#### **FORWARD-LOOKING STATEMENTS**

Certain statements made in this Annual Report on Form 10-KSB are "forward-looking statements" (within the meaning of the Private Securities Litigation Reform Act of 1995) regarding the plans and objectives of management for future operations. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of Hyperion Energy, Inc. (the "Company") to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The forward-looking statements included herein are based on current expectations that involve numerous risks and uncertainties. The Company's plans and objectives are based, in part, on assumptions involving the continued expansion of business. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the Company. Although the Company believes its assumptions underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, there can be no assurance the forward-looking statements included in this Report will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein particularly in view of the current state of our operations, the inclusion of such information should not be regarded as a statement by us or any other person that our objectives and plans will be achieved. Factors that could cause actual results to differ materially from those expressed or implied by such forward-looking statements include, but are not limited to, the factors set forth herein under the headings "Business," "Plan of Operation" and "Risk Factors". We undertake no obligation to revise or update publicly any forward-looking statements for any reason.

## **PART I**

### **Item 1. Description of Business.**

#### **Introduction**

Hyperion Energy, Inc. ("we", "us", "our", the "Company" or the "Registrant") was incorporated in the State of Colorado on December 29, 2005, and maintains its principal executive offices at 3755 Avocado Blvd., La Mesa, CA , 91941.

Since inception, the Company has been engaged in organizational efforts and obtaining initial financing. The Company was formed as a vehicle to pursue a business combination through the acquisition of, or merger with, an operating business. The Company filed a registration statement on Form 10-SB with the U.S. Securities and Exchange Commission (the "SEC") on March 15, 2007, and since its effectiveness, the Company has focused its efforts to identify a possible business combination.

The Company, based on proposed business activities, is a "blank check" company. The SEC defines those companies as "any development stage company that is issuing a penny stock, within the meaning of Section 3(a)(51) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and that has no specific business plan or purpose, or has indicated that its business plan is to merge with an unidentified company or companies." Many states have enacted statutes, rules and regulations limiting the sale of securities of "blank check" companies in their respective jurisdictions. The Company is also a "shell company," defined in Rule 12b-2 under the Exchange Act as a company with no or nominal assets (other than cash) and no or nominal operations. Management does not intend to undertake any efforts to cause a market to develop in our securities, either debt or equity, until we have successfully concluded a business combination. The Company intends to comply with the periodic reporting requirements of the Exchange Act for so long as we are subject to those requirements.

The Company was organized as a vehicle to investigate and, if such investigation warrants, acquire a target company or business seeking the perceived advantages of being a publicly held corporation. On July 26, 2007, the Company entered into an Asset Purchase Agreement with AccountAbilities, Inc., based in Manalapan, New Jersey, to purchase substantially all of the properties, rights and assets used by AccountAbilities, Inc. in conducting its business of providing (i) professional staffing services, primarily to CPA firms and (ii) information technology/scientific staffing services and workforce solutions to various businesses.

The purchase price for the AccountAbilities, Inc. assets shall be a number of shares of the Company's common stock which will be equal to the number of shares of AccountAbilities, Inc. common stock outstanding at the time of closing. In addition, AccountAbilities, Inc. has agreed to pay the Company's sole shareholder a total of \$12,500 in exchange for his agreement to surrender all of his shares of the Company's common stock for cancellation at the time of closing. As a result of these transactions (the "Transactions"), the shares of the Company's common stock issued to AccountAbilities, Inc. will represent 100% of the Company's outstanding common stock after the completion of the Transactions.

The closing of the Transactions is scheduled to take place within five (5) days after the date when each of the conditions to closing set forth in the Purchase Agreement have been fulfilled (or waived by the party entitled to waive such condition), including, among others, the approval of the sale of assets by the stockholders of each of AccountAbilities, Inc., and the effectiveness of a Registration Statement on Form S-4 which will be filed with the Securities and Exchange Commission to register the shares being issued to AccountAbilities, Inc.

The existing sole officer and director of the Company will resign upon the closing of the Transactions and a new management team and new Board of Directors consisting of individuals to be designated by AccountAbilities, Inc. will be appointed.

No assurance can be given that the Transactions will be completed. If the Transactions are not completed, the Company will attempt to locate and negotiate with another business entity for the combination of that target company with the Company. The Company will not restrict its potential candidate target companies to any specific business, industry or geographical location and, thus, may acquire any type of business.

### **Competition**

The Company faces vast competition from other shell companies with the same objectives. The Company is in a highly competitive market for a small number of business opportunities which could reduce the likelihood of consummating a successful business combination. A large number of established and well-financed entities, including small public companies and venture capital firms, are active in mergers and acquisitions of companies that may be desirable target candidates for us. Nearly all these entities have significantly greater financial resources, technical expertise and managerial capabilities than we do; consequently, we will be at a competitive disadvantage in identifying possible business opportunities and successfully completing a business combination. These competitive factors may reduce the likelihood of our identifying and consummating a successful business combination.

