Compensation Discussion and Analysis, page 45

7. We note your disclosure concerning your base salaries and the extent to which you benchmark such salaries against other companies in the biotechnology industry. Please provide us with draft disclosure for an amendment to your annual report that lists each of the comparator companies you benchmark against.
8. We further note your disclosure concerning your annual incentive bonuses. Although these bonuses may be discretionary, they appear to be determined primarily on the achievement of both corporate and individual performance objectives. Accordingly, please provide us with draft disclosure for an amendment to your annual report that contains the following:
  - The individual and corporate performance objectives applicable to each named executive officer and used to determine their annual bonuses and how each objective was weighted, if applicable. To the extent that any of the performance objectives were quantitative, your disclosure should also be quantitative;
  - The threshold, target, and maximum levels of achievement of each performance measure, if applicable;
  - The intended relationship between the level of achievement of corporate and individual performance objectives and the amount of bonus to be awarded;
  - The evaluation by the Committee of the level of achievement by each named executive officer of the corporate and individual performance objectives applicable to them; and
  - Any other factors that were considered by the Committee that modified the actual cash bonuses awarded.
9. Your disclosure concerning risk considerations in compensation decisions on page 46 does not fully address how your compensation relates to risk management practices and risk-taking incentives. If you believe that any risks arising from your compensation practices are reasonably likely to have a material adverse effect on you, you should include disclosure that addresses this in detail, pursuant to Item 402(s) of Regulation S-K. If you do not believe that any such risks could have a material adverse effect, please

advise us of the basis of this conclusion and describe the process you undertook to reach it.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes the information the Securities Exchange Act of 1934 and all applicable Exchange Act rules require.
