FORM 10-Q

☒ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)**
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2008
Or

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)**
OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from ____ to ____

Commission File Number: 333-134089

CPG International Inc.
(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation)

20-2779385
(I.R.S. Employer Identification No.)

801 Corey Street, Scranton, PA
(address of principal executive offices)

18505
(Zip Code)

Registrant's telephone number, including area code: **(570) 558-8000**

Indicate by check mark whether registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐

Accelerated filer ☐

Non-accelerated filer ☒

Smaller reporting company ☐

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

There is no public market for the registrant's common stock. As of July 31, 2008 the number of units of the registrant's common stock, par value \$0.01 per share, outstanding was 10, all of which are held by CPG International Holdings LP, the registrant's direct parent company.

CPG International Inc and Subsidiaries
Notes to Condensed Consolidated Financial Statements (unaudited).

1. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements and the accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission (the “SEC”). In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Certain information and notes normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to the rules and regulations of the SEC. These accompanying financial statements include the accounts of CPG International Inc. and Subsidiaries (the “Company”) on a consolidated basis. The notes to the consolidated financial statements contained in the Company’s Form 10-K for the year ended December 31, 2007 should be read in conjunction with these unaudited condensed consolidated financial statements. The results of operations for the three and six months ended June 30, 2008 and 2007 are not necessarily indicative of the operating results that may be expected for the full year.

The Company has guaranteed debt securities of its direct subsidiary, CPG International I Inc. (“CPG”), and, as a result, although CPG is the issuer of the debt securities, the financial statements included herein for the periods presented are those of the Company. See Note 12 for condensed consolidating financial information for the Company, CPG and its subsidiaries.

Allowance for Doubtful Accounts

Credit is extended to commercial, institutional, residential and industrial construction customers based on an evaluation of their financial condition and collateral is generally not required. The evaluation of the customer’s financial condition is performed to reduce the risk of loss. The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. Amounts are written-off when they are determined to be uncollectible.

Changes in the Company’s allowance for doubtful accounts are as follows:

	Three Months Ended June 30, 2008	Three Months Ended June 30, 2007
(Dollars in thousands)		
Beginning balance	\$ 1,576	\$ 1,497
Increase for anticipated bad debts	250	250
Decrease for accounts written off	(109)	—
Ending balance	<u>\$ 1,717</u>	<u>\$ 1,747</u>

	Six Months Ended June 30, 2008	Six Months Ended June 30, 2007
(Dollars in thousands)		
Beginning balance	\$ 1,343	\$ 1,497
Increase for anticipated bad debts	507	250
Decrease for accounts written off	(133)	—
Ending balance	<u>\$ 1,717</u>	<u>\$ 1,747</u>

Product Warranties

The Company provides a 15-year limited warranty on Scranton Products commercial building products, a 25-year limited warranty on AZEK Trim products and a lifetime limited warranty on AZEK Deck products sold for residential use. The warranty period for all other uses of AZEK Deck, including commercial, is 25 years. AZEK Canada products have a 20 year limited warranty for white railing and a 10 year limited warranty for colored railing. The Scranton Products warranty guarantees against breakage, corrosion and delamination. AZEK Trim products are guaranteed against manufacturing defects that cause the products to rot, corrode, delaminate, or excessively swell from moisture. The AZEK Deck warranty guarantees against manufacturing defects in material and workmanship that result in blistering, peeling, flaking, cracking, splitting, cupping, rotting or structural defects from termites or fungal decay. The AZEK Canada warranty also guarantees against rotting, cracking, peeling, blistering or structural defects from fungal decay.

Warranty reserves require a high level of judgment as AZEK Trim products have only been on the market for eight years and AZEK Deck has only been on the market for four years, both of which are early in their product life cycles. Management estimates warranty reserves based in part upon historical warranty costs, which have been immaterial thus far, as a proportion of sales by product line. Management also considers various relevant factors, including its stated warranty policies and procedures as part of its evaluation of its liability. We further consider that warranty issues may surface later in the product life cycle, therefore management continues to review these estimates on a regular basis and considers adjustment to these estimates based on actual experience compared to historical estimates. Management believes that the warranty reserves at June 30, 2008 are adequate. However, the impact resulting from the aforementioned factors could cause actual results to vary. The Company currently classifies the warranty as a long-term liability.

Components of the reserve for warranty costs are as follows:

	Three Months Ended June 30, 2008	Three Months Ended June 30, 2007
(Dollars in thousands)		
Beginning balance	\$ 3,328	\$ 3,331
Warranty settlements incurred	(6)	(109)
Effect of foreign currency translation	3	—
Ending balance	<u>\$ 3,325</u>	<u>\$ 3,222</u>

	Six Months Ended June 30, 2008	Six Months Ended June 30, 2007
(Dollars in thousands)		
Beginning balance	\$ 3,107	\$ 1,854
Additions related to sales ⁽¹⁾	227	1,546
Warranty settlements incurred	(12)	(178)
Effect of foreign currency translation	3	—
Ending balance	<u>\$ 3,325</u>	<u>\$ 3,222</u>

(1) Approximately \$227,000 added as an initial reserve at March 1, 2008 related to the Composatron Acquisition (Note 3).

CPG International Inc and Subsidiaries
Notes to Condensed Consolidated Financial Statements (unaudited).

Estimated Fair Value of Financial Instruments

The Company's financial instruments consist primarily of cash, accounts receivable, accounts payable, accrued liabilities and debt. The Company estimates the fair value of its debt using current market quotes and the relative maturities and the carrying values approximates fair value at the balance sheet dates.

The carrying amount and fair value of the Company's financial instruments including current maturities at June 30, 2008 are:

(dollars in thousands)	Carrying Value	Fair Value
Long-term debt	\$ 278,095	\$ 230,933
Term Loan	24,234	24,234
Revolving credit facility	\$ 5,000	\$ 5,000

The carrying amount and fair value of the Company's financial instruments including current maturities at December 31, 2007 are:

(dollars in thousands)	Carrying Value	Fair Value
Long-term debt	\$ 278,107	\$ 264,630

All other financial instruments are accounted for on a historical cost basis which, due to the nature of these instruments, approximates fair value at the balance sheet dates.

Use of Estimates

The preparation of financial statements in conformity with accounting principals generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Comprehensive Income (Loss)

Comprehensive income (loss) is defined as net income (loss) and other changes in equity from transactions unrelated to the Company's shareholder. The Company's comprehensive income (loss) consists of accumulated foreign currency translation adjustments.

Foreign Currency Translation

The translation of the financial statements of our Canadian subsidiary whose functional currency is other than U.S. Dollar ("USD") into USD is performed for balance sheet accounts using closing exchange rates in effect at the balance sheet date and for revenue and expense accounts using an average exchange rate during each reporting period. The gains or losses resulting from translation are included in shareholder's equity separately as accumulated other comprehensive income (loss).

Income Taxes

When applicable, the Company's practice is to recognize interest and/or penalties related to income tax matters in income tax expense. As of June 30, 2008 and December 31, 2007, there was no accrual for interest or penalties recorded on the condensed consolidated balance sheet. The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction and in Canada for federal and provincial jurisdictions. The Company and its subsidiaries' federal income tax returns for tax years 2004 and beyond are open tax years subject to examination by

CPG International Inc and Subsidiaries
Notes to Condensed Consolidated Financial Statements (unaudited).

the Internal Revenue Service (IRS). The IRS has recently completed an examination of a subsidiary's tax return for certain tax periods in 2004 and 2005 with no change. AZEK Canada is currently undergoing an audit by Canada Revenue for 2006 and 2007. The Company is not liable for any adjustments arising from this audit as the Company was indemnified under the purchase agreement for its Canadian subsidiary. The Company and its subsidiaries also file income tax returns in various state jurisdictions as appropriate, with varying statutes of limitation. There are no state income tax examinations in process at this time.

Recently Issued Financial Accounting Standards

In September 2006, the FASB issued SFAS 157, *Fair Value Measurement*. SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This statement is effective for fiscal years beginning after November 15, 2007 for financial instruments, and non-financial instruments beginning after November 15, 2008, and interim periods within those fiscal years. The adoption of SFAS 157 related to financial instruments did not have a material impact on the Company's consolidated financial statements.

In February 2007, the FASB issued SFAS 159, *The Fair Value Option for Financial Assets and Financial Liabilities*. SFAS 159 expands opportunities to use fair value measurement in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The adoption of SFAS 159 did not have a material impact on the Company's consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations*, which establishes principles over the method entities use to recognize and measure assets acquired and liabilities assumed in a business combination and enhances disclosures on business combinations. SFAS No. 141(R) is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company is currently evaluating the impact of this standard on its consolidated financial statements.

2. SEGMENT INFORMATION

The Company operates the following two reportable segments: AZEK Building Products, Inc. ("AZEK Building Products"), which includes residential building products such as AZEK Trimboards, Mouldings, Deck and Rail and Celtec, as well as other branded highly engineered, metal and wood replacement products; and Scranton Products Inc. ("Scranton Products"), which includes highly engineered commercial building products such as synthetic bathroom and locker systems.

The Company's chief operating decision makers (which consists of the Company's Chief Executive Officer and Chief Financial Officer), regularly review financial information about each of these business units in deciding how to allocate resources and evaluate performance. The Company evaluates each segment's performance based on gross margin and operating income. The accounting policies for the reportable segments are the same as those for the Company. Intersegment sales and transfers are based on resin prices plus an appropriate margin and are reviewed periodically by management. Corporate costs, which include corporate salary and employee benefit costs, information technology and corporate related professional fees (including accounting and legal fees), are not allocated to segments.

3. ACQUISITIONS

On February 29, 2008, the Company purchased 100% of the outstanding stock of Compos-A-Tron Manufacturing Inc. ("Composatron") for \$30,364,000. If certain financial targets are met in 2008, that purchase price may increase by approximately CAD \$4,000,000 in cash (approximately \$3,960,000 USD at June 30, 2008) to the former owners, based on meeting certain operating targets in 2008. Composatron was a privately held manufacturer of Premier and Trademark Railing Systems, leading composite railing solutions for the residential housing market. The Company borrowed approximately \$25,000,000 under the Term Loan as part of the financing for the Composatron Acquisition. The remaining funds came from the Company's operations. The Composatron Acquisition is accounted for as a purchase business combination in accordance with SFAS No.141, *Business Combinations*.

The purchase price is allocated on a preliminary basis to the tangible and intangible assets acquired and liabilities assumed based on relative fair values as of the date of the transaction, including a portion of which was capitalized to the balance sheet as goodwill. The purchase price is subject to final determination as well as final working capital adjustments. A valuation study is currently being performed on land, buildings and equipment acquired, as well as intangible assets such as patented technology, trademarks and customer relationships, which will change the purchase price allocation and may result in additional depreciation of property and equipment and amortization of identifiable intangible assets over their estimated useful lives. The Company is also in the process of evaluating the fair market value of inventory and the required reserve balances for allowance for doubtful accounts, as well as other liabilities such as accrued workers compensation and accrued warranty costs, all of which may impact the purchase price allocation. The amount allocated to goodwill is reflective of the future benefit the Company is expecting to realize from the Composatron Acquisition, including strategic growth opportunities within AZEK Building Products and additional product offerings. Composatron's results of operations, subsequent to February 29, 2008, are reported as part of the AZEK Building Products business unit. The amount allocated to goodwill is not expected to be deductible for tax purposes.