### **Employees**

We have no employees other than our sole officer who devotes only a limited amount of time to our business.

### **Risk Factors**

**You should carefully review and consider the following risks as well as all other information contained in this Annual Report on Form 10-KSB, including our financial statements and the notes to those statements. The following risks and uncertainties are not the only ones facing us. Additional risks and uncertainties of which we are currently unaware or which we believe are not material also could materially adversely affect our business, financial condition, results of operations, or cash flows. To the extent any of the information contained in this annual report constitutes forward-looking information, the risk factors set forth below are cautionary statements identifying important factors that could cause our actual results for various financial reporting periods to differ materially from those expressed in any forward-looking statements made by or on our behalf and could materially adversely effect our financial condition, results of operations or cash flows.**

***There may be conflicts of interest as a result of our management being involved with other blank check shell companies.***

Conflicts of interest create the risk that management may have an incentive to act adversely to the interests of the Company. Our management is currently involved with other blank check shell companies, and in the pursuit of business combinations, conflicts with such other blank check shell companies with which it is, and may in the future become, affiliated, may arise. If we and the other blank check shell companies that our management is affiliated with desire to take advantage of the same opportunity, then those members of management that are affiliated with both companies would abstain from voting upon the opportunity. In the event of identical officers and directors, the officers and directors will arbitrarily determine the company that will be entitled to proceed with the proposed transaction.

***We have a limited operating history.***

We have a limited operating history and no revenues or earnings from operations since inception. We have no significant assets or financial resources. We will, in all likelihood, sustain operating expenses without corresponding revenues, at least until the consummation of a merger or other business combination with a private company. This may result in our incurring a net operating loss that will increase unless we consummate a business combination with a profitable business. We cannot assure you that we can identify a suitable business opportunity and consummate a business combination, or that any such business will be profitable at the time of its acquisition by us or ever.

***We have incurred and may continue to incur losses.***

Since December 29, 2005 (inception) through December 31, 2007, we have accumulated a deficit of (\$1,390). We expect that we will incur losses at least until we complete a merger or other business combination with an operating business and perhaps after such a combination as well. There can be no assurance that we will complete a merger or other business combination with an operating business or that we will ever be profitable.

***We face a number of risks associated with potential acquisitions.***

We intend to use reasonable efforts to complete a merger or other business combination with an operating business. Such combination will be accompanied by risks commonly encountered in acquisitions, including, but not limited to, difficulties in integrating the operations, technologies, products and personnel of the acquired companies and insufficient revenues to offset increased expenses associated with acquisitions. Failure to manage and successfully integrate acquisitions we make could harm our business, our strategy and our operating results in a material way.

***There is competition for those private companies suitable for a merger transaction of the type contemplated by management.***

The Company is in a highly competitive market for a small number of business opportunities which could reduce the likelihood of consummating a successful business combination. We are, and will continue to be, an insignificant participant in the business of seeking mergers with, joint ventures with and acquisitions of small private and public entities. A large number of established and well-financed entities, including small public companies and venture capital firms, are active in mergers and acquisitions of companies that may be desirable target candidates for us. Nearly all these entities have significantly greater financial resources, technical expertise and managerial capabilities than we do; consequently, we will be at a competitive disadvantage in identifying possible business opportunities and successfully completing a business combination. These competitive factors may reduce the likelihood of our identifying and consummating a successful business combination.

***Future success is highly dependent on the ability of management to locate and attract a suitable acquisition.***

The nature of our operations is highly speculative, and there is a consequent risk of loss of your investment. The success of our plan of operation will depend to a great extent on the operations, financial condition and management of the identified business opportunity. While management intends to seek business combination(s) with entities having established operating histories, we cannot assure you that we will be successful in locating candidates meeting that criterion. In the event we complete a business combination, the success of our operations may be dependent upon management of the successor firm or venture partner firm and numerous other factors beyond our control.

***Management intends to devote only a limited amount of time to seeking a target company which may adversely impact our ability to identify a suitable acquisition candidate.***

While seeking a business combination, management anticipates devoting very limited time to the Company's affairs. Our sole officer has not entered into a written employment agreement with us and is not expected to do so in the foreseeable future. This limited commitment may adversely impact our ability to identify and consummate a successful business combination.

***There can be no assurance that the Company will successfully consummate a business combination.***

We can give no assurances that we will successfully identify and evaluate suitable business opportunities or that we will conclude a business combination. Management has not identified any particular industry or specific business within an industry for evaluation. We cannot guarantee that we will be able to negotiate a business combination on favorable terms.

