FT GLOBAL CAPITAL, INC.
NOTES TO FINANCIAL STATEMENTS
December 31, 2018

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Description of Business: FT Global Capital, Inc. (the "Company"), a Georgia corporation, was organized in May 2006 and became a broker-dealer in January 2007. The Company is a securities broker-dealer registered with the Securities and Exchange Commission ("SEC") and the Financial Industry Regulatory Authority ("FINRA").

Cash: The Company maintains its demand deposits in high credit quality financial institutions. Balances at times may exceed federally insured limits.

Property and Equipment: Property and equipment are recorded at cost. Depreciation is provided by use of straight-line methods over the estimated useful lives of the respective assets. Maintenance and repairs are charged to expense as incurred; major renewals and betterments are capitalized. When items of property or equipment are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is included in the results of operations.

Income Taxes: The Company has elected S corporation status. Income or losses of the Company flow through to the stockholder and no income taxes are recorded in the accompanying financial statements.

The Company has adopted the provisions FASB ASC 740-10, Accounting for Uncertainty in Income Taxes. Under FASB ASC 740-10, the Company is required to evaluate each of its tax positions to determine if they are more likely than not to be sustained if the taxing authority examines the respective position. A tax position includes an entity's status, including its status as a pass-through entity, and the decision not to file a return. The Company has evaluated each of its tax positions and has determined that no provision or liability for income taxes is necessary.

Estimates: Management uses estimates and assumptions in preparing financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could vary from the estimates that were assumed in preparing the financial statements.

Revenue Recognition: Investment banking revenue includes fees earned from providing merger and acquisition and other advisory services to clients. Revenue is recognized when earned, which generally occurs as services are performed or upon consummation of a transaction. Placement fees are recognized in accordance with terms agreed upon with each client and are generally based on a percentage of capital raised.

The Financial Accounting Standards Board (FASB) has issued a comprehensive new revenue recognition standard that supersedes most existing revenue recognition guidance under GAAP (FASB Accounting Standards Codification 606). The Company adopted this standard effective January 1, 2019.

The standard's core principle is that an entity should recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 prescribes a five-step process to accomplish this core principle, including:

- Identification of the contract with the customer;
- Identification of the performance obligation(s) under the contract;
- Determination of transaction price;
- Allocation of the transaction price to the identified performance obligation(s); and
- Recognition of revenue as (or when) an entity satisfies the identified performance obligation(s).

FT GLOBAL CAPITAL, INC.
NOTES TO FINANCIAL STATEMENTS
December 31, 2018

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue Recognition (continued):

The Company recognizes revenue upon completion of a success fee-based transaction as this satisfies the only performance obligation identified in accordance with this standard.

Application of the standard in 2018 using the modified retrospective approach had no effect on previously reported financial position and results of operations or related disclosures.

New Accounting Pronouncements

In February 2016, the FASB issued a new accounting pronouncement regarding lease accounting for reporting periods beginning after December 15, 2019. A lessee will be required to recognize on the balance sheet the assets and liabilities for leases with lease terms of more than 12 months. Management is currently evaluating the effect this pronouncement will have on the financial statements and related disclosures.

Date of Management's Review: Subsequent events were evaluated through the date the financial statements were issued

NOTE 2 – NET CAPITAL

The Company, as a registered broker dealer, is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2018, the Company had net capital of \$136,641 which was \$122,298 in excess of its required net capital of \$14,343 and its ratio of aggregate indebtedness to net capital was .157 to 1.

NOTE 3 – LEASES AND RELATED PARTIES

The Company leases office premises under an operating lease that expires November 30, 2019. The Company received rental income during 2018 from a related company for sublease of its office premises. The due from affiliates amount of \$1,189 arises from this arrangement.

NOTE 4 – CONTINGENCIES

The Company is subject to litigation in the normal course of business. The Company has no litigation in progress at December 31, 2018.

NOTE 5 – RETIREMENT PLAN

The Company adopted a cash balance retirement plan effective January 1, 2018. The plan has no assets at December 31, 2018, except for a receivable from the Company for the calendar year 2018 contribution of \$164,000. The sole participant in the plan is the Company's stock holder.

The unit credit funding method was used as prescribed by the Pension Protection Act. This method sets the funding target equal to the present value of accrued benefits and sets the normal cost equal to the present value of the benefit accrued in the current year. The cash balance projected interest crediting rate is 5%.

The plan contribution expected to be paid for 2019 is not determinable as it is dependent upon compensation paid to the Company's stock holder whose compensation is dependent on the Company's earning success for 2019.

The plan does not expect to pay any benefits during the next five fiscal years.
