Form 8-K/A filed June 16, 2010

1. We have reviewed your response to comment two in our letter dated July 19, 2010, including your proposed revisions that will be included in the planned amendment of this Form 8-K/A and in future filings. Please confirm to us that you will refrain from quantifying the fair market value of the in-situ gold and other mineral assets in any filings, including in your upcoming June 30, 2010 Form 10-Q. Alternatively, if you wish to quantify the value of these minerals in your filings, you should identify in your filings the "qualified independent sources" that performed these valuations and provide a reasonably detailed description of the methodology used to value these minerals to provide your investors with better context for how such a high value was determined. If you wish to quantify the value of these minerals in your filings, you should also file the appraisal reports as exhibits.