***The time and cost of preparing a private company to become a public reporting company may preclude us from entering into a merger or acquisition with the most attractive private companies.***

Target companies that fail to comply with SEC reporting requirements may delay or preclude acquisition. Sections 13 and 15(d) of the Exchange Act require reporting companies to provide certain information about significant acquisitions, including certified financial statements for the company acquired, covering one, two, or three years, depending on the relative size of the acquisition. The time and additional costs that may be incurred by some target entities to prepare these statements may significantly delay or essentially preclude consummation of an acquisition. Otherwise suitable acquisition prospects that do not have or are unable to obtain the required audited statements may be inappropriate for acquisition so long as the reporting requirements of the Exchange Act are applicable.

***The Company may be subject to further government regulation which would adversely affect our operations.***

Although we are subject to the reporting requirements under the Exchange Act, management believes we are not subject to regulation under the Investment Company Act of 1940, as amended (the "Investment Company Act"), since we are not engaged in the business of investing or trading in securities. If we engage in business combinations which result in our holding passive investment interests in a number of entities, we could be subject to regulation under the Investment Company Act. If so, we would be required to register as an investment company and could be expected to incur significant registration and compliance costs. We have obtained no formal determination from the SEC as to our status under the Investment Company Act and, consequently, violation of the Investment Company Act could subject us to material adverse consequences.

***Any potential acquisition or merger with a foreign company may subject us to additional risks.***

If we enter into a business combination with a foreign company, we will be subject to risks inherent in business operations outside of the United States. These risks include, for example, currency fluctuations, regulatory problems, punitive tariffs, unstable local tax policies, trade embargoes, risks related to shipment of raw materials and finished goods across national borders and cultural and language differences. Foreign economies may differ favorably or unfavorably from the United States economy in growth of gross national product, rate of inflation, market development, rate of savings, and capital investment, resource self-sufficiency and balance of payments positions, and in other respects.

***The Company may be subject to certain tax consequences in our business, which may increase our cost of doing business.***

We may not be able to structure our acquisition to result in tax-free treatment for the companies or their stockholders, which could deter third parties from entering into certain business combinations with us or result in being taxed on consideration received in a transaction. Currently, a transaction may be structured so as to result in tax-free treatment to both companies, as prescribed by various federal and state tax provisions. We intend to structure any business combination so as to minimize the federal and state tax consequences to both us and the target entity; however, we cannot guarantee that the business combination will meet the statutory requirements of a tax-free reorganization or that the parties will obtain the intended tax-free treatment upon a transfer of stock or assets. A non-qualifying reorganization could result in the imposition of both federal and state taxes that may have an adverse effect on both parties to the transaction.

***Our business will have no revenue unless and until we merge with or acquire an operating business.***

We are a development stage company and have had no revenue from operations. We do not expect to realize any revenue unless and until we successfully merge with or acquire an operating business.

***Because we may seek to complete a business combination through a “reverse merger”, following such a transaction we may not be able to attract the attention of major brokerage firms.***

Additional risks may exist since we expect to assist a privately held business to become public through a “reverse merger.” Securities analysts of major brokerage firms may not provide coverage of our Company since there is no incentive to brokerage firms to recommend the purchase of common stock, par value \$0.001 per share (the “Common Stock”). No assurance can be given that brokerage firms will want to conduct any secondary offerings on behalf of our post-merger company in the future.

***We cannot assure you that following a business combination with an operating business, our Common Stock will be listed on NASDAQ or any other securities exchange.***

Following a business combination, we may seek the listing of Common Stock on NASDAQ or the American Stock Exchange. However, we cannot assure you that following such a transaction, we will be able to meet the initial listing standards of either of those or any other stock exchange, or that we will be able to maintain a listing of Common Stock on either of those or any other stock exchange. After completing a business combination, until the Common Stock is listed on the NASDAQ or another stock exchange, we expect that the Common Stock would be eligible to trade on the OTC Bulletin Board, another over-the-counter quotation system, or on the “pink sheets,” where our stockholders may find it more difficult to dispose of shares or obtain accurate quotations as to the market value of the Common Stock. In addition, we would be subject to an SEC rule that, if it failed to meet the criteria set forth in such rule, imposes various practice requirements on broker-dealers who sell securities governed by the rule to persons other than established customers and accredited investors. Consequently, such rule may deter broker-dealers from recommending or selling the Common Stock, which may further affect its liquidity. This would also make it more difficult for us to raise additional capital following a business combination.

***Our sole stockholder may have a minority interest in the Company following a merger or other business combination with an operating business.***

If we consummate a merger or business combination with a company with a value in excess of the value of our Company and issue shares of Common Stock to the stockholders of such company as consideration for merging with us, our sole stockholder would own less than 50% of the Company after the business combination. The stockholders of the acquired company would therefore be able to control the election of our Board of Directors and control our Company.

