
**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**
Washington, D.C. 20549

FORM 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2010

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 333-136424

WaferGen Bio-systems, Inc.

(Exact Name of Registrant as Specified in its Charter)

Nevada

(State or other jurisdiction of incorporation or organization)

90-0416683

(IRS Employer Identification No.)

7400 Paseo Padre Parkway, Fremont, CA

(Address of principal executive offices)

94555

(Zip Code)

(510) 651-4450

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☐ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐

Non-accelerated filer ☐ (Do not check if a smaller reporting company)

Accelerated filer ☐

Smaller reporting company ☒

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The Registrant had 40,996,303 shares of common stock outstanding as of November 10, 2010.

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

NOTE 1. The Company

General – WaferGen Bio-systems, Inc. and subsidiaries (the “Company”) are engaged in the development, manufacture and sales of systems for gene expression, genotyping and stem cell research for the life sciences, pharmaceutical drug discovery and biomarker discovery and diagnostic products industries. The Company’s products are aimed at professionals who perform genetic analysis and cell biology, primarily at pharmaceutical and biotech companies, academic and private research centers, and diagnostics companies involved in biomarker research. Through the SmartChip products, the Company plans to provide new performance standards with significant savings of time and cost for professionals in the field of gene expression research facilitating biomarker discovery, toxicology, and clinical research.

Wafergen, Inc. was incorporated in the State of Delaware on October 22, 2002.

Scuttlebutt Yachts, Inc. was incorporated in the state of Nevada on August 4, 2005. On June 20, 2006, its name was changed to La Burbuja Café, Inc. On January 1, 2007, its name was changed to WaferGen Bio-systems, Inc.

Merger – On May 31, 2007, Wafergen, Inc. was acquired by WaferGen Bio-systems, Inc. In the transactions, Wafergen, Inc. merged with a subsidiary of WaferGen Bio-systems, Inc. and became a wholly owned subsidiary of WaferGen Bio-systems, Inc. (the “Merger”). The officers and board members of WaferGen Bio-systems, Inc. resigned and were replaced by officers of Wafergen, Inc. along with newly elected board members.

Concurrent with the closing of the Merger, WaferGen Bio-systems, Inc. consummated a private offering (the “Offering”) of 7,178,444 units of its securities (the “Units”), at a purchase price of \$1.50 per Unit, consisting of an aggregate of 7,178,447 shares of common stock and warrants to purchase an aggregate of an additional 2,153,533 share of common stock for a period of five years at an exercise price of \$2.25 per share (the “Investor Warrants”), which Investor Warrants are callable by the Company under certain circumstances.

On June 12, 2007, WaferGen Bio-systems, Inc. sold an additional 830,000 Units on the same terms consisting of an aggregate of 830,000 shares of common stock and warrants to purchase an aggregate of 249,000 shares of common stock.

Wafergen, Inc. had issued notes payable to a stockholder, our Chief Executive Officer, in the aggregate amount of \$750,000. Rather than accepting cash consideration for Units acquired by the same individual, the Company agreed to issue at the first closing 160,000 Units at a rate of one Unit for each \$1.50 of debt in consideration of his cancellation of \$240,000 of existing notes payable.

A summary is as follows:

Gross proceeds from initial offering	\$ 10,767,668
Gross proceeds from additional offering	1,245,000
	<u>12,012,668</u>
Gross proceeds	
Offering costs:	
Paid	(1,851,637)
Issuance of warrants to placement agent	(66,319)
	<u>(1,917,956)</u>
Total offering costs	
Gross proceeds less offering costs	10,094,712
Issuance of warrants to placement agent	66,319
Cancellation of debt	(240,000)
	<u>\$ 9,921,031</u>
Net proceeds	

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

We filed a registration statement (the “Registration Statement”) registering for resale (i) the shares of common stock included in the units sold in the offering, (ii) the shares of common stock underlying the warrants included in the units sold and (iii) the shares of common stock underlying the warrants issued to the Placement Agent in connection with the offering, consistent with the terms and provisions of the Registration Rights Agreement from the offering, which Registration Statement became effective on January 18, 2008.

The exercise price and number of shares of our common stock issuable on exercise of the warrants may be adjusted in certain circumstances, including in the event of a stock dividend, or our recapitalization, reorganization, merger or consolidation.

The warrants, at the option of the holder, may be exercised by cash payment of the exercise price or by “cashless exercise.” A “cashless exercise” means that in lieu of paying the aggregate purchase price for the shares being purchased upon exercise of the warrants in cash, the holder will forfeit a number of shares underlying the warrants with a “fair market value” equal to such aggregate exercise price. WaferGen Bio-systems, Inc. will not receive additional proceeds to the extent that warrants are exercised by cashless exercise.

Contemporaneously with the closing of the Merger, WaferGen Bio-systems, Inc. executed a Split-Off Agreement with certain of its shareholders whereby all the assets and liabilities of WaferGen Bio-systems, Inc. just prior to the Merger were assigned to such shareholders in exchange for their surrender of 4,277,778 shares of common stock of WaferGen Bio-systems, Inc. In addition, all of Wafergen, Inc.’s existing Series A Preferred Stock, Series B Preferred Stock, and common stock was converted into common stock of WaferGen Bio-systems, Inc. pursuant to the terms of the merger agreement based on an exchange ratio of .53991522 for 1.

A summary of the common stock outstanding of WaferGen Bio-systems, Inc. subsequent to the above was as follows:

WaferGen Bio-systems, Inc. shares outstanding prior to the Merger	11,277,782
Shares issued to Wafergen, Inc. shareholders	8,214,523
Shares issued in the Offering	8,008,448
Shares cancelled in accordance with the Split-off Agreement	(4,277,778)
Total shares outstanding	<u>23,222,975</u>

WaferGen Bio-systems, Inc. also assumed all of Wafergen, Inc.’s outstanding stock options and warrants with proportionate adjustments to the number of underlying shares and exercise prices based on an exchange ratio of .53991522 for 1.

The transactions between WaferGen Bio-systems, Inc. and Wafergen, Inc. have been treated as a reverse merger and recapitalization of Wafergen, Inc. for reporting purposes. Wafergen, Inc. is the acquirer for accounting purposes. WaferGen Bio-systems, Inc. is the issuer. The historical financial statements for periods prior to the acquisition become those of the acquirer, Wafergen, Inc. In a recapitalization, historical stockholders’ equity of the acquirer prior to the merger is retroactively restated for the equivalent number of shares received in the merger after giving effect to any difference in par value of the issuer’s and acquirer’s stock with an offset to additional paid-in capital. Accumulated deficit of the acquirer is carried forward after the acquisition. Operations prior to the merger are those of the accounting acquirer. Earnings per share for the periods prior to the merger are restated to reflect the equivalent number of shares outstanding.

On January 24, 2008, the Company formed a new subsidiary in Kulim Hi-Tech Park, Kedah, Malaysia. The subsidiary, WaferGen Biosystems (M) Sdn. Bhd., will launch various initiatives to support a number of the Company’s ongoing development and commercialization goals. The Company owns 100% of the common stock and 23.5% (which includes all shares that have been assumed by the Company pursuant to exercises of exchange rights for which the Company has received notice from investors) of the preferred stock of this entity. See Note 6 below.

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

On December 23, 2009, the Company completed the first closing under a private placement offering (the “December 2009 Offering”) with certain accredited investors, pursuant to which the Company sold an aggregate of 2,878,333 units at a price of \$1.50 per unit, with each unit consisting of one share of the Company’s common stock and a warrant to purchase 25% of one share of the Company’s common stock at an exercise price of \$2.50 per whole share. At initial issuance, the fair value of the 719,583 warrants was determined to be \$759,900 (as determined pursuant to the Monte Carlo Simulation approach, as described in Note 2). On December 30, 2009, the Company sold an additional 430,002 units in a second closing, including 107,502 warrants with a fair value of \$82,408. On January 6, 2010, the Company sold a further 82,000 units in a third closing, including 20,500 warrants with a fair value of \$15,715. Each unit in the second and third closing was sold at the same price, and with the same terms and conditions, as those sold in the first closing.

In total, the Company sold an aggregate of 3,390,335 shares of common stock and warrants to purchase 847,585 shares of common stock for \$2.50 in the December 2009 Offering, and received aggregate gross proceeds of \$5,085,500. Of these totals, the Company sold 82,000 shares of common stock and 20,500 warrants for gross proceeds of \$123,000 in the nine months ended September 30, 2010.

The warrants issued in the December 2009 Offering have a term of five years and are subject to weighted average anti-dilution protection in the event the Company subsequently issues its shares of common stock, or securities convertible into shares of common stock, for a price per share less than the exercise price of the warrants. The warrants are immediately exercisable. In connection with the closing of the private placement, the Company entered into registration rights agreements with the investors purchasing units in the offering.

The Company retained a selling agent in connection with this private placement offering, and pursuant to the terms of a selling agency agreement, the Company issued the selling agent warrants to purchase 100,742, 15,050 and 2,870 shares of common stock at an exercise price of \$2.50 per whole share on the first, second and third closing, respectively. At initial issuance, the Company determined the total allocated fair value of the warrants to be \$120,123 (of which \$2,200 relates to warrants issued in the nine months ended September 30, 2010). The warrants issued to the selling agent have the same terms as the warrants issued to the investors in the December 2009 Offering.

On July 7, 2010, the Company completed a registered direct public offering (the “July 2010 Offering”) with certain accredited investors, pursuant to which the Company sold an aggregate of 6,001,667 units at a price of \$1.20 per unit, with each unit consisting of one share of the Company’s common stock and a warrant to purchase 50% of one share of the Company’s common stock at an exercise price of \$1.55 per whole share. The shares of common stock, warrants to purchase common stock (excluding warrants issued to the selling agents or their designees) and shares of common stock issuable upon exercise of the investor warrants were issued pursuant to a prospectus supplement filed with the Securities and Exchange Commission in connection with a takedown from the Company’s shelf registration statement on Form S-3, which became effective on June 8, 2010.

Subject to certain ownership limitations, the warrants issued in the July 2010 Offering were exercisable immediately and will expire five years from the date the warrants of issuance. The number of shares issuable upon exercise of the warrants and the exercise price of the warrants are adjustable in the event of stock splits, combinations and reclassifications, but not in the event of the issuance by the Company of additional securities.

The Company retained a selling agent in connection with this registered direct offering, and pursuant to the terms of a selling agency agreement, the Company paid the selling agents an aggregate fee equal to 6.0% of the gross proceeds received in the offering, subject to certain exceptions. In addition, the Company granted to the selling agents or their designees warrants to purchase an aggregate of 203,500 shares of the Company’s common stock at an exercise price of \$1.50 per whole share. Utilizing the Black-Scholes valuation model and assumptions of the fair value of Common Stock of \$1.03, estimated volatility of 44.46%, a risk free interest rate of 1.40%, a zero dividend rate and an expected term of four years, the Company determined the total allocated fair value of the warrants to be \$51,140. Other than the exercise price, the warrants issued to the selling agents have substantially the same terms as the warrants issued to the investors in the July 2010 Offering. See the Company’s Current Report on Form 8-K, filed with the Securities and Exchange Commission on July 8, 2010, for additional information on the registered direct offering.

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Management's Plan – The Company has incurred operating losses and negative cash flows from operations since its inception. Management expects that revenues will increase as a result of current and future product releases. However, the Company also expects to incur additional expenses for the development and expansion of its products, marketing campaigns and operating costs as it expands its operations. Therefore, the Company expects operating losses and negative cash flows to continue for the foreseeable future and anticipates that losses will increase from current levels as the Company continues to grow and develop. It is management's plan to obtain additional working capital through additional financings. The Company believes that it will be successful in expanding operations, gaining market share, and raising additional funds. However, there can be no assurance that in the event the Company requires additional financing, such financing will be available at terms which are favorable, or at all. Failure to generate sufficient cash flows from operations or raise additional capital could have a material adverse effect on the Company's ability to achieve its intended business objectives. These factors raise substantial doubt about the Company's ability to continue as a going concern.

