COMMISSION  
WASHINGTON, D.C. 20549

Mail Stop 3720

March 12, 2008

Mr. R. Scott Murray  
Chief Executive Officer  
Global BPO Services Corporation  
125 High Street, 30<sup>th</sup> Floor  
Boston, MA 02110

**Re: Global BPO Services Corporation  
Preliminary Proxy Materials on Form PreM14A  
Filed on February 12, 2008  
File No. 1-33739**

Dear Mr. Murray:

We have reviewed your filing and have the following comments. Please amend the filing in response to these comments. If you disagree, we will consider your explanation as to why our comment is inapplicable or a revision is unnecessary. Please be as detailed as necessary in your explanation. In some of our comments, we may ask you to provide us with supplemental information so we may better understand your disclosure. After reviewing this information, we may or may not raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filing. We look forward to working with you in these respects. We welcome any questions you may have about our comments or on any other aspect of our review. Feel free to call us at the telephone numbers listed at the end of this letter.

Preliminary Proxy Statement on Schedule 14A

1. Please revise your preliminary materials to include a form of proxy as an appendix to your proxy statement. See Item 14a-4 of Regulation 14A. When you

provide your form of proxy, please indicate which proposals are conditioned on the approval of others. See Rule 14a-4(a).

2. Please provide us with marked copies of any materials that support any third party statements, clearly cross-referencing each statement with the underlying factual support. We note, for example, the cite to the Outsourced Customer Care Industry Report, 2007, by Robert W. Baird on page 102.

#### Letter to Stockholders of Global BPO Services Corporation

3. We note disclosure in paragraph six, page two of the letter to stockholders that “each of GBPO’s founding stockholders has agreed to vote all shares of GBPO common stock acquired prior to the IPO, and any shares of common stock acquired in or after the IPO, in the same manner as the majority of the votes cast by the holders of the common stock issued in the IPO other than the founding stockholders.” Please revise to indicate here and elsewhere the percentage of shares outstanding that the referenced shares represent.

#### Notice of Annual Meeting of Stockholders

4. We note that in addition to mailing out proxy materials, GBPO’s chief executive officer, chairman of the board and other officers may solicit proxies by telephone or fax. Please note that all written soliciting materials, including any scripts used in soliciting proxies over the telephone, must be filed under the cover of Schedule 14A. See Rule 14a-6(b) and (c). Please confirm your understanding in the response letter.

#### Summary of the Material Terms of the Merger, page 1

5. Please revise to consolidate your summary term sheet and the additional summary section beginning on page 13. Note that your summary section should be in the form of a summary term sheet in bullet point format in accordance with Item 1001 of Regulation M-A. Furthermore, the Q&A should not repeat any information that appears in the summary, and vice versa. Please limit the discussion in the Q&A section to short, clear answers to material procedural questions, leaving brief summaries of the material substantive aspects of the proposals for your summary section.
6. Please include brief disclosure regarding the diminished ownership current GBPO shareholders will have in the surviving company should the propose acquisition be effected. We note disclosure on page 92. Please likewise quantify this reduction in equity interest of existing shareholders at “GBPO will issue shares of its capital stock to complete the merger with Stream, which will reduce the equity interest of its stockholders” at page 48 in your Risk Factors section.

Questions and Answers, page 3

Why is GBPO proposing the merger?, page 3

7. Please revise to briefly balance your statements regarding Stream's expertise in the CRM industry, client relationships, and revenue base with disclosure regarding Stream's history of losses and accumulated \$2.86 million deficit.

What vote is required in order to adopt the merger proposal?, page 5

8. Where you describe the approval necessary in each instance to adopt a proposal at the annual meeting, please revise to indicate the percentage of outstanding common shares entitled to vote held by GBPO's officers, directors, and their affiliates.

Did GBPO's board of directors obtain a fairness opinion in connection with its approval of the merger agreement?, page 6

9. Please revise to disclose the total fee that Bear Stearns will receive and specifically note the amount and percentage of the fee that will be paid only if the merger is successfully consummated. In addition, revise the reference to the advisor's opinion and analyses appearing in "Reasons for the Recommendation of the Board of Directors" to address the contingent payments.