***There is currently no trading market for our Common Stock, and liquidity of shares of our Common Stock is limited.***

Shares of our Common Stock are not registered under the securities laws of any state or other jurisdiction, and accordingly there is no public trading market for the Common Stock. Further, no public trading market is expected to develop in the foreseeable future unless and until the Company completes a business combination with an operating business and the Company thereafter files a registration statement under the Securities Act of 1933, as amended (the “Securities Act”). Therefore, outstanding shares of Common Stock cannot be offered, sold, pledged or otherwise transferred unless subsequently registered pursuant to, or exempt from registration under, the Securities Act and any other applicable federal or state securities laws or regulations. Shares of Common Stock cannot be sold under the exemptions from registration provided by Rule 144 under or Section 4(1) of the Securities Act (“Rule 144”), in accordance with the letter from Richard K. Wulff, Chief of the Office of Small Business Policy of the Securities and Exchange Commission’s Division of Corporation Finance, to Ken Worm of NASD Regulation, dated January 21, 2000 (the “Wulff Letter”). The Wulff Letter provides that certain private transfers of the shares of common stock also may be prohibited without registration under federal securities laws. The SEC has approved codifying certain aspects of the Wulff Letter and adjusting some of its provisions. The adjustments include allowing stockholders of a company that was formerly a shell company to be able to utilize the exemption from registration under Rule 144 under certain circumstances following such time as the company is no longer a shell company and certain disclosures have been completed. The changes, which will apply retroactively to the purchasers, became effective on February 15, 2008.

Compliance with the criteria for securing exemptions under federal securities laws and the securities laws of the various states is extremely complex, especially in respect of those exemptions

affording flexibility and the elimination of trading restrictions in respect of securities received in exempt transactions and subsequently disposed of without registration under the Securities Act or state securities laws.

***There are issues impacting liquidity of our securities with respect to the SEC’s review of a future resale registration statement.***

Since shares of our Common Stock issued prior to a business combination or reverse merger cannot currently, nor will they for a considerable period of time after we complete a business combination, be available to be offered, sold, pledged or otherwise transferred without being registered pursuant to the Securities Act, we will likely file a resale registration statement on Form SB-2 or Form S-1, or some other available form, to register for resale such shares of Common Stock. We cannot control this future registration process in all respects as some matters are outside our control. Even if we are successful in causing the effectiveness of the resale registration statement, there can be no assurances that the occurrence of subsequent events may not preclude our ability to maintain the effectiveness of the registration statement. Any of the foregoing items could have adverse effects on the liquidity of our shares of Common Stock.

In addition, the SEC has recently disclosed that it has developed internal informal guidelines concerning the use of a resale registration statement to register the securities issued to certain investors in private investment in public equity (PIPE) transactions, where the issuer has a market capitalization of less than \$75 million and, in general, does not qualify to file a Registration Statement on Form S-3 to register its securities. The SEC has taken the position that these smaller issuers may not be able to rely on Rule 415 under the Securities Act ("Rule 415"), which generally permits the offer and sale of securities on a continued or delayed basis over a period of time, but instead would require that the issuer offer and sell such securities in a direct or "primary" public offering, at a fixed price, if the facts and circumstances are such that the SEC believes the investors seeking to have their shares registered are underwriters and/or affiliates of the issuer. It appears that the SEC in most cases will permit a registration for resale of up to one third of the total number of shares of common stock then currently owned by persons who are not affiliates of such issuer and, in some cases, a larger percentage depending on the facts and circumstances. Staff members also have indicated that an issuer in most cases will have to wait until the later of six months after effectiveness of the first registration or such time as substantially all securities registered in the first registration are sold before filing a subsequent registration on behalf of the same investors. Since, following a reverse merger or business combination, we may have little or no tradable shares of Common Stock, it is unclear as to how many, if any, shares of Common Stock the SEC will permit us to register for resale, but SEC staff members have indicated a willingness to consider a higher percentage in connection with registrations following reverse mergers with shell companies such as the Company. The SEC may require as a condition to the declaration of effectiveness of a resale registration statement that we reduce or "cut back" the number of shares of common stock to be registered in such registration statement. The result of the foregoing is that a stockholder's liquidity in Common Stock may be adversely affected in the event the SEC requires a cut back of the securities as a condition to allow the Company to rely on Rule 415 with respect to a resale registration statement, or, if the SEC requires us to file a primary registration statement.

***We have never paid dividends on our Common Stock.***

We have never paid dividends on our Common Stock and do not presently intend to pay any dividends in the foreseeable future. We anticipate that any funds available for payment of dividends will be re-invested into the Company to further its business strategy.

***The Company intends to issue more shares in a merger or acquisition, which will result in substantial dilution.***

Our Certificate of Incorporation authorizes the issuance of a maximum of 100,000,000 shares of Common Stock and a maximum of 20,000,000 shares of preferred stock, par value \$.001 per share (the "Preferred Stock"). Any merger or acquisition effected by us may result in the issuance of additional securities without stockholder approval and the substantial dilution in the percentage of Common Stock held by our then existing stockholders. Moreover, the Common Stock issued in any such merger or acquisition transaction may be valued on an arbitrary or non-arm's-length basis by our management, resulting in an additional reduction in the percentage of Common Stock held by our current stockholder. Our Board of Directors has the power to issue any or all of such authorized but unissued shares without stockholder approval. To the extent that additional shares of Common Stock or Preferred Stock are issued in connection with a business combination or otherwise, dilution to the interests of our stockholder will occur and the rights of the holder of Common Stock might be materially and adversely affected.