The following table summarizes the preliminary allocation of fair values of Composatron's assets acquired and liabilities assumed at the date of acquisition, as follows:

(Dollars in thousands)	At March 1, 2008
Purchase price	\$ 30,364
Transaction costs	1,229
	<u>31,593</u>
Less:	
Cash and cash equivalents	\$ 466
Accounts receivable	5,481
Inventory	4,516
Other current assets	497
Other assets	398
Property, plant and equipment	11,147
Total assets acquired	<u>22,505</u>
Accounts payable assumed	3,326
Other liabilities assumed	1,077
Total liabilities assumed	<u>4,403</u>
	<u>(18,102)</u>
Goodwill (excess purchase price over net asset value)	<u>\$ 13,491</u>

CPG International Inc and Subsidiaries

Notes to Condensed Consolidated Financial Statements (unaudited).

The following pro forma consolidated financial information for the three and six months ended June 30, 2008 and 2007 are presented as though the Composatron Acquisition occurred on January 1, 2007. The pro forma consolidated financial information is not indicative of future results of operations or results of operations that would have actually occurred had the Composatron Acquisition been consummated as of January 1, 2007, due to the fair values assigned to Composatron's assets and liabilities, the changes made in related estimated useful lives of the assets at March 1, 2008, as well as changes in interest and income tax expenses as a result of the Composatron Acquisition.

(Dollars in thousands)		Pro Forma Three Months Ended June 30, 2007	
Net sales		\$	84,381
Net income		\$	1,578

(Dollars in thousands)		Pro Forma Six Months Ended June 30, 2008	Pro Forma Six Months Ended June 30, 2007	
Net sales		\$	177,620	\$ 187,109
Net income		\$	842	\$ 6,738

On January 31, 2007, CPG acquired 100% of the outstanding equity of Pro-Cell, LLC ("Procell"), which owned and operated Procell Decking Systems for a purchase price of \$77,324,000. In order to fund the Procell Acquisition, CPG issued an additional \$33,000,000 aggregate principal amount of Floating Rate Notes on January 31, 2007. The remainder of the purchase price was funded through capital contributions of approximately \$34,900,000 with the remainder of the balance funded through operating cash flow. The Procell Acquisition was accounted for as a purchase business combination in accordance with SFAS 141, *Business Combinations*.

The purchase price was allocated to the tangible and intangible assets acquired and liabilities assumed based on fair values as of the date of the transaction, including a portion of which was capitalized to the balance sheet as goodwill. The purchase price was subject to final determination, including a cash payment, as well as additional equity in CPG International Holdings, LP ("Holdings") to the former owners of Procell based upon the Company's achievement of certain financial and operating targets for the year ended December 31, 2007. The Company's management recorded \$12,333,000 as the contingent cash payment under the terms of the purchase agreement, of which \$9,654,000 was paid in April 2008. The remaining balance of approximately \$2,727,000 was paid in July 2008. The former owners received 2,517.42 A units in Holdings, valued at \$5,689,000. These shares were issued in April 2008. The value was based on a current valuation of Holdings A units. A valuation study was performed, which resulted in changes in property and equipment and the recording of intangible assets including customer relationships and proprietary technology amortizable on an accelerated basis over the next ten and fifteen years respectively, and non-compete agreements, amortizable over the next five years. The amount allocated to goodwill is reflective of the future benefit the Company is expecting to realize from the Procell Acquisition, including strategic growth opportunities within AZEK Building Products, as well as additional product offerings. Procell's results of operations, subsequent to January 31, 2007, are reported as part of the AZEK Building Products business unit. The amount allocated to goodwill is expected to be deductible for tax purposes.

In accordance with SFAS 142, *Goodwill and Other Intangible Assets*, goodwill and trademarks are tested for impairment annually at the reporting unit level. The customer relationships, non-compete agreement and proprietary knowledge, which are amortizable, will be tested for impairment whenever events or circumstances indicate that the carrying value may not be recoverable, in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*.

At June 30, 2008, approximately \$209,521,000 represents goodwill attributable to the AZEK Building Products segment and approximately \$92,320,000 represents goodwill attributable to the Scranton Products segment.

Amortization expense for the three months ended June 30, 2008 and 2007 was approximately \$1,029,000 and \$610,000, respectively. Also, amortization expense for the six months ended June 30, 2008 and 2007 was approximately \$2,084,000 and \$1,220,000, respectively.

CPG International Inc and Subsidiaries

Amortization of deferred financing costs for the three months ended June 30, 2008 and 2007 was approximately \$523,000 and \$475,000, respectively. Also, amortization of deferred financing costs for the six months ended June 30, 2008 and 2007 was approximately \$1,021,000 and \$947,000, respectively. In addition, during the first quarter of 2008, the Company wrote off approximately \$469,000 of net deferred financing costs attributable to the

CPG International Inc and Subsidiaries
Notes to Condensed Consolidated Financial Statements (unaudited).

Company's previous credit facility. Amortization of deferred financing costs, as well as the additional write-off is included in interest expense on the consolidated statements of operations.

8. LONG-TERM DEBT

Long-term debt consisted of the following:

(Dollars in thousands)	June 30, 2008	December 31, 2007
Senior Unsecured Fixed Rate Notes due 2013—10.5%	\$ 150,000	\$ 150,000
Senior Unsecured Floating Rate Notes due 2012—LIBOR + 6.75% (11.40% at June 30, 2008 and 12.12% at December 31, 2007) (includes premium of \$95 at June 30, 2008 and \$107 at December 31, 2007)	128,095	128,107
Credit Facility – (4.5% - 5.25% at June 30, 2008)	5,000	—
Term Loan due 2011 –8.09% at June 30, 2008 (includes discount of \$641 at June 30, 2008)	24,234	—
Total	307,329	278,107
Less current portion	5,250	—
Long-term debt—less current portion	\$ 302,079	\$ 278,107

As of June 30, 2008, the Company has scheduled long term debt payments (excluding interest) of \$125,000 in 2008, \$250,000 in 2009 and 2010, \$24,250,000 in 2011, and \$128,000,000 in 2012 and \$150,000,000 in 2013.

The Company has included its borrowing under the Credit Facility as current portion of long-term debt as of June 30, 2008 due to its intention to pay the balance within twelve months with operating funds.

On February 13, 2008, the Company and its subsidiaries entered into a Loan and Security Agreement with Wachovia Bank, National Association (the “Loan Agreement”), as administrative agent, and General Electric Capital Corporation, as syndication agent. The Loan Agreement provides subsidiaries of the Company with up to \$65,000,000 million in borrowing capacity, with the actual borrowing base limited to a percentage of eligible receivables and inventory, subject to reserves established by the administrative agent in its permitted discretion. The Loan Agreement requires subsidiaries of the Company to repay the outstanding principal on any loans thereunder at the maturity date as defined therein, but in any case no later than February 13, 2013. Borrowings under the Loan Agreement bear interest, at the Company’s option, at the base rate (prime rate) plus a spread of up to 0.5% or adjusted LIBOR plus a spread of 1.5% to 2.25%, or a combination thereof. The Loan Agreement also provides for a fee ranging between 0.25% and 0.5% of unused commitments. Substantially all of the Company’s and its subsidiaries’ assets (excluding real property) are pledged as collateral for any borrowings under the Loan Agreement.

The Loan Agreement contains various covenants, including a financial covenant which requires the Company and its subsidiaries to maintain, in certain circumstances and as defined, minimum ratios or levels of consolidated EBITDA to consolidated fixed charges. The Loan Agreement also imposes certain restrictions on the Company, and its subsidiaries, including restrictions on the ability to issue guarantees, grant liens, make fundamental changes in their business, corporate structure or capital structure, make loans and investments, enter into transactions with affiliates, modify or waive material agreements, or prepay or repurchase indebtedness.

On February 13, 2008, concurrently with the execution of the Loan Agreement, the Company and its subsidiaries terminated its prior senior secured revolving credit facility.

On February 29, 2008, the Company and its subsidiaries, entered into a Term Loan and Security Agreement (“Term Loan Agreement”). Subsidiaries of the Company borrowed approximately \$25.0 million under the term loan as part of the financing for the Composatron Acquisition. The Term Loan Agreement requires the borrowers thereunder to repay the outstanding principal of the Term Loan in quarterly installments of \$62,500 from March 31,

CPG International Inc and Subsidiaries
Notes to Condensed Consolidated Financial Statements (unaudited).

2008 through December 31, 2010, with the remaining outstanding principal balance of the Term Loan due no later than February 28, 2011. The Term Loan Agreement contains various covenants, including a financial covenant which requires the Company and its subsidiaries to maintain, as defined, a maximum ratio of consolidated senior secured indebtedness to consolidated EBITDA. The Term Loan Agreement also imposes certain restrictions on the Company and its subsidiaries, including restrictions on the ability to issue guarantees, grant liens, make fundamental changes in their business, corporate structure or capital structure, make loans and investments, enter into transactions with affiliates, modify or waive material agreements, or prepay or repurchase indebtedness.

The Company is not aware of any instances of noncompliance with the financial covenants imposed by the debt agreements as of June 30, 2008.

9. LEASE COMMITMENTS

The Company leases machinery, computer equipment and a manufacturing facility under various capital leases. The Company also leases office equipment, vehicles, a manufacturing facility and an office under operating leases expiring during the next six years.

On May 11, 2007, CPG sold one of its manufacturing facilities and concurrently entered into an operating lease with the buyer to continue to use a portion of the building through May 2009 at a rate of approximately \$14,000 per month.

Future minimum rental payments at June 30, 2008 for capital and operating leases having non-cancelable lease terms in excess of one year are as follows:

	Capital	Operating
2008	\$ 1,379	\$ 1,024
2009	2,775	1,937
2010	2,449	1,781
2011	1,906	1,477
2012	950	962
Thereafter	6,793	2,265
Total	<u>16,252</u>	<u>\$ 9,446</u>
Less amount representing interest	<u>(8,347)</u>	
Present value of minimum capital lease payments	7,905	
Less current installments of obligations under capital leases	<u>(920)</u>	
Obligations under capital leases—excluding current installments	<u>\$ 6,985</u>	

Total rent expense for the three months ended June 30, 2008 and 2007 was approximately \$431,000 and \$360,000, respectively. Rent expense for the six months ended June 30, 2008 and 2007 was approximately \$877,000 and \$664,000, respectively.

10. COMMITMENTS AND CONTINGENCIES

From time to time, the Company is subject to litigation in the ordinary course of business. Currently, there are no claims or proceedings against the Company that it believes would be expected to have a material adverse effect on the Company's business or financial condition, results of operations or cash flows.

11. RELATED PARTY TRANSACTIONS

AEA Investors, the general partner of CPG International Holdings LP (CPG Holdings), the Company's direct parent company, is entitled to a management fee at an annual rate of \$1,500,000, payable on a monthly basis pursuant to a management agreement with AEA Investors. Management fees of \$375,000 and \$750,000 are included in selling,

CPG International Inc and Subsidiaries
Notes to Condensed Consolidated Financial Statements (unaudited).

general and administrative expenses for the three and six months ended June 30, 2008, respectively. Management fees of \$375,000 and \$750,000 are included in selling, general and administrative expenses for the three and six months ended June 30, 2007, respectively. In addition, in consideration of services performed in connection with the Composatron Acquisition and the related financings, the Company paid a \$500,000 fee to AEA Investors upon closing of the Composatron Acquisition.

The Company leases one of its manufacturing facilities from an affiliate of an equity holder of CPG Holdings. Total lease payments for the three and six months ended June 30, 2008 was \$127,000 and \$254,000, respectively. Total lease payments for the three and six months ended June 30, 2007 was \$126,000 and \$251,000, respectively. The Company also has an option, expiring January 1, 2009, to purchase the land, building and fixtures for \$4,000,000.

Upon completion of the Procell Acquisition, the Company entered into an amended lease agreement related to Procell's office and manufacturing facilities location, with North Alabama Property Leasing, Inc. The lessor of the property is an entity whose sole shareholder is now an equity holder in CPG Holdings as a result of the Procell Acquisition. Total lease payments for the three and six months ended June 30, 2008 were approximately \$185,000 and \$323,000, respectively. Total lease payments for the three and six months ended June 30, 2007 were approximately \$127,000 and \$211,000, respectively. The Company has also paid storage fees in the amount of approximately \$10,000 and \$15,000 for the three and six months ended June 30, 2008, respectively.