How is GBPO paying for the cash portion of the merger consideration?, page 8

10. Please update the appropriate sections of your preliminary proxy materials to reflect the agreement with PNC entered into on February 11, 2008 regarding senior secured credit facilities up to an aggregate of \$108,695,428, as referenced in your Form 8-K Item 1.01 disclosure of February 14, 2008.

Summary of the Proxy Statement, page 13

The Merger, page 14

11. Disclose the percentage of your total outstanding common stock represented by the shares underlying all the securities being issued to Stream in the merger.

GPBO's Founding Stockholder Ownership, page 17

12. We note that your founding stockholders have only agreed not to vote their shares independently of the majority of other stockholders with regards to the merger

proposal. Therefore, clarify whether your founding stockholders intend to vote in favor of the other proposals.

Pro Forma information, page 24

13. We note that you allocated the purchase price based on the current book value of Stream's tangible assets and liabilities and disclose that the final valuation estimates may differ materially. Please revise your disclosure to identify any significant liabilities and tangible and intangible assets likely to be recognized when the valuation is completed. For example, it appears that Stream has customer relationships that may qualify for recognition as an intangible asset.

Risk Factors, page 33

Our outstanding warrants may be exercised in the future, which would increase the number of shares eligible for future resale in the public market and result in dilution to our stockholders., page 33

14. Disclose Global BPO's stock price as of the most recent practicable date relative to the exercise price of the warrants. Specifically address the dilutive impact that will result if these presently in-the-money warrants are exercised. The current disclosure is too generic.

GBPO does not have any operations and Stream has never operated as a public company. Fulfilling Stream's obligations as a public company will be expensive and time consuming., page 37

15. Please revise to include, if ascertainable, the costs associated with fulfilling Stream's obligations to satisfy the requirements of Item 404 of the Sarbanes-Oxley Act.

GBPO and Stream expect to incur significant costs associated with the merger...which will reduce the amount of cash otherwise available for other corporate purposes., page 40

16. Please revise to briefly describe and quantify the costs associated with the merger.

A substantial portion of Stream's revenue is generated from a limited number of clients, and the loss of one or more of these clients would materially reduce Stream's revenue and cash flow and adversely affect Stream's business., page 40

17. Disclose the identities of your three largest clients referenced here and in your business section.

Stream depends on third-party technology which...could result in increased costs or delays in the production and improvement of its products or result in liability claims., page 43

18. Please revise to indicate whether the third-party software is licensed exclusively to Stream.

Annual Meeting of GBPO Stockholders, page 51

The Merger Proposal, page 57

Background of the Merger, page 57

19. Provide us with any analyses, reports, presentations, or similar materials, including projections and board books, provided to or prepared by Bear Stearns in connection with rendering its fairness opinions. We may have further comment upon receipt of these materials. Also provide us with a copy of the engagement letter with Bear Stearns.
20. We note that H.I.G owns 99% of the common stock in Stream, and Rick Rosen controls H.I.G. Disclose the number of other Stream shareholders.
21. Please revise to clarify, on page 58, whether the database of over 100 potential acquisition targets was compiled entirely by management of GBPO, or whether GBPO received third party assistance in compiling the list of targets from a financial or other advisor.
22. Please revise page 58 to expand upon the discussion of the 12 potential acquisition targets. Revise to briefly describe their size and the nature of their businesses, and provide an expanded discussion of why none of these companies, other than Stream, resulted in a letter of intent or definitive agreement regarding a potential business combination.
23. We note that following the closing of the IPO, Mr. Rick Rosen, a managing director of H.I.G., which entity controls over 99% of the common shares of Stream, called Mr. Murray to congratulate him on the pricing of the GBPO initial public offering. Please revise to disclose any relationship between Mr. Rosen and Mr. Murray that existed on and prior to October 23, 2007. Please also revise to identify all Mr. Murray's connections, associations, and affiliations, past and present, with Stream, including its predecessors and affiliates. We note, for example, disclosure in your Investor Presentation materials not reflected in the proxy materials that "Stream [was] sold in 2001 by Murray/Bain Capital to Soletron for \$375 million." Please provide similar disclosure with respect to

Mr. Linnell and, to the extent relevant to explaining the background of the merger, Mr. Stephen D.R. Moore and Ms. Deborah Keeman.