***Our sole stockholder may engage in a transaction to cause the Company to repurchase his shares of Common Stock.***

In order to provide an interest in the Company to a third party, our sole stockholder may choose to cause the Company to sell Company securities to third parties, with the proceeds of such sale being utilized by the Company to repurchase his shares of Common Stock. As a result of such transaction, our management, stockholder(s) and Board of Directors may change.

***Our Board of Directors has the power to issue shares of Preferred Stock with certain rights without stockholder approval.***

Our Certificate of Incorporation authorizes the issuance of up to 20,000,000 shares of Preferred Stock with designations, rights and preferences determined from time to time by its Board of Directors. Accordingly, our Board of Directors is empowered, without stockholder approval, to issue shares of Preferred Stock with dividend, liquidation, conversion, voting, or other rights which could adversely affect the voting power or other rights of the holders of the Common Stock. In the event of issuance, the Preferred Stock could be utilized, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of the Company. Although we have no present intention to issue any shares of our authorized Preferred Stock, there can be no assurance that we will not do so in the future.

***Control by Walter Reed***

Our sole stockholder is Walter Reed, who is also our sole officer and director. Walter Reed currently owns all of the issued and outstanding capital stock of the Company. Consequently, this stockholder controls the operations of the Company and will have the ability to control all matters submitted to stockholders for approval, including:

- Election of the board of directors;
- Removal of any directors;
- Amendment of the Company's certificate of incorporation or bylaws; and
- Adoption of measures that could delay or prevent a change in control or impede a merger, takeover or other business combination.

This stockholder will thus have complete control over our management and affairs. Accordingly, this ownership may have the effect of impeding a merger, consolidation, takeover or other business consolidation, or discouraging a potential acquirer from making a tender offer for our common stock.

**Item 2. Description of Property.**

The Company neither rents nor owns any properties. The Company utilizes the office space and equipment of its sole officer and director at no cost. Management estimates such amounts to be immaterial. The Company currently has no policy with respect to investments or interests in real estate, real estate mortgages or securities of, or interests in, persons primarily engaged in real estate activities.

**Item 3. Legal Proceedings.**

Presently, there are not any material pending legal proceedings to which the Company is a party or as to which any of its property is subject, and no such proceedings are known to the Company to be threatened or contemplated against it.

**Item 4. Submission of Matters to a Vote of Security Holders.**

None.

**PART II****Item 5. Market for Common Equity, Related Stockholder Matters and Small Business Issuer Purchases of Equity Securities.****Common Stock**

Our Certificate of Incorporation authorizes the issuance of up to 100,000,000 shares of Common Stock. Our Common Stock is not listed on a publicly-traded market. As of December 31, 2007, there was one holder of record of our Common Stock.

**Preferred Stock**

Our Certificate of Incorporation authorizes the issuance of up to 20,000,000 shares of Preferred Stock. The Company has not yet issued any of the Preferred Stock.

**Dividend Policy**

The Company has not declared or paid any cash dividends on Common Stock and does not intend to declare or pay any cash dividend in the foreseeable future. The payment of dividends, if any, is within the discretion of the Board of Directors and will depend on the Company's earnings, if any, its capital requirements and financial condition and such other factors as the Board of Directors may consider.

**Securities Authorized for Issuance Under Equity Compensation Plans**

None.

**Recent Sales of Unregistered Securities**

The Company did not sell any equity securities that were not registered under the Securities Act during the period covered by this Annual Report.

On December 29, 2005, the Company issued 1,390,000 shares of Common Stock to Walter Reed, our President, Secretary and sole director, for an aggregate purchase price equal to \$1,390.00. The Company sold these shares of Common Stock under the exemption from registration provided by Section 4(2) of the Securities Act.

No securities have been issued for services. Neither the Company nor any person acting on its behalf offered or sold the securities by means of any form of general solicitation or general advertising. No services were performed by any purchaser as consideration for the shares issued.

## **Item 6. Management's Discussion and Analysis or Plan of Operation.**

### **Plan of Operation**

The Company has not realized any revenues from operations since inception, and its plan of operation for the next twelve months is to locate a suitable acquisition or merger candidate and consummate a business combination. The Company may need additional cash advances from its stockholder or loans from other parties to pay for operating expenses until the Company consummates a merger or business combination with a privately-held operating company. Although it is currently anticipated that the Company can satisfy its cash requirements with additional cash advances or loans from other parties, if needed, for at least the next twelve months, the Company can provide no assurance that it can continue to satisfy its cash requirements for such period.

