Disclaimer

The information in this presentation contains, and our responses to various questions may include, certain forward-looking statements which reflect our view as of this date of future events and financial performance. Forward-looking statements include, but are not limited to, statements regarding our expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words “anticipates,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. The forward-looking statements contained in this report are based on our current expectations and beliefs concerning future developments and their potential effects on us and speak only as of the date of such statement. There can be no assurance that future developments affecting us will be those that we have anticipated. In addition, our future results of operations could differ materially from historical results or current expectations, as more fully discussed in our safe harbor statements found in our SEC filings.

These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to: (i) the risk that the businesses acquired in our initial acquisition will not be integrated successfully or such integration may be more difficult, time-consuming or costly than expected; (ii) revenues following the acquisitions may be lower than expected; (iii) the ability to obtain governmental and regulatory approvals of the acquisitions on the proposed terms and schedule; (iv) the failure of our shareholders to approve the acquisitions; (v) general volatility of the market price of our securities; (vi) governmental, regulatory and public policy changes; and (viii) material differences in the actual financial results of acquisitions and acquisition activities compared with our expectations, including the full realization of anticipated cost savings and revenue enhancements. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

The industry and market data contained in this presentation is based either on management's own estimates, independent industry publications, reports by market research firms or other published independent sources and, in each case, are believed by management to be reasonable estimates. However, industry and market data is subject to change and cannot always be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties inherent in any statistical survey of market shares. We have not independently verified market and industry data from third-party sources. In addition, consumption patterns and consumer preferences can and do change. As a result, you should be aware that market share, ranking and other similar data set forth herein, and estimates and beliefs based on such data, may not be verifiable.

Key Investment Considerations

GCAC is recapitalizing a newly formed Nevada bank holding company to be called Western Liberty Bancorp (“WLB”) with up to approximately \$300 million of new equity, creating one of the best capitalized commercial banks in the Southwest region.

- **Opportunity:** Attractive target markets with strong demographics, growth potential and limited competition
 - Market turmoil positions WLB to participate in government-assisted deals and to make prudent acquisitions to support organic growth
 - Pullback of existing lenders creates an opportunity for a well-capitalized institution to be highly selective in underwriting decisions
- **Management:** Experienced local management team with knowledge, expertise and established relationships vital to successful deposit gathering
- **Sponsorship:** Financial sponsor has over 55 years of cumulative experience providing capital to Nevada businesses and significant credit judgment. Additional commitment through up to \$140 million of privately negotiated share repurchases
- **Earnings Power:** Resulting balance sheet could allow for over \$2.00 in EPS power
- **Valuation:** Creating WLB at estimated 1.28x tangible book value (equates to \$7.75 per share) with excess capital (32% tangible common ratio) to support significant EPS growth

Note: All financial data assumes no shareholders elect to redeem their shares for cash in trust.

DeSPACing the SPAC

Restructuring removes any legacy SPAC concerns.

- Criticism of the SPAC structure
 - Current shareholders could vote no and deal won't close
 - Dilution from Founder's (Sponsor) Shares
 - Dilution from Warrants
 - Limited incentive for sponsor group to create value post transaction
- GCAC has resolved all potentially negative SPAC attributes via restructuring
 - Sponsor will provide a \$140mm backstop facility to make it likely that the transaction closes
 - Cancellation of Founder's Shares eliminates substantial dilution
 - Restrike of warrant class from \$7.50 to \$12.50 eliminates dilution and can become an accretive source of capital going forward
 - Issuance of out of the money warrants to sponsor creates substantial alignment with shareholders

Western Liberty Bancorp (WLBC) will have a “clean” corporate structure, well-aligned management and be well-positioned to create shareholder value

Transaction Summary

- GCAC will concurrently recapitalize:
 - The Nevada branch franchise (“NevOps”) of Colonial Bank, a subsidiary of Colonial BancGroup (NYSE: CNB), a \$26 billion financial services company headquartered in Montgomery, Alabama
 - 1st Commerce Bank, a small de novo Nevada bank formed by Capitol Bancorp Limited (NYSE: CBC) and local Nevada executives. 1st Commerce carries a Nevada bank charter

- Following the proposed transaction, Western Liberty Bancorp will include the following:
 - 22 branch franchise locations located in the State of Nevada
 - \$477 million of gross loan assets
 - \$534 million of total deposits
 - Up to \$297 million in cash

- As part of the recapitalization, GCAC has selected only those loan assets of NevOps that it deems to be higher quality credits and has been able to leave the seller with all other loans

WLB will be positioned to be a dominant community bank in Nevada and expects to be able to take advantage of opportunistic situations

Transaction Summary (cont)

WLB will be a “new” financial institution in Nevada.