24. Please revise paragraph four to clarify why Mr. Murray was interested especially in purchasing Stream from H.I.G.'s portfolio.
25. Please revise to disclose, in the final paragraph on page 58, why Mr. Rosen agreed to explore a possible sale of Stream to GBPO, "but only on the condition that GBPO commit to decide quickly whether to proceed...and to move quickly toward a definitive acquisition agreement." In light of earlier disclosure that Mr. Rosen said Stream was not for sale, please clarify how the ability of GBPO to proceed quickly in negotiations and effect a definitive acquisition agreement led him to change his position.
26. Please revise, on page 59, to indicate why GBPO apparently did not proceed in considering the other 7 other acquisition candidates it had identified and with which it had entered into NDAs subsequent to November 16, 2007. Clarify the date upon which GBPO determined that Stream would be the sole focus of its endeavors to pursue an acquisition.
27. Please provide more insight into the reasons for and negotiations behind management's decisions beginning on November 21, 2007, regarding the ultimate amount and form of merger consideration, and the provisions of the merger agreement providing for both upward and downward adjustment mechanisms. Clarify whether management had third-party assistance in this regard. We note that GBPO did not engage financial consultant Gillian Hsieh until December 19, 2007, and that Bear Stearns "did not participate in any negotiations regarding the determination of the amount of consideration, nor did they assist in structuring the transaction."

GBPO's Board of Directors' Reasons for the Approval of the Merger, page 61

The terms of the merger agreement, page 62

28. Please revise to expand upon why the board deemed the terms and conditions "reasonable" to adequately protect GBPO's interests in the merger. We note, for example, that while GBPO is required to pay a fee in the event of terminating the merger agreement, Stream has no comparable obligation. We further note risk factor and other disclosure indicating the limitations of the indemnification provisions from the point of view of GBPO.

Other Factors, page 63

29. We note that you have not included disclosure regarding whether the GBPO board of directors deemed Stream's history of losses and accumulated deficit as a potentially negative factor. Please advise or revise.

Satisfaction of 80% Test, page 63

30. Revise this section to clearly explain the basis for the board's determination that the 80% test has been met, aside from relying upon Bear Stearn's opinion. In other words, clarify how the board members conducted their financial analysis to assess the value of Stream. Please include a reasonably thorough description of their analysis. In the analysis, please address the statement on page 31 that GPBO had not yet completed its assessment of the fair value of Stream assets to be acquired.

Certain Financial Projections, page 65

31. Please disclose, or confirm that you have disclosed in this section, all financial projections exchanged between GBPO and Stream and all Stream projections reviewed by GBPO's advisors, or advise us why they are not material. Also disclose the bases for and the nature of the material assumptions underlying the projections.

Discounted Cash Flow Analyses, page 70

32. Please expand your disclosure to include the long term perpetual growth rates used for purposes of the discounted cash flow analyses, and how the range compares with Stream's historical growth rates.

Precedent Merger and Acquisitions Transactions Analysis, page 72

33. Please revise to include the dates upon which the selected precedent transactions closed. Likewise, please briefly describe why these transactions were deemed relevant precedent merger and acquisition transactions for purposes of comparison.
34. Clarify whether the list of comparable companies and precedent merger and acquisition transactions were the only ones that met Bear Stearn's selection criteria, and if not, why the companies or transactions were excluded from the analyses and the reasons for making such exclusions.

Summary of 80% Test, page 73

35. We note that Bear Stearns references the results of its analyses in support of its conclusion that the fair market value of Stream is at least 80% of the net assets of GPBO held in trust. However, clarify whether Bear Stearns' conclusion is based on the various enterprise range of values calculated for Stream that take into consideration GPBO's planned revenue enhancements, and if so, why this is appropriate in light of the uncertainty involved with these prospective measures.

U.S. Federal Income Tax Consequences of the Merger, page 75

36. Please revise paragraph five to confirm that your summary discussion of federal tax consequences of the merger sets forth all material income tax consequences to investors arising out of the merger.

The Merger Agreement, page 80

GBPO's Conditions to Closing, page 86

37. Please revise to briefly describe and specify the "necessary consents and approvals by third parties" Stream must receive as a condition to closing.

