RIVERDALE MINING INC.
(AN EXPLORATION STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENTS
(Unaudited)

NOTE 1. BASIS OF PRESENTATION

The accompanying unaudited interim financial statements of Riverdale Mining Inc., have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes thereto contained in Riverdale's Annual Report filed with the SEC on Form 10-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which substantially duplicate the disclosure contained in the audited financial statements for fiscal 2009 as reported in the Form 10-K have been omitted.

NOTE 2. GOING CONCERN

From March 30, 2007 (date of inception) to December 31, 2009, Riverdale Mining has not generated revenues and has accumulated losses since inception. The continuation of Riverdale Mining as a going concern is dependent upon the continued financial support from its shareholders, the ability of Riverdale Mining to obtain necessary equity financing to continue operations, and the attainment of profitable operations. There is no guarantee that Riverdale Mining will be able to complete any of the above objectives. These factors raise substantial doubt regarding the Riverdale Mining's ability to continue as a going concern.

NOTE 3. RELATED PARTY TRANSACTIONS

During the year ended March 31, 2009 Riverdale Mining Inc's President advanced the company \$1,066. This advances were due on demand, beared no interest and were unsecured. Riverdale Mining Inc. paid back the full balance of \$1,066 during the quarter ended September 30, 2009.

NOTE 4. SUBSEQUENT EVENTS

Riverdale Mining evaluated all events subsequent to December 31, 2009 through the date the date of filing and concluded that there are no significant or material transactions to be reported.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS.

This section of the report includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like: believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements, which apply only as of the date of this report. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or our predictions.

Plan of Operation

We are a start-up, exploration stage corporation and have not yet generated or realized any revenues from our business operations.

Our auditors have issued a going concern opinion. This means that there is substantial doubt that we can continue as an on-going business for the next twelve months unless we obtain additional capital to pay our bills. This is because we have not generated any revenues and no revenues are anticipated until we begin removing and selling minerals. There is no assurance we will ever reach this point.

Work Completed:

Exploration crew spent September 13 and 14th, 2008 on-site prospecting and sampling the Project. Access to the site was good and both the Black Diamond and the Independent showings were located and sampled on the first day.

As the Black Diamond showing is not mentioned in historic government reports it was decided that the entire second field day be spent prospecting the rest of the property with the hope of locating additional undocumented mineralized showings.

Observations and Results:

Black Diamond showing: The crew observed a caved adit, 4 trenches and a shallow shaft in this area. These old workings were developed on a series of narrow (+/- 4.0 inch) parallel quartz veins/veinlettes that were traced (by the workings) for approximately 150 feet. A total of six rock samples were collected from the better mineralized vein material. The highest gold value received was 2.3g/t from a sample of the dump material at the mouth of the caved adit. All of the other five rock samples returned values of less than 0.52g/t Au. While pyrite, galena, chalcopyrite and sphalerite were observed in most of the rock samples, none of the base metal elements (Pb, Zn, and Cu) returned values close to levels of economic interest.

Independent showing: Three shallow pits/trenches were located in this area. These workings were also developed on a series of narrow quartz carbonate veinlettes/stockwork that carried trace amounts of arsenopyrite and pyrite. The highest gold value obtained from the four rock samples collected in this area was 885ppb (0.88g/t). The other three rock samples returned gold values of less than 150ppb.

General: - Geological observation at the known showings and property wide prospecting confirmed the geological setting as previously reported. No additional “old workings” or mineralized zones were located during the course of the prospecting.

Conclusions and Recommendations: Based on the low gold values, narrow mineralized structures and short strike lengths of mineralization it is apparent that an insufficient volume of economically exploitable material (“ore”) occurs within the Project. As this is the case, it is recommend that no further work be carried out on the South Rossland Project and that the claims either be abandoned or held under minimum care and maintenance.

Plan of Operation for the Next Twelve Months

Management is evaluating the results of the geology report to determine what additional work should be done on the property, if any. Currently, that is the Company’s only plan and it does not have plans to do any else.

Limited Operating History; Need for Additional Capital

There is no historical financial information about us upon which to base an evaluation of our performance. We are an exploration stage corporation and have not generated any revenues from operations. We cannot guarantee we will be successful in our business operations. Our business is subject to risks inherent in the establishment of a new business enterprise, including limited capital resources, possible delays in the exploration of our properties, and possible cost overruns due to price and cost increases in services.

We have no assurance that future financing will be available to us on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. Future equity financing could result in additional dilution to existing shareholders.

Liquidity and Capital Resources

At the present time, we have not made any arrangements to raise additional cash. If we need additional cash and cannot raise it we will either have to suspend operations until we do raise the cash, or cease operations entirely.

We have the right to explore one property which consists of three claims comprising a total of 177.9 acres. The property is registered in our president's name.

Since inception, we have issued 7,000,000 shares of our common stock and received \$200,050.

In March 2007, we issued 5,000,000 shares of common stock to our officers and directors pursuant to the exemption from registration contained in Regulation S of the Securities Act of 1933. The purchase price of the shares was \$50. This was accounted for as an acquisition of shares.

In December 2007, we completed our public offering by raising \$200,000 and issued 2,000,000 shares of common stock.

As of December 31, 2009, our total assets were \$8,612 consisting entirely of cash and our total liabilities were \$10,500.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 4T. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

We maintain “disclosure controls and procedures,” as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”), that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. We conducted an evaluation under the supervision and with the participation of our Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15 of the Exchange Act. Based on this Evaluation, our Principal Executive Officer and Principal Financial Officer concluded that our Disclosure Controls were effective as of the end of the period covered by this report.

Changes in Internal Controls

We have also evaluated our internal control for financial reporting, and there have been no significant changes in our internal controls or in other factors that could significantly affect those controls subsequent to the date of their last evaluation.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

Currently we are not aware of any litigation pending or threatened by or against the Company.

ITEM 1A. RISK FACTORS.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

On August 13, 2007, the SEC declared our Form SB-2 registration statement effective (SEC File no. 333-145049) allowing us to sell 1,000,000 shares of common stock minimum, 2,000,000 shares of common stock maximum at an offering price of \$0.10 per share. There was not underwriter involved in our public offering. On December 3, 2007 we completed our public offering by issuing 2,000,000 shares of our common stock and raising \$200,000. The funds were used to date are as follows:

Consulting Fees	\$	85,492
General and Administrative Fees		40,865
Legal and Accounting		61,581
Mining Exploration		14,000
Total remaining	\$	<u>8,612</u>

ITEM 3. DEFAULTS UPON SENIOR SECUTITIES.

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

None.

ITEM 5. OTHER INFORMATION.

None.

ITEM 6. EXHIBITS AND REPORTS OF FORM 8-K.

The following documents are included herein:
