File No. 001-33446

Dear Mr. Grimes:

We have reviewed your filing and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter within ten business days by amending your filing, by providing the requested information, or by advising us when you will provide the requested response. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your filing and the information you provide in response to these comments, we may have additional comments.

Form 10-K for the Year Ended December 31, 2009

Management's Discussion and Analysis of Financial Condition and Results of Operations, page 19

1. We note that you have not included in your Form 10-K the quantitative information that you provided on page 26 of Form S-1/A filed June 6, 2007, where you quantify in a chart the volumes sold and prices of your products. Revise your filing to include this information for the periods presented in your financial statements, as we believe it is necessary for investors to understand your business. This information should also be provided in interim quarterly filings.
2. You state in Note 7 of your financial statements that you received a waiver with regard to non-compliance with your debt covenants for your line of credit. Revise your MD&A disclosure to explain in detail your debt covenants for both your line of credit and your long-term debt, explaining when you were not in compliance with these covenants, the terms of the waivers you received, and the circumstances that would now trigger your debt to become due and payable as a result of non-compliance. This information should be updated quarterly.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes the information the Securities Exchange Act of 1934 and all applicable Exchange Act rules require. Since the company and its management are in possession of all facts relating to a company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.

In responding to our comments, please provide a written statement from the company acknowledging that:

- the company is responsible for the adequacy and accuracy of the disclosure in the filing;
- staff comments or changes to disclosure in response to staff comments do not foreclose the Commission from taking any action with respect to the filing; and
- the company may not assert staff comments as a defense in any proceeding initiated by the Commission or any person under the federal securities laws of the United States.