Tide Transport, Inc., a freight company owned by two equity holders of CPG Holdings, provides certain freight services to our Foley, Alabama facility on a regular basis. These services include shipping finished product and for the transportation of resin purchases. Total freight costs for this arrangement were approximately \$119,000 and \$395,000 for the three and six months ended June 30, 2008, respectively. Total freight costs for this arrangement were approximately \$126,000 and \$238,000 for the three and six months ended June 30, 2007, respectively.

The former owners of Composatron conducted business for finished goods as well as machinery repairs and parts with various companies that are affiliated with the former owners of Composatron. Total costs paid to these affiliated companies were approximately \$214,000.

The Company entered into an agreement with its Chief Executive Officer, which provides the officer with a bonus payment of \$2,000,000, \$1,000,000 or \$500,000, if the Company is sold within 12, 24 or 36 months, respectively, after April 2008.

The Company also has a long-term receivable in the amount of \$808,000 due from CPG Holdings. Currently, no repayment schedule has been established for this receivable. The receivable has been classified in shareholder's equity.

12. CONDENSED CONSOLIDATING FINANCIAL INFORMATION

The Company conducts its business through its directly and indirectly 100% owned operating subsidiaries. The Company's 100% owned subsidiary, CPG, is the issuer of the Notes. See Note 8. The Company is the direct parent holding company of CPG and a guarantor of the Notes. In addition, all of the domestic subsidiaries of CPG, which are all 100% owned by the Company, guarantee the Notes. The guarantees are full, unconditional, joint and several. The Company acquired Composatron in February 2008. In connection with the acquisition of Composatron, AZEK Canada Inc., an indirect wholly owned subsidiary of the Company that is incorporated under the laws of the Province of Ontario ("AZEK Canada") merged with and into Composatron on February 29, 2008, and the entity surviving this merger was AZEK Canada. AZEK Canada does not provide any guarantees on the Notes.

The following condensed consolidating financial information presents the financial information of the Company (as the parent guarantor of the Notes), CPG (as the issuer of the Notes), the guarantor subsidiaries of the

CPG International Inc and Subsidiaries

Notes to Condensed Consolidated Financial Statements (unaudited).

Company on a combined basis (as the subsidiary guarantors of the Notes), and the non-guarantor foreign subsidiary as a separate entity (AZEK Canada), prepared on the equity method of accounting at June 30, 2008 and December 31, 2007 and for the three and six month ended June 30, 2008 and 2007. The financial information may not necessarily be indicative of the results of operations or financial position had the issuer and the subsidiary guarantors operated as independent entities.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis should be read in conjunction with and is qualified in its entirety by reference to the unaudited consolidated financial statements and accompanying notes of CPG International Inc., included elsewhere in this report. Except for historical information, the discussions in this section contain forward-looking statements that involve risks and uncertainties. Future results could differ materially from those discussed below. See discussion below under the caption "Cautionary Note Regarding Forward-Looking Statements." Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Form 10-K for the year ended December 31, 2007 should be read in conjunction with these unaudited condensed consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations discussed below. The results of operations and cash flow for the three and six months ended June 30, 2008 are not necessarily indicative of the operating results that may be expected for the full year.

OVERVIEW

We are a leading supplier of premium, low maintenance building products designed to replace wood, metal and other materials in the residential, commercial and industrial markets. With a focus on manufacturing excellence, proprietary technologies and quality, we have introduced our products through distribution networks to sizable markets increasingly converting to low maintenance materials. We have developed and acquired a number of branded products including AZEK® Trim, AZEK Deck, AZEK Moulding, Trademark and Premier Railing, Comtec and Hiny Hiders bathroom partition systems, and EverTuff™ and TuffTec™ locker systems. We operate the following two business units:

- AZEK Building Products Inc., or AZEK Building Products, manufactures exterior residential building products such as AZEK Trim, AZEK Deck, and AZEK Moulding as well as Premier and Trademark Railing Systems for the residential and commercial building market. Additionally AZEK Building Products produces Celtec and other non-fabricated products for the industrial market; and
- Scranton Products Inc., or Scranton Products, produces fabricated bathroom partition and locker systems under the Comtec, Santana, Hiny Hiders, EverTuff and TuffTec labels for the commercial market and Seaboard® and Flametec® and other non-fabricated products for special application industrial markets.

On January 31, 2007, we completed the acquisition of Pro-Cell, LLC, which owned and operated Procell Decking Systems ("Procell") for a purchase price of \$77.3 million ("Procell Acquisition"). Procell is included in the AZEK Building Products operating segment.

On February 29, 2008, we completed the acquisition of Compos-A-Tron Manufacturing Inc. ("Composatron") for \$30.4 million ("Composatron Acquisition"). Composatron is included in the AZEK Building Products operating segment. For further discussion, see—"Acquisitions" below.

OUR BUSINESS

The core of our operation has been to produce high-quality products across all of the building and industrial end markets we serve. In the last decade, our expertise in manufacturing has allowed us to successfully develop value-added, branded building products such as AZEK, Comtec, EverTuff, TuffTec and Celtec products, which offer accelerated volume growth and higher margins. Our volume growth has been the result of penetrating the building and industrial end markets that create value-added substitution opportunities from more traditional wood, fiber and steel products. We believe many of our products are still in the early stages of the material conversion opportunity. As a result, we believe our growth should be less sensitive to the growth rate of our various end markets. We have generally increased our margins through volume growth that has allowed us to self-fund investment in new technology and equipment that has enabled us to lower our manufacturing conversion costs. In addition, we have attained higher margins for our branded products through highly developed sales channels and continued product innovation. We continually look to utilize existing products and know-how for new applications, including the development of additional branded building products.

Over the eight years since their introduction, our AZEK branded building products have gained significant market acceptance and brand loyalty as a leader within the non-wood home exterior market. In the first half of 2008 and for 2007 and 2006 full year results, AZEK products have accounted for a majority of our net sales. Through our two-step, dual distribution system, we have established an extensive network of distributors and dealers throughout the United States and Canada. Our strategy continues to be to maintain two leading distributors in each geographic region that we enter. As of June 30, 2008, our distributors were selling our products to over 1,800 local stocking dealers who frequently request our products by brand name. In the first quarter of each year, we conduct an “early buy” sales promotion that encourages distributors to stock AZEK products through the use of incentive discounts, typically in the range of 1% to 6%. Over the course of 2007 and through the first half of 2008, we have expanded AZEK Building Products through internal development of additional product offerings as well as through the Procell Acquisition in 2007 and the Composatron Acquisition in 2008. With the introduction of AZEK Moulding and AZEK Deck in 2007, we continued to establish ourselves as a premier provider of branded building products. Our goal is to continue to expand our product offerings through the development of additional trim, moulding and decking products, as well as through the introduction of additional product lines.

Across all of our target markets, we are focused on capitalizing on the functional advantages of our synthetic products relative to competing wood, fiber and metal products. In this regard, we have developed the leading brand in the synthetic bathroom and locker room products market, Comtec. Our product offerings which include Comtec, Capitol, Hiny Hider, EverTuff and TuffTec brands, are sold to similar primary end-markets, which include schools, stadiums, prisons, retail locations and other high-traffic environments. Through Scranton Product’s widely established distribution network, we are able to service our customers through representatives in all 50 states. We continue to focus on our market share within the commercial building markets, by actively engaging key dealers and sales representatives. Our focus is also to continue to develop leading brands for 2008 including new locker designs as well as a line of fire rated partitions. We believe that these additional goals will allow us to continue our market penetration into the commercial building market.

Dry petrochemical resins, primarily PVC, HDPE and PP, represented a majority of our raw material costs and cost of sales in the first half of 2008. Throughout our 24-year history, resin prices have been subject to cyclical price fluctuations. Due to increases in natural gas and crude oil prices and demand in the broader economy, dry petrochemical resin prices have risen to higher levels than in previous years. Although resin costs are expected to remain fairly level for the second half of 2008, they have risen substantially over 2007. In the past, we have been able to partially offset the impact of significantly higher resin costs through increased sales volumes, improved productivity, and selling price increases in all of our product lines. Price increases implemented in the second quarter of 2008 in the AZEK residential business and the Scranton Products commercial business will become effective throughout the remainder of 2008 in order to mitigate the rapid increase in resin prices. In addition, we have developed significant scale in purchasing resin, which we believe places us in a better cost position relative to many of our competitors. With respect to our basic non-fabricated products, we have been moderately successful in passing through resin cost increases to our customers.

Our AZEK Building Products are sold in various building and industrial end markets. AZEK products are sold in various stages of the home building construction market, including remodeling and renovation and new construction, thereby diversifying sales across the construction cycle. Celtec products are sold to several industrial sectors, thereby diversifying sales across sectors sensitive to differing economic factors. Scranton Products fabricated and non-fabricated products are sold to various non-residential construction and industrial markets further adding to our end market diversity. In the first half of 2008, approximately 22% of our products were sold for new construction, 39% were for remodeling, and 23% were in the commercial building sector, with the remaining 16% sold to various industrial end markets. Over 97% and 99% of our sales in the first half of 2008 and 2007, respectively, were in the United States.

We continue to experience economic factors that have affected our growth in the residential building market. We have experienced lower sales volume in our AZEK Building Products business during the second quarter of 2008 due to the continued decline in residential construction and the reluctance of distribution partners to maintain inventory levels. We also experienced a decline in sales volume in our industrial markets due to the slowdown in the broader economy. We expect this difficult economic environment to continue through 2008 and into 2009.

ACQUISITIONS

On February 29, 2008, we completed the acquisition of 100% of the outstanding stock of Compos-A-Tron Manufacturing Inc. (“Composatron”) for \$30.4 million, plus transaction costs. If certain financial targets are met in 2008, that purchase price may increase by approximately CAD \$4.0 million in cash (approximately \$3.96 million in USD at June 30, 2008). Composatron is a privately held manufacturer of Premier and Trademark Railing Systems, leading composite railing solutions for the residential housing market. The Premier and Trademark branded railing systems are manufactured using a PVC / wood flour composite and a co-extruded PVC capstock. The products have the subtle texture of painted wood and are ICC code listed. The product lines offered by Composatron are highly complimentary to our AZEK Deck products and already offer a successful rail system that matches the AZEK Deck color palette. We believe the acquisition of Composatron is ideal for the expansion of our product offerings within the building products market. The Composatron business is reported as part of our AZEK Building Products business unit.

CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E in the Securities Exchange Act of 1934, as amended (the “Exchange Act”). You can generally identify forward-looking statements by our use of forward-looking terminology such as “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “potential,” “predict,” “seek,” “should,” or “will,” or the negative thereof or other variations thereon or comparable terminology. In particular, statements about (a) our acquisition of Santana Products (the “Santana Acquisition”), our acquisition of Procell Decking Systems™ (the “Procell Acquisition”) and our acquisition of Compos-A-Tron Manufacturing Inc. (the “Composatron Acquisition”); (b) the markets in which we operate, including growth of our various markets and growth in the use of synthetic products; and (c) our expectations, beliefs, plans, strategies, objectives, prospects, assumptions or future events or performance contained in this report and the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section are forward-looking statements. The forward-looking statements contained herein regarding market share, market sizes and changes in markets are subject to various estimations, uncertainties and risks.

