EUROCONSULT CAPITAL LLC

NOTES TO FINANCIAL STATEMENTS

December 31, 2022

1. Nature of business and summary of significant accounting policies

Nature of Business

EuroConsult Capital LLC (the “Company”) is a New York limited liability company, which was formed in November 2006. The Company, which is a wholly-owned subsidiary of Euroconsult, Inc, a New York corporation (the “Parent”), is a broker-dealer registered with the SEC and FINRA and a member of Securities Investor Protection Corporation, Inc. The Company’s principal activity is to advise and consult with institutional investors and commercial entities concerning mergers and acquisitions.

The Company is considered a Non-Covered Firm exempt from 17 C.F.R. § 240.15c- 3-3 relying on Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.17a-5. The Company limits its business activities exclusively to mergers and acquisitions and private placement of securities.

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

The Company has evaluated events that have occurred subsequent to December 31, 2022, and through February 6, 2023, the date the report was available to be issued. There have been no material subsequent events that occurred during such period that would require disclosure in this report or would be required to be recognized in the financial statements as of December 31, 2022.

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS (Continued)

December 31, 2022

NOTE 1 - Nature of business and summary of significant accounting policies (Continued)

Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company is currently dependent on its Parent to fund its ongoing operations as the Company has not yet generated sufficient revenue. The Parent intends to provide additional financing through direct contributions of capital until positive cash flows are generated. The Parent is not contractually obligated to continue to provide support.

Revenue Recognition

The Company enters into agreements with customers to provide the services defined in each contract. Generally, the Company receives private placement and success fees as compensation for services rendered. Some other services include investment advisory services for structuring investments. The recognition and measurement of revenue is based on the assessment of individual contract terms.

Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; whether revenue should be presented gross or net of certain costs; and whether constraints on variable consideration should be applied due to uncertain future events.

The compensation structures of the private placement and success fees are defined in the contracts and are generally paid to the Company for successfully closing a transaction. The Company satisfies its performance obligations upon consummating the transaction defined in the contracts. These performance obligations are typically facilitating capital raises for the client or closing a defined transaction. These fees are generally variable and the estimate of variable consideration is typically constrained in accordance with paragraphs 606-10-32-11 through 32-13 of (ASU) No. 2014-09 because of the uncertainty associated with the variable consideration. Specifically, the amount of consideration is highly susceptible to factors outside the entity's influence, resolution of related uncertainties can take an extended period of time, price concessions could occur and there is a large number and broad range of possible outcomes. Revenue is recognized from the satisfaction of the performance obligation based on the amount the Company has a right to invoice and that amount directly corresponds with the value to the customer of the performance completed to date.

EUROCONSULT CAPITAL LLC

NOTES TO FINANCIAL STATEMENTS (Continued) December 31, 2022

NOTE 1 - Nature of business and summary of significant accounting policies (Continued)

Income Taxes

The Company is treated as a flow-through entity for income tax purposes. As a result, the net taxable income of the Company and any related tax credits, for federal income tax purposes, are deemed to pass to the Parent and are included in the Parent's tax returns even though such net taxable income or tax credits may not actually have been distributed. Accordingly, no tax provision has been made in the financial statements since the income tax is a personal obligation of the parent. The Company is subject to state income tax. The Company has not recorded provisions for estimated New York margin taxes for the year ended December 31, 2022, as they are not significant.

The Company recognizes and measures any unrecognized tax benefits in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, "Income Taxes". Under that guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change. As of December 31, 2022, the Company believes there are no uncertain tax positions that qualify for either recognition or disclosure in the financial statements.

2. Related party transactions

Service Agreement

Pursuant to a service agreement, the Company's Parent provides various services and other operating assistance to the Company. These include professional services, physical premises, utilities, the use of fixed assets, travel, insurance, subscriptions, taxes, personnel and other general and administrative services. The total amount incurred and paid by the Company under this agreement was \$119,016 for the year ended December 31, 2022. These expenses are reflected in administrative management fees in the accompanying Statement of Operations.

The Company and its Parent are under common control and the existence of that control may create a financial position and operating results significantly different than if the companies were autonomous.

EUROCONSULT CAPITAL LLC

NOTES TO FINANCIAL STATEMENTS (Continued) **December 31, 2022**

3. Net capital requirement

The Company, as a member of FINRA, is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1. This Rule requires the maintenance of minimum net capital and that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 and that equity capital may not be withdrawn, or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2022, the Company's net capital was \$37,254, which was \$32,254 in excess of its minimum requirement of \$5,000. The Company's net capital ratio was 0.42 to 1 for December 31, 2022.

Capital contributions and distributions to the members can be made under a capital policy approved by the Company's member. Periodic contributions and/or distributions approved by the member may be made in order to enable the member to effectively manage the Company.

4. Concentration of risks

The Company is engaged in brokerage activities in which it engages in investment activities with limited partnerships and limited liability companies throughout the United States. In the event the counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counter-party. The Company's financial instruments that are subject to concentrations of credit risk primarily consist of cash. The Company places its cash with one high credit quality institution. At times, such cash may be in excess of the FDIC insurance limits. The Company believes that it is not exposed to any significant risk related to cash.

5. Contingencies

In the ordinary course of conducting its business, the Company may be subjected to loss contingencies arising from lawsuits. Management believes that the outcome of such matters, if any, will not have a material impact on the Company's financial condition or results of future operations.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based upon the Company's business activities contemplated by Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. §240.17a-5, and related SEC Staff Frequently Asked Questions.
