326-20 requires the Company to estimate expected credit losses over the life of its financial assets and certain off-balance sheet exposures as of the reporting date based on relevant information about past events, current conditions, and reasonable and supportable forecasts. The Company records the estimate of expected credit losses as an allowance for credit losses. The Company estimates expected credit losses over the life of the financial assets as of the reporting date based on relevant information about past events, current conditions, and reasonable and supportable forecasts.

2. REVENUE FROM CONTRACTS WITH CUSTOMERS

Significant Judgments

Revenue from contracts with customers includes commission income from variable annuity trail and 12b-1 fees and asset management services. The recognition and measurement of revenue is based on the assessment of individual contract terms. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

Commissions

The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer.

Variable Annuity Trail and 12b-1 Fee Income

The Company earns variable annuity trails and 12b-1 fees in accordance with selling agreements. Fees are based on a percentage applied to the customer's assets under management. Fees are received monthly or quarterly and are recognized as revenue in the month or quarter that relates specifically to the services provided in that period, which are distinct from the services provided in other periods.

Advisory

The Company provides investment advisory services on a daily basis. The Company believes the performance obligation for providing advisory services is satisfied over time because the customer is receiving the benefits as they are provided by the Company. Fee arrangements are based on a percentage applied to the customer's assets under management. Fees are received monthly or quarterly and are recognized as revenue in the month or quarter that relates specifically to the services provided in that period, which are distinct from the services provided in other periods.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Brokers International Financial Services, LLC's compliance with the exemption provisions. Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934 and the Company's other business activities contemplated by Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. §240.17a-5, and related SEC Staff Frequently Asked Questions.