We have based these forward-looking statements on our current expectations, assumptions, estimates and projections. While we believe these expectations, assumptions, estimates and projections are reasonable, such forward-looking statements are only predictions and involve known and unknown risks and uncertainties, many of which are beyond our control. These and other important factors, including those discussed in this report, may cause our actual results, performance or achievements to differ materially from any future results, performance or achievements expressed or implied by these forward-looking statements. Some of the factors that could cause actual results to differ materially from those expressed or implied by the forward-looking statements include:

- general economic or business conditions, either nationally, regionally or in the individual markets in which we conduct business may deteriorate and have an adverse impact on our business strategy, including without limitation, factors relating to interest rates, gross domestic product levels and activity in the residential, commercial and institutional construction market;
- risks associated with our substantial indebtedness and debt service;
- risks of increasing competition in our existing and future markets, including competition from new products introduced by competitors;
- risk that projections of increased market size do not materialize as expected;
- increases in prices and lack of availability of resin and other raw materials and our ability to pass any increased costs on to our customers in a timely manner;
- risks related to our dependence on the performance of our AZEK products;

- changes in governmental laws and regulations, including environmental law, and regulations;
- continued increased acceptance of synthetic products as an alternative to wood and metal products;
- risks related to acquisitions we may pursue;
- our ability to retain management;
- our ability to meet future capital requirements;
- our ability to protect our intellectual property rights;
- downgrades in our credit ratings; and
- other risks and uncertainties.

Given these risks and uncertainties, you are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements included in this report are made only as of the date hereof. We do not undertake and specifically decline any obligation to update any such statements or to publicly announce the results of any revisions to any of such statements to reflect future events or developments.

BASIS OF PRESENTATION

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission. Our consolidated financial statements include the accounts of CPG International Inc. and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

CRITICAL ACCOUNTING POLICIES

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and judgments that affect the amounts reported in the financial statements. On an ongoing basis, management evaluates its estimates, including those related to revenue recognition, allowance for doubtful accounts, inventories, vendor rebates, product warranties and goodwill and intangible assets. We base our estimates on historical experience and various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

Revenue Recognition

Revenue is recognized in accordance with SEC Staff Bulletin No. 101, “*Revenue Recognition in Financial Statements*” (“SAB 101”), as amended by SAB 101A, SAB 101B and SAB 104. SAB 101 requires that four basic criteria must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the fee is fixed or determinable; and (4) collectibility is reasonably assured. Our revenues are recognized at the time product is shipped to the customer and title transfers.

We accrue for sales returns, discounts and other allowances based on a current evaluation of our experience based on the stated terms of the transactions. Should actual experience differ from our estimates, revisions to the estimated accruals would be required.

Allowance for Doubtful Accounts

Our allowance for doubtful accounts is based on management’s assessment of the business environment, customers’ financial condition, historical collection experience, accounts receivable aging and customer disputes. When circumstances arise or a significant event occurs that comes to the attention of management, the allowance is

reviewed for adequacy and adjusted to reflect the change in the estimated amount to be received from the customer. Changes in the allowance for doubtful accounts between June 30, 2008 and December 31, 2007 reflect management's assessment of the factors noted above, including past due accounts, disputed balances with customers, and the financial condition of customers. The allowance for doubtful accounts is decreased when uncollectible accounts receivable balances are actually written off.

Inventories

Inventories (mainly, petrochemical resin), are valued at the lower of cost or market, determined on a first-in, first-out basis ("FIFO") and reduced for slow-moving and obsolete inventory.

Inventory obsolescence write-downs are recorded for damaged, obsolete, excess and slow-moving inventory. At the end of each quarter, management within each business segment performs a detailed review of its inventory on an item by item basis and identifies which products are believed to be obsolete or slow-moving. Management assesses the need for, and the amount of, an obsolescence write-down based on customer demand of the item, the quantity of the item on hand and the length of time the item has been in inventory.

Vendor Rebates

Certain vendor rebates and incentives are earned by us only when a specified level of annual purchases is achieved. We account for vendor rebates in accordance with EITF 02-16, *Accounting by a Customer (Including a Reseller) for Certain Consideration Received from a Vendor*. EITF 02-16 states that a rebate or refund of a specified amount of cash consideration that is payable pursuant to a binding arrangement (only if a customer completes a specified cumulative level of purchases), should be recognized on a systematic and rational allocation of the cash consideration offered to each of the underlying transactions that results in progress by the customer toward earning the rebate or refund, provided the amounts are probable and reasonably estimable. We record the incentives as a reduction to the cost of inventory. Upon sale of inventory, the incentive is recognized as a reduction to cost of sales. We record such incentives during interim periods based on actual results achieved on a year-to-date basis and our expectation that purchase levels will be obtained to earn the rebate.

Product Warranties

We provide a 15-year limited warranty on our Scranton Products commercial building products and a 25-year limited warranty on AZEK Trim and Moulding products, and a lifetime limited warranty on AZEK Deck products sold for residential use. The warranty period for all other uses of AZEK Deck, including commercial use, is 25 years. AZEK Canada products have a 20 year limited warranty for white railing and a 10 year limited warranty for colored railing. The Scranton Products warranty guarantees against breakage, corrosion and delamination. AZEK products are guaranteed against manufacturing defects that cause the products to rot, corrode, delaminate, or excessively swell from moisture. The AZEK Canada warranty also guarantees against rotting, cracking, peeling, blistering or structural defects from fungal decay. Warranty reserves require a high level of judgment as AZEK Trim products have only been on the market for eight years and AZEK Deck has only been on the market for four years, both of which are early in their product life cycles. Management estimates warranty reserves based in part upon historical warranty costs, which have been immaterial thus far, as a proportion of sales by product line. Management also considers various relevant factors, including its stated warranty policies and procedures as part of its evaluation of its liability. We further consider that warranty issues may surface later in the product life cycle, therefore management continues to review these estimates on a regular basis and considers adjustment to these estimates based on actual experience compared to historical estimates. Management believes that the warranty reserves at June 30, 2008 are adequate. However, the impact resulting from the aforementioned factors could cause actual results to vary.

Goodwill and Intangible Assets

We account for costs of acquired assets in excess of fair value ("Goodwill") in accordance with SFAS No. 142. In accordance with SFAS No. 142, management reviews Goodwill and other intangibles not subject to amortization for impairment annually, or when events or circumstances indicate that its value may have declined.

The evaluation, based on various analyses, addresses the impact on our existing business. We evaluate Goodwill annually at December 31 for impairment by comparing the fair value of each of our reporting units to its carrying value, including the Goodwill allocated to that reporting unit. The significant estimates and assumptions used by management in assessing the reporting units' fair value and the recoverability of Goodwill and other intangible assets are based on estimated discounted future cash flows of that unit. The basis for our cash flow assumptions includes historical and forecasted revenue, operating costs, and other relevant factors including estimated cash expenditures. Assumptions for this method included a discount rate of approximately 10%, as well as revenue growth rates consistent with historical trends ranging from 5% to 30%, relative to specific products lines, as well as increases in operating costs relative to the increases in revenues.

The estimates of future cash flows, based on supportable projections, require management's judgment. Management bases its fair value estimates on assumptions it believes to be reasonable, but which are unpredictable and inherently uncertain. In addition, management uses certain indicators to evaluate whether the carrying value of Goodwill and other intangible assets may not be recoverable, including current-period operating cash flow declines or any significant adverse change in the business climate that could affect the value of an entity. We have determined that no impairment of goodwill or other intangibles existed at December 31, 2007, and are not aware of any events or circumstances that would indicate impairment through June 30, 2008.

RESULTS OF OPERATIONS

Three Months Ended June 30, 2008 Compared with Three Months Ended June 30, 2007

The following table summarizes certain financial information relating to the Company's operating results that have been derived from their consolidated financial statements:

	Three Months Ended June 30, 2008	Three Months Ended June 30, 2007
(Dollars in thousands)		
Net sales	\$ 75,367	\$ 77,054
Cost of sales	(57,932)	(55,368)
Gross margin	17,435	21,686
Selling, general and administrative expenses	(13,249)	(12,013)
Gain on sale of property	—	443
Operating income	4,186	10,116
Interest expense, net	(8,900)	(8,375)
Miscellaneous, net	64	—
(Loss) income before income taxes	(4,650)	1,741
Income tax benefit (expense)	1,848	(708)
Net (loss) income	<u>\$ (2,802)</u>	<u>\$ 1,033</u>

The following table summarizes certain information relating to the operating results as a percentage of net sales and has been derived from the financial information presented above. We believe this presentation is useful to investors in comparing historical results. Certain amounts in the table may not sum due to the rounding of individual components.

	Three Months Ended June 30, 2008	Three Months Ended June 30, 2007
Net sales	100.0%	100.0%
Cost of sales	(76.9)	(71.9)
Gross margin	23.1	28.1
Selling, general and administrative expenses	(17.6)	(15.6)
Gain on sale of property	-	0.6
Operating income	5.6	13.1
Interest expense, net	(11.8)	(10.9)
Miscellaneous—net	0.1	-
(Loss) income before income taxes	(6.2)	2.3
Income tax benefit (expense)	2.5	(0.9)
Net (loss) income	(3.7)%	1.3%

Net Sales. Net sales were \$75.4 million for the three months ended June 30, 2008, a decrease of \$1.7 million, or 2.2%, compared to \$77.1 for the same period of 2007. AZEK Building Products net sales decreased 5.7% from June 30, 2008 compared to June 30, 2007, and Scranton Products net sales increased 3.7% from June 30, 2008 compared to June 30, 2007. Overall, we sold 50.3 million pounds of product during the three months ended June 30, 2008, which was an 8.0% decrease from the 54.7 million pounds sold during the three months ended June 30, 2007. Volume growth in the Scranton Products commercial business and the acquisition of Composatron were more than offset by declines in our residential and industrial businesses.

Cost of Sales. Cost of sales increased by \$2.6 million, or 4.6%, to \$57.9 million for the three months ended June 30, 2008 from \$55.4 million for the same period in 2007. The increase was primarily attributable to a 35.1% increase in average resin costs for the three months ended June 30, 2008 compared to the same period in 2007, partially offset by manufacturing efficiencies. We expect resin costs to remain fairly level with the current quarter for the remainder of 2008.

Gross Margin. Gross margin decreased by \$4.3 million, or 19.6%, to \$17.4 million for the three months ended June 30, 2008 from \$21.7 million for the same period of 2007. Gross margin as a percent of net sales decreased to 23.1% for the three months ended June 30, 2008 from 28.1% for the same period in 2007. This decrease was mainly attributable to the increase in material costs and lower volumes.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by \$1.2 million, or 10.3 %, to \$13.2 million, or 17.6% of net sales for the three months ended June 30, 2008 from \$12.0 million, or 15.6% of net sales for the same period in 2007. The increase in selling, general and administrative was primarily attributable to a \$0.4 million increase in the amortization of intangibles acquired from the Procell Acquisition, a \$0.6 million increase in corporate costs, as well as \$0.5 million related to Composatron.

Interest Expense, net. Interest expense, net, increased by \$0.5 million, or 6.3%, to \$8.9 million for the three months ended June 30, 2008 from \$8.4 million for the same period in 2007. Interest expense was higher primarily from the addition of \$25.0 million related to the Composatron Acquisition, which closed on February 29, 2008, as well from the \$5.0 million borrowed on our revolving credit facility.

Income Taxes. Income taxes decreased by \$2.5 million, or 361.0%, to a \$1.8 million benefit for the three months ended June 30, 2008 from a \$0.7 million expense for the same period in 2007. Income tax expense decreased primarily from the decline in pretax income (determined primarily based on the pretax income of the specific subsidiaries, and the states where they are subject to income tax), as well from adjustments in the rate at which state taxes are recorded.

Net Loss/Income. Net income decreased by \$3.8 million, to a net loss of \$2.8 million for the three months ended June 30, 2008 from net income of \$1.0 million for the comparable period in 2007 as a result of reasons described above.

