Risks Related to our Equity, page 6

Our independent auditors report states that there is substantial doubt that we will be able to continue as a going concern, page 6

1. You state in this risk factor that the date of your audit report is April 15, 2007. However, we note that the audit report on page F-2 is dated April 2, 2008. We further note that this same risk factor included in your Form 10-K for the year ended December 31, 2007, states that the audit report is dated March 27, 2007. Please clarify and revise your documents accordingly.

Please revise your document to add this policy back into your significant accounting policies footnote.

Item 9A. Controls and Procedures, page 16

8. Your conclusion that your disclosures controls and procedures are effective “in timely alerting management to information relating to us that is required to be included in our reports filed under the Exchange Act” is significantly more limited than what is called for under Rule 13a-15(e) of the Exchange Act. The rule requires, among other matters, that the disclosure controls and procedures be designed to “ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Act...is recorded, processed, summarized and reported, within the time periods specified in the Commission’s rules and forms” and to ensure that “information required to be disclosed by the issuer...is accumulated and communicated to the issuer’s management...as appropriate to allow timely decisions regarding required disclosure.” Please confirm, if true, that your disclosure controls and procedures for the relevant periods met all of the requirements of this section and that you will conform your disclosure in future filings.
9. We note your disclosure that “there were no significant changes in our internal control over financial reporting.” Please note that Item 308 of Regulation S-K requires the disclosure of “any” change in your internal controls that occurred during the last fiscal quarter. Please advise us with respect to changes in your internal controls for the fourth quarter 2007 and confirm to us that you will consider this comment in preparing future periodic reports.

As appropriate, please amend your filing and respond to these comments within 10 business days or tell us when you will provide us with a response. You may wish to provide us with marked copies of the amendment to expedite our review. Please furnish a cover letter with your amendment that keys your responses to our comments and provides any requested information. Detailed cover letters greatly facilitate our review. Please understand that we may have additional comments after reviewing your amendment and responses to our comments.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes all information required under the Securities Exchange Act of 1934 and that they have provided all information investors require for an informed investment decision. Since the company and its management are in possession of all facts relating to a company’s disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.

In connection with responding to our comments, please provide, in writing, a statement from the company acknowledging that:

- the company is responsible for the adequacy and accuracy of the disclosure in the

- staff comments or changes to disclosure in response to staff comments do not foreclose the Commission from taking any action with respect to the filing; and

In addition, please be advised that the Division of Enforcement has access to all information you provide to the staff of the Division of Corporation Finance in our review of your filing or in response to our comments on your filing.
