REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Member
of Cardinal Capital Management, LLC

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Cardinal Capital Management, LLC (the Company) as of December 31, 2022, and the related notes (collectively referred to as the financial statement). In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of Cardinal Capital Management, LLC as of December 31, 2022 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of Cardinal Capital Management, LLC's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to Cardinal Capital Management, LLC in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We have served as Cardinal Capital Management, LLC's auditor since 2015.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

CARDINAL CAPITAL MANAGEMENT, LLC

Notes to Financial Statement

December 31, 2022

1. Organization and Business

Cardinal Capital Management, LLC (the "Company"), an Illinois limited liability company, was organized on May 23, 2007. Effective July 1, 2016 the Company restructured, wherein each of the Members' interests were contributed to Cardinal Capital Group LLC, which in turn contributed all of its interests to Cardinal Capital Holdings LLC. The Company is a broker-dealer registered with the Securities and Exchange Commission and is a member of the Chicago Board Options Exchange, and the Chicago Mercantile Exchange. The Company engages primarily in the proprietary trading of exchange-traded futures contracts, options on futures contracts, and index options contracts.

2. Summary of Significant Accounting Policies

Revenue Recognition and Securities Valuation

Securities transactions and related commission expenses are recorded on a trade date basis and, accordingly, gains and losses are recorded on unsettled transactions. Futures transactions and resulting gains and losses are recorded on a trade date basis, and, accordingly, gains and losses are recorded on open futures contracts.

Securities owned and securities sold, not yet purchased are recorded in the statement of financial condition at fair value in accordance with Accounting Standards Codification (ASC) 820 - Fair Value Measurement and Disclosures (see Note 6).

Realized and unrealized gains or losses from securities and futures trading are included in trading gains in the statement of operations.

Use of Estimates

The preparation of financial statement in conformity with United States Generally Accepted Accounting Principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Income Taxes

No provision has been made for federal income taxes, as the taxable income of the Company is included in the respective income tax returns of the member.

In accordance with U.S. GAAP, the Company is required to determine whether its tax positions are more likely than not to be sustained upon examination by the applicable taxing authority, based on the technical merits of the position. Generally, the Company is no longer subject to income tax examinations by major taxing authorities for the years before 2019. Based on its analysis, there were no tax positions identified by management which did not meet the "more likely than not" standard as and for the year ended December 31, 2022.

Depreciation

Furniture and equipment are being depreciated over the estimated useful lives of the assets, and leasehold improvements are amortized over the life of the Company's lease, both using the straight-line method.

CARDINAL CAPITAL MANAGEMENT, LLC

Notes to Financial Statement, Continued

December 31, 2022

2. Summary of Significant Accounting Policies, continued

Accounting for Leases

The Company recognizes and measures its leases in accordance with FASB ASC 842, Lease Accounting ("ASC 842"), which requires lessees to record right-of-use (ROU) assets and lease liabilities on the balance sheet for the rights and obligations created by all qualifying leases, which are derived from the present value of the future lease payments. For further information, see Note 9 - Commitments.

Account for Current Expected Credit Losses

In June 2016, the FASB issued ASU 2016-13, Measurement of Credit Losses on Financial Instruments - Credit Losses ("ASC 326"). The main objective of ASC 326 is to provide financial statement users with more useful information about the expected credit losses on financial instruments and other commitments to extend credit held by an entity at each reporting date. To achieve this objective, the amendments in this Topic replaces the incurred loss impairment methodology in U.S. GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to develop credit loss estimates. This is adjusted each period for changes in expected lifetime credit losses at the time the financial asset is originated or acquired. For financial assets measured at amortized costs (i.e., cash and accounts receivable), the Company has concluded that there are de minimus expected credit losses based on the nature and contractual life or expected life of the financial assets and immaterial historical losses. On January 1, 2020, the Company adopted ASC 326 using the modified retrospective approach for all in-scope assets. The Company believes the adoption of this accounting standard had no material impact on the Company's financial statement for the year ended December 31, 2022.

3. Financial Instruments with Off-Balance Sheet Risk

In the normal course of business the Company enters into transactions in derivative financial instruments and other financial instruments with off-balance sheet risk that include exchange-traded futures and futures options contracts, equity and index options and short stocks. All derivative instruments are held for trading purposes. All positions are reported in the accompanying consolidated statement of financial condition at fair value and gains and losses from derivative financial instruments are included in trading gains in the statement of operations.

Options grant the purchaser, for the payment of a premium, the right to either purchase from or sell to the writer a specified instrument under agreed terms. As a writer of options, the Company receives a premium in exchange for bearing the risk of unfavorable changes in the price of the financial instruments underlying the options.

Futures contracts provide for the delayed delivery/receipt of securities or money market instruments with the seller/buyer agreeing to make/take delivery at a specified date, at a specified price.

CARDINAL CAPITAL MANAGEMENT, LLC

Notes to Financial Statement, Continued

December 31, 2022

3. Financial Instruments with Off-Balance Sheet Risk, continued

Securities sold, not yet purchased, represent obligations of the Company to deliver specified securities and thereby create a liability to repurchase the securities in the market at prevailing prices. These transactions may result in off-balance sheet risk as the Company's ultimate obligation to satisfy its obligation for securities sold, not yet purchased may exceed the amount recognized in the consolidated statement of financial condition.