Going Concern – The Company's condensed consolidated financial statements have been presented on a basis that contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company continues to face significant risks associated with the successful execution of its strategy given the current market environment for similar companies and failure to generate sufficient revenues or raise additional capital could have a material adverse effect on the Company's ability to continue as a going concern and to achieve its intended business objectives. These facts raise substantial doubt about the Company's ability to continue as a going concern, and there can be no assurance that the Company will be successful in its efforts to enhance its liquidity situation. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2. Summary of Significant Accounting Policies

Basis of Presentation – The Company has prepared the accompanying condensed consolidated financial statements pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to these rules and regulations. These condensed consolidated financial statements should be read in conjunction with our audited financial statements and footnotes related thereto for the year ended December 31, 2009, included in our Form 10-K/A filed with the SEC. In the opinion of management, the unaudited condensed consolidated financial statements include all adjustments (consisting only of normal recurring adjustments) necessary to present fairly the Company's financial position and the results of its operations and cash flows.

The results of operations for such interim periods are not necessarily indicative of the results to be expected for the full year.

Basis of Consolidation – The condensed consolidated financial statements include the financial statements of WaferGen Bio-systems, Inc. and its subsidiaries. All significant transactions and balances between the WaferGen Bio-systems, Inc. and its subsidiaries have been eliminated in consolidation.

Use of Estimates – Preparing condensed consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Actual results and outcomes could differ from these estimates and assumptions.

Foreign Currencies – Assets and liabilities of non-U.S. subsidiaries that operate in a local currency environment, where that local currency is the functional currency, are translated into U.S. dollars at the exchange rate on the balance sheet date. Revenues and expenses are translated at the average rates of exchange prevailing during each reporting period. Remeasurement adjustments resulting from this process are charged or credited to other comprehensive income (loss).

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Concentration of Credit Risk – Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of cash and accounts receivable. The Company places its cash in commercial banks. Accounts in the United States are secured by the Federal Deposit Insurance Corporation. Accounts in Malaysia are also guaranteed by the Malaysian government. The Company's total deposits at commercial banks usually exceed the balances insured.

The Company generally requires no collateral from its customers.

At September 30, 2010, three customers accounted for 38%, 29% and 21%, respectively, of accounts receivable. At December 31, 2009, four different customers accounted for 30%, 29%, 28% and 12% of accounts receivable.

During the three months ended September 30, 2010, three customers accounted for 40%, 28% and 22%, respectively, of total revenues. During the three months ended September 30, 2009, one different customer accounted for 96% of total revenues.

During the nine months ended September 30, 2010, four customers accounted for 42%, 17%, 16% and 12%, respectively, of total revenues. During the nine months ended September 30, 2009, one of these customers accounted for 36% of total revenues, and two other customers accounted for 40% and 15%, respectively, of total revenues.

Stock-Based Compensation – The Company measures the fair value of all stock-based awards to employees, including stock options, on the grant date and records the fair value of these awards, net of estimated forfeitures, to compensation expense over the service period. The fair value of awards to consultants is measured on the dates on which performance of services is completed, with interim valuations recorded at balance sheet dates while performance is in progress. The fair value of options is estimated using the Black-Scholes valuation model, and of restricted stock is based on the Company's closing share price on the measurement date.

The weighted-average grant date fair value of options awarded in the nine months ended September 30, 2010 and 2009, was \$0.69 and \$0.57, respectively. These fair values were estimated using the following assumptions:

	Nine Months Ended September 30,	
	2010	2009
Risk-free interest rate	1.40% - 2.40%	1.31% - 2.72%
Expected term	4.75 Years	4.75 Years
Expected volatility	42.40% - 43.01%	40.04% - 41.99%
Dividend yield	0%	0%

Risk-Free Interest Rate. This is the United States Treasury rate for the day of the grant having a term equal to the expected term of the option. An increase in the risk-free interest rate will increase the fair value and the related compensation expense.

Expected Term. This is the period of time over which the award is expected to remain outstanding and is based on management's estimate, taking into consideration the vesting terms, the contractual life, and historical experience. An increase in the expected term will increase the fair value and the related compensation expense.

Expected Volatility. This is a measure of the amount by which the stock price has fluctuated or is expected to fluctuate. Since the Company's stock has not been traded for as long as the expected term of the options, the Company uses a weighted-average of the historic volatility of four comparable companies over the retrospective period corresponding to the expected life of the Company's own options on the grant date. Extra weighting is attached to those companies most similar in terms of size and business activity. An increase in the expected volatility will increase the fair value and the related compensation expense.

Dividend Yield. The Company has not made any dividend payments nor does it have plans to pay dividends in the foreseeable future. An increase in the dividend yield will decrease the fair value and the related compensation expense.

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Forfeiture Rate. This is a measure of the amount of awards that are expected to not vest. An increase in the estimated forfeiture rate will decrease the related compensation expense.

Warrant Derivative Revaluation – The Company, beginning effective January 1, 2009, recognizes the fair value of warrants with anti-dilution provisions as liabilities. Warrants are valued when initially issued, and the liability is offset against additional paid in capital. Warrants are also revalued at each reporting date, and the change in their respective fair values is recorded as an unrealized gain or loss within other income and expenses in the statement of operations. The cumulative effect of the change in accounting for these instruments was recognized as an adjustment to the opening balance of accumulated deficit at January 1, 2009, and the transfer of the fair value of derivative warrant instruments as of January 1, 2009, from additional paid-in capital to warrant derivative liability. The Company determines the fair values of these securities using a Monte Carlo Simulation approach, with key input variables provided by management.

Fair values at measurement dates during the nine months ended September 30, 2010 and 2009, were estimated using the following assumptions:

	Nine Months Ended September 30,	
	2010	2009
Risk-free interest rate	0.47% - 2.16%	1.16% - 2.20%
Expected remaining term	2.11 - 4.00 Years	2.91 - 4.00 Years
Expected volatility	43.83% - 92.67%	43.26% - 49.78%
Dividend yield	0%	0%
Private Placement discount to stock price	10% - 15%	15%

Risk-Free Interest Rate. This is the United States Treasury rate for the measurement date having a term equal to the expected remaining term of the warrant. An increase in the risk-free interest rate will increase the fair value and the associated derivative liability.

Expected Remaining Term. This is the period of time over which the warrant is expected to remain outstanding and is based on management's estimate, taking into consideration the remaining contractual life, and historical experience. An increase in the expected remaining term will increase the fair value and the associated derivative liability.

Expected Volatility. This is a measure of the amount by which the stock price has fluctuated or is expected to fluctuate. To the extent that Company's stock has not been traded for as long as the expected remaining term of the warrants, the Company uses a weighted-average of the historic volatility of four comparable companies over the retrospective period corresponding to the expected remaining term of the warrants on the measurement date. Extra weighting is attached to those companies most similar in terms of size and business activity. To the extent that Company's stock has been traded for longer expected remaining term of the warrants, this weighted average is used to determine 50% of the volatility, with the Company's own historic volatility used to determine the remaining 50%. An increase in the expected volatility will increase the fair value and the associated derivative liability.

Dividend Yield. The Company has not made any dividend payments nor does it have plans to pay dividends in the foreseeable future. An increase in the dividend yield will decrease the fair value and the associated derivative liability.

Private Placement Discount to Stock Price. This is the percentage amount by which future stock offerings are expected to be priced at a discount from the trading price of our common stock at the offering closing dates, and is based on management's estimate, taking into consideration future expectations and historical experience. An increase in the expected discount to stock price will increase the fair value and the associated derivative liability.

Warranty Reserve – Our standard warranty agreement is one year from shipment of certain products. We accrue for anticipated warranty costs upon shipment of these products. Our warranty reserve is based on management's judgment regarding anticipated rates of warranty claims and associated repair costs, and we update our assessment quarterly.

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Net Income (Loss) Per Share – Basic net income (loss) per share is computed by dividing net income (loss) by the weighted average number of common shares outstanding during the period. Diluted income (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares outstanding plus common share equivalents from conversion of dilutive stock options, warrants, and restricted stock using the treasury method, and convertible securities using the as-converted method, except when antidilutive. In the event of a net loss, the effects of all potentially dilutive shares are excluded from the diluted net loss per share calculation as their inclusion would be antidilutive.

No adjustment has been made to the net loss for charges, gains, losses and accretion related to RCPS, as the effect would be anti-dilutive due to the net loss. The following outstanding stock options, warrants, restricted stock (on an as-converted into common stock basis) and shares issuable or contingently issuable upon conversion of RCPS were excluded from the computation of diluted net loss per share attributable to holders of common stock as they had antidilutive effects for the three and nine months ended September 30, 2010 and 2009:

	<u>Three Months Ended September 30,</u>		<u>Nine Months Ended September 30,</u>	
	<u>2010</u>	<u>2009</u>	<u>2010</u>	<u>2009</u>
Shares issuable upon exercise of common stock options	565,271	1,258,208	1,130,307	1,237,498
Shares issuable upon exercise of common stock warrants	—	13,098	213,487	24,920
Shares issuable upon vesting of restricted stock	11,141	—	5,380	—
Shares issuable upon conversion of RCPS	<u>2,795,606</u>	<u>1,070,892</u>	<u>2,706,868</u>	<u>960,449</u>
Total common share equivalents excluded from denominator for diluted earnings per share computation	<u>3,372,018</u>	<u>2,342,198</u>	<u>4,056,042</u>	<u>2,222,867</u>

Recent Accounting Pronouncements

In January 2010, the FASB issued ASU 2010-06, “Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements”. This guidance requires additional disclosures about fair value measurements, including information about purchases, sales, issuances and settlements in Level 3 (as described in Note 10). This guidance is effective for financial statements issued for fiscal years beginning after December 15, 2010, and will become effective for us on January 1, 2011. The Company expects the adoption of this guidance will not have a material impact on its consolidated financial condition or results of operations, but will require the Company to make additional disclosures.

The Company adopted ASU 2010-09, “Subsequent Events (Topic 855): Amendments to Certain Recognition and Disclosure Requirements” in February 2010. This guidance requires SEC filers to evaluate subsequent events through the date on which the financial statements are issued, and was effective immediately. The adoption of this guidance did not have a material impact on the Company’s consolidated financial condition or results of operations.

The Company adopted ASU 2009-17, “Consolidations (Topic 810): Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities” on January 1, 2010, the first day of the Company’s 2010 fiscal year. This guidance 1) replaces the quantitative-based risks and rewards calculation for determining whether an enterprise is the primary beneficiary in a variable interest entity (“VIE”) with an approach that is primarily qualitative, 2) requires ongoing assessments of whether an enterprise is the primary beneficiary of a VIE, and 3) requires additional disclosures about an enterprise’s involvement in VIEs. The adoption of this guidance did not have a material impact on the Company’s consolidated financial condition or results of operations, as the Company has not engaged in transactions with VIEs.

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

The Company adopted ASU 2009-16, "Transfers and Servicing (Topic 860): Accounting for Transfers of Financial Assets" on January 1, 2010, the first day of the Company's 2010 fiscal year. This guidance requires enhanced disclosures about transfers of financial assets and a company's continuing involvement in transferred assets. The adoption of this guidance did not have a material impact on the Company's consolidated financial condition or results of operations, since the Company has not engaged in transfers of financial assets.

NOTE 3. Inventories

Inventories consisted of the following at September 30, 2010, and December 31, 2009:

	<u>September 30, 2010</u>	<u>December 31, 2009</u>
Raw materials	\$ 8,497	\$ —
Work in process	944	—
Finished goods	480,888	170,448
Total inventories	490,329	170,448
Less allowance for excess and obsolete inventory	(128,438)	(130,478)
Inventories, net	<u>\$ 361,891</u>	<u>\$ 39,970</u>

NOTE 4. Property and Equipment, net

Property and equipment, net consisted of the following at September 30, 2010, and December 31, 2009:

	<u>September 30, 2010</u>	<u>December 31, 2009</u>
Equipment	\$ 1,827,012	\$ 1,154,406
Tools and molds	73,067	72,437
Leasehold improvements	64,997	63,470
Furniture and fixtures	150,719	42,570
Total property and equipment	2,115,795	1,332,883
Less accumulated depreciation and amortization	(1,142,433)	(890,887)
Property and equipment, net	<u>\$ 973,362</u>	<u>\$ 441,996</u>

Depreciation and amortization expense totaled \$106,488 and \$115,204 for the three months ended September 30, 2010 and 2009, respectively, \$285,210 and \$422,368 for the nine months ended September 30, 2010 and 2009, respectively, and \$1,198,870 for the period from inception to September 30, 2010.