- Community bank focused on conservative business and commercial real estate lending, consumer lending, treasury management services, trade finance and depository products
- Burden from troubled legacy loans mitigated by self-selection of portfolio
- Well-capitalized with ability to meaningfully grow balance sheet and take advantage of distressed bank situations
- Excess capital available to participate in government-assisted transactions
- Discussions underway to add several highly-seasoned and well-regarded senior bankers on a post-closing basis

Creating Western Liberty Bancorp

Recent Private Equity Activity in Commercial Banking

There has been significant private equity interest spurred by current dislocation within the sector. WLB is unique in offering public investors a chance to participate.

Five other private equity investors participated in the deal

^ BankUnited FSB failed, investors acquired banking operations from FDIC and injected \$900 million in capital into the institution

^^ Investors purchased IndyMac's assets, assumed the deposits at a discount of \$4.7 billion and injected \$1.55 billion in common equity

Nevada Business Climate

- From 2000 to 2008, Nevada has grown by over 30% to more than 2.6 million people
 - Clark County has grown more than 35% to approximately 1.9 million people
- Nevada offers one of the most favorable tax structures in the nation and is consistently cited as having one of the best overall business climates in the nation
- Nevada's tax structure is designed to be less burdensome to businesses and their employees
 - No corporate income tax
 - No personal income tax
 - No inventory tax
 - Property Tax
 - Property tax in Clark County is approximately \$3.03 per \$100 assessed value (assessment ratio is 35%)
 - Sales Tax
 - Sales Tax in Southern Nevada is 8.1%
 - Nevada does not charge sales tax on food items for home use, medicine or medical services
- Nevada, in particular Las Vegas, attracts a significant number of wealthy entrepreneurs
- Nevada also boasts attractively low rates for workers' comp and a pro-business attitude
- Landlords currently offering attractive incentives to business owners including large tenant improvement allowances, lower rental rates and generous free rent promotions
- Las Vegas is likely to regain its "value" status with lower cost of living
 - Lower cost of living including reduced housing costs and a low tax structure will continue to attract retirees and other residents to the region
- We believe these factors are even more important today given the challenging business environment and will help Las Vegas with strong growth as the economy rebounds

