21. While you do not account for your internal research and development costs on a project basis, please provide as much quantitative and qualitative disclosure as possible about the amount of costs, both internal and external, incurred during each period presented and incurred to date on each of your major research and development projects.   - b. A discussion of each significant factor contributing to the difference between the fair value as of the date of each grant and the estimated IPO price or if a contemporaneous valuation by an unrelated valuation specialist was obtained subsequent to the grants but prior to the IPO, the fair value as determined by that valuation.
  - c. The valuation alternative selected and the reason management chose not to obtain a contemporaneous valuation by an unrelated valuation specialist.