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Equipment includes the following amounts under capital leases:

	<u>September 30, 2010</u>	<u>December 31, 2009</u>
Cost	\$ 47,162	\$ 178,712
Accumulated depreciation	(47,162)	(168,886)
Total	<u>\$ —</u>	<u>\$ 9,826</u>

NOTE 5. Capital Lease Obligation

The Company leases equipment under a capital lease that expires in August 2011. Aggregate future obligations under the capital lease in effect as of September 30, 2010, are as follows:

	<u>Capital Lease</u>
Year ending September 30, 2011	\$ 12,536
Total minimum lease obligations	12,536
Less amounts representing interest	(482)
Present value of future minimum lease payments	12,054
Less current portion of capital lease obligation	(12,054)
Capital lease obligation, less current portion	<u>\$ —</u>

Interest expense related to capital leases totaled \$280 and \$1,311 for the three months ended September 30, 2010 and 2009, respectively, \$1,055 and \$4,574 for the nine months ended September 30, 2010 and 2009, respectively, and \$24,414 for the period from inception to September, 2010.

NOTE 6. Redeemable Convertible Preference Shares in Subsidiary

On July 18, 2008, the Company's Malaysian subsidiary, WaferGen Biosystems (M) Sdn. Bhd. ("WGBM"), received \$1,000,000, less issuance costs totaling \$30,000, in exchange for the issuance of Series A Redeemable Convertible Preference Shares ("RCPS") of WGBM in a private placement to Malaysian Technology Development Corporation Sdn. Bhd. ("MTDC"), a venture capital and development firm in Malaysia. WGBM sold 444,444 Series A RCPS in this private placement at the U.S. dollar equivalent of \$2.25 per share. A second closing occurred on November 27, 2008, and WGBM received \$1,000,000, less issuance costs totaling \$30,000, from the sale of an additional 444,444 shares of Series A RCPS.

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

On June 8, 2009, WGBM received \$250,000, less an exchange loss of \$18,029 and issuance costs totaling \$19,393, in exchange for the issuance of 111,111 Series B RCPS to Expedient Equity Ventures Sdn. Bhd. ("EEV"), in a private placement at the U.S. dollar equivalent of \$2.25 per share. On March 9, 2010, WGBM received \$250,000, less an exchange loss of \$3,005 and issuance costs totaling \$8,929, in exchange for the issuance of a further 111,111 Series B RCPS to EEV, in a private placement at the U.S. dollar equivalent of \$2.25 per share. On September 23, 2009, WGBM received \$500,000, less issuance costs totaling \$7,500, in exchange for the issuance of 222,222 Series B RCPS to Prima Mahawangsa Sdn. Bhd. ("PMSB"), in a private placement at the U.S. dollar equivalent of \$2.25 per share. On May 13, 2010, WGBM received \$500,000, less issuance costs totaling \$5,000, in exchange for the issuance of a further 222,222 Series B RCPS to PMSB, in a private placement at the U.S. dollar equivalent of \$2.25 per share. These transactions represent the full subscription under a Share Subscription Agreement dated April 3, 2009, ("SSA") to sell 444,444 and 222,222 Series B RCPS to PMSB and EEV, respectively, both venture capital and development firms in Malaysia.

On September 18, 2009, WGBM received \$423,128, less issuance costs totaling \$11,319, in exchange for the issuance of 188,057 Series B RCPS to Kumpulan Modal Perdana Sdn. Bhd. ("KMP"), in a private placement at the U.S. dollar equivalent of \$2.25 per share. This represents the full amount receivable under an SSA dated July 1, 2009, to sell Series B RCPS to KMP, a venture capital and development firm in Malaysia.

Under the terms of a Deed of Adherence dated April 3, 2009, certain rights of the holders of the Series A RCPS were modified; also, the use of funds raised through the issuance of both Series A and Series B RCPS was restricted, requiring at least 60% of the total to be utilized for the Company's operations in Malaysia.

Following these modifications, the rights of the holders of RCPS include, but are not limited to, the right:

- (a) to put to the Company their RCPS (or ordinary shares in WGBM received on conversion of those RCPS under paragraph (c) below) at any time during the year 2011 that the share price of the Company's common stock is below \$2.25, to redeem for cash (or, for Series A, at the Company's option, and for Series B, at the holder's option, shares of Company common stock of equivalent value) the amount originally invested in USD plus a premium of 6% (for Series A) or 8% (for Series B), compounded annually, with yearly rests;
- (b) to cause the Company to exchange their RCPS for common stock of the Company at an exchange rate of US\$2.25 per share of common stock, provided, in the case of Series B RCPS, that commencing on August 1, 2010, if during the 10-day trading period immediately prior to the holder's exercise notice the average closing price of the Company's common stock is less than US\$2.647, then the holder shall exchange RCPS at an exchange rate equal to 85% of such 10-day average closing price. This option expires on May 8, 2013, for MTDC's Series A RCPS, on April 3, 2014, for EEV's and PMSB's Series B RCPS and on July 1, 2014, for KMP's Series B RCPS;
- (c) to convert their RCPS into ordinary shares of the subsidiary, WGBM, at any time, at a conversion rate of three ordinary shares per \$100 invested in RCPS;
- (d) to cause the subsidiary, WGBM, to redeem the RCPS in whole or in part at any time after December 31, 2011, for the principal paid plus a premium of 20% per annum, not compounding, from funds legally available for distribution (i.e. retained earnings; there is presently an accumulated deficit in WGBM of approximately \$2 million);
- (e) until December 31, 2010, to put to Alnoor Shivji, our CEO and President, their Series B RCPS (the Series A RCPS put rights expired on May 15, 2009) for \$5.625 in cash per share in the event that Mr. Shivji (a) transfers, in one or more transactions, more than 2,603,425 shares of Common Stock, approximating 80% of his stockholding, to one or more persons other than his affiliates or relatives or (b) voluntarily resigns from the board of directors of the Company if such resignation is not approved by, or is not pursuant to a restructuring of the Company or the Malaysian Subsidiary approved by, holders of a majority of the outstanding Series A RCPS at the time of such resignation;

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

- (f) of first offer on any transfers or new issuance of subsidiary shares (for Series A only); and
- (g) for each of Series A and Series B RCPS, to appoint one of the seven directors of the subsidiary.

On August 1, 2010, an event occurred affording the investors in Series B RCPS the option to convert their holdings into a number of shares in the Company at an exchange rate equal to 85% of the previous 10-days' average closing price. This beneficial conversion feature was recorded as a put option derivative liability and a reduction in RCPS, which was immediately amortized as accretion expense. Utilizing the Black-Scholes valuation model and assumptions of the fair value of Common Stock of \$1.21, an exercise price of \$0.9894, estimated volatility of 69.36%, a risk free interest rate of 0.15%, a zero dividend rate and an expected term of one day, the Company determined the fair value of the put option derivative liability to be \$428,787.

On August 17, 2010, EEV provided notice of exercise of its option to exchange its holding of 222,222 Series B RCPS for 458,483 shares of the Company's common stock, with shares to be issued on September 16, 2010. Their RCPS were acquired by the Company. Utilizing the Black-Scholes valuation model and assumptions of the fair value of Common Stock of \$1.30, an exercise price of \$1.0906, estimated volatility of 62.55%, a risk free interest rate of 0.15%, a zero dividend rate and an expected term of one day, the Company determined the fair value of the remaining put option derivative liability relating to EEV's shares to be \$96,030, and for the remaining RCPS to be \$273,325.

On September 29, 2010, KMP provided notice of exercise of its option to exchange its holding of 188,057 Series B RCPS for 328,579 shares of the Company's common stock, with shares to be issued on October 29, 2010. Their RCPS were acquired by the Company. Utilizing the Black-Scholes valuation model and assumptions of the fair value of Common Stock of \$1.52, an exercise price of \$1.2878, estimated volatility of 50.55%, a risk free interest rate of 0.15%, a zero dividend rate and an expected term of one day, the Company determined the fair value of the remaining put option derivative liability relating to KMP's shares to be \$76,313, and for the remaining RCPS to be \$180,353.

On September 30, 2010, the Company revalued the put option liability utilizing the Black-Scholes valuation model and assumptions of the fair value of Common Stock of \$1.45, an exercise price of \$1.2810, estimated volatility of 50.34%, a risk free interest rate of 0.15%, a zero dividend rate and an expected term of one day, and determined the fair value of the remaining put option derivative liability to be \$131,972.

WGBM is authorized to issue 200,000,000 RCPS with a par value of RM0.01. There were 1,743,611 RCPS (including 222,222 held by the Company upon exercise by EEV of its option) issued and outstanding at September 30, 2010, and 1,410,278 RCPS (none of which was held by the Company) issued and outstanding at December 31, 2009. The 188,057 Series B RCPS for which KMP provided notice of its intent to exercise on September 29, 2010, were accounted for as if converted as there were no contingencies existing as at September 30, 2010, that would prevent the conversion from occurring.

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

The balance remaining in RCPS comprises the following at September 30, 2010, and December 31, 2009:

	<u>September 30, 2010</u>	<u>December 31, 2009</u>
SERIES A		
Proceeds from issuance of RCPS	\$ 2,000,000	\$ 2,000,000
Issuance costs	(60,000)	(60,000)
Accretion of issuance costs	40,416	25,416
Accretion of redemption premium	250,645	154,450
Total Series A RCPS	<u>2,231,061</u>	<u>2,119,866</u>
SERIES B		
Proceeds from issuance of RCPS	1,000,000	1,155,099
Issuance costs	(23,763)	(38,212)
Exchange loss on issuance	—	18,029
Accretion of issuance costs	10,461	4,538
Accretion of redemption premium	56,233	31,674
Total Series B RCPS	<u>1,042,931</u>	<u>1,171,128</u>
Total RCPS	<u>\$ 3,273,992</u>	<u>\$ 3,290,994</u>

NOTE 7. Stock Awards

In 2003, Wafergen, Inc.'s Board of Directors adopted the 2003 Incentive Stock Plan (the "2003 Plan"). The 2003 Plan authorized the Board of Directors to grant incentive stock options and non-statutory stock options to employees, directors, and consultants for up to 1,500,000 shares of common stock. Under the Plan, incentive stock options and nonqualified stock options could be granted. Incentive stock options were to be granted at a price that is no less than 100% of the fair value of the stock at the date of grant. Options vest over a period according to the Option Agreement, and are exercisable for a maximum period of ten years after date of grant. Options granted to stockholders who own more than 10% of the outstanding stock of WaferGen at the time of grant must be issued at an exercise price no less than 110% of the fair value of the stock on the date of grant. In November 2006, WaferGen increased the aggregate number of shares of Common Stock that may be issued under the 2003 Plan to a total authorized reserve of 2,500,000 shares, a 1,000,000 share increase. The 2003 Plan was frozen when the 2007 Plan was adopted, resulting in no further options available for grant.

In January 2007, the Company's Board of Directors and stockholders adopted the 2007 Stock Option Plan (the "2007 Plan"). The purpose of the 2007 Plan was to provide an incentive to retain the employment of directors, officer, consultants, advisors and employees of the Company, persons of training, experience and ability, to attract new directors, officers, consultants, advisors and employees whose services are considered valuable, to encourage the sense of proprietorship, and to stimulate the active interest of such persons into the Company's development and financial success. Under the 2007 Plan, the Company was authorized to issue incentive stock options intended to qualify under Section 422 of the Code, non-qualified stock options and restricted stock. The 2007 Plan was frozen when the 2008 Plan was adopted, resulting in no further options available for grant.

On June 5, 2008, the Company's stockholders adopted the 2008 Stock Incentive Plan (the "2008 Plan") following approval of the 2008 Plan by the Board of Directors. The 2008 Plan initially authorized the issuance of up to 2,000,000 shares of common stock pursuant to the terms of the 2008 Plan. On December 4, 2009, the Company's stockholders approved an amendment to the 2008 Plan, adding an additional 1,500,000 shares, bringing the total to 3,500,000 shares of our common stock available for issuance under the 2008 Plan. On September 16, 2010, the Company's stockholders approved a further amendment to the 2008 Plan, adding an additional 3,000,000 shares, bringing the total to 6,500,000 shares of our common stock available for issuance under the 2008 Plan. Notwithstanding the foregoing, no more than 3,250,000 shares of our common stock may be granted pursuant to awards of restricted stock and restricted stock units.

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

The number of shares of our common stock available under the 2008 Plan will be subject to adjustment in the event of a stock split, stock dividend or other extraordinary dividend, or other similar change in our common stock or our capital structure. The purpose of the 2008 Plan is to provide an incentive to retain the employment of directors, officers, consultants, advisors and employees of the Company, to attract new personnel whose training, experience and ability are considered valuable, to encourage the sense of proprietorship, and to stimulate the active interest of such persons in the Company's development and financial success. Under the 2008 Plan, the Company is authorized to issue incentive stock options intended to qualify under Section 422 of the Code, non-qualified stock options and restricted stock. Awards may vest over varying periods, as specified by the Company's Board of Directors for each grant, and have a maximum term of seven years from the grant date. The 2008 Plan is administered by the Company's Board of Directors.

