Form 10-K for the Fiscal Year Ended December 31, 2007
Filed March 11, 2008
File No. 333-141714**

Dear Mr. Severance:

We have limited our review of your filings to disclosure relating to your contacts with a country that has been identified as a state sponsor of terrorism, and we have the following comments. Our review with respect to this issue does not preclude further review by the Assistant Director group with respect to other issues. At this juncture, we are asking you to provide us with supplemental information, so that we may better understand your disclosure. Please be as detailed as necessary in your response. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filing. We look forward to working with you in these respects. We welcome any questions you may have about our comments or on any other aspect of our review. Feel free to call us at the telephone numbers listed at the end of this letter.

General

1. You state on page 20 that you utilize third-party, independently owned and managed national distribution companies to market GDS products and distribute and provide GDS services in certain countries, including Syria. Also, in a press release dated June 3, 2008 and available on your website, you state that your product, Galileo, has established itself as the leading GDS provider in the Middle East and is currently distributed in the region by the national airlines of several countries, including Syria.

Syria is a country that is identified by the State Department as a state sponsor of terrorism, and subject to U.S. economic sanctions and export controls. We note that your Form 10-K does not include disclosure regarding your contacts with Syria. Please describe to us the nature and extent of your past, current, and

anticipated contacts with Syria, whether through direct or indirect arrangements. Your response should describe any products, technology, or services you have provided to Syria, and any agreements, commercial arrangements, or other contacts you have had with the government of Syria or entities controlled by that government.

2. Please discuss the materiality of any contacts with Syria described in response to the foregoing comment, and whether those contacts would constitute a material investment risk for your security holders. You should address materiality in quantitative terms, including the approximate dollar amounts of any associated revenues, assets, and liabilities for the last three fiscal years and any subsequent period. Also, address materiality in terms of qualitative factors that a reasonable investor would deem important in making an investment decision, including the potential impact of corporate activities upon a company's reputation and share value. As you may be aware, various state and municipal governments, universities and other investors have proposed or adopted divestment or similar initiatives regarding investment in companies that do business with U.S.-designated state sponsors of terrorism. Your materiality analysis should address the potential impact of the investor sentiment evidenced by such actions directed toward companies that have business contacts with Syria.