Six Months Ended June 30, 2008 Compared with Six Months Ended June 30, 2007

The following table summarizes certain financial information relating to the Company's operating results that have been derived from their consolidated financial statements:

	Six Months Ended June 30, 2008	Six Months Ended June 30, 2007
(Dollars in thousands)		
Net sales	\$ 169,540	\$ 171,501
Cost of sales	(127,242)	(122,262)
Gross margin	42,298	49,239
Selling, general and administrative expenses	(25,583)	(22,651)
Gain on sale of property	—	443
Operating income	16,715	27,031
Interest expense, net	(18,079)	(16,921)
Miscellaneous, net	49	(39)
(Loss) income before income taxes	(1,315)	10,071
Income tax benefit (expense)	563	(3,828)
Net (loss) income	\$ (752)	\$ 6,243

The following table summarizes certain information relating to the operating results as a percentage of net sales and has been derived from the financial information presented above. We believe this presentation is useful to investors in comparing historical results. Certain amounts in the table may not sum due to the rounding of individual components.

	Six Months Ended June 30, 2008	Six Months Ended June 30, 2007
Net sales	100.0%	100.0%
Cost of sales	(75.1)	(71.3)
Gross margin	24.9	28.7
Selling, general and administrative expenses	(15.1)	(13.2)
Gain on sale of property	-	0.3
Operating income	9.9	15.8
Interest expense, net	(10.7)	(9.9)
Miscellaneous—net	-	-
(Loss) income before income taxes	(0.8)	5.9
Income tax benefit (expense)	0.3	(2.2)
Net (loss) income	(0.5)%	3.6%

Net Sales. Net sales decreased by \$2.0 million, or 1.1%, to \$169.5 million for the six months ended June 30, 2008 from \$171.5 for the six months ended June 30, 2007. Overall, AZEK Building Products net sales decreased 0.4% from June 30, 2008 compared to June 30, 2007, and Scranton Products net sales decreased 2.7% from June 30, 2008 compared to June 30, 2007. Overall, we sold 121.7 million pounds of product during the six months ended June 30, 2008, which was a 5.0% decrease from the 128.1 million pounds sold during the six months ended June 30, 2007. Growth in AZEK Deck volumes and the acquisition of Composatron were more than offset by declines in our residential and industrial markets.

Cost of Sales. Cost of sales increased by \$5.0 million, or 4.1%, to \$127.2 million for the six months ended June 30, 2008 from \$122.3 million for the same period in 2007. The increase was primarily attributable to a 39.8% increase in average resin costs for the six months ended June 30, 2008 compared to the same period in 2007, partially offset by manufacturing efficiencies.

Gross Margin. Gross margin decreased by \$6.9 million, or 14.1%, to \$42.3 million for the six months ended June 30, 2008 from \$49.2 million for the same period of 2007. Gross margin as a percent of net sales decreased to 24.9% for the six months ended June 30, 2008 from 28.7% for the same period in 2007. This decrease was mainly attributable to the increase in material costs and lower volumes offset by manufacturing efficiencies.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by \$2.9 million, or 12.9 %, to \$25.6 million, or 15.1% of net sales for the six months ended June 30, 2008 from \$22.7 million, or 13.2% of net sales for the same period in 2007. The increase in selling, general and administrative was primarily attributable to a \$0.8 million increase in the amortization of intangibles acquired from the Procell Acquisition, a \$0.8 million increase in corporate costs, as well as \$0.6 million related to Composatron, as well as increased selling and marketing costs at AZEK Building Products.

Interest Expense, net. Interest expense, net, increased by \$1.2 million, or 6.8%, to \$18.1 million for the six months ended June 30, 2008 from \$16.9 million for the same period in 2007. Interest expense was higher primarily from the addition of \$25.0 million related to the Composatron Acquisition, which closed on February 29, 2008, as well from the \$5.0 million borrowed on our revolving credit facility.

Income Taxes. Income taxes decreased by \$4.4 million, or 114.7%, to a \$0.6 million benefit for the six months ended June 30, 2008 from a \$3.8 million expense for the same period in 2007. Income tax expense decreased primarily from the decrease in pretax income (determined primarily based on the pretax income of the specific subsidiaries, and the states where they are subject to income tax), as well from adjustments in the rate at which state taxes are recorded.

Net Loss/Income. Net income decreased by \$7.0 million, to net loss of \$0.8 million for the six months ended June 30, 2008 from a net income of \$6.2 million for the comparable period in 2007 as a result of reasons described above, particularly from the higher average resin costs, as well as from increased selling, general and administrative expenses.

Segment Results of Operations

The following discussion provides a review of results for our two business segments: AZEK Building Products, which includes products such as AZEK and Celtec, as well as other branded highly engineered, metal and wood replacement products; and Scranton Products, which includes highly engineered fabricated products such as Comtec and Santana bathroom products and locker systems. The components of each segment are based on similarities in product line, production processes and methods of distribution and are considered reportable segments under SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*. Corporate overhead costs, which include corporate payroll costs and corporate related professional fees, are not allocated to segments, and as such are discussed separately.

AZEK Building Products – Three Months Ended June 30, 2008 Compared With Three Months Ended June 30, 2007

The following table summarizes certain financial information relating to the AZEK Building Products segment results that have been derived from the Company's consolidated financial statements:

	Three Months Ended June 30, 2008	Three Months Ended June 30, 2007
(Dollars in thousands)		
Net sales	\$ 45,413	\$ 48,172
Cost of sales	(35,985)	(35,111)
Gross margin	9,428	13,061
Selling, general and administrative expenses	(6,671)	(5,628)
Segment operating income	\$ 2,757	\$ 7,433

Net Sales. Net sales decreased by \$2.8 million or 5.7%, to \$45.4 million for the three months ended June 30, 2008 from \$48.2 million for the same period in 2007. We sold 36.2 million pounds of product during the three months ended June 30, 2008, which was a 10.6% decrease from the 40.5 million pounds sold during the comparable period in 2007. Volume growth from the acquisition of Composatron was more than offset by declines in our residential and industrial markets. Volumes in the residential and industrial markets fell approximately 16.1% due to declines in the housing market as well as from the slow down in the broader economy, which was only partially offset by a 5.5% increase in volumes from the Composatron Acquisition.

Cost of Sales. Cost of sales increased by \$0.9 million, or 2.5%, to \$36.0 million for the three months ended June 30, 2008 from \$35.1 million for the same period of 2007. The increase was primarily attributable to a 35.1% increase in average resin costs for the three months ended June 30, 2008 compared to the same period in 2007. This increase in average resin cost was partially offset by lower sales volumes, quarter over quarter.

Gross Margin. Gross margin decreased by \$3.6 million, or 27.8% to \$9.4 million for the three months ended June 30, 2008 from \$13.1 million for the same period in 2007. This decrease was primarily attributable to lower sales and increased material costs. Gross margin as a percent of net sales was 20.8% for the three months ended June 30, 2008 compared to 27.1% for the same period in 2007. This decrease was mainly attributable to the increase in material costs and lower volumes offset by manufacturing efficiencies.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by \$1.0 million, or 18.5% to \$6.7 million, or 14.7% of sales for the three months ended June 30, 2008 from \$5.6 million, or 11.7% of net sales for the same period in 2007. The increase in selling, general and administrative expenses was primarily due to a \$0.4 million increase in the amortization of intangibles acquired from the Procell Acquisition, as well as \$0.5 million related to the Composatron Acquisition. We expect levels to continue to remain higher than last year due to these acquisitions.

Operating Income. Operating income decreased by \$4.7 million, or 62.9% to \$2.8 million for the three months ended June 30, 2008 from \$7.4 million for the comparable period in 2007 primarily due to lower sales compounded by higher average resin costs.

AZEK Building Products – Six Months Ended June 30, 2008 Compared With Six Months Ended June 30, 2007

The following table summarizes certain financial information relating to the AZEK Building Products segment results that have been derived from the Company's consolidated financial statements:

	Six Months Ended June 30, 2008	Six Months Ended June 30, 2007
(Dollars in thousands)		
Net sales	\$ 116,714	\$ 117,203
Cost of sales	(87,769)	(83,152)
Gross margin	28,945	34,051
Selling, general and administrative expenses	(13,266)	(10,907)
Segment operating income	\$ 15,679	\$ 23,144

Net Sales. Net sales decreased by \$0.5 million or 0.4%, to \$116.7 million for the six months ended June 30, 2008 from \$117.2 million for the same period in 2007. Overall, we sold 96.5 million pounds of product during the six months ended June 30, 2008, which was a 4.5% decrease from the 101.1 million pounds sold during the comparable period in 2007. Growth in AZEK Deck volumes and the acquisition of Composatron, which contributed to a 4.1% increase in volumes, were more than offset by declines in our residential and industrial markets. Housing starts were down approximately 27.0% year over year, which continues to have a negative impact on the residential market. The industrial products volume has declined year over year due to the slow down in the broader economy. We expect to see increased selling prices in the residential building market in the second half of 2008 due to price increases that were implemented during the second quarter of 2008. From a volume perspective, we continue to experience a difficult environment.

Cost of Sales. Cost of sales increased by \$4.6 million, or 5.6%, to \$87.8 million for the six months ended June 30, 2008 from \$83.2 million for the same period of 2007. The increase was primarily attributable to a 39.8% increase in average resin costs for the six months ended June 30, 2008 compared to the same period in 2007 as well as increases in volumes for our rail and decking products. This increase in average resin costs was primarily offset by lower sales volumes, on a year to date basis.

Gross Margin. Gross margin decreased by \$5.1 million, or 15.0% to \$28.9 million for the six months ended June 30, 2008 from \$34.1 million for the same period in 2007. This decrease was primarily attributable to increased material costs. Gross margin as a percent of net sales was 24.8% for the six months ended June 30, 2008 compared to 29.1% for the same period in 2007. The margin decline was mainly attributable to the increase in material costs and lower volumes offset by manufacturing efficiencies. We continue to see the positive impact on our cost position through optimizing our production efficiencies and improving our production planning.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by \$2.4 million, or 21.6%, to \$13.3 million, or 11.4% of sales for the six months ended June 30, 2008 from \$10.9 million, or 9.3% of net sales for the same period in 2007. The increase in selling, general and administrative expenses was primarily due to a \$0.8 million increase in the amortization of intangibles acquired from the Procell Acquisition as well as \$0.6 related to the Composatron Acquisition and increased selling and marketing costs at AZEK Building Products.

Operating Income. Operating income decreased by \$7.5 million, or 32.3% to \$15.7 million for the six months ended June 30, 2008 from \$23.1 million for the comparable period in 2007 primarily due to higher average resin costs as well as from increased selling, general and administrative expenses.

Scranton Products – Three Months Ended June 30, 2008 Compared With Three Months Ended June 30, 2007

The following table summarizes certain financial information relating to the Scranton Products segment results that have been derived from its consolidated financial statements:

	Three Months Ended June 30, 2008	Three Months Ended June 30, 2007
(Dollars in thousands)		
Net sales	\$ 29,954	\$ 28,882
Cost of sales	(21,947)	(20,257)
Gross margin	8,007	8,625
Selling, general and administrative expenses	(3,208)	(3,597)
Gain on sale of property	—	443
Segment operating income	\$ 4,799	\$ 5,471

Net Sales. Net sales increased by \$1.1 million or 3.7% to \$30.0 million for the three months ended June 30, 2008 from \$28.9 million for the same period in 2007. Net sales were affected by increased volumes within the commercial business due to sales and marketing initiatives taken to reposition the sales channel over the past twelve months (to improve upon the previous integration problems from the Santana Acquisition) offset by lower volumes in our industrial business line due to the slow down in the broad economy. Overall, we sold 14.1 million pounds of product in the three months ended June 30, 2008, which is a decrease of 0.5% from the 14.2 million pounds sold during the comparable period in 2007.