The Company has issued both options and restricted stock under these Plans. Restricted stock grants afford the recipient the opportunity to receive shares of common stock, subject to certain terms, whereas options give them the right to purchase common stock at a set price. Both the Company's options and restricted stock issued to employees generally have vesting restrictions that are eliminated over a four-year period, although vesting may be over a shorter period, or may occur on the grant date, depending on the terms of each individual award.

A summary of stock option and restricted stock transactions in the nine months ended September 30, 2010, is as follows:

	Shares Available for Grant	Stock Options		Restricted Stock	
		Number of Options Outstanding	Weighted Average Exercise Price	Number of Shares Outstanding	Weighted Average Grant-Date Fair Value
Balance at January 1, 2010	1,437,979	4,149,402	\$ 1.4246	8,208	\$ 1.1055
2008 Plan Amendment	3,000,000	—	\$ —	—	\$ —
Granted	(1,504,250)	1,131,000	\$ 1.7439	373,250	\$ 1.7573
Exercised	—	(84,554)	\$ 0.5049	—	\$ —
Vested	—	—	\$ —	(310,415)	\$ 1.7678
Forfeited	30,021	(41,539)	\$ 1.4764	—	\$ —
Cancelled	24,000	(79,000)	\$ 2.0858	(34,456)	\$ 1.5927
Balance at September 30, 2010	2,987,750	5,075,309	\$ 1.5004	36,587	\$ 1.6766

The weighted average fair value of options granted in the nine months ended September 30, 2010 and 2009, was \$0.69 and \$0.57, respectively. The fair value of shares vested in the nine months ended September 30, 2010 and 2009, was \$533,479 and \$408,654, respectively.

The aggregate intrinsic value of options outstanding and exercisable at September 30, 2010, was \$1,141,687 and \$942,411, respectively. Aggregate intrinsic value is the total pretax amount (i.e., the difference between the Company's stock price and the exercise price) that would have been received by the option holders had all their in-the-money options been exercised.

The Company received \$42,695 for the 84,554 options exercised during the nine months ended September 30, 2010, which had an intrinsic value of \$107,494. The Company received \$2 for the 10,798 options exercised during the nine months ended September 30, 2009, which had an intrinsic value of \$22,134.

\$ 1.7800 - \$2.3900	1,594,500	5.46	\$ 2.1437	973,264	5.55	\$ 2.1185
	<u>5,075,309</u>	5.09	\$ 1.5004	<u>2,926,299</u>	4.42	\$ 1.4056

The amounts expensed for stock-based compensation totaled \$386,081 and \$232,019 for the three months ended September 30, 2010 and 2009, respectively, \$983,904 and \$479,069 for the nine months ended September 30, 2010 and 2009, respectively, and \$3,512,387 for the period from inception to September 30, 2010. These sums include \$198,470 and \$119,000 in the three months ended September 30, 2010 and 2009, respectively, and \$549,160 and \$119,000 in the nine months ended September 30, 2010 and 2009, respectively, for restricted stock awards to consultants.

At September 30, 2010, the total stock-based compensation cost not yet recognized, net of estimated forfeitures, was \$1,117,113. This cost is expected to be recognized over an estimated weighted average amortization period of 2.73 years. No amounts related to stock-based compensation costs have been capitalized. The tax benefit and the resulting effect on cash flows from operating and financing activities related to stock-based compensation costs were not recognized as the Company currently provides a full valuation allowance for all of its deferred taxes.

NOTE 8. Warrant Derivative Liabilities

The Company has incurred liabilities for the estimated fair value of derivative warrant instruments. The estimated fair value of the derivative warrant instruments has been calculated using a Monte Carlo Simulation approach, with key input variables provided by management, as of each issuance date, with the valuation offset against additional paid in capital, and at each reporting date, with changes in fair value recorded as unrealized gains or losses in non-operating income (expense).

During the nine months ended September 30, 2010, a \$14,526 decrease in the fair value of the warrant derivative liability was recorded as an unrealized gain on the fair value of warrants, net.

The fair value of warrants ranged from \$0.43 to \$0.91 at September 30, 2010, and from \$0.52 to \$0.97 at December 31, 2009. A summary of activity in warrant derivative liabilities is included in Note 10.

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

A summary of outstanding common stock warrants as of September 30, 2010, is as follows:

Securities Into Which Warrants are Convertible	Warrants Outstanding	Warrants Subject to Anti-Dilution	Exercise Price	Expiration Date
Common Stock	44,401		\$ 1.41	March 2012
Common Stock	203,500		\$ 1.50	July 2015
Common Stock	3,000,830		\$ 1.55	July 2015
Common Stock	1,944,651	1,944,651	\$ 1.80	June and August 2014
Common Stock	1,078,401	1,078,401	\$ 2.24	December 2014 and January 2015
Common Stock	2,666,459		\$ 2.25	May and June 2012
Common Stock	841,885	841,885	\$ 2.26	May 2013
Common Stock	200,000	—	\$ 3.00	December 2014 and November 2015
Total	<u>9,980,127</u>	<u>3,864,937</u>		

The warrants expiring in December 2014 and January 2015 were originally issued in December 2009 and January 2010 with an exercise price of \$2.50 and entitled the holders thereof to purchase an aggregate of 966,247 shares. As a result of anti-dilution adjustments with respect to such warrants pursuant to their terms, such warrants, as of September 30, 2010, had an exercise price of \$2.24 and entitled the holders thereof to purchase an aggregate of 1,078,401 shares.

The warrants expiring in June and August 2014 were originally issued in June and August 2009 with an exercise price of \$2.00 and entitled the holders thereof to purchase an aggregate of 1,750,185 shares. As a result of anti-dilution adjustments with respect to such warrants pursuant to their terms, such warrants, as of September 30, 2010, had an exercise price of \$1.80 and entitled the holders thereof to purchase an aggregate of 1,944,651 shares.

The warrants expiring in May 2013 were originally issued in May 2008 with an exercise price of \$3.00 and entitled the holders thereof to purchase an aggregate of 634,220 shares. As a result of weighted-average anti-dilution adjustments with respect to such warrants pursuant to their terms, such warrants, as of September 30, 2010, had an exercise price of \$2.26 and entitled the holders thereof to purchase an aggregate of 841,885 shares.

The exercise price of 50,000 warrants expiring in December 2014 was amended from \$3.25 to \$3.00 in the second quarter of 2010. The change in their fair value was not significant, and no expense was recorded.

NOTE 9. Cash Flow Information

Cash paid during the nine months ended September 30, 2010 and 2009, and the period from inception to September 30, 2010, is as follows:

	Nine Months Ended September 30, 2010	2009	Period From October 22, 2002 (Inception) to September 30, 2010
Interest	\$ 2,320	\$ 7,032	\$ 44,861
Income taxes	\$ —	\$ —	\$ —

Restricted Stock forfeited to cover income tax liability	\$ 44,793	\$ —	\$ 44,793

NOTE 10. Fair Value of Financial Instruments

Fair value measurements are determined under a three-level hierarchy for fair value measurements that prioritizes the inputs to valuation techniques used to measure fair value, distinguishing between market participant assumptions developed based on market data obtained from sources independent of the reporting entity ("observable inputs") and the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances ("unobservable inputs").

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

Fair value is the price that would be received to sell an asset or would be paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date. In determining fair value, we primarily use prices and other relevant information generated by market transactions involving identical or comparable assets (“market approach”). We also consider the impact of a significant decrease in volume and level of activity for an asset or liability when compared with normal activity to identify transactions that are not orderly.

The highest priority is given to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Securities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The three hierarchy levels are defined as follows:

Level 1 – Quoted prices in active markets that are unadjusted and accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 – Quoted prices for identical assets and liabilities in markets that are not active, quoted prices for similar assets and liabilities in active markets or financial instruments for which significant inputs are observable, either directly or indirectly;

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

Credit risk adjustments are applied to reflect the Company’s own credit risk when valuing all liabilities measured at fair value. The methodology is consistent with that applied in developing counterparty credit risk adjustments, but incorporates the Company’s own credit risk as observed in the credit default swap market.

The following table presents the Company’s assets and liabilities that are measured at fair value on a recurring basis at September 30, 2010:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Financial Assets:				
Cash and cash equivalents	\$ 4,429,455	\$ —	\$ —	\$ 4,429,455
Financial Liabilities:				
Warrant derivative liabilities	\$ —	\$ —	\$ 2,781,580	\$ 2,781,580
Put option derivative liability	\$ —	\$ —	\$ 131,971	\$ 131,971

The following table sets forth a reconciliation of changes in the nine months ended September 30, 2010, in the fair value of warrant derivative liabilities classified as level 3 in the fair value hierarchy:

Balance at January 1, 2010	\$ 2,778,191
Additions - fair value of warrants issued in January 2010	17,915
Change in unrealized (gains) losses, net ⁽¹⁾	(14,526)
Transfers	—
Balance at September 30, 2010	\$ 2,781,580

(1) Reported in other income and expenses in the Condensed Consolidated Statements of Operations.

(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

The following table sets forth a reconciliation of changes in the nine months ended September 30, 2010, in the fair value of put option derivative liabilities classified as level 3 in the fair value hierarchy:

Balance at January 1, 2010	\$ —
Additions - fair value of put option on August 1, 2010	428,787
Change in unrealized (gains) losses, net ⁽²⁾	(124,473)
Settlements	(172,343)
Balance at September 30, 2010	<u>\$ 131,971</u>

(2) Reported in other income and expenses in the Condensed Consolidated Statements of Operations.

NOTE 11. Contingencies

From time to time we may be involved in claims arising in connection with our business. Although there can be no assurance as to the ultimate outcome, we generally have denied, or believe we have a meritorious defense and will deny, liability in all cases pending against the Company, including the matters described below, and we intend to defend vigorously each such case. Based on information currently available, we believe that the amount, or range, of reasonably possible losses in connection with the actions against us, including the matters described below, in excess of established reserves, in the aggregate, not to be material to our consolidated financial condition or cash flows. However, losses may be material to the Company's operating results for any particular future period, depending on the level of income for such period.

Vida Communication v. WaferGen. In July 2009, an action entitled Vida Communication, Inc. ("Vida") v. WaferGen Bio-systems, Inc. was filed in the San Francisco Superior Court. Vida, a company that had been providing investor relations services, sued the Company for a total of \$165,000. The plaintiff and Company have agreed to an out-of-court settlement, for a sum that was accrued in full at September 30, 2010.

In addition, we anticipate that we will expend significant financial and managerial resources to defend our intellectual property rights in the future if we believe that our rights have been infringed. We also anticipate that we will expend significant financial and managerial resources to defend against claims that our products and services infringe upon the intellectual property rights of third parties.

NOTE 12. Restatement of Consolidated Financial Statements

Correction of an Error in Accounting for Warrant Derivative Liabilities

Subsequent to the filing on March 22, 2010, of the Company's original Form 10-K for the year ended December 31, 2009, the Company concluded that warrants containing anti-dilution provisions to purchase 3,489,979 shares of the Company's common stock should be reclassified as liabilities in accordance with ASC 815-40. As a result, the Company subsequently filed an amendment to its Form 10-K on May 12, 2010, in order to restate its financial statements for the year ended December 31, 2009, and the interim periods within year ended December 31, 2009. Accordingly, unrealized gain or loss on fair value of warrants, net, warrant derivative liabilities, additional paid in capital and accumulated deficit for the three and nine months ended September 30, 2009, have been restated in this Form 10-Q.

WAFERGEN BIO-SYSTEMS, INC. AND SUBSIDIARIES
(A Development Stage Company)

Notes to the Condensed Consolidated Financial Statements (Unaudited)

The impact of the restatement on the consolidated statements of operations for the three months ended September 30, 2009, and comparison to the amounts originally reported, are detailed in the tables below.