Extension; Waiver, page 90

38. Your disclosure here suggests that the material conditions to the merger, other than the 30% conversion condition, may be waived by either Global or Stream. Disclose whether it is the intent of Global's board to resolicit shareholder approval of the merger if either party waives a material condition. We believe that resolicitation is generally required when companies waive material conditions to a merger and such changes in the terms of the merger render the disclosure that you previously provided to shareholders materially misleading.

The authorized share proposal, page 91

39. Please revise, as applicable, to address any potential anti-takeover effects of having a substantial number of authorized and unreserved shares. If true, state that the additional shares could be used by management to resist a takeover effort. Refer to Release No. 34-15230.

The Post-Closing Charter Amendment Proposal, page 93

40. Please include the current versions of the relevant sections of the charter, such that readers may easily compare them to the proposed revised sections.

The Incentive Plan Proposal, page 94

41. To the extent practicable, please revise to provide the tabular disclosure set forth in Item 10, Schedule 14A. Please see Item 10(a)(2)(i) and (iii) to Regulation 14A.

Business of Stream, page 102

High Renewal Rates, page 104

42. Please revise to quantify Stream's "consistent success in renewing its client contracts when they come up for renewal."

Experienced Management Team, page 104

43. Please revise to clarify that following the proposed merger, the team to which you make reference may not necessarily remain with the company.

Markets and Clients, page 106

44. We note your earlier statements that over 74.4% of your revenues for the nine months ended September 30, 2007 were attributed to your international operations and that most of your clients are located in the United States. Please clarify, if true, that while most of your clients are located in the United States, they are generally served by your employees located in foreign countries. In addition, please clarify in MD&A whether your growth strategy entails expanding your client base to include more international clients, expanding your employee base to include more foreign employees or a combination of both.

Competition, page 107

45. To the extent known or reasonable ascertainable, please revise to indicate Stream's competitive position relative to the companies you have identified as being competitors.

Management's Discussion and Analysis—Stream, page 109

46. The Commission's Interpretive Release No. 33-8350, "Commission Guidance Regarding Management's Discussion and Analysis of Financial Condition and Results of Operations," located on our website at <http://www.sec.gov/rules/interp/33-8350.htm>, suggests that companies identify and disclose known trends, events, demands, commitments and uncertainties that are reasonably likely to have a material effect on financial condition or operating performance.

Please consider expanding your discussion of any known trends or uncertainties that could materially affect Stream's results of operations in the future, including any trends management considers meaningful for investors in understanding the combined company's prospects after the merger. For example, address the costs associated with effecting your expansion plans to offer new services in new locations and invest in new technology. Address the specifics of management's "revenue enhancements" that are planned for Stream's operations. As another example, address what changes you expect as a result of becoming a public company. In this regard, we note your disclosure under the risk factor "GBPO does not have any operations and Stream has never operated as a public company. Fulfilling Stream's obligations as a public company after the merger will be expensive and time consuming," beginning on page 37.

47. Please revise to provide more robust disclosure concerning Stream's service contracts. Please indicate, for example, the percentage of contracts whose duration is one year or less, as well as the percentage where Stream is not the exclusive service provider. Please indicate the percentage of such contracts that have been renewed historically. Finally, indicate any costs involved in the event of early termination.

#### Results of Operations, page 112

48. Expand your discussion to include management's assessment of the reasons behind material changes. For example, for the nine months ended September 30, 2007, revenues increased from existing customers when compared to the same period during 2006; however, there is no detail as to why such revenues increased. Nor is there a clear explanation as to why the company's debt levels materially increased during this period. In updating for the year ended December 31, 2007, please ensure that all material changes between period are clearly explained.
49. Include a discussion of the company's net income (loss) for the periods being presented.

#### Liquidity and Capital Resources, page 115

50. Please revise to discuss Stream's ability to meet liquidity needs in the next twelve months as well as long-term liquidity needs. Note that we consider "long-term" to be the period in excess of the next twelve months.
51. You disclose a significant increase in "accrued, unbilled" receivables in Note 3, Accounts Receivable, at page F-26 of the financial statements. Disclose the reasons for the increase in unbilled receivables and the impact on your liquidity and capital resources.

Senior subordinated secured notes, page 116

52. Please revise to indicate if Stream is in compliance with the covenants contained in the indentures governing the notes.