Cost of Sales. Cost of sales increased by \$1.7 million, or 8.3%, to \$21.9 million for the three months ended June 30, 2008 from \$20.3 million for the same period of 2007. The increase was primarily attributable to a 35.1% increase in average resin costs for the three months ended June 30, 2008 compared to the same period in 2007. This increase in average resin costs was primarily offset lower sales volumes, quarter over quarter.

Gross Margin. Gross margin decreased by \$0.6 million, or 7.2% to \$8.0 million for the three months ended June 30, 2008 from \$8.6 million for the same period in 2007. This decrease was primarily attributable to increased material costs. Gross margin as a percent of net sales decreased to 26.7% for the three months ended June 30, 2008 from 29.9% for the same period in 2007.

Selling, General and Administrative Expenses. Selling, general and administrative expenses decreased by \$0.4 million, or 10.8%, to \$3.2 million, or 10.7% of sales for the three months ended June 30, 2008 from \$3.6 million, or 12.5% of net sales for the same period in 2007. The decrease in selling, general and administrative expenses was largely attributable to a \$0.5 million one-time settlement charge in 2007 related to a patent infringement allegation.

Operating Income. Operating income decreased by \$0.7 million, or 12.3% to \$4.8 million for the three months ended June 30, 2008 from \$5.5 million for the comparable period in 2007 due to higher average resin costs.

Scranton Products – Six Months Ended June 30, 2008 Compared With Six Months Ended June 30, 2007

The following table summarizes certain financial information relating to the Scranton Products segment results that have been derived from its consolidated financial statements:

	Six Months Ended June 30, 2008	Six Months Ended June 30, 2007
(Dollars in thousands)		
Net sales	\$ 52,826	\$ 54,298
Cost of sales	(39,473)	(39,110)
Gross margin	13,353	15,188
Selling, general and administrative expenses	(6,097)	(6,319)
Gain on sale of property	—	443
Segment operating income	\$ 7,256	\$ 9,312

Net Sales. Net sales decreased by \$1.5 million or 2.7% to \$52.8 million for the six months ended June 30, 2008 from \$54.3 million for the same period in 2007. Net sales were affected by declines in volume from our industrial business line, as well as from lower volumes in our commercial building products line on a year over year basis. Overall, we sold 25.2 million pounds of product in the six months ended June 30, 2008, which is a decrease of 6.9% from the 27.1 million pounds sold during the comparable period in 2007. The results for the second half of 2008 should reflect the impact of selling price increases in the commercial building products line, implemented in the second and third quarters of 2008. Relative to the industrial market, we expect to see continued negative impact on sales volume compared to last year due to the overall economy.

Cost of Sales. Cost of sales increased by \$0.4 million, or 0.9%, to \$39.5 million for the six months ended June 30, 2008 from \$39.1 million for the same period of 2007. The increase was primarily attributable to 39.8% increase in average resin costs for the six months ended June 30, 2008 compared to the same period in 2007. This increase in average resin costs was primarily offset by lower sales volumes, on a year to date basis.

Gross Margin. Gross margin decreased by \$1.8 million, or 12.1% to \$13.4 million for the six months ended June 30, 2008 from \$15.2 million for the same period in 2007. This decrease was primarily attributable to increased material costs and lower sales volumes. Gross margin as a percent of net sales decreased to 25.3% for the six months ended June 30, 2008 from 28.0% for the same period in 2007.

Selling, General and Administrative Expenses. Selling, general and administrative expenses decreased by \$0.2 million, or 3.5%, to \$6.1 million, or 11.5% of sales for the six months ended June 30, 2008 from \$6.3 million, or 11.6% of net sales for the same period in 2007. The decrease in selling, general and administrative expenses was largely attributable to the one-time patent infringement charge of \$0.5 million in June 2007.

Operating Income. Operating income decreased by \$2.1 million, or 22.1% to \$7.3 million for the six months ended June 30, 2008 from \$9.3 million for the comparable period in 2007 due to lower sales volumes and higher average resin costs.

Corporate Costs– The Three Months Ended June 30, 2008 compared to the Three Months Ended June 30, 2007.

The following table summarizes certain information relating to our corporate costs, which include corporate payroll costs, as well as corporate-related professional fees.

	Three Months Ended June 30, 2008	Three Months Ended June 30, 2007
(Dollars in thousands)		
Net sales	\$ —	\$ —
Cost of sales	—	—
Gross margin	—	—
General and administrative expenses	(3,370)	(2,788)
Segment operating income	<u>\$ (3,370)</u>	<u>\$ (2,788)</u>

General and Administrative Expenses. Corporate general and administrative expenses increased by \$0.6 million, or 20.9%, to \$3.4 million for the three months ended June 30, 2008 from \$2.8 million for the three months ended June 30, 2007. The increase in general and administrative expenses was primarily attributable to approximately \$0.4 million of increased professional fees, such as accounting and legal costs, to continually support our public company infrastructure and a \$0.2 million recruiting fee for our newly appointed chief executive officer.

Corporate Costs– The Six Months Ended June 30, 2008 compared to the Six Months Ended June 30, 2007.

The following table summarizes certain information relating to our corporate costs, which include corporate payroll costs, as well as corporate-related professional fees.

(Dollars in thousands)	Six Months Ended June 30, 2008	Six Months Ended June 30, 2007
Net sales	\$ —	\$ —
Cost of sales	—	—
Gross margin	—	—
General and administrative expenses	(6,220)	(5,425)
Segment operating income	<u>\$ (6,220)</u>	<u>\$ (5,425)</u>

General and Administrative Expenses. Corporate general and administrative expenses increased by \$0.8 million, or 14.7%, to \$6.2 million for the six months ended June 30, 2008 from \$5.4 million for the three months ended June 30, 2007. The increase in general and administrative expenses was primarily attributable to approximately \$0.5 million of increased professional fees, such as accounting and legal costs, to continually support our public company infrastructure and \$0.3 million of expenses related to the appointment of our chief executive officer.

Liquidity and Capital Resources

Our primary cash needs are working capital, capital expenditures and debt service. We have historically financed these cash requirements through internally-generated cash flow and debt financings. We also have a senior secured revolving credit facility which provides additional liquidity to support our growth. In addition, we may also issue additional equity and/or debt to finance acquisitions in the future.

Net cash provided by operating activities was \$18.3 million and \$19.9 million for the six months ended June 30, 2008 and 2007, respectively. The decrease in cash provided by operating activities in the year 2008 was primarily due to higher non-cash expenses including deferred income taxes and depreciation and amortization as well as lower net income, partially offset by a decrease in prepaid expenses due to the receipt of rebates from some of our suppliers. In order to maintain positive cash flow we regularly monitor our accounts receivable and inventory levels, which represented 36.5% and 41.1% of our total current assets at June 30, 2008, respectively. One of the key indicators that we use to monitor these levels is accounts receivable days and inventory days. Accounts receivable days of 50 at June 30, 2008 were fairly in line with 45 days at June 30, 2007. We continue to monitor our collections progressively and consider our current days in line with last year. Our inventory days were 72 at June 30, 2008 compared to 61 days at June 30, 2007. This increase in inventory days primarily relates to the increased in AZEK Deck finished goods over last year as well as railing inventory added upon the completion of the Composatron Acquisition on February 29, 2008. We continue to manage working capital in order to maintain optimal operating cash flow.

Net cash used in investing activities was \$41.2 million and \$61.1 million for the six months ended June 30, 2008 and 2007, respectively. In 2008, cash used in investing activities of \$31.1 million related to the Composatron Acquisition which closed on February 29, 2008. Also, there was a \$9.6 million earn-out payment in the second quarter of 2008 to the former owners of Procell, related to the contingent purchase price on the Procell Acquisition. The remaining cash used in investing activities related to \$2.3 million in capital expenditures and \$1.9 million in proceeds from the sale of equipment. In 2007, cash used in investing activities of \$57.4 million related to the Procell Acquisition completed on January 31, 2007. The remaining cash used in investing activities in 2007 related to \$5.7 million in capital expenditures primarily for the capacity expansion at our Foley Alabama manufacturing facility. We estimate that capital expenditures for 2008 will be \$8.0 to \$13.0 million.

Net cash provided by financing activities was \$27.1 million and \$57.5 million for the six months ended June 30, 2008 and 2007, respectively. On February 29, 2008, we received proceeds of \$24.3 million related to the Term Loan in order to finance a portion of the Composatron Acquisition. We also borrowed \$15.0 million from our new credit facility during the first quarter of 2008, and paid down \$10.0 million in the second quarter of 2008. On January

31, 2007 we received proceeds of \$33.0 million related to the additional financing of floating rate notes as well as \$34.9 million in additional capital contributions, in order to finance the Procell Acquisition. We also incurred an additional \$0.3 million in financing costs related to the public registration and exchange offer of our Notes in 2007.

Floating Rate Notes and Fixed Rate Notes. CPG had approximately \$128.0 million aggregate principal amount of Senior Floating Rate Notes due 2012 (the “Floating Rate Notes”) and \$150.0 million aggregate principal amount of 10½% Senior Notes due 2013 (the “Fixed Rate Notes,” and collectively with the Floating Rate Notes, the “Notes”) outstanding at June 30, 2008. The Notes have been guaranteed by the Company and all of the subsidiaries of CPG. The indenture governing the Notes, which is material to our company, contains a number of covenants that, among other things, restrict CPG’s ability, and the ability of any subsidiary guarantors, subject to certain exceptions, to sell assets, incur additional debt, repay other debt, pay dividends and distributions on CPG’s capital stock or repurchase CPG’s capital stock, create liens on assets, make investments, loans or advances, make certain acquisitions, engage in mergers or consolidations and engage in certain transactions with affiliates.

Credit Agreements.

Senior Secured Revolving Credit Facility

On February 13, 2008, we and our subsidiaries, including AZEK Building Products Inc. (“AZEK”), Procell Decking Inc (“Procell”) and Scranton Products Inc. (“Scranton”; AZEK and Procell on one hand and Scranton on the other hand each a “group”) entered into a new senior secured revolving credit facility with Wachovia Bank, National Association, as administrative agent, General Electric Capital Corporation, as syndication agent and the lenders from time to time party thereto (the “Revolving Credit Facility”). AZEK, Procell and Scranton are the borrowers under the Revolving Credit Facility. On February 13, 2008, concurrently with the execution of the Revolving Credit Facility, we terminated our then outstanding senior secured revolving credit facility. On February 13, 2008, we repaid the outstanding principal amount of approximately \$15.1 million under our prior facility with an approximately \$15.1 million draw under the Revolving Credit Facility.

The Revolving Credit Facility provides for an aggregate maximum credit of \$65.0 million. The borrowing capacity available to each group is limited by a borrowing base. For each group, the borrowing base is limited to a percentage of eligible accounts and inventory, less reserves that may be established by the administrative agent in the exercise of its reasonable business judgment. The Revolving Credit Facility provides for interest on outstanding principal thereunder at a fluctuating rate, at our option, at (i) the base rate (prime rate) plus a spread of up to 0.5%, or (ii) adjusted LIBOR plus a spread of 1.5% to 2.25% or (iii) a combination thereof.

The obligations under the Revolving Credit Facility are secured by substantially all of our present and future assets including equity interests of our domestic subsidiaries and 65% of the equity interests of our first-tier foreign subsidiaries, but excluding real property. The obligations under the Revolving Credit Facility are guaranteed by us and our wholly owned domestic subsidiaries.

The Revolving Credit Facility matures on the earliest of (i) February 13, 2013, (ii) the date which precedes the maturity date of the term loans under the Term Loan Agreement by three months to the extent that obligations thereunder are still outstanding, unless there is excess availability of at least \$10.0 million, (iii) 6 months prior to the maturity of the Senior Floating Rate Notes to the extent that obligations thereunder are still outstanding and (iv) 6 months prior to the maturity of the Senior Fixed Rate Notes to the extent that obligations thereunder are still outstanding.