Since our formation on December 29, 2005, our purpose has been to effect a business combination with an operating business which we believe has significant growth potential. We are currently considered to be a "blank check" company in as much as we have no specific business plans, no operations, revenues or employees. We currently have no definitive agreements or understanding with any prospective business combination candidates and have not targeted any business for investigation and evaluation nor are there any assurances that we will find a suitable business with which to combine. The implementation of our business objectives is wholly contingent upon a business combination and/or the successful sale of securities in the Company.

As a result of our limited resources, we expect to effect only a single business combination. Accordingly, the prospects for our success will be entirely dependent upon the future performance of a single business. Unlike certain entities that have the resources to consummate several business combinations or entities operating in multiple industries or multiple segments of a single industry, we will not have the resources to diversify our operations or benefit from the possible spreading of risks or offsetting of losses. A target business may be dependent upon the development or market acceptance of a single or limited number of products, processes or services, in which case there will be an even higher risk that the target business will not prove to be commercially viable.

Our sole officer is only required to devote a very limited portion of his time to our affairs on a part-time or as-needed basis. We expect to use outside consultants, advisors, attorneys and accountants as necessary, none of which will be hired on a retainer basis. We do not anticipate hiring any full-time employees so long as we are seeking and evaluating business opportunities.

We expect our present management to play no managerial role in the Company following a merger or business combination. Although we intend to scrutinize closely the management of a prospective target business in connection with our evaluation of a business combination with a target business, our assessment of management may be incorrect. We cannot assure you that we will find a suitable business with which to combine.

On July 26, 2007, we entered into an Asset Purchase Agreement with AccountAbilities, Inc., based in Manalapan, New Jersey, to purchase substantially all of the properties, rights and assets used by AccountAbilities, Inc. in conducting its business of providing (i) professional staffing services, primarily to CPA firms and (ii) information technology/scientific staffing services and workforce solutions to various businesses. The terms of the proposed transaction with AccountAbilities are described "Item 1. Description of Business – Overview" above.

If the proposed transaction with AccountAbilities is not completed, we will attempt to locate and negotiate with a business entity for the combination of that target company with us. The combination will normally take the form of a merger, stock-for-stock exchange or stock-for-assets exchange (the "business combination"). In most instances the target company will wish to structure the business combination to be within the definition of a tax-free reorganization under Section 351 or Section 368 of the Internal Revenue Code of 1986, as amended. No assurances can be given that we will be successful in locating or negotiating with any target business.

### **Results of Operations**

The Company has not conducted any active operations since inception, except for its efforts to locate a suitable acquisition or merger transaction. No revenue has been generated by the Company during such period, and it is unlikely the Company will have any revenues unless it is able to effect an acquisition of or merger with another operating company, of which there can be no assurance.

### **Off-Balance Sheet Arrangements**

The Company does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders  
Hyperion Energy, Inc.

We have audited the accompanying balance sheet of Hyperion Energy, Inc. as of December 31, 2007 and 2006, and the related statements of operations, changes in stockholder's equity, and cash flows for each of the years in the two-year period ended December 31, 2007 and for the period from the date on inception (December 29, 2005) through December 31, 2007. Hyperion Energy, Inc.'s management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Hyperion Energy, Inc. as of December 31, 2007 and 2006, and the results of its operations and its cash flows for each of the years in the two-year period ended December 31, 2007 and for the period from the date of inception (December 29, 2005) through December 31, 2007 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 3 to the financial statements, the Company's accumulated deficit and absence of revenue generated activities raise substantial doubt about its ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**Hyperion Energy, Inc.**  
**(A Development Stage Company)**  
**Notes to Financial Statements**  
**December 31, 2007**

**Note 1 – Background and Nature of Operations:**

Nature of Operations:

Hyperion Energy, Inc. (“the Company”) was incorporated under the laws of the State of Colorado on December 29, 2005 and has been inactive since inception. The Company intends to serve as a vehicle to effect an asset acquisition, merger, exchange of capital stock or other business combination with a domestic or foreign business. It is currently in its development stage.

Asset Purchase Agreement with AccountAbilities, Inc.

On July 26, 2007, the Company entered into an Asset Purchase Agreement with AccountAbilities, Inc., (the “Asset Purchase Agreement”) based in Manalapan, New Jersey, to purchase substantially all of the properties, rights and assets used by AccountAbilities, Inc. in conducting its business of providing (i) professional staffing services, primarily to CPA firms and (ii) information technology/scientific staffing services and workforce solutions to various businesses.

The purchase price for the AccountAbilities, Inc. assets shall be a number of shares of the Company’s common stock which will be equal to the number of shares of AccountAbilities, Inc. common stock outstanding at the time of closing. In addition, AccountAbilities, Inc. has agreed to pay the Company’s sole shareholder a total of \$12,500 in exchange for his agreement to surrender all of his shares of the Company’s common stock for cancellation at the time of closing. As a result of these transactions (the “Transactions”), the shares of the Company’s common stock issued to AccountAbilities, Inc. will represent 100% of the Company’s outstanding common stock after the completion of the Transactions.