	Three Months Ended September 30, 2009		
	As Previously Reported	Adjustment	As Restated
Consolidated Statements of Operations Data:			
Revenue	\$ 78,860	\$ —	\$ 78,860
Gross margin	11,963	—	11,963
Operating loss	(2,454,763)	—	(2,454,763)
Unrealized loss on fair value of warrants, net	—	(548,451) ⁽¹⁾	(548,451)
Total other income and (expenses)	(9,268)	(548,451)	(557,719)
Net loss	(2,464,031)	(548,451)	(3,012,482)
Net loss applicable to common stockholders	(2,507,707)	(548,451)	(3,056,158)
Net loss per share - basic and diluted	(0.09)	(0.02)	(0.11)

- (1) Represents the net unrealized loss arising from the revaluation of outstanding warrants with anti-dilution provisions that arose in the three months ended September 30, 2009.

The impact of the restatement on the consolidated statements of operations and cash flows for the nine months ended September 30, 2009, and comparison to the amounts originally reported, are detailed in the tables below.

	Nine Months Ended September 30, 2009		
	As Previously Reported	Adjustment	As Restated
Consolidated Statements of Operations Data:			
Revenue	\$ 189,616	\$ —	\$ 189,616

Operating loss	(7,080,928)	—	(7,080,928)
Unrealized loss on fair value of warrants, net	—	(500,383) ⁽²⁾	(500,383)
Total other income and (expenses)	(31,887)	(500,383)	(532,270)
Net loss	(7,112,815)	(500,383)	(7,613,198)
Net loss applicable to common stockholders	(7,227,907)	(500,383)	(7,728,290)
Net loss per share - basic and diluted	(0.27)	(0.02)	(0.29)
Consolidated Statements of Cash Flows Data:			
Net loss	(7,112,815)	(500,383)	(7,613,198)
Unrealized loss on fair value of warrants, net	—	500,383	500,383
Net cash used in operating activities	(5,269,610)	—	(5,269,610)

- (2) Represents the net unrealized loss arising from the revaluation of outstanding warrants with anti-dilution provisions that arose in the nine months ended September 30, 2009.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion highlights the principal factors that have affected our financial condition and results of operations as well as our liquidity and capital resources for the periods described.

The information contained in this Form 10-Q is intended to update the information contained in our annual report on Form 10-K for the year ended December 31, 2009, as amended, (the "Form 10-K") and our quarterly reports on Form 10-Q for the quarters ended March 31 and June 30, 2010 (the "First and Second Quarter Forms 10-Q"), both as filed with the Securities and Exchange Commission, and presumes that readers have access to, and will have read, the "Management's Discussion and Analysis of Financial Condition and Results of Operations", our consolidated financial statements and the notes thereto, and other information contained in the Form 10-K and the First and Second Quarter Forms 10-Q. The following discussion and analysis also should be read together with our condensed consolidated financial statements and the notes to the condensed consolidated financial statements and the notes thereto included elsewhere in this Form 10-Q.

Forward-Looking Statements

Information included in this Form 10-Q may contain forward-looking statements. Except for the historical information contained in this discussion of the business and the discussion and analysis of financial condition and results of operations, the matters discussed herein are forward looking statements. These forward looking statements include but are not limited to the Company's plans for sales growth and expectations of gross margin, expenses, new product introduction, and the Company's liquidity and capital needs. This information may involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by any forward-looking statements. Forward-looking statements, which involve assumptions and describe our future plans, strategies and expectations, are generally identifiable by use of the words "may," "will," "should," "expect," "anticipate," "estimate," "believe," "intend" or "project" or the negative of these words or other variations on these words or comparable terminology. In addition to the risks and uncertainties described in "Risk Factors" contained in the Form 10-K, these risks and uncertainties may include consumer trends, business cycles, scientific developments, changes in governmental policy and regulation, currency fluctuations, economic trends in the United States and inflation. Forward-looking statements are based on assumptions that may be incorrect, and there can be no assurance that any projections or other expectations included in any forward-looking statements will come to pass. Our actual results could differ materially from those expressed or implied by the forward-looking statements as a result of various factors. Except as required by applicable laws, we undertake no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

Company Overview and Background

Wafergen, Inc. was incorporated in the State of Delaware on October 22, 2002. WaferGen Bio-systems, Inc. and subsidiaries (the "Company") are engaged in the development, manufacture and sales of systems for gene expression, genotyping and stem cell research for the life sciences, pharmaceutical drug discovery and biomarker discovery and diagnostic products industries. The Company's products are aimed at professionals who perform genetic analysis and cell biology, primarily at pharmaceutical and biotech companies, academic and private research centers, and diagnostics companies involved in biomarker research. Through the SmartChip products, the Company plans to provide new performance standards with significant savings of time and cost for professionals in the field of gene expression research facilitating biomarker discovery, toxicology and clinical research.

The Company's revenue is subject to fluctuations due to the timing of sales of high-value products and service projects, the impact of seasonal spending patterns, the timing and size of research projects its customers perform, changes in overall spending levels in the life science industry and other unpredictable factors that may affect customer ordering patterns. Any significant delays in the commercial launch or any lack or delay of commercial acceptance of new products, unfavorable sales trends in existing product lines, or impacts from the other factors mentioned above, could adversely affect the Company's revenue growth or cause a sequential decline in quarterly revenue. Due to the possibility of fluctuations in the Company's revenue and net income or loss, the Company believes that quarterly comparisons of its operating results are not a good indication of future performance.

On August 5, 2010, the Company announced the commercial launch of the SmartChip Real-Time PCR System and its related products and services. The Company began to sell the System in the first quarter of 2010 to customers participating in the Early-Access Program. The Company also generated revenue in the second quarter of 2010 from pre-commercialization sales of Real-Time PCR Chips, and through fees charged for its SmartChip Gene Expression Profiling Services program.

Since inception, the Company has incurred substantial operating losses. As of September 30, 2010, the Company's accumulated deficit was \$40,144,066 and the total stockholders' deficit was \$1,271,975. Losses have principally occurred as a result of the substantial resources required for the research, development and manufacturing scale-up effort required to commercialize the Company's initial products and services. The Company expects to continue to incur substantial costs for research, development, and manufacturing scale-up activities for at least the next year. The Company will also need to increase its selling, general and administrative costs as it builds up its sales and marketing infrastructure to expand and support the sale of systems, other products, and services.

Results of Operations

The following table presents selected items in the condensed consolidated statements of operations for the three months and nine months ended September 30, 2010 and 2009, respectively:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Revenue	\$ 633,241	\$ 78,860	\$ 1,454,920	\$ 189,616
Cost of revenue	312,047	66,897	583,796	206,661
Gross margin	321,194	11,963	871,124	(17,045)
Operating expenses:				
Sales and marketing	653,322	136,055	1,378,271	452,241
Research and development	2,047,367	1,267,036	5,086,078	3,441,625
General and administrative	1,248,773	1,063,635	3,452,727	3,170,017
Total operating expenses	3,949,462	2,466,726	9,917,076	7,063,883
Operating loss	(3,628,268)	(2,454,763)	(9,045,952)	(7,080,928)
Other income and (expenses):				
Interest income	7,965	5,336	15,072	9,792
Interest expense	(280)	(2,435)	(1,954)	(7,195)
Unrealized gain on fair value of put option, net	124,473	—	124,473	—
Unrealized gain (loss) on fair value of warrants, net	(1,665,950)	(548,451)	14,526	(500,383)
Miscellaneous income (expense)	(62,703)	(12,169)	(135,697)	(34,484)

Net loss before provision for income taxes	(5,224,763)	(3,012,482)	(9,029,532)	(7,613,198)
Provision for income taxes	—	—	—	—
Net loss	\$ (5,224,763)	\$ (3,012,482)	\$ (9,029,532)	\$ (7,613,198)

Revenue

The following table presents our revenue for the three months and nine months ended September 30, 2010 and 2009, respectively:

Three Months Ended September 30,			Nine Months Ended September 30,		
2010	2009	% Change	2010	2009	% Change
\$ 633,241	\$ 78,860	703%	\$ 1,454,920	\$ 189,616	667%

For the three months ended September 30, 2010, revenue increased by \$554,381, or 703%, as compared to the three months ended September 30, 2009. The increase is primarily due to our first sales of an externally manufactured system used with our SmartChip products, accounting for 56% of revenue, along with further sales of our SmartChip Real-Time PCR Systems, accounting for 36% of the total, offset by a reduction in revenue from SmartSlide™ products.

For the nine months ended September 30, 2010, revenue increased by \$1,265,304, or 667%, as compared to the nine months ended September 30, 2009. The increase is primarily due to the first sales of our SmartChip Real-Time PCR Systems, including sample dispensers, Real-Time PCR Chip panels and Fee for Service, accounting for 76%, 8% and 7% of total revenue, respectively. There was also a decrease in revenue of approximately \$58,000 from SmartSlide™ products, which accounted for 9% of revenue in the nine months ended September 30, 2010, compared to 100% in the nine months ended September 30, 2009. This 2010 revenue was mostly billed in the first quarter, and the Company no longer markets SmartSlide™ products, so significant sales are not expected in the future.

Cost of Revenue

The following table presents the cost of revenue for the three months and nine months ended September 30, 2010 and 2009, respectively:

Three Months Ended September 30,			Nine Months Ended September 30,		
2010	2009	% Change	2010	2009	% Change
\$ 312,047	\$ 66,897	366%	\$ 583,796	\$ 206,661	182%

Cost of revenue includes the cost of products paid to third party vendors and raw materials, labor and overhead for products manufactured internally, and reserves for warranty and inventory obsolescence.

For the three months ended September 30, 2010, cost of revenue increased by \$245,150, or 366%, as compared to the three months ended September 30, 2009. The increase related primarily to the increase in revenues from sales of SmartChip products and services, which generated no revenue in 2009, offset by the absence of a provision for obsolete SmartSlide™ products inventory, which represented 70% of cost of revenue in the three months ended September 30, 2009. Gross margin for the three months ended September 30, 2010, was 52%, as compared to 74%, after reversing the impact of the provision for obsolete inventory, for the three months ended September 30, 2009. The margin in the three months ended September 30, 2010, declined as 56% of our third quarter revenue came from our first sales of an externally manufactured system used with our SmartChip products that afforded a lower margin. The margin on the remainder of our revenue was 65%, compared to 69% for the three months ended June 30, 2010, as margins remained broadly consistent for our internally produced SmartChip products and services.

For the nine months ended September 30, 2010, cost of revenue increased by \$377,135, or 182%, as compared to the nine months ended September 30, 2009. The increase related primarily to the increase in revenues from sales of SmartChip products and services, which generated no revenue in 2009, offset by the absence of a provision for obsolete SmartSlide™ products inventory, which represented 73% of cost of revenue in the nine months ended September 30, 2009. Gross margin for the nine months ended September 30, 2010, was 60%, as compared to 70%, after reversing the impact of the provision for obsolete inventory, for the nine months ended September 30, 2009. The margin in the nine months ended September 30, 2010, declined as 25% of our revenue came from sales of an externally manufactured system used with our SmartChip products that afforded a lower margin. The margin on the remainder of our revenue was 66%, as margins remained broadly consistent for our internally produced SmartChip products and services.

Sales and Marketing

The following table presents the sales and marketing expenses for the three months and nine months ended September 30, 2010 and 2009, respectively:

Three Months Ended September 30,			Nine Months Ended September 30,		
2010	2009	% Change	2010	2009	% Change
\$ 653,322	\$ 136,055	380%	\$ 1,378,271	\$ 452,241	205%

Sales and marketing expenses consist primarily of compensation cost of our sales and marketing team, commissions, and the costs associated with various marketing programs.

For the three months ended September 30, 2010, sales and marketing expenses increased by \$517,267, or 380%, as compared to the three months ended September 30, 2009. The increase resulted primarily from increases in salaries and wages, including commissions, consulting fees and travel and subsistence costs, which arose due to an increase in the head count of sales and marketing employees and consultants, and increases in promotional activities in conjunction with the commercialization of our SmartChip products and services.

For the nine months ended September 30, 2010, sales and marketing expenses increased by \$926,030, or 205%, as compared to the nine months ended September 30, 2009. The increase resulted primarily from increases in salaries and wages, including commissions, non-cash stock compensation expense, consulting fees, trade shows, travel and subsistence costs and facilities costs, which arose due to an increase in the head count of sales and marketing employees and consultants, and increases in promotional activities in conjunction with the commercialization and early access sales of our SmartChip products and services.

We expect selling expenses will continue to increase in the future as the Company increases its marketing activities for SmartChip, and as the number of sales personnel, and their commissions, increase following the full commercialization of this product line.