The Revolving Credit Facility contains negative covenants that limit our ability and the ability of our subsidiaries to, among other things: incur additional indebtedness or issue guarantees; grant liens; make fundamental changes in our business, corporate structure or capital structure, including entering into mergers, acquisitions and other business combinations; make loans and investments; enter into sale and leaseback transactions; enter into transactions with affiliates; modify or waive certain material agreements in a manner that is adverse in any material respect to the lenders; or prepay or repurchase indebtedness. The covenants under the Revolving Credit Facility also include a financial covenant that requires us to maintain, when our average excess availability falls below \$7.5 million, a minimum fixed charge coverage ratio (generally defined as the ratio of (a)

amount of (i) our adjusted EBITDA for the 12-month period ended prior to the relevant month end, less (ii) capital expenditures made during such period, less (iii) cash taxes paid during such period, and less (iv) cash dividend and equity redemption payments to (b) the sum of all cash interest expense and certain regularly scheduled prepayments of debt made during such period) equal to at least 1.0 to 1.0, for each month until such time as our average excess availability over 90 days or 180 days (as applicable) exceeds \$7.5 million. See “—Covenant Ratios in Indenture and Credit Agreements” below.

Prior Senior Secured Revolving Credit Facility

CPG's prior senior secured revolving credit facility provided availability of up to \$40.0 million. However, the amount of borrowing capacity available was limited to an amount equal to the sum of (a) 85% of our accounts receivable and (b) 60% of our inventory. The borrowings under the senior secured revolving credit facility were available until its maturity in 2011 to fund our ongoing working capital requirements, capital expenditures and other general corporate needs. Indebtedness under the senior secured revolving credit facility was secured by substantially all of CPG's present and future assets. In addition, the senior secured credit facility was guaranteed by us and all of CPG's domestic subsidiaries, including Scranton Products Inc. and AZEK Building Products Inc.

Our prior senior secured revolving credit facility imposed certain restrictions on the Company, CPG and the subsidiary guarantors, including restrictions on the ability to incur additional indebtedness or issue guarantees, grant liens, make fundamental changes in our business, corporate structure or capital structure, including, among other things, entering into mergers, acquisitions and other business combinations, make loans and investments, enter into transactions with affiliates, modify or waive material agreements in a manner that is adverse in any material respect to the lenders, or prepay or repurchase subordinated indebtedness. In addition, our prior senior secured revolving credit facility included a material financial covenant that required CPG to maintain at all times a maximum total senior secured leverage ratio less than or equal to 1.5 to 1.0.

On February 13, 2008, the Company terminated its senior secured revolving credit facility and entered into a new senior secured revolving credit agreement that permits borrowings of up to \$65.0 million. On February 29, 2008, the Company also entered into a \$25.0 million term loan and security agreement. For further details regarding these transactions, see “—*Senior Secured Revolving Credit Facility*” above and “—*Term Loan*” below.

Term Loan

On February 29, 2008, we and our subsidiaries, including AZEK, Procell and Scranton, entered into a senior secured term loan agreement, with Wachovia Bank, National Association, as administrative agent and the lenders from time to time party thereto (the “Term Loan Agreement”). CPG, AZEK, Procell and Scranton are the borrowers under the Term Loan Agreement. The Term Loan Agreement provides for a term loan of \$25.0 million, which has been drawn in order to fund a part of the financing for the Composatron Acquisition. The Term Loan Agreement provides for interest on outstanding principal thereunder at a fluctuating rate, at our option, at (i) the base rate (prime rate) plus a spread of 4.0% or (ii) adjusted LIBOR plus a spread of 5.0%, subject to a LIBOR floor of 3.25%, or (iii) a combination thereof.

The obligations under the Term Loan Agreement are secured by substantially all of our present and future assets, including equity interests of our domestic subsidiaries and 65% of the equity interests of our first-tier foreign subsidiaries and our real property and fixtures related thereto. The obligations under the Term Loan Agreement are guaranteed by us and our wholly owned domestic subsidiaries.

The Term Loan Agreement requires mandatory prepayments of the term loans thereunder from certain debt and equity issuances, asset dispositions (subject to certain reinvestment rights), excess cash flow and extraordinary receipts. The borrowers are required to repay the outstanding principal under the Term Loan Agreement in quarterly installments of \$62,500 from March 31, 2008 through December 31, 2010, with the remaining outstanding principal balance under the Term Loan Agreement due on the maturity date, no later than February 28, 2011.

The Term Loan Agreement contains negative covenants that limit our ability and the ability of our subsidiaries to, among other things: incur additional indebtedness or issue guarantees; grant liens; make fundamental changes in our business, corporate structure or capital structure, including, among other things, entering into mergers, acquisitions and other business combinations; make loans and investments; enter into sale and leaseback transactions; enter into transactions with affiliates; modify or waive material agreements in a manner that is adverse in any material respect to the lenders; or prepay or repurchase subordinated indebtedness. The covenants under the Term Loan Agreement also include a financial covenant that requires us to maintain, measured quarterly, a maximum total senior secured leverage ratio less than or equal to 2.5 to 1.0. See “—Covenant Ratios in Indenture and Credit Agreements” below.

Change in Control Provisions in Indebtedness. The occurrence of certain kinds of change of control events would constitute an event of default under the Company’s credit agreements, and would also trigger a requirement under the indenture governing the Notes to offer to repurchase all then outstanding Notes at 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of repurchase, unless all Notes have been previously called for redemption. A default under the Company’s credit agreements would result in a default under the indenture governing the Notes if the lenders accelerate the debt under the Company’s credit agreements. In addition, the Company’s failure to purchase tendered Notes would constitute an event of default under the indenture governing the notes, which in turn, would constitute a default under the Company’s credit agreements. Moreover, the Company’s credit agreements restrict the Company’s ability to repurchase the Notes, including following a change of control event. As a result, following a change of control event, the Company would not be able to repurchase Notes unless the Company first repaid all indebtedness outstanding under the Company’s credit agreements and any of the Company’s other indebtedness that contains similar provisions, or obtain a waiver from the holders of such indebtedness to permit the Company to repurchase the Notes. We may be unable to repay all of that indebtedness or obtain a waiver of that type. Any requirement to offer to repurchase outstanding Notes may therefore require the Company to refinance the Company’s other outstanding debt, which the Company may not be able to do on commercially reasonable terms, if at all.

Covenant Ratios in Indenture and Credit Agreements. Our new Term Loan Agreement includes a financial covenant that requires us to maintain, measured quarterly, a maximum total senior secured leverage ratio less than or equal to 2.5 to 1.0 (referred to in the Term Loan Agreement as the “Senior Secured Leverage Ratio”). The Senior Secured Leverage Ratio, for the twelve-month period ending on the last day of any fiscal quarter, is defined in the Term Loan Agreement as the ratio of (a) senior secured indebtedness on the last day of such period to (b) “Consolidated EBITDA,” or earnings before interest, taxes, depreciation and amortization for such twelve-month period, which we refer to herein as “Adjusted EBITDA,” in each case calculated on a pro forma basis as provided below. Non-compliance with this financial covenant will result in an event of default under our Term Loan Agreement and, under certain circumstances, a requirement to immediately repay all amounts outstanding under the Term Loan Agreement and will trigger a cross-default under our Revolving Credit Facility and the indenture governing the Notes and could trigger a cross-default under other indebtedness we may incur in the future.

In addition, the indenture governing the Notes includes a material covenant limiting the amount of indebtedness that the Company, CPG and its subsidiaries may incur. Under the indenture, CPG and the subsidiary guarantors are permitted to incur indebtedness only if the ratio of Adjusted EBITDA (referred to in the indenture as “Consolidated EBITDA”) for the four most recent full fiscal quarters to certain fixed charges for such period, calculated on a pro forma basis is greater than 2.0 to 1.0 (referred to in the indenture as the “Consolidated Fixed Charge Coverage Ratio”) or, if the ratio is less, only if the indebtedness falls into specified debt baskets, including, for example, a credit agreement debt basket, an existing debt basket, a capital lease and purchase money debt basket, an intercompany debt basket, a permitted guarantee debt basket, a hedging debt basket, a letter of credit basket, an acquired debt basket and a general debt basket. The acquired debt basket permits CPG or any of its restricted subsidiaries to incur debt to finance an acquisition so long as the Consolidated Fixed Charge Coverage Ratio would be equal to or greater than immediately prior to such acquisition. CPG utilized this debt basket to finance the Santana Acquisition and the Procell Acquisition. Non-compliance with this covenant could result in an event of default under the indenture and, under certain circumstances, a requirement to immediately repay all amounts outstanding under the Notes and could trigger a cross-default under our credit agreements or other indebtedness we may incur in the future.

Our new senior secured revolving credit agreement includes a financial covenant that requires us to maintain, when our average excess availability falls below \$7.5 million, a minimum fixed charge coverage ratio (generally defined as the ratio of (a) amount of (i) our Adjusted EBITDA for the 12-month period ended prior to the relevant month end, less (ii) capital expenditures made during such period, and less (iii) cash taxes paid during such period, and less (iv) cash dividend and equity redemption payments to (b) the sum of all cash interest expense and certain regularly scheduled prepayments of debt made during such period) equal to at least 1.0 to 1.0, for each month until such time as our average excess availability over 90 days or 180 days (as applicable) exceeds \$7.5 million. At June 30, 2008, the Company had an available borrowing base of \$38.2 million.

Adjusted EBITDA is calculated similarly under our new credit agreements and the indenture governing the Notes by adding consolidated net income, income taxes, interest expense, depreciation and amortization and other non-cash expenses, income or loss attributable to discontinued operations and amounts payable pursuant to the management agreement with AEA Investors. In addition, consolidated net income is adjusted to exclude, among other items: after-tax gains or losses from asset sales; unrealized gains or losses arising from hedging agreements or derivative instruments; any after-tax extraordinary or nonrecurring gains or losses and any unusual or nonrecurring charges (including severance, relocation costs and one-time compensation charges or restructuring charges or reserves related to the closure of facilities), including any expenses, gains or losses incurred in connection with any issuance of debt or equity; any non-cash compensation charges arising from the grant or issuance of equity instruments; fees, costs and expenses in connection with any acquisition including, without limitation, amortization of debt issuance costs, debt discount or premium and other financing fees and expenses directly relating thereto and write-offs of any debt issuance costs relating to indebtedness being retired or repaid in connection with such acquisition, as well as bonus payments paid to employees in connection with such acquisition; any amortization of premiums, fees, or expenses incurred in connection with or any acquisition, or any non-cash write-ups and non-cash charges relating to inventory, fixed assets, intangibles or goodwill, as permitted by Accounting Principles Board Opinions Nos. 16 and 17, respectively; any non-cash impact attributable to the application of purchase method of accounting in accordance with GAAP; the cumulative effect of a change in accounting principles; and any impairment charge or asset write-off pursuant to SFAS No. 142 and No. 144 and the amortization of intangibles arising pursuant to SFAS No. 141.

In calculating the ratios, our Adjusted EBITDA, senior secured indebtedness and fixed charges, as the case may be, are each computed by giving pro forma effect to, among other items, acquisitions and dispositions that occurred during the last twelve month period for which financial statements have been provided as specified in our relevant debt instruments or later, including certain cost savings and synergies, if any, expected to be obtained in the succeeding six months. Accordingly, the ratios presented below give pro forma effect to the Composatron Acquisition which closed on February 29, 2008.