(2) Trust asset management

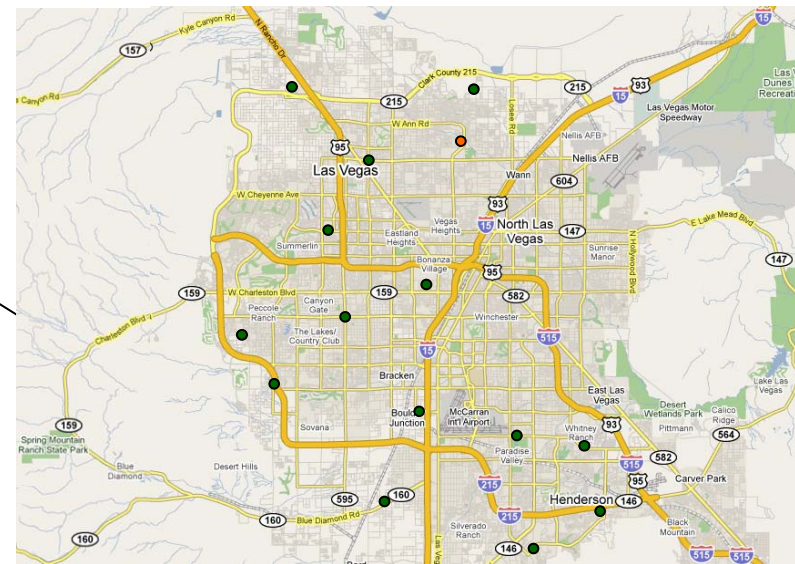

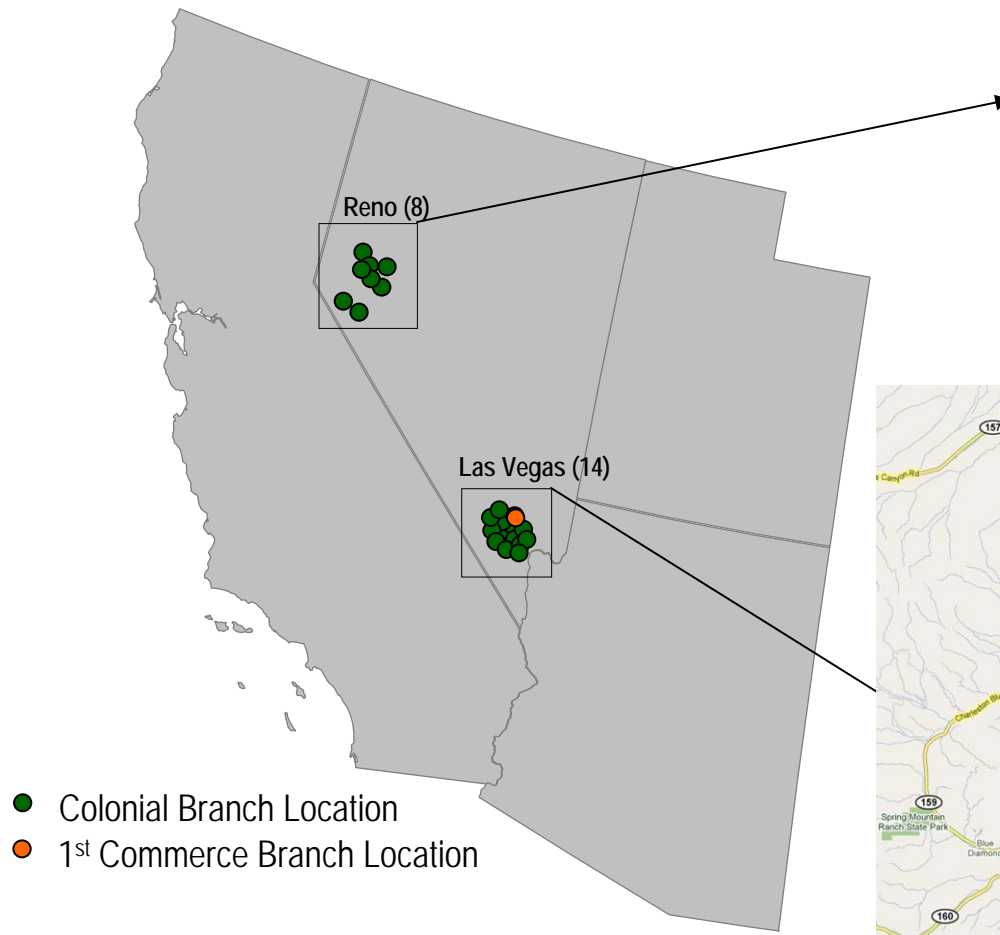

Western Liberty Bancorp Deposit Base

Pro forma portfolio includes \$533.7 million in total deposits and has minimal exposure to high-cost brokered deposits and CDARs, which are expected to burn off upon maturity.

Geographic Footprint - Branch Locations

- 22 branch locations located throughout Nevada
- Branch network provides a stable source of low cost deposits

Balance Sheet Potential

WLB is expected to have a substantial Tangible Book Value (relative to the size of its loan portfolio) upon closing. Assuming a range of capital ratios and pro forma Tangible Book Values, WLB could grow its balance sheet significantly.

| Sensitivity of Potential Loan Portfolio | | | | |
|---|-------|--|--------------|--------------|
| | | Illustrative Initial Tangible Book Value (\$ millions) | | |
| Tier I Leverage Ratio | | <u>\$200</u> | <u>\$250</u> | <u>\$300</u> |

Self-Selected Loan Portfolio

GCAC was prudent in its loan selection process.

Loan Selection Process

GCAC engaged Crowe Horwath's Financial Institutions practice to conduct in-depth reviews of the NevOps and 1st Commerce loan assets targeted by GCAC.