Research and Development

The following table presents the research and development expense for the three months and nine months ended September 30, 2010 and 2009, respectively:

Three Months Ended September 30,			Nine Months Ended September 30,		
2010	2009	% Change	2010	2009	% Change
\$ 2,047,367	\$ 1,267,036	62%	\$ 5,086,078	\$ 3,441,625	48%

Research and development expenses consist primarily of salaries and other personnel-related expenses, laboratory supplies and other expenses related to the design, development, testing and enhancement of our products. Research and development expenses are expensed as they are incurred.

For the three months ended September 30, 2010, research and development expenses increased \$780,331, or 62%, as compared to the three months ended September 30, 2009. The increase resulted primarily from increases in salaries and wages, expendable equipment and materials, and facilities costs, which arose due to an increase in the head count of employees, consumables used in SmartChip development, and an expansion in space occupied in conjunction with the development of SmartChip products and services.

For the nine months ended September 30, 2010, research and development expenses increased \$1,644,453, or 48%, as compared to the nine months ended September 30, 2009. The increase resulted primarily from increases in salaries and wages, expendable equipment and materials, and facilities costs, which arose due to an increase in the head count of employees, consumables used in SmartChip development, and an expansion in space occupied in conjunction with the development of SmartChip products and services, offset by a reduction in depreciation expense, which was high in 2009 as depreciation was accelerated on research equipment and tools and molds assessed as having no future benefit.

We believe a substantial investment in research and development is essential in the long term to remain competitive and expand into additional markets. Accordingly, we expect our research and development expenses to remain at a high level of total expenditures as we grow.

General and Administrative

The following table presents the general and administrative expenses for the three months and nine months ended September 30, 2010 and 2009, respectively:

Three Months Ended September 30,			Nine Months Ended September 30,		
2010	2009	% Change	2010	2009	% Change
\$ 1,248,773	\$ 1,063,635	17%	\$ 3,452,727	\$ 3,170,017	9%

General and administrative expenses consist primarily of personnel costs for finance, human resources, business development, and general management, as well as professional fees, such as expenses for legal and accounting services.

For the three months ended September 30, 2010, general and administrative expenses increased \$185,138, or 17%, as compared to the three months ended September 30, 2009. The increase resulted primarily from increases in salaries and wages and non-cash stock compensation expense. These increases are due to higher personnel costs, mainly for senior management.

For the nine months ended September 30, 2010, general and administrative expenses increased \$282,710, or 9%, as compared to the nine months ended September 30, 2009. The increase resulted primarily from increases in salaries and wages, non-cash stock compensation expense and consulting fees. These increases are due to higher personnel costs, mainly for senior management and consultants, including investor relations. The increases were offset by the absence of severance costs incurred in 2009 related to the departure of the Company's former Chief Technology Officer and Chief Financial Officer in 2009.

We expect our general and administrative expenses to increase as the Company expands its staff, develops its infrastructure and incurs additional costs to support the growth in its business.

Interest Income

The following table presents the interest income for the three months and nine months ended September 30, 2010 and 2009, respectively:

Three Months Ended September 30,			Nine Months Ended September 30,		
2010	2009	% Change	2010	2009	% Change
\$ 7,965	\$ 5,336	49%	\$ 15,072	\$ 9,792	54%

The interest income is solely earned on cash balances held in interest-bearing bank accounts.

For the three months ended September 30, 2010, interest income increased \$2,629, or 49%, as compared to the three months ended September 30, 2009. For the nine months ended September 30, 2010, interest income increased \$5,280, or 54%, as compared to the nine months ended September 30, 2009. The increase in both periods was mainly due to an increase in the average cash invested in interest-bearing accounts, and a marginally higher interest rate.

Interest Expense

The following table presents the interest expense for the three months and nine months ended September 30, 2010 and 2009, respectively:

Three Months Ended September 30,			Nine Months Ended September 30,		
2010	2009	% Change	2010	2009	% Change
\$ 280	\$ 2,435	(89)%	\$ 1,954	\$ 7,195	(73)%

The interest expense for both periods was mostly incurred due to our capital lease obligations.

For the three months ended September 30, 2010, interest expense decreased \$2,155, or 89%, as compared to the three months ended September 30, 2009. For the nine months ended September 30, 2010, interest expense decreased \$5,241, or 73%, as compared to the nine months ended September 30, 2009. The decrease in both periods was mostly due to a reduction in the balances outstanding on our capital leases.

Unrealized Gain on Fair Value of Put Option, Net

The following table represents the revaluation of the put option on Redeemable Convertible Preference Shares ("RCPS") in our Malaysian subsidiary, WaferGen Biosystems (M) Sdn. Bhd. ("WGBM") for the three months and nine months ended September 30, 2010 and 2009, respectively:

Three Months Ended September 30,			Nine Months Ended September 30,		
2010	2009	% Change	2010	2009	% Change
\$ 124,473	\$ —	N/A	\$ 124,473	\$ —	N/A

The revaluation occurs due to the difference between the value of shares of common stock of the Company potentially issuable on the balance sheet date and the average of the share price for the ten previous days and amounted to \$124,473 for the three months ended September 30, 2010. The put option derivative liability of \$131,971 as at September 30, 2010, consists of an underlying liability of \$176,471, and an unrealized gain of \$44,498, which arises because the number of the Company's shares that would be issued on exercise of the put option is based on the average stock price for the previous ten days, whereas the derivative liability is based on the Company's stock price on the balance sheet date. Should the average stock price for the previous ten days and the Company's stock price on the balance sheet date be equal on December 31, 2010, or on the date of conversion if earlier, we would record a loss on fair value of put option of \$44,498.

Unrealized Gain (Loss) on Fair Value of Warrants, Net

The following table represents our unrealized gain (loss) on fair value of warrants, net for the three months and nine months ended September 30, 2010 and 2009, respectively:

Three Months Ended September 30,			Nine Months Ended September 30,		
2010	2009	% Change	2010	2009	% Change
\$ (1,665,950)	\$ (548,451)	204%	\$ 14,526	\$ (500,383)	N/A

FASB ASC 815-40 "Derivatives and Hedging – Contracts in Entity's own Equity" became effective January 1, 2009, and required that derivative revaluations be recognized whenever the Company incurs a liability associated with the issuance of an equity-based instrument. The instrument is revalued for each reporting period until the liability is settled.

The net loss from warrant derivative revaluations during the three months ended September 30, 2010, was \$1,665,950, compared \$548,451 during the three months ended September 30, 2009. The net gain from warrant derivative revaluations for the nine months ended September 30, 2010, was \$14,526, compared to a net loss of \$500,383 for the nine months ended September 30, 2009. These gains and losses are directly attributed to revaluations of warrants and result primarily from a net decrease or increase in the Company's stock price in the period. The warrant derivative liability at September 30, 2010, (and therefore the loss in the three months then ended) also increased due to a significant increase in the volatility of the Company's stock, as volatility is now based 50% on the historic volatility of the Company's own stock, as its shares have now been traded for longer than the expected remaining term of the warrants for 2,786,536 of the 3,864,937 warrants subject to revaluation. Also, there were only 2,468,170 warrants accounted for as derivative instruments as at September 30, 2009, and 3,513,349 as at June 30, 2010. By September 30, 2010, the number had risen to 3,864,937, and the exercise price of all of these warrants had decreased due to anti-dilution adjustments (including those resulting from the direct offering completed on July 7, 2010), so the total liability was correspondingly higher. With the present number of warrants, at our September 30, 2010, closing share price of \$1.53, an increase in our share price of \$0.10 would generate an unrealized loss in excess of \$280,000; conversely, a decrease in our share price of \$0.10 would generate an unrealized gain in excess of \$280,000. Should our share price increase by \$0.50, the sensitivity to changes in share price would increase even further. In addition, the volatility of a further 1,078,401 warrants will increase in the next three months, as by December 31, 2010, our shares will have been publicly traded for longer than the expected remaining term of these warrants. Depending on our closing stock price, this could create a revaluation loss in the three months ending December 31, 2010 of as much as \$500,000.

Miscellaneous Expense

The following table presents the miscellaneous expense for the three months and nine months ended September 30, 2010 and 2009, respectively:

Three Months Ended September 30,			Nine Months Ended September 30,		
2010	2009	% Change	2010	2009	% Change
\$ 62,703	\$ 12,169	415%	\$ 135,697	\$ 34,484	294%

For the three months ended September 30, 2010, miscellaneous expense increased \$50,534, or 415%, as compared to the three months ended September 30, 2009. For the nine months ended September 30, 2010, miscellaneous expense increased \$101,213, or 294%, as compared to the nine months ended September 30, 2009. Miscellaneous expense is the result of net foreign currency exchange losses in our Malaysian subsidiary, WGBM, mainly due to revaluation of the inter-company account at the balance sheet date. WGBM presently has a net liability on its dollar denominated balances, so as the value of the Malaysian Ringgit increases against the dollar, an expense is recorded.

Headcount

Our consolidated headcount as of November 10, 2010, comprised 53 regular employees, 51 of whom were employed full-time, compared to 35 regular employees as of December 31, 2009, all of whom were employed full-time.

Liquidity and Capital Resources

From inception through September 30, 2010, the Company raised a total of \$3,665,991 from the issuance of notes payable, \$66,037 from the sale of Series A Preferred Stock, \$1,559,942 from the sale of Series B Preferred Stock, \$31,207,845, net of offering costs, from the sale of common stock and warrants, and \$3,789,953, net of offering costs, from the sale of Redeemable Convertible Preference Shares in its Malaysian subsidiary. As of September 30, 2010, the Company had \$4,429,455 in cash and cash equivalents, and working capital of \$3,894,293.

Net Cash Used in Operating Activities

The Company experienced negative cash flow from operating activities for the nine months ended September 30, 2010 and 2009, in the amounts of \$9,155,510 and \$5,269,610, respectively. The cash used in operating activities in the nine months ended September 30, 2010, was due to cash used to fund a net loss of \$9,029,532, adjusted for non-cash expenses related to depreciation and amortization, stock-based compensation, unrealized gain on fair value of warrants, exchange loss on issuance of RCPS, unrealized gain on fair value of put option and inventory provision totaling \$1,131,080, and cash used by a change in working capital of \$1,257,058. The cash used in operating activities in the nine months ended September 30, 2009, was due to cash used to fund a net loss of \$7,613,198, adjusted for non-cash expenses related to depreciation and amortization, stock-based compensation, unrealized loss on fair value of warrants, exchange loss, inventory provision and capital equipment expensed of \$1,693,748, and cash provided from a change in working capital of \$649,840. The increase in cash used in the nine months ended September 30, 2010, compared to 2009 was driven primarily by the increase in the net operating loss from \$7,080,928 to \$9,045,952 and an increase in current assets (excluding cash) from \$437,537 to \$1,445,821.

Net Cash Used in Investing Activities

The Company used \$755,434 in the nine months ended September 30, 2010, and \$180,242 in the nine months ended September 30, 2009, to acquire property and equipment. Equipment which cost \$123,998, that was capitalized, but not depreciated, at March 31, 2009, was re-assessed and expensed as research and development in the three months ended June 30, 2009.

Net Cash Provided by Financing Activities

Cash provided by financing activities in the nine months ended September 30, 2010, was \$8,179,254. In January 2010, the Company received net cash of \$47,901 (after offering expenses of \$65,874 and a selling agent commission of \$9,225) from the final tranche of the sale in a private placement offering of 82,000 shares of common stock and warrants to purchase 20,500 shares of common stock with an exercise price of \$2.50 per share. In July 2010, the Company received net cash of \$6,823,472 (after offering expenses of \$134,328 and a selling agent commission of \$244,200) from the final tranche of the sale in a private placement offering of 6,001,667 shares of common stock and warrants to purchase 3,000,830 shares of common stock with an exercise price of \$1.55 per share. In March 2010, the Company's Malaysian subsidiary received \$238,066, net of issuance costs and a currency exchange loss, in exchange for the issuance of 111,111 Series B RCPS, and in May 2010, the Company's Malaysian subsidiary received \$495,000, net of issuance costs, in exchange for the issuance of 222,222 Series B RCPS. The Company also received \$33,976 from the exercise of stock options in March and May 2010 and \$562,500 from the exercise of warrants in April 2010. This was offset by payments of \$18,461 on capital lease obligations and \$3,200 in costs for issuing common stock in exchange for RCPS.