The following table sets forth the Senior Secured Leverage Ratio pursuant to our Term Loan Agreement, as well as the amount of senior secured indebtedness and Adjusted EBITDA, on a pro forma basis as defined by our Term Loan agreement:

		Twelve Months Ended June 30, 2008
(Dollars in thousands)	Covenant Amount	
Senior Secured Leverage Ratio	Maximum of 2.5x	0.11x
Senior secured indebtedness		\$ 6,430
Adjusted EBITDA		\$ 58,958

The following table provides the calculation of Adjusted EBITDA, pursuant to the covenants described above in our new credit agreements and indenture, for the twelve month period ended March 31, 2008, on a pro forma basis as defined by our debt instruments:

(Dollars in thousands)	Year Ended December 31, 2007	Add: Six Months Ended June 30, 2008	Less: Six Months Ended June 30, 2007	Twelve Months Ended June 30, 2008
Net income (loss) (a)	\$ 4,627	\$ (752)	\$ 6,243	\$ (2,368)
Interest expense, net (a)	33,698	18,079	16,921	34,856
Income tax expense (benefit)	3,760	(563)	3,828	(631)
Depreciation and amortization	18,157	9,989	8,129	20,017
EBITDA	60,242	26,753	35,121	51,874
Relocation and hiring costs	—	310	—	310
Composatron non-recurring charges (h)	—	150	—	150
Management fee and expenses (d)	1,733	1,068	766	2,035
Severance costs(c)	1,009	125	61	1,073
Settlement charges (b)	500	26	500	26
Gain on sale of property (e)	(422)	—	(443)	21
Santana Acquisition costs (f)	13	—	13	—
Procell non—recurring charges (g)	60	—	60	—
Registration expenses related to Notes (h)	—	192	—	192
Adjusted EBITDA	\$ 63,135	\$ 28,624	\$ 36,078	\$ 55,681
Pro forma adjustments	5,266	1,736	3,725	3,277
Adjusted EBITDA with pro forma adjustments	\$ 68,401	\$ 30,360	\$ 39,803	\$ 58,958

- (a) Net loss and interest expense each includes the amortization of approximately \$1.0 million of deferred financing costs classified as interest expense for the six months ended June 30, 2008.
- (b) Represents the one-time settlement expense CPG incurred over its patent infringement settlement during the year end December 31, 2007.
- (c) Represents severance costs attributable to individuals whose positions had not been replaced.
- (d) Represents the elimination of the AEA Investors management fee and expenses that were charged during the period presented.
- (e) Represents the gain CPG recorded related to the sale of one of Scranton Product's manufacturing facilities on May 10, 2007, offset by a loss on the disposal of some machinery and equipment of approximately \$21,000 at its AZEK Building Product's facility.
- (f) Represents charges related to integration and moving expenses from the Santana Acquisition, which we acquired on April 28, 2006.
- (g) Represents charges related to integration costs from the Procell Acquisition, which we acquired on January 31, 2007.
- (h) Represents charges related to integration costs from the Composatron Acquisition, which we acquired on February 29, 2008.

While the determination of appropriate adjustments in the calculation of Adjusted EBITDA is subject to interpretation under our debt agreements, management believes the adjustments described above are in accordance with the covenants in our credit agreements and indenture, as discussed above. Adjusted EBITDA should not be considered in isolation or construed as an alternative to our net income or other measures as determined in accordance with GAAP and should be utilized in understanding our ability to comply with our debt instruments. Adjusted EBITDA should be used to analyze our ability to comply with our covenants in our debt instruments. In addition, other companies in our industry or across different industries may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Long-term Liquidity. At June 30, 2008, we had the availability of \$38,209,000 under our new senior secured revolving credit facility. We anticipate that the funds generated by our operations, as well as funds available under our new senior secured revolving credit facility, will be sufficient to meet working capital requirements and to finance capital expenditures over the next several years. There can be no assurance, however, that our business will generate sufficient cash flow from operations, that anticipated net sales growth and operating improvements will be realized or that future borrowings will be available under our new senior secured revolving credit facility in an amount sufficient to enable us to service our indebtedness or to fund our other liquidity needs. Our ability to meet our debt service obligations and other capital requirements, including capital expenditures and acquisitions, will depend upon our future performance and our ability to stay in compliance with our financial covenants, which, in turn, will be subject to general economic, financial, business, competitive, legislative, regulatory and other conditions, many of which are beyond our control. We may also need to obtain additional funds to finance acquisitions, which may be in the form of additional debt or equity. Some other risks that could materially adversely affect our ability to meet our debt service obligations include, but are not limited to, risks related to increases in the cost and lack of availability of resin and our ability to pass through costs or price increases to cover such costs on a timely basis, our ability to protect our intellectual property, rising interest rates, a decline in gross domestic product levels, weakening of the residential, commercial and institutional construction markets, the loss of key personnel, our ability to continue to invest in equipment, and a decline in relations with our key distributors and dealers.

Contractual Obligations

The following table summarizes our contractual cash obligations as of June 30, 2008. This table does not include information on our recurring purchases of materials for use in production, as our raw materials purchase contracts do not require fixed or minimum quantities. This table also excludes payments relating to income tax due to the fact that, at this time, we cannot determine either the timing or the amounts of payments for all periods beyond June 30, 2008 for certain of these liabilities.

(Dollars in thousands)	Total	Due in	Due in	Due in	Due after
		Less than 1 Year	1-3 years	3-5 years	5 years
Long term debt	\$ 302,329	\$ 250	\$ 24,625	\$ 277,454	\$ —
Credit facility	5,000	5,000	—	—	—
Interest on Notes and Term Loan	149,140	29,600	89,577	29,963	—
Interest on credit facility	116	116	—	—	—
Raw materials in transit	1,450	1,450	—	—	—
Capital lease obligations	16,252	1,379	5,224	2,856	6,793
Operating lease obligations	9,446	1,024	3,718	2,439	2,265
Total (a)(b)(c)	\$ 483,733	\$ 38,819	\$ 123,144	\$ 312,712	\$ 9,058

(a) The interest rates used in the calculation of our interest payments were 10.5% related to our Fixed Notes, 9.9% related to our Floating Rate Notes and 8.09% related to our Term Loan.

(b) As of June 30, 2008, there was a letter of credit of \$1.4 million held against our credit facility, which provides for borrowings of up to \$65.0 million.

- (c) As of August 1, 2008, our credit facility had a balance of \$5.0 million outstanding and a letter of credit of \$1.4 million held against it.

Off-Balance Sheet Arrangements

None.

Seasonality

Our sales have historically been moderately seasonal and have been strongest in the first and third quarters of the calendar year. We typically experience increased sales of AZEK products in the first quarter of the year as a result of our “early buy” sales program, which encourages dealers to stock AZEK products through the use of incentive discounts. We have generally experienced decreased sales in the fourth quarter due to adverse weather conditions in certain markets during the winter season. In addition, we have experienced increased sales of our bathroom partition products during the summer months during which schools are typically closed. We expect these cycles to moderate as AZEK sales growth continues to consistently grow throughout the calendar year.

Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS 157, *Fair Value Measurement*. SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This statement is effective for fiscal years beginning after November 15, 2007 for financial instruments, and non-financial instruments beginning after November 15, 2008, and interim periods within those fiscal years. The adoption of this standard did not have a material impact on our consolidated financial statements.

In February 2007, the FASB issued SFAS 159, *The Fair Value Option for Financial Assets and Financial Liabilities*. SFAS 159 expands opportunities to use fair value measurement in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The adoption of this standard for financial instruments did not have a material impact on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations*, which establishes principles over the method entities use to recognize and measure assets acquired and liabilities assumed in a business combination and enhances disclosures on business combinations. SFAS No. 141(R) is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. We are currently evaluating the impact of this standard on our future consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Interest Rate Risk

We are subject to interest rate market risk in connection with our long-term debt. Our principal interest rate exposure relates to the floating rate notes and any outstanding amounts under our new senior secured revolving credit facility. In addition, the market value of the fixed rate notes will fluctuate with interest rates.

Our outstanding floating rate notes bear interest at variable rates based on LIBOR. Each quarter point increase or decrease in the interest rate would change our interest expense by approximately \$0.3 million per year. Our new senior secured revolving credit facility provides for borrowings of up to \$65.0 million, which also bear interest at variable rates. Assuming the new senior secured revolving credit facility is fully drawn, each quarter point increase or decrease in the applicable interest rate would change our interest expense by approximately \$0.2 million per year. In the future, we may enter into interest rate swaps, involving the exchange of floating for fixed rate interest payments, to reduce interest rate volatility.

Inflation

Our cost of sales is subject to inflationary pressures and price fluctuations of the raw materials we use, particularly, the cost of petrochemical resin. Historically, we have generally been able over time to recover the effects of inflation and price fluctuations through sales price increases and production efficiencies associated with technological enhancements and volume growth.

Raw Material; Commodity Price Risk

We rely upon the supply of certain raw materials and commodities in our production processes; however, we do not typically enter into fixed price contracts with our suppliers. The primary raw materials we use in the manufacturing of our products are various dry petrochemical resins, primarily PVC, HDPE and PP, which represented more than half of our cost of goods sold for the three and six months ended June 30, 2008 and 2007. The exposures associated with these costs are primarily managed through terms of the sales and by maintaining relationships with multiple vendors. Prices are negotiated on a continuous basis, and we do not typically buy forward beyond six months and we have not entered into hedges with respect to our raw material costs.

Dry petrochemical resin prices may continue to fluctuate as a result of changes in natural gas and crude oil prices, other precursor raw materials for the products and underlying demand for these products. The instability in the world market for petroleum and the North American natural gas markets could materially adversely affect the prices and general availability of raw materials. Over the past several years we have at times experienced rapidly increasing resin prices primarily due to the increased cost of oil and natural gas. Due to the uncertainty of oil and natural gas prices, we cannot reasonably estimate our ability to successfully recover any cost increases. Even if we are able to pass these cost increases on to our customers, we may not be able to do so, on a timely basis, our gross margins could decline and we may not be able to implement other price increases for our products. To the extent that increases in the cost of resins cannot be passed on to our customers, or the duration of time lags associated with a pass through becomes significant, such increases may have a material adverse effect on our profitability and financial condition. Moreover, we do not reprice any existing orders. Also, increases in resin prices could negatively impact our competitive position as compared to wood and metal products that are not affected by changes in resin prices.

Our raw material supplies are subject to not only price fluctuations but also other market disturbances including supply shortages and natural disasters. In the event of an industry-wide general shortage of resins, or a shortage or discontinuation of certain types of resins purchased from one or more of our suppliers, we may not be able to arrange for alternative sources of resin. In the past, we have been able to maintain necessary raw material supplies, but any such shortages may materially negatively impact our production process as well as our competitive position versus companies that are able to better or more cheaply source resin.

Item 4T. Controls and Procedures.

Evaluation of Controls and Procedures

We have carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13(a)-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based upon our evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of June 30, 2008, the disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal controls over financial reporting that occurred during the quarter ended June 30, 2008 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, we are subject to litigation in the ordinary course of business. Currently, there are no claims or proceedings against us that we believe would be expected to have a material adverse effect on our business or financial condition, results of operations or cash flows.

Item 1A. Risk Factors.

For the six months ended June 30, 2008, there were no material changes from the risk factors discussed in the Company's 10-K for the year ended December 31, 2007. You should carefully consider these risk factors as well as the other information contained in this report, including our condensed consolidated financial statements and related notes.

Item 6. Exhibits.

Exhibit Number	Description
31.1*	Rule 13a-14(a)/15d-14(a) Certification of Chief Executive Officer
31.2*	Rule 13a-14(a)/15d-14(a) Certification of Chief Financial Officer
32.1*	Section 1350 Certification of Chief Executive Officer
32.2 *	Section 1350 Certification of Chief Financial Officer

* Filed herewith.

Signatures

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
