Notes to Financial Statements

Note 1 - Summary of Significant Accounting Policies

**Nature of Operations and Basis of Presentation**

Murray Securities, Inc. (the "Company") was incorporated under the laws of the State of Texas on October 17, 2006. The Company is a registered broker-dealer in securities registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company operates under SEC Rule 15c3-3(k)(2)(ii), whereby a clearing broker-dealer performs clearing functions for all broker-dealer transactions with customers and brokers and dealers on a fully disclosed basis or the Company promptly transmits all customer funds and securities. The Company also has agreements for clearing functions with other various mutual funds and variable annuity brokers.

The Company carries no customer cash accounts, margin accounts or credit balances and promptly transmits all customer funds and delivers all securities received in connection with its activities to its clearing broker.

**Use of Estimates**

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with generally accepted accounting principles. Actual results could differ from those estimates.

**Revenue Recognition**

Revenues are recognized when control of the promised services is transferred to customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those services. Revenues are analyzed to determine whether the Company is the principal (i.e., reports revenues on a gross basis) or agent (i.e., reports revenues on a net basis) in the contract. Principal or agent designations depend primarily on the control an entity has over the product or service before control is transferred to a customer. The indicators of which party exercises control include primary responsibility over performance obligations, inventory risk before the good or service is transferred and discretion in establishing the price.

**Commission Revenue**

Commission revenue represents sales commissions generated by advisors for their clients' purchases and sales of securities on exchanges and over-the-counter, as well as purchases of other investment products. The Company views the selling, distribution and marketing, or any combination thereof, of investment products to such clients as a single performance obligation to the product sponsors. The Company is the principal for commission revenue, as it is responsible for the execution of the client's purchases and sales, and maintains relationships with the product sponsors. Advisors assist the Company in performing its obligations. Accordingly, total commission revenues are reported on a gross basis.

The Company generates two types of commission revenue: sales-based commission revenue that is recognized at the point of sale on the trade date and trailing commission revenue that is recognized over time as earned. Sales-based commission revenue varies by investment product and is based on a percentage of an investment product's current market value at the time of purchase. Trailing commission revenue is generally based on a percentage of the current market value of clients' investment holdings in trail-eligible assets, and is recognized over the period during which services, such as on-going support, are performed. As trailing commission revenue is based on the market value of clients' investment holdings, this variable consideration is constrained until the market value is determinable.

MURRAY SECURITIES, INC.  
Notes to Financial Statements  
September 30, 2022

Note 1 - Summary of Significant Accounting Policies, continued

**Advisory Revenue**

Advisory revenue represents fees charged to advisors' clients' accounts on the respective advisory platform. The Company provides ongoing investment advice as well as brokerage and execution services on transactions and performs administrative services for these accounts. This series of performance obligations transfers control of the services to the client over time as the services are performed. This revenue is recognized ratably over time to match the continued delivery of the performance obligations to the client over the life of the contract. The advisory revenue generated from the respective advisory platform is based on a percentage of the market value of the eligible assets in the clients' advisory accounts. As such, the consideration for this revenue is variable and an estimate of the variable consideration is constrained due to dependence on unpredictable market impacts on client portfolio values. The constraint is removed once the portfolio value can be determined. The Company provides advisory services to clients on its respective advisory platform through the advisor. The Company is the principal in these arrangements and recognizes advisory revenue on a gross basis, as the Company is responsible for satisfying the performance obligations and has control over determining the fees. Advisors assist the Company in performing its obligations. Fees are billed on a quarterly basis based on the account's value at the end of the quarter. Advance payments, if received, are deferred and recognized during the periods for which services are provided.

**Distribution Fees**

*Mutual Funds, Insurance and Annuity Products*

The Company earns revenue for selling mutual funds, fixed variable annuities and insurance products. The performance obligation is satisfied at the time of each individual sale. A portion of the revenue is based on a fixed rate applied, as a percentage, to the net asset value of the fund, or the value of the insurance policy or annuity contract. The ongoing revenue is not at the time of sale because it is variable constrained due to factors outside the Company's control including market volatility and client behavior (such as how long clients hold their investment, insurance policy or annuity contract). The revenue will not be recognized until it is probable that a significant reversal will not occur.

**Interest Income**

The Company earns interest income from client margin accounts and cash equivalents, net of operating expense.

**Income Taxes**

The Company uses the accrual method of accounting for income tax purposes. Deferred income taxes are determined using the liability method in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic No. 740, Income Taxes. Management evaluates income tax positions based on a predetermined threshold of whether the positions taken will be sustained upon examination. Uncertain tax positions are reduced by a liability for contingent loss that is recorded either when the threshold is no longer met or when it becomes probable that payment will be made to the taxing authority. Years open for income tax examination by taxing authorities are 2018, 2019, 2020 and 2021.

Note 2 - Net Capital Requirements

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities and Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined under such provisions. Net capital and the related net capital

ratio may fluctuate on a daily basis.

As of September 30, 2022, the Company had net capital of \$161,214 and net capital requirements of \$50,000. The Company's ratio of aggregate indebtedness to net capital was 0.32 to 1. The Securities and Exchange Commission permits a ratio of no greater than 15 to 1.

Note 3 - Commitments and Contingencies

Included in the Company's clearing agreement with its clearing broker-dealer is an indemnification clause. This clause relates to instances where the Company's customers fail to settle security transactions. In the event this occurs, the Company will indemnify the clearing broker-dealer to the extent of the net loss on any unsettled trades. At September 30, 2022, management of the Company had not been notified by the clearing broker-dealer, nor were they otherwise aware, of any potential losses relating to this indemnification.

Note 4 - Clearing Deposit

The Company conducts substantially all business through its clearing firm which settles all trades for the Company, on a fully disclosed basis on behalf of its customers. Under its agreement with its clearing broker-dealer, the Company is required to maintain a clearing deposit of \$10,000, which is included on the balance sheet as deposit with clearing organization.

Note 5 - Lease Commitments

The Company leases office space under a long-term non-cancelable lease. Minimum lease payments under the lease at September 30, 2022 are as follows:

The Company (1) did not directly or indirectly receive, hold, or otherwise owe funds or securities for or to customers (other than money or other consideration received and promptly transmitted in compliance with paragraph (a) or (b)(2) of 17 C.F.R. § 240.15c2-4; (2) did not carry accounts of or for customers; and (3) did not carry proprietary accounts of broker-dealers (as defined in 17 C.F.R. § 240.15c3-3), throughout the most recent fiscal year without exception.

The Company's management is responsible for its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions and that the Company's other business activities were limited to (1) acting as a mutual fund retailer (2) acting as a solicitor of time deposits in a financial institution and (1) did not directly or indirectly receive, hold, or otherwise owe funds or securities for or to customers (other than money or other consideration received and promptly transmitted in compliance with paragraph (a) or (b)(2) of 17 C.F.R. § 240.15c2-4; (2) did not carry accounts of or for customers; and (3) did not carry proprietary accounts of broker-dealers (as defined in 17 C.F.R. § 240.15c3-3) throughout the most recent fiscal year without exception. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in 17 C.F.R. § 240.15c3-3 and 17 C.F.R. § 240.17a-5.