The closing of the Transactions is scheduled to take place within five (5) days after the date when each of the conditions to closing set forth in the Purchase Agreement have been fulfilled (or waived by the party entitled to waive such condition), including, among others, the approval of the sale of assets by the stockholders of each of AccountAbilities, Inc., and the effectiveness of a Registration Statement on Form S-4 which will be filed with the Securities and Exchange Commission to register the shares being issued to AccountAbilities, Inc.

The existing sole officer and director of the Company will resign upon the closing of the Transactions and a new management team and new Board of Directors consisting of individuals to be designated by AccountAbilities, Inc. will be appointed.

## **Note 2 - Summary of Significant Accounting Policies:**

### **Basis of Presentation – Development Stage Company:**

The Company has not earned any revenue from operations. Accordingly, the Company's activities have been accounted for as those of a "Development Stage Enterprise" as set forth in Financial Accounting Standards Board Statement No. 7 ("SFAS 7"). Among the disclosures required by SFAS7 are that the Company's financial statements be identified as those of a development stage company, and that the statements of operations, stockholder's equity and cash flows disclose activity since the date of the Company's inception.

### **Accounting Method:**

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States.

### **Use of Estimates:**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

### **Cash equivalents:**

The Company considers all highly liquid investments with maturity of three months or less when purchased to be cash equivalents.

### **Assumption of Certain Expenses By AccountAbilities**

Upon entering into the Asset Purchase Agreement AccountAbilities has agreed to assume all expenses associated with the Company's obligations arising from its status as a reporting company under the Securities and Exchange Act of 1934.

### **Income Taxes:**

Income taxes are provided in accordance with Statement of Financial Accounting Standards No. 109 (SFAS 109), Accounting for Income Taxes. A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carryforwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of all of the deferred tax assets will be realized.

Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. There were no current or deferred income tax expenses or benefits due to the Company not having any material operations since its inception.

#### **Basic Earnings (Loss) per Common Share:**

In February 1997, the FASB issued SFAS No. 128, "Earnings Per Share", which specifies the computation, presentation and disclosure requirements for earnings (loss) per share for entities with publicly held common stock. SFAS No. 128 supersedes the provisions of APB No. 15, and requires the presentation of basic earnings (loss) per share and diluted earnings (loss) per share. The Company has adopted the provisions of SFAS No. 128 effective December 29, 2005 (inception).

Basic earnings (loss) per share amounts is computed by dividing the net earnings (loss) by the weighted average number of common shares outstanding. Diluted earnings per share is based upon the weighted average number of common shares and dilutive common stock equivalent shares outstanding during the period. The Company does not have any dilutive common stock equivalent shares; therefore, diluted earnings per share is the same as basic earnings per share.

#### **Impact of New Accounting Pronouncements:**

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position or cash flow.

#### **Note 3 - Going Concern:**

The Company's financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern that contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not established any source of revenue to cover its operating costs. The Company will engage in very limited activities without incurring any liabilities that must be satisfied in cash until a source of funding is secured. The Company will offer noncash consideration and seek equity lines as a means of financing its operations. If the Company is unable to obtain revenue producing contracts or financing or if the revenue or financing it does obtain is insufficient to cover any operating losses it may incur, it may substantially curtail or terminate its operations or seek other business opportunities through strategic alliances, acquisitions or other arrangements that may dilute the interests of existing stockholders.

#### **Note 4 – Stockholder's Equity:**

On December 29, 2005, the Board of Directors issued 1,390,000 shares of common stock for \$1,390 in services to the founding shareholder of the Company to fund organizational start-up costs.

The stockholders' equity section of the Company contains the following classes of capital stock as of December 31, 2007:

- Common stock, \$ 0.001 par value: 100,000,000 shares authorized; 1,390,000 shares issued and outstanding,
- Preferred stock, \$ 0.001 par value: 20,000,000 shares authorized; but not issued and outstanding.

#### **Note 5 - Income Taxes:**

No current provision or benefit for federal income taxes has been recorded for the years ended December 31, 2007 or 2006 or for any period from its inception as the Company has had no taxable income or loss.

**Item 8. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.**

None.

**Item 8A. Controls and Procedures.**Evaluation of Disclosure Controls and Procedures.

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed pursuant to the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules, regulations and related forms, and that such information is accumulated and communicated to our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As of December 31, 2007, we carried out an evaluation, under the supervision and with the participation of our principal executive officer and our principal financial officer of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Controls.

There have been no changes in our internal controls over financial reporting during the period covered by this report that has materially affected or is reasonably likely to materially affect our internal controls. This annual report does not include a report of management's assessment regarding internal control over financial reporting or an attestation report of the company's registered public accounting firm due to a transition period established by rules of the SEC for newly public companies.

**Item 8B. Other Information.**

None.

