SAFE HARBOR / FORWARD LOOKING STATEMENT

This investor presentation contains forward-looking information and other forward-looking statements within the meaning of applicable U.S. securities laws.

Forward-looking statements involve significant known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of Luvu Brands, Inc., to be materially different from any future plans, goals, targets, objectives, results, performance or achievements expressed or implied by such forward-looking statements. As a result, such forward-looking statements should not be read as guarantees of future performance or results, should not be unduly relied upon, and will not necessarily be accurate indications of whether or not such results will be achieved. Such matters involve risks and uncertainties that may cause actual results to differ materially, including the following: changes in economic conditions; general competitive factors; acceptance of the Company's products in the market; the Company's success in obtaining new customers; the Company's success in product development; the Company's ability to execute its business model and strategic plans; the Company's success in integrating acquired entities and assets, and all the risks and related information described from time to time in the Company's filings with the Securities and Exchange Commission ("SEC"), including the financial statements and related information contained in the Company's Annual Report on Form 10-K and interim Quarterly Reports on Form 10-Q.

NON-GAAP FINANCIAL MEASURE

Adjusted EBITDA represents net income (loss) before interest income, interest expense, income taxes, depreciation, amortization, loss on disposal of fixed assets, and stock-based compensation expense. We have excluded the non-cash expense, stock-based compensation, as it does not reflect the cash-based operations of the Company. Adjusted EBITDA is a non-GAAP financial measure which is not required by or defined under GAAP (Generally Accepted Accounting Principles). The presentation of this financial measure is not intended to be considered in isolation or as a substitute for the financial measures prepared and presented in accordance with GAAP, including the net income of the Company or net cash used in operating activities. Management recognizes that non-GAAP financial measures have limitations in that they do not reflect all of the items associated with the Company's net income or net loss as determined in accordance with GAAP, and are not a substitute for or a measure of the Company's profitability or net earnings. Adjusted EBITDA is presented because we believe it is useful to investors as a measure of comparative operating performance and liquidity, and because it is less susceptible to variances in actual performance resulting from depreciation and amortization and non-cash charges for amortization of debt issuance costs and stock-based compensation expense.

LUVU Brands At a Glance

Growth Strategy

Growth Strategy - **LIBERATOR**[®]

To continually grow as a brand category in Sexual Wellness and Erotic Luxury:

- Expanded retail distribution, taking full advantage of our novel vacuum compressed Point-of-Purchase packaging (with a discrete flip door) that allows Liberator shapes and sex furniture to fit onto any retail shelf.
- Our packaging is easily customizable for mass market, drug and international retailers allowing for quick expansion into these markets.
- Continue to expand our collection with luxury furniture-like designs, lower cost products for mass market, and Liberator branded pleasure objects.

Growth Strategy -

- **Jaxx Nimbus** – Continue to capitalize on the growing popularity of our spandex beanbags.
- **Jaxx Beanbags** – Promote the favorable “price to value” of our US made beanbag collection.
- **Jaxx Kids** – Continue to promote our beanbags, loveseats, sofas, and game chairs in the mass market, retail and school market.
- **Zipline Sofas & Alon Daybeds** – Recently launched the first of many designs to come in compressed packaging with flat-packed wood bases. Sofas and daybeds already exceed \$1.3 million in trailing twelve month sales
- **Jaxx Outdoors** - Continue to build this product line through our growing relationship with Room and Board and others. Additional Sunbrella styles will be introduced in Spring 2019.

Growth Strategy - *Avana*

This collection of comfort and assistive products has been growing at an 88% CAGR for the last 3 years with trailing twelve month sales of \$3.2 million.

- The Kind Bed collection exceeds \$500,000 in annual revenue, soon to be launched in mass market.
- Our inclined-bed therapy mattress elevator and top-of-bed wedges have grown 109% this past year and show no signs of slowing.
- New designs for both collections will be launched in third quarter fiscal 2019.

Conclusion

- We are a manufacturing, marketing and invention company with diverse distribution across three unique brands.
- Our ability to monetize new products with minimal investment is extraordinary.
- Large upside for continued growth without additional capital equipment.
- At inflection point; gaining scale and entering a profitable growth phase.