- GCAC's diligence team vetted selected loans with a seller assigned risk grade of 3 or 4 and any loans with a risk grade of 5 or higher
 - The team evaluated loans based upon the following factors:
 - Type of loan
 - Independent assessment of current collateral value
 - Debt service coverage
 - Strength of guarantor support
 - Only the loans deemed to have lower risk of default were selected for inclusion in the WLB loan portfolio
- Crowe Horwath's team of loan review specialists conducted on-site examinations of current credit files, including collateral and financial information, for approximately 65% of the Western Liberty Bancorp's gross loan assets
 - The loan review specialists assigned a risk grade to each loan based upon their observations and findings and provided GCAC with rationale for any downgrade recommendations
 - Crowe audited the internal procedures of both Colonial NevOps and 1st Commerce

WLB expects to operate with minimal exposure to the "legacy" loan problems afflicting other commercial banks in the area

Allocation of Portfolio by Loan Type

New loan portfolio is diversified across various assets classes.

Commercial Real Estate book has been extensively reviewed by GCAC

Western Liberty Bancorp Illustrative Valuation

WLB is being created at a compelling valuation relative to its peer group, despite a likely lesser risk of loan quality deterioration than the comp set.

Western Liberty Bancorp Illustrative Value Creation

GCAC expects to eliminate as much as \$168.7 million in potential dilution to existing shareholders through restructuring of warrants and founders' shares.

- Warrants: Each warrant is proposed to be exchanged for 1 warrant with an out-of-the-money strike price
- Founders' Shares: at least 90% of founders' shares will be exchanged for 1 warrant with the same terms as those that the warrant holders receive

Note: Assumes no shareholders elect to redeem their shares for cash in trust.

Summary

WLB will be well-positioned to become Nevada's leading community bank.

- Opportunity to create a “fresh start” Nevada community bank
- WLB will inherit a significant footprint from 1st Commerce and Colonial
 - Both 1st Commerce and Colonial provide WLB with an established community banking platform and a strong retail and commercial banking presence which are vital for efficient deposit gathering
 - Significant relationships within the Nevada community through existing 1st Commerce and Colonial bankers
 - WLB has selected the highest quality assets from both banks
- Sponsorship has significant experience, recognition and relationships in the Nevada market
- WLB expects to have excess capital to grow balance sheet to support significant EPS growth which could reach over \$2.00 per share
 - Creating WLB at estimated 1.28x tangible book value with a 32% tangible common ratio, assuming no shareholders elect to redeem their shares for cash in trust
 - Ability to make non-“legacy” loans at attractive spreads
 - Excess capital makes WLB an attractive partner for regulators as they deal with problem institutions in the region

APPENDICES

Warrant and Founder's Share Restructuring

On July 14th, GCAC announced that it had entered into agreements to consummate an initial acquisition. As part of this process, GCAC is in the process of amending the terms of its warrants to facilitate shareholder approvals of the transactions. GCAC expects to obtain consents from requisite holders of the warrants to:

- Amend the strike price of the existing warrants from \$7.50 per share to \$12.50 per share
- Extend the duration of the warrants from 3.2 years to 7 years from the closing of the transactions
- Amend the trigger price for the warrant redemption from \$14.25 to \$21.00 per share
- Provide dividend protection until such time as the common stock trades above \$18.00

As part of the warrant amendments, GCAC's sponsorship would agree to restructure at least 90% of the Founder's Shares into identical warrants .

- Each Founder's Share that is restructured will be exchanged for 1 warrant
- Sponsor entered into a support agreement to help facilitate the acquisition.
 - Under the terms of the support agreement, our sponsor may, at its option, purchase shares through privately negotiated transactions.
 - Both the support agreement and sponsor restructuring of its Founders Shares are conditioned on a successful amendment of the warrants

Lessons Learned

| Issues | Solution |
|--|--|
| Aggressive Loan Underwriting Policies | <ul style="list-style-type: none"> • Excess liquidity drove ever increasing home prices resulting in bubble • Result was sustained period of artificially low defaults • False sense of security drove lenders to underwrite riskier loans—sub-prime, high LTV, “liar” loans, etc. |
| Poor Corporate Loan Underwriting and Heavy Reliance on Guarantees | <ul style="list-style-type: none"> • Private banking will make select mortgage loans to top customers • Conservative mortgage underwriting policies • Focus on secondary market originations versus portfolio mortgage loans |

Growth Strategy Focused on Core Deposits

Retaining and expanding the core deposit base is critical to the growth trajectory of a healthy bank.