**PART III****Item 9. Directors and Executive Officers of the Company.**

(a) Identification of Directors and Executive Officers. The following table sets forth certain information regarding the Company's directors and executive officers for the fiscal year ended December 31, 2007:

<u>Name</u>	<u>Position</u>	<u>Term</u>
Walter Reed	President, Secretary and Director	Inception thru Present

The Company's officers and directors are elected annually for a one year term or until their respective successors are duly elected and qualified or until their earlier resignation or removal.

(b) Significant Employees.

As of the date hereof, the Company has no significant employees.

(c) Family Relationships.

None.

(d) Involvement in Certain Legal Proceedings.

There have been no events under any bankruptcy act, no criminal proceedings and no judgments, injunctions, orders or decrees material to the evaluation of the ability and integrity of any director, executive officer, promoter or control person of Company during the past five years.

**Compliance with Section 16(a) of the Exchange Act**

Section 16(a) of the Exchange Act requires the Company's directors and officers, and persons who beneficially own more than 10% of a registered class of the Company's equity securities, to file reports of beneficial ownership and changes in beneficial ownership of the Company's securities with the SEC on Forms 3, 4 and 5. Officers, directors and greater than 10% stockholders are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on the Company's review of the copies of the forms received by it during the fiscal year ended December 31, 2007 and written representations that no other reports were required, the Company believes that the no persons who, at any time during such fiscal year, was a director, officer or beneficial owner of more than 10% of Common Stock failed to comply with all Section 16(a) filing requirements during such fiscal year.

**Code of Ethics**

We have not adopted a Code of Business Conduct and Ethics that applies to our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions because there is only one person involved in the management of the Company and he devotes only a limited amount of time to our business.

**Nominating Committee**

We have not adopted any procedures by which security holders may recommend nominees to our Board of Directors.

**Audit Committee**

The Board of Directors acts as the audit committee. The Company does not have a qualified financial expert at this time because it has not been able to hire a qualified candidate. Further, the Company believes that it has inadequate financial resources at this time to hire such an expert. The Company intends to continue to search for a qualified individual for hire.

**Item 10. Executive Compensation.**

The following table sets forth the cash compensation paid by the Company to its President (the sole executive officer of the Company) for services rendered during the fiscal year ended December 31, 2007.

Name and Position	Year	Total Compensation
Walter Reed, President, Secretary and Director	2007	None

**Director Compensation**

We do not currently pay any cash fees to our sole director, nor do we pay his expenses in attending board meetings.

**Employment Agreements**

The Company is not a party to any employment agreements.

**Item 11. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.**

The following tables set forth certain information as of December 31, 2007, regarding (i) each person known by the Company to be the beneficial owner of more than 5% of the outstanding shares of Common Stock, (ii) each director, nominee and executive officer of the Company and (iii) all officers and directors as a group.

Name and Address	Amount and Nature of Beneficial Ownership	Percentage of Class
Walter Reed (1)	1,390,000	100%
All Directors and Officers as a Group (1 individual)	1,390,000	100%

(1) Walter Reed is President, Secretary and sole director of the Company.

**Item 12. Certain Relationships and Related Transactions.**

The Company utilizes the office space and equipment of its sole officer and director at no cost. Management estimates such costs to be immaterial.

Except as otherwise indicated herein, there have been no related party transactions, or any other transactions or relationships required to be disclosed pursuant to Item 404 of Regulation S-B.

**Item 13. Exhibits.**

## Index to Exhibits

Exhibit	Description
*3.1	Certificate of Incorporation, as filed with the Delaware Secretary of State on December 29, 2005.
*3.2	By-laws.
31.1	Certification of the Company's Principal Executive Officer and Principal Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002, with respect to the registrant's Annual Report on Form 10-KSB for the year ended December 31, 2007.
32.1	Certification of the Company's Principal Executive Officer and Principal Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
*	Filed as an exhibit to the Company's Registration Statement on Form 10-SB, as filed with the Securities and Exchange Commission on March 15, 2007, and incorporated herein by this reference.

**Item 14. Principal Accountant Fees and Services**

Rotenberg & Associates is the Company's independent registered public accounting firm.

**Audit Fees**

During the fiscal year 2007, the aggregate fees billed to the Company by its independent auditors was \$1,500.00 for the annual audit of financial statements and review of the financial statements included in the Company's Quarterly Reports on Form 10-Q

**Tax Fees**

There were no fees billed by Rotenberg for professional services for tax compliance, tax advice, and tax planning for the fiscal year ended December 31, 2007.

**Audit Committee's Pre-Approval Process**

The Board of Directors acts as the audit committee of the Company, and accordingly, all services are approved by the sole member of the Board of Directors.

## **SIGNATURES**

In accordance with Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

### CERTIFICATION

I, Walter Reed, certify that:

1. I have reviewed this annual report on Form 10-K for the fiscal year December 31, 2007 of Hyperion Energy, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