Contractual Obligations, page 117

53. You do not appear to have included the senior subordinated secured notes due July 31, 2009, in your tabular disclosure of long-term debt obligations. Please advise or revise.

Goodwill, page 119

54. Please expand the disclosure of your procedures for evaluating potential goodwill impairment to address the specific uncertainties associated with the methods, assumptions, or levels of judgment you use in estimating the fair value of Stream's one reporting unit. You should also discuss the potential sensitivity of your estimates to change and quantify the effects where practicable and material. Also consider whether the disclosure of your other accounting policies, such as stock-based compensation, fully address the relevant uncertainties of accounting estimates and assumptions. For additional guidance, refer to Item 303 of Regulation S-K as well as section V of the Commission's Interpretive Release on Management's Discussion and Analysis of Financial Condition and Results of Operations, which is located on our website at: <http://www.sec.gov/rules/interp/33-8350.htm>.

Management's Discussion and Analysis—GBPO, page 126

55. We note the disclosure in your Form S-1 and your proxy that, although the company seeks to have all vendors, prospective target businesses or other entities it engages execute agreements waiving any right, title, interest or claim of any kind in or to any monies held in the trust, there is no guarantee that they will execute such agreements. Please revise here and where appropriate to update your efforts in this regard for Bear Stearns and any vendors or other entities you have engaged since the IPO.
56. We also note disclosure that the company's directors severally agreed that they will be personally liable to ensure that the monies in the trust are not reduced by the claims of target businesses or vendors or other entities that are owed money by GBPO for services rendered, contracted for or products sold to GBPO. Similarly revise to identify the expenses incurred to date and possible future obligations, such as the up to \$3.5 million in termination fees GBPO could potentially pay Stream, for which the officers and directors are or will be liable,

and identify those expenses and possible future obligations for which they are or will not be liable.

57. Please revise to clarify the company's obligation to bring claims against the directors to enforce such obligations.

Certain Relationships and Related Party Transactions, page 140

58. Please revise paragraph 3, page 141 to quantify the out-of-pocket expenses incurred to a recent practicable date.

Financial Statements

Age of Financial Statements

59. Please update your financial information to include audited financial statements of Global BPO Services Corp and Stream Holdings Corporation as of December 31, 2007 as required by Rule 3-12 of Regulation S-X. Also, update the pro forma financial information to include only the most recent fiscal year.

Statements of Operations, page F-15

60. It appears that your presentation of direct cost of revenue excludes depreciation and amortization for property and equipment that is directly attributable to the generation of revenue. If this is true, your statement of operations inappropriately presents a figure for gross profit that excludes depreciation. Please describe for us the nature and amount of each significant component of depreciation and amortization expense. Tell us how you considered the guidance in SAB Topic 11:B.

\* \* \* \* \*

As appropriate, please revise your preliminary proxy materials in response to these comments. You may wish to provide us with marked copies of the revised proxy statement to expedite our review. Please furnish a cover letter with your amendment that keys your responses to our comments and provides any requested supplemental information. Detailed cover letters greatly facilitate our review. Please understand that we may have additional comments after reviewing your amendment and responses to our comments.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes all information required under the Securities Exchange Act of 1934 and that they have provided all information

Mr. R. Scott Murray  
Global BPO Services Corporation  
March 12, 2008  
Page 13

investors require for an informed investment decision. Since the company and its management are in possession of all facts relating to a company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.

In connection with responding to our comments, please provide, in writing, a statement from the company acknowledging that:

- the company is responsible for the adequacy and accuracy of the disclosure in the filings;
- staff comments or changes to disclosure in response to staff comments in the filings reviewed by the staff do not foreclose the Commission from taking any action with respect to the filing; and
- the company may not assert staff comments as a defense in any proceeding initiated by the Commission or any person under the federal securities laws of the United States.

In addition, please be advised that the Division of Enforcement has access to all information you provide to the staff of the Division of Corporation Finance in our review of your filing or in response to our comments on your filing.

You may contact Paul Monsour, Accountant, at (202) 551-3360 or Terry French, Accounting Branch Chief, at (202) 551-3810 if you have questions regarding comments on the financial statements and related matters. Please contact Paul Fischer, Attorney-Advisor, at (202) 551-3415 or me at (202) 551-3810 with any other questions.

Sincerely,

Larry Spigel  
Assistant Director