Cash provided by financing activities in the nine months ended September 30, 2009, was \$6,900,155. In June 2009, the Company received net cash of \$3,764,169 (after offering expenses of \$206,825 and a selling agent commission of \$160,256) from the sale in a private placement offering of 3,305,000 shares of common stock and warrants to purchase 991,500 shares of common stock with an exercise price of \$2.00 per share. In August 2009, the Company received further net cash of \$1,956,695 (after offering expenses of \$24,205 and a selling agent commission of \$149,100) from the sale of an additional 1,704,000 shares of common stock and warrants to purchase 511,200 shares of common stock with an exercise price of \$2.00 per share. In addition, in June 2009, the Company received \$100,168 when 71,041 warrants were exercised at a price of \$1.41. Also, in June 2009, the Company's Malaysian subsidiary received \$212,578, net of issuance costs and a currency exchange loss, in exchange for the issuance of 111,111 Series B RCPS, and in September 2009, WGBM received further net cash of \$904,309, net of issuance costs, in exchange for the issuance of a further 410,279 RCPS (See Note 6 to the Condensed Consolidated Financial Statements in Part I, Item 1 for more information related to RCPS). Further, in August 2009, the Company received \$2 from the exercise of stock options, for combined net cash proceeds of \$6,937,921. This was offset by repayments on capital leases for equipment of \$37,766.

Availability of Additional Funds

We believe funds available at September 30, 2010, along with our revenue, will fund our operations through January 2011. We expect we will need to raise further capital, through the entry into a debt facility, the sale of additional securities or otherwise, to support the Company's future operations. Our operating needs include the planned costs to operate our business, including amounts required to fund working capital and capital expenditures. At the present time, we have commitments for capital expenditures totaling approximately \$500,000, all for equipment to be used for manufacturing SmartChip products. Our future capital requirements and the adequacy of our available funds will depend on many factors, including our ability to successfully commercialize our SmartChip products and services, competing technological and market developments, and the need to enter into collaborations with other companies or acquire other companies or technologies to enhance or complement our product and service offerings.

While we believe we have sufficient cash to fund our operating, investing, and financing activities in the near term, we expect that additional working capital will be needed to fund the commercialization and manufacture of our SmartChip products and services which are currently foreseen by management. We may be unable to raise sufficient additional capital when we need it or to raise capital on favorable terms. The conversion of RCPS in our subsidiary, and the sale of equity or convertible debt securities in the future, may be dilutive to our stockholders, and debt financing arrangements may require us to pledge certain assets and enter into covenants that could restrict certain business activities or our ability to incur further indebtedness, and may contain other terms that are not favorable to us or our stockholders. If we are unable to obtain adequate funds on reasonable terms, we may be required to curtail operations significantly or to obtain funds by entering into financing agreements on unattractive terms.

Principles of Consolidation

The consolidated financial statements of WaferGen Bio-systems, Inc. include the accounts of Wafergen, Inc. and WaferGen Biosystems (M) Sdn. Bhd., the Company's Malaysian subsidiary. All significant inter-company transactions and balances are eliminated in consolidation.

Critical Accounting Policies and Estimates

Deferred Tax Valuation Allowance

We believe sufficient uncertainties exist regarding the future realization of deferred tax assets, and, accordingly, a full valuation allowance is required, amounting to approximately \$11,769,000 at December 31, 2009. In subsequent periods, if and when we generate pre-tax income, a tax expense will not be recorded to the extent that the remaining valuation allowance can be used to offset that expense. Once a consistent pattern of pre-tax income is established or other events occur that indicate that the deferred tax assets will be realized, additional portions or all of the remaining valuation allowance will be reversed back to income. Should we generate pre-tax losses in subsequent periods, a tax benefit will not be recorded and the valuation allowance will be increased.

Inventory Valuation

Inventories are stated at the lower of cost and market value. We perform a detailed assessment of inventory at each balance sheet date, which includes, among other factors, a review of demand requirements and product lifecycle. Inventory valuation provisions are assessed on the amount of inventory, on a line by line basis, for which quantities on hand exceed one year's projected demand. As a result of this assessment, we write down inventory for estimated obsolescence or unmarketable inventory equal to the difference between the cost of the inventory and the estimated liquidation value based upon assumptions about future demand and market conditions. If actual demand and market conditions are less favorable than those projected by management, additional inventory write-downs may be required.

Warranty Reserve

Our standard warranty agreement is one year from shipment for SmartChip cyclers and nano-dispensers. We accrue for anticipated warranty costs upon shipment of these products. Our warranty reserve is based on management's judgment regarding anticipated rates of warranty claims and associated repair costs, and we update our assessment quarterly.

Stock-Based Compensation

We measure the fair value of all stock option and restricted stock awards to employees on the grant date, and record the fair value of these awards, net of estimated forfeitures, as compensation expense over the service period. The fair value of options is estimated using the Black-Scholes valuation model, and of restricted stock is based on the Company's closing share price on the measurement date. Amounts expensed with respect to options were \$373,354 and \$360,069, net of estimated annual forfeitures of 6% and 5%, respectively, for the nine months ended September 30, 2010 and 2009, respectively. These sums exclude the compensation expense for restricted stock awards, for which the fair value is based on our closing stock price on the dates on which performance of services is recognized.

The weighted-average grant date fair value of options awarded in the nine months ended September 30, 2010 and 2009, was \$0.69 and \$0.57, respectively. These fair values were estimated using the following assumptions:

	Nine Months Ended September 30,	
	2010	2009
Risk-free interest rate	1.40% - 2.40%	1.31% - 2.72%
Expected term	4.75 Years	4.75 Years
Expected volatility	42.40% - 43.01%	40.04% - 41.99%
Dividend yield	0%	0%

Risk-Free Interest Rate. This is the United States Treasury rate for the day of the grant having a term equal to the expected term of the option. An increase in the risk-free interest rate will increase the fair value and the related compensation expense.

Expected Term. This is the period of time over which the award is expected to remain outstanding and is based on management's estimate, taking into consideration the vesting terms, the contractual life, and historical experience. An increase in the expected term will increase the fair value and the related compensation expense.

Expected Volatility. This is a measure of the amount by which the stock price has fluctuated or is expected to fluctuate. Since the Company's stock has not been traded for as long as the expected term of the options, the Company uses a weighted-average of the historic volatility of four comparable companies over the retrospective period corresponding to the expected life of the Company's own options on the grant date. Extra weighting is attached to those companies most similar in terms of size and business activity. An increase in the expected volatility will increase the fair value and the related compensation expense.

Dividend Yield. The Company has not made any dividend payments nor does it have plans to pay dividends in the foreseeable future. An increase in the dividend yield will decrease the fair value and the related compensation expense.

Forfeiture Rate. This is a measure of the amount of awards that are expected to not vest. An increase in the estimated forfeiture rate will decrease the related compensation expense.

Warrant Derivative Liabilities

We evaluate our warrants to determine whether they are indexed to our common stock, and if it is determined that they are not, they are treated as derivatives. We have determined that all of the warrants that we have issued which contain an anti-dilution provision are not indexed to our stock. We measure the fair value of these warrants at the dates of issuance, and at each period end, to determine the associated derivative liability.

At these measurement dates, we estimate the fair values of these securities using a Monte Carlo Simulation approach, using critical assumptions provided by management reflecting conditions at the valuation date. The fair value of warrants ranged from \$0.43 to \$0.91 at September 30, 2010, and from \$0.52 to \$0.97 at December 31, 2009.

Fair values at measurement dates during the nine months ended September 30, 2010 and 2009, were estimated using the following assumptions:

	Nine Months Ended September 30,	
	2010	2009
Risk-free interest rate	0.47% - 2.16%	1.16% - 2.20%
Expected remaining term	2.11 - 4.00 Years	2.91 - 4.00 Years
Expected volatility	43.83% - 92.67%	43.26% - 49.78%
Dividend yield	0%	0%
Private Placement discount to stock price	10% - 15%	15%

Risk-Free Interest Rate. This is the United States Treasury rate for the measurement date having a term equal to the expected remaining term of the warrant. An increase in the risk-free interest rate will increase the fair value and the associated derivative liability.

Expected Remaining Term. This is the period of time over which the warrant is expected to remain outstanding and is based on management's estimate, taking into consideration the remaining contractual life, and historical experience. An increase in the expected remaining term will increase the fair value and the associated derivative liability.

Expected Volatility. This is a measure of the amount by which the stock price has fluctuated or is expected to fluctuate. To the extent that Company's stock has not been traded for as long as the expected remaining term of the warrants, the Company uses a weighted-average of the historic volatility of four comparable companies over the retrospective period corresponding to the expected remaining term of the warrants on the measurement date. Extra weighting is attached to those companies most similar in terms of size and business activity. To the extent that Company's stock has been traded for longer expected remaining term of the warrants, this weighted average is used to determine 50% of the volatility, with the Company's own historic volatility used to determine the remaining 50%. An increase in the expected volatility will increase the fair value and the associated derivative liability.

Dividend Yield. The Company has not made any dividend payments nor does it have plans to pay dividends in the foreseeable future. An increase in the dividend yield will decrease the fair value and the associated derivative liability.

Private Placement Discount to Stock Price. This is the percentage amount by which future stock offerings are expected to be priced at a discount from the trading price of our common stock at the offering closing dates, and is based on management's estimate, taking into consideration future expectations and historical experience. An increase in the expected discount to stock price will increase the fair value and the associated derivative liability.

Recent Accounting Pronouncements

See the "Recent Accounting Pronouncements" in Note 2 to the Condensed Consolidated Financial Statements in Part I, Item 1 for information related to the adoption of new accounting standards in the first quarter of 2010, none of which had a material impact on our condensed consolidated financial statements, and the future adoption of recently issued accounting pronouncements, which we do not expect will have a material impact on our condensed consolidated financial statements.

Item 4. Controls and Procedures

Management's Report on Internal Control over Financial Reporting

As of the end of the period covered by this Quarterly Report, management performed, with the participation of our principal executive officer and principal financial officer, an evaluation of the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Securities and Exchange Act of 1934 (the "Exchange Act"). Our disclosure controls and procedures are designed to ensure that information required to be disclosed in the report we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's forms, and that such information is accumulated and communicated to our management including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosures. Based on the evaluation and the identification of the material weaknesses in internal control over financial reporting described below, our principal executive officer and principal financial officer concluded that, as of September 30, 2010, the Company's disclosure controls and procedures were not effective.

We identified the following material weaknesses in our internal controls over financial reporting as of September 30, 2010:

1. We have not adequately divided, or compensated for, incompatible functions among personnel to reduce the risk that a potential material misstatement of the financial statements would occur without being prevented or detected;
2. We have insufficient documentation of our information technology general control environment; and
3. We rely on our external auditors to review and adjust the Company's accounting and related financial disclosures regarding the Redeemable Convertible Preference Shares in our subsidiary.

The first two material weaknesses described above were previously identified in Item 9A(T) in our Amended Report on Form 10K/A for the year ended December 31, 2009. Our Form 10K/A for the year ended December 31, 2009, also identified another material weakness with respect to our ability to design or otherwise maintain adequate controls to ensure that we adopt new accounting policies with respect to non-routine matters, and this material weakness has been remediated.

Changes in Internal Control over Financial Reporting

As reported in the quarter ended June 30, 2010, we introduced controls to ensure we adopt new accounting policies in a timely manner, and with respect to the adoption of ASC 815-40 in particular, we have provided additional technical training to our accounting personnel on the appropriate accounting requirements for convertible securities and the valuation models and processes required with respect to the accounting of convertible securities, and we have engaged outside experts to assist the Company with the periodic valuations of any such convertible securities. These control improvements have been operating effectively for a sufficient period to remediate the material weakness previously identified by management and described above regarding the design and maintenance of adequate controls to ensure that we adopt new accounting policies with respect to non-routine matters.

Other than the foregoing changes, there was no other material change in the Company's internal control over financial reporting that occurred during the quarter ended September 30, 2010, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

From time to time we may be involved in claims arising in connection with our business. Although there can be no assurance as to the ultimate outcome, we generally have denied, or believe we have a meritorious defense and will deny, liability in all cases pending against the Company, including the matters described below, and we intend to defend vigorously each such case. Based on information currently available, we believe that the amount, or range, of reasonably possible losses in connection with the actions against us, including the matters described below, in excess of established reserves, in the aggregate, not to be material to our consolidated financial condition or cash flows. However, losses may be material to the Company's operating results for any particular future period, depending on the level of income for such period.

Vida Communication v. WaferGen. In July 2009, an action entitled Vida Communication, Inc. ("Vida") v. WaferGen Bio-systems, Inc. was filed in the San Francisco Superior Court. Vida, a company that had been providing investor relations services, sued the Company for a total of \$165,000. The plaintiff and Company have agreed to an out-of-court settlement, for a sum that was accrued in full at September 30, 2010.