- Deposit Strategy

- Branch network provides a stable secure source of low cost deposits
 - Grow core deposits through local relationships, an extensive branch network and traditional business and private banking
 - Focus on most attractive and profitable market segments
-
- Management team consisting of top producers with track record of success in our target markets

- Focus on Business Banking as our core strategy

- Acquire attractive deposit portfolios in government assisted transactions

High Quality Loan Portfolio & Prudent Lending

WLB will leverage community relationships to source loans and will utilize local decision making to increase the efficiency and effectiveness of our underwriting.

- Prudent underwriting techniques and focus on quality loans with strong collateral
 - Avoidance of trouble loans—subprime, high LTV, speculative projects, etc.
 - Real Estate: Focus on owner occupied and income producing
 - Apply detailed credit underwriting principles garnered from years of debt financing experience
 - Sponsor team will be highly focused on downside risk in the loan approval process
- Leverage relationships within our target markets to identify attractive opportunities
 - Our team consists of established producers with local knowledge and established relationships
- Intensive client coverage and calling effort
 - Focused calling effort to identify and target opportunities to grow and expand client base
- Utilization of local decision-making
 - Will not only increase the speed of the decision-making process, but will also increase the quality of our underwriting
 - Knowledge of local markets and clients will enable us to closely monitor market conditions and actively manage our portfolio and decision-making criteria
- Diversification
 - Strategy will utilize prudent diversification practices to minimize exposure to any particular industry or client

Credit Process

WLB will have a robust credit process that will be focused on conservative loans with attractive pricing.

¹50.4% of the 57% of Commercial Zoned Land is comprised of 2 large institutional parcels, one of which is located on the Las Vegas Strip.

Operational & Systems Overview

- WLB will utilize the latest technology to operate its core banking systems for loan and deposit processing
 - Expanded use of the latest technology systems will be utilized for online banking, teller and new account platforms, credit administration, management reporting, general ledger, regulatory reporting, treasury management, human resources and payroll systems
 - Outsourcing services will be evaluated on a cost benefit analysis against an in-house installation
- Existing in house operations staff will continue to perform the following functions:
 - Branch audit and control functions
 - Loan processing, maintenance booking, documentation review and related functions
 - Compliance and security (reporting to Risk Management)
- Accounting, accounts payable, liquidity forecasting, budgeting, financial and regulatory reporting will be managed by the CFO and accounting/finance support staff
- Pricing and liquidity management functions will be handled by the Asset/Liability Committee consisting of the CEO, CFO, CCO and retail bank management personnel
- WLB will be entitled to some transition services from both Colonial and Capitol

Competitive Situation

The recent financial crisis has negatively impacted the banking industry and severely limited available capital.

- The banking industry has seen an increased number of closures in 2008 and 2009
- Target market of Nevada has been hard hit by the crisis
- The banks that remain are plagued with distressed real estate assets and are expected to be managing legacy portfolio and capital issues for the foreseeable future
- The result is a shrinking competitive landscape and severely limited available capital
- WLB's strong capital base and balance sheet comprised of self-selected loans will provide a competitive advantage which will position the company to capitalize on current industry conditions.
- There is pent up demand for lending within Nevada as a result of the recent economic downturn and credit crises
- Only the mega banks currently offer specialized segmented lending in key Nevada business line drivers such as Gaming, Leisure, Alternative Energy, Franchisee Financing, Health Care and Leasing
- Illiquidity and restructurings are creating distressed asset acquisition opportunities in need of financing
- Developers, buyers, sellers and lenders are becoming more realistic about the current economic situation which should allow for transactions to occur in 2009 and 2010, providing lending opportunities

Well Capitalized with Strong Liquidity

WLB's balance sheet will be well capitalized at closing.

Note: Assumes no shareholders elect to redeem their shares for cash in trust.
