**Item 1.01. Entry into a Material Definitive Agreement.**

***General***

Entrex Carbon Market, Inc (fka UHF Logistics Group, Inc) (OTC:RGLG) is pleased to announce the execution of a letter of intent with Energex Power to establish 1000 “Mobile Data Centers” powered by non-productive gas wells.

The agreement utilizes Entrex’s “EPIC” (Entrex Production and Installation Company) to support the installation of the mobile data centers across the United States. Project capital is anticipated to be returned to investors through the monetization of each facilities carbon offsets and associated power purchase agreements offered to the data facility users.

Initial term sheets from investors have offered up to \$250 million in equity, junior debt and senior debt to facilitate the development and installation of the facilities. These projects shall be jointly managed by EPIC the Entrex Production and Installation Company and Energex Power which shall incorporate independent special purpose vehicles for each installation or groups of installations pursuant to investor agreements.

Each mobile data center offers the oil and gas industry a vehicle to maximize value of marginal or abandoned oil and gas wells which then offer distributed, wirelessly connected, data facilities, offering “Carbon Reduced” processing facilities to large date miners and processors.

Installation of the first series of mobile data centers is expected in 2024.

Entrex was introduced to Energex through its broker dealer network which offers their clients access to carbon reduction project capital and new carbon offset income streams. Additional information may be available via OTCIQ upon FINRA approving the current name and symbol change.

**SIGNATURE**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
