File No. 0-52568

Dear Mr. Bal:

We have reviewed your filing and have the following comments. Where indicated, we think you should revise your document in response to these comments. If you disagree, we will consider your explanation as to why our comment is inapplicable or a revision is unnecessary. Please be as detailed as necessary in your explanation. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filing. Risk Factors

“We require further permits in order to conduct our current and anticipated future operations...,” page 15

1. We note your response to our prior comment 11. Please revise your disclosure to remove the mitigating language that explains the status of your permits and disclose this information elsewhere in the registration statement as appropriate. Please limit this risk factor to disclosing the permits that you need and the risk to investors if you fail to obtain them. In that regard, identify the future drilling permits you need for the Vianey Mine Silver project.

“Because we conduct our Mexican mineral exploration activities through a foreign subsidiary...,” page 18

2. Please remove this risk factor, as it does not appear to state a risk to investors.

6. We note your response to our prior comment 29. It does not appear that you have attached your audit committee charter as an appendix to the registration statement. Please advise.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes all information required under the Securities Exchange Act of 1934 and that they have provided all information investors require for an informed investment decision. Since the company and its management are in possession of all facts relating to a company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.