In addition, we anticipate that we will expend significant financial and managerial resources to defend our intellectual property rights in the future if we believe that our rights have been infringed. We also anticipate that we will expend significant financial and managerial resources to defend against claims that our products and services infringe upon the intellectual property rights of third parties.

Item 1A. Risk Factors

There are no material changes from the risk factors set forth in Part I, Item 1A, in our Annual Report on Form 10-K for the year ended December 31, 2009, except that we reported that we had not completed the development of a SmartChip product that could be commercially sold, and that SmartSlide™ was the only commercialized line of products we had developed. On August 5, 2010, we announced the commercial launch of our SmartChip products.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On September 16, 2010, the Company issued 458,483 shares of its common stock to Expedient Equity Ventures Sdn. Bhd. ("EEV") pursuant to EEV's notice, dated August 17, 2010, of exercise of its option to exchange its holdings of 222,222 shares of Series B Redeemable Convertible Preference Shares ("Series B RCPS") of the Company's Malaysian subsidiary, WaferGen Biosystems (M) Sdn. Bhd. ("WGBM") for shares of common stock of the Company. On October 29, 2010, the Company issued 328,579 shares of its common stock to Kumpulan Modal Perdana Sdn. Bhd. ("KMP") pursuant to KMP's notice, dated September 29, 2010, of exercise of its option to exchange its holdings of 188,057 shares of Series B RCPS of WGBM for shares of common stock of the Company.

Dear Don:

Welcome onboard! We are pleased to have you join us. This letter agreement (the "Agreement") sets forth the basic terms and conditions of your employment with WaferGen Bio-Systems, Inc. (the "Company"). If you accept our offer, your first day of employment with the Company will be September 13, 2010.

1. **Duties.** You will be joining the Company as Chief Financial Officer reporting to the Alnoor Shivji, Chairman & Chief Executive Officer. You agree to devote your full business time and energies to the business and affairs of the Company. Except upon the prior written consent of the Chief Executive Officer, you will not, during your employment with the Company, (i) accept any other employment, or (ii) engage, directly or indirectly, in any other business activity (whether or not pursued for pecuniary advantage) that might interfere with your duties and responsibilities as a Company employee or create a conflict of interest with the Company.

2. **Proprietary Information Agreement.** As a condition of employment, you are required to sign the enclosed Proprietary Information and Inventions Agreement (the "Proprietary Information and Inventions Agreement"), which is incorporated into this Agreement by reference.

3. **Salary.** Your initial annual gross base salary will be \$225,000, payable semi-monthly on the Company's regular payroll schedule, which covers all hours worked. Your base salary will be reviewed from time to time in accordance with the Company's established procedures for adjusting salaries for similarly-situated employees and may be adjusted in the sole discretion of the Company.

4. **Annual Performance Bonus.** You are also eligible to earn an annual performance bonus based on achievement of individual and Company objectives determined by the Board and the CEO. For fiscal year 2010, your annual target performance bonus amount is equivalent to 40% of your then-current base salary, although this target bonus amount will be pro-rated based on your partial year of service. The amount of any payment will be dependent upon actual performance as determined by the Board of Directors and the CEO. You must be employed by the Company on the date any bonus is to be paid, in order to earn that payment.

5. **Employee Benefits.** You will be entitled to an annual vacation of two weeks per calendar year, pro rated for any partial year during your employment with the Company. During any vacation period, you will continue to receive your salary, compensation, and benefits, without interruption. You shall be eligible to participate in the benefits made generally available by the Company to similarly-situated employees, in accordance with the benefit plans established by the Company, and as may be amended from time to time in the Company's sole discretion.

The Company shall reimburse you for reasonable business expenses incurred in the performance of your duties hereunder in accordance with the Company's expense reimbursement guidelines, as may be amended from time to time.

6. **Options.** Upon your first day of employment with the Company, you will receive a non-qualified stock option (the "Option") to purchase 200,000 shares of the Company's Common Stock. The Option will have an exercise price per share equal to the closing price of the Company's common stock on the OTC Bulletin Board on your first day of employment with the Company. The Option will vest over a four-year period, with 25% of the shares subject to the Option vesting on the first anniversary of the date of grant, and the remaining 75% shares subject to the Option vesting monthly over the remaining three years of the four-year vesting period. The Option shall in all respects be subject to the terms and provisions set forth in the

Company's current stock incentive plan and standard form of option agreement. Your entitlement to the Option is conditioned upon your signing of the stock option agreement.

7. **At Will Employment.** Your employment with the Company is at the Company's sole discretion (in legal terms, this means that your employment is "at-will"). In other words, either you or the Company can terminate your employment at any time for any or no reason, with or without notice. The at-will nature of this employment relationship is not subject to change or modification of any kind except if in writing and signed by you and an authorized representative of the Company's Board of Directors.

8. **Arbitration.** As a further condition of employment, you are required to sign the Arbitration Agreement, which is attached hereto as Exhibit A.

9. **Taxes.** Anything to the contrary notwithstanding, all payments made by the Company hereunder to you or your estate or beneficiaries will be paid less applicable tax withholdings and any other withholdings required by law or authorized by you. Notwithstanding any other provision of this Agreement whatsoever, the Company, in its sole discretion, shall have the right to provide for the application and effects of Section 409A of the Internal Revenue Code (relating to deferred compensation arrangements) and any related administrative guidance issued by the Internal Revenue Service. The Company shall have the authority to delay the payment of any amounts under this Agreement to the extent it deems necessary or appropriate to comply with Section 409A(a)(2)(B)(i) of the Code; in such event, the payment(s) at issue may not be made before the date which is six (6) months after the date of your separation from service.

10. **Immigration Matters.** For purposes of federal immigration law, you will be required to provide to the Company documentary evidence of your identity and eligibility for employment in the United States. Such documentation must be provided to us within three (3) business days of your date of hire, or our employment relationship with you may be terminated and this agreement rescinded.

11. **No Conflict.** You hereby represent to the Company that, to the best of your knowledge, your signing this Agreement, the issuance of the Option to you, and your employment with the Company do not violate any agreement you have with your current employer or any former employer or other third party.

12. **Integrated Agreement.** Please note that this Agreement (including the Proprietary Information and Inventions Agreement and Arbitration Agreement) supersedes any prior agreements, representations or promises of any kind, whether written, oral, express or implied between you and the Company with respect to the subject matters herein. It constitutes the full, complete and exclusive agreement between you and the Company with respect to the subject matters in this Agreement.

13. **Miscellaneous.** No provision of this Agreement may be amended or waived unless such amendment or waiver is agreed to in writing by you and the CEO (on behalf of the Company). No waiver by you or the Company of the breach of any condition or provision of this Agreement will be deemed a waiver of a similar or dissimilar provision or condition at the same or any prior or subsequent time. In the event any portion of this Agreement is determined to be invalid or unenforceable for any reason, the remaining portions shall be unaffected thereby and will remain in full force and effect to the fullest extent permitted by law.

This offer is contingent upon satisfactory results from the Company's due diligence review of the information and references you have provided. In order to confirm your agreement with and acceptance of these terms, please sign one copy of this letter and return it to me within **3 days**. (You may fax **ONLY** the signature page to: 510.252.0357) The other copy is for your records. Do not hesitate to contact me if you have any questions.

Very truly yours,

WaferGen Bio-Systems, Inc.

By: **Alnoor Shivji**
Title: **Chairman and CEO**

I agree to the terms of employment set forth in this Agreement.

EXHIBIT A

Arbitration Agreement

WaferGen Bio-systems, Inc. (the "Company") and Donald D. Huffman (the "Employee") hereby agree, effective as of September 3, 2010, that, to the fullest extent permitted by law, any and all claims or controversies between them (or between the Employee and any present or former officer, director, agent, or employee of the Company or any parent, subsidiary, or other entity affiliated with the Company) relating in any manner to the employment or the termination of employment of the Employee shall be resolved by final and binding arbitration. Except as specifically provided herein, any arbitration proceeding shall be conducted by the Judicial Arbitration and Mediation Services ("JAMS") under the JAMS Employment Arbitration Rules and Procedures then in effect (the "JAMS Rules").

Claims subject to arbitration shall include, without limitation: contract claims, tort claims, claims relating to compensation, as well as claims based on any federal, state, or local law, statute, or regulation, including but not limited to any claims arising under Title VII of the Civil Rights Act of 1964, the Age Discrimination in Employment Act, the Americans with Disabilities Act, the California Fair Employment and Housing Act, equity purchases or repurchases, and any and all claims for any other compensation, wages and/or benefits of any type, including as such terms are used in Employee's offer letter with the Company. However, claims for unemployment benefits, workers' compensation claims, and claims under the National Labor Relations Act shall not be subject to arbitration.

A neutral and impartial arbitrator shall be chosen by mutual agreement of the parties; however, if the parties are unable to agree upon an arbitrator within a reasonable period of time, then a neutral and impartial arbitrator shall be appointed in accordance with the arbitrator nomination and selection procedure set forth in the JAMS Rules. The arbitrator shall prepare a written decision containing the essential findings and conclusions on which the award is based so as to ensure meaningful judicial review of the decision. The arbitrator shall apply the same substantive law, with the same statutes of limitations and same remedies, that would apply if the claims were brought in a court of law.

Either the Company or the Employee may bring an action in court to compel arbitration under this Agreement and to enforce an arbitration award. Otherwise, neither party shall initiate or prosecute any lawsuit of claim in any way related to any arbitrable claim, including without limitation any claim as to the making, existence, validity, or enforceability of the agreement to arbitrate. Nothing in this Agreement, however, precludes a party from filing an administrative charge before an agency that has jurisdiction over an arbitrable claim. Moreover, nothing in this Agreement prohibits either party from seeking provisional relief pursuant to Section 1281.8 of the California Code of Civil Procedure.

All arbitration hearings under this Agreement shall be conducted in Fremont, California, unless otherwise agreed by the parties. The arbitration provisions of this Arbitration Agreement shall be governed by the Federal Arbitration Act. In all other respects, this Arbitration Agreement shall be construed in accordance with the laws of the State of California, without reference to conflicts of law principles.

Each party shall pay its own costs and attorney's fees, unless a party prevails on a statutory claim, and the statute provides that the prevailing party is entitled to payment of its attorneys' fees. In that case, the arbitrator may award reasonable attorneys' fees and costs to the prevailing party as provided by law.

This Agreement does not alter the Employee's at-will employment status. Accordingly, the Employee understands that the Company may terminate the Employee's employment, as well as discipline or demote the Employee, at any time, with or without prior notice, and with or without cause. The parties also understand that the Employee is free to leave the Company at any time and for any reason, with or without cause and with or without advance notice.

If any provision of this Agreement shall be held by a court or the arbitrator to be invalid, unenforceable, or void, such provision shall be enforced to the fullest extent permitted by law, and the remainder of this Agreement shall remain in full force and effect. The parties' obligations under this Agreement shall survive the termination of the Employee's employment with the Company and the expiration of this Agreement.

The Company and the Employee understand and agree that this Arbitration Agreement contains a full and complete statement of any agreements and understandings regarding resolution of disputes between the parties, and the parties agree that this Arbitration Agreement supersedes all previous agreements, whether written or oral, express or implied, relating to the

subjects covered in this agreement. The parties also agree that the terms of this Arbitration Agreement cannot be revoked or modified except in a written document signed by both the Employee and an officer of the Company.

THE PARTIES ALSO UNDERSTAND AND AGREE THAT THIS AGREEMENT CONSTITUTES A WAIVER OF THEIR RIGHT TO A TRIAL BY JURY OF ANY CLAIMS OR CONTROVERSIES COVERED BY THIS AGREEMENT. THE PARTIES AGREE THAT NONE OF THOSE CLAIMS OR CONTROVERSIES SHALL BE RESOLVED BY A JURY TRIAL.

THE PARTIES FURTHER ACKNOWLEDGE THAT THEY HAVE BEEN GIVEN THE OPPORTUNITY TO DISCUSS THIS AGREEMENT WITH THEIR LEGAL COUNSEL AND HAVE AVAILED THEMSELVES OF THAT OPPORTUNITY TO THE EXTENT THEY WISH TO DO SO.

WAFERGEN BIO-SYSTEMS, INC.

CERTIFICATION

I, Alnoor Shivji, certify that:

1. I have reviewed this quarterly report on Form 10-Q of WaferGen Bio-systems, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting;
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