Risk arises from the potential inability of counterparties to perform under the terms of the contracts (credit risk) and from changes in the values of the underlying financial instruments (market risk). The Company is subject to credit risk to the extent any broker with which it conducts business is unable to fulfill contractual obligations on its behalf. The Company attempts to minimize its exposure to credit risk by monitoring brokers with which it conducts investment activities. In management's opinion, market risk is substantially diminished when all financial instruments are aggregated.

4. Concentrations of Credit Risk

At December 31, 2022, significant credit concentrations approximately consisted of \$15.9 million with ABN AMRO Clearing Chicago, LLC. At December 31, 2022, the Company's cash balance was approximately \$391,000 in excess of FDIC insured limits. Management does not consider any credit risk associated with these balances to be significant.

5. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15(c)3-1). Under this rule, the Company is required to maintain "net capital" equal to the greater of \$100,000 or 6 $\frac{2}{3}$ % of "aggregate indebtedness", as defined.

At December 31, 2022, the Company had net capital and net capital requirements of \$14,840,187 and \$100,000, respectively.

6. Fair Value Disclosure

ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by ASC 820, are used to measure fair value.

CARDINAL CAPITAL MANAGEMENT, LLC

Notes to Financial Statement, Continued

December 31, 2022

6. Fair Value Disclosure, continued

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions that market participants would use in pricing the asset or liability. The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.

The Company's Investments consist of exchange traded stock equities, options on equities, options on futures and futures contracts and are valued at the price of the last sale of the trade date.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2022:

	Level 1	
	Assets	Liabilities
	Securities Owned	Securities Sold, Not Yet Purchased
Options on equities	\$ 1,076,730,927	\$ 1,047,898,330
Options on futures	115,586,583	129,560,560
Stock equities	135,208	-
Total	\$ 1,192,452,718	\$ 1,177,458,890

At December 31, 2022, the Company had a net unrealized gain on open futures contracts totaling \$4,900,570 included in receivable from brokers and dealers, which are Level 1 investments. At December 31, 2022 the Company had no level 2 or level 3 investments.

7. Clearing Agreements

The Company has a Joint Back Office ("JBO") clearing agreement with ABN AMRO Clearing Chicago, LLC ("ABN"). The agreement allows JBO participants to receive favorable margin treatment as compared to the full customer margin requirements of Regulation T. As part of this agreement, the Company has invested \$10,000 in a preferred interest in ABN. The Company's investment in ABN is reflected as other asset in the statement of financial condition. Under the rules of the Chicago Board Options Exchange, the agreement requires that the Company maintain a minimum net liquidating equity of \$1 million with ABN, exclusive of its preferred stock investment.

CARDINAL CAPITAL MANAGEMENT, LLC

Notes to Financial Statement, Continued

December 31, 2022

8. Guarantees

Accounting Standards Codification Topic 460 ("ASC 460"), Guarantees, requires the Company to disclose information about its obligations under certain guarantee arrangements. ASC 460 defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in an underlying (such as an interest or foreign exchange rate, security or commodity price, an index or the occurrence or nonoccurrence of a specified event) related to an asset, liability or equity security of a guaranteed party.

This guidance also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement, as well as indirect guarantees of the indebtedness of others. Certain derivatives contracts that the Company has entered into meet the accounting definition of a guarantee under ASC 460. Derivatives that meet the ASC 460 definition of guarantees include futures contracts and written options. The maximum potential payout for these derivatives contracts cannot be estimated as increases in interest rates, foreign exchange rates, securities prices, commodities prices and indices in the future could possibly be unlimited.

The Company records all derivative contracts at fair value. For this reason, the Company does not monitor its risk exposure to derivatives contracts based on derivative notional amounts; rather the Company manages its risk exposure on a fair value basis. The Company believes that the notional amounts of the derivative contracts generally overstate its exposure. Aggregate market risk limits have been established, and market risk measures are routinely monitored against these limits. The Company believes that market risk is substantially diminished when all financial instruments are aggregated.

9. Commitments

The Company conducts its operations in leased facilities under a non-cancellable lease with a rent escalation rate of 2.5% that expires March 31, 2024. In accordance with ASC 842, the Company has recorded a right of use asset and a lease liability based on the present value of the future payments calculated with a 2.5% discount rate. The following table presents the classification and the balances of the Company's ROU asset and lease liability in the Statement of Financial Condition as of December 31, 2022:

	<u>Classification</u>	<u>Balance</u>
Operating lease assets, net	Other assets	\$ 130,952
Operating lease liabilities	Accounts payable	\$ 138,538

CARDINAL CAPITAL MANAGEMENT, LLC

Notes to Financial Statement, Continued

December 31, 2022

9. Commitments, continued

The Company's future annual rental commitments for the office facilities as of December 31, 2022 are as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2023	\$ 124,000
2024	<u>32,000</u>
Total	156,000
Imputed Interest	<u>(17,000)</u>
Present Value of Lease Liability	<u>\$ 139,000</u>

10. Subsequent Events

The Company's management has evaluated events and transactions through February 23, 2023, the date the financial statement was available to be issued, noting no material events requiring disclosure in the Company's financial statement, other than those noted below

From January 1, 2023, through February 23, 2023, the Company made capital distributions totaling \$93,750.
