2. We note your response to comment 5 and reissue the comment in part. Please expand the discussion to indicate the extent of the modernization plan you have implemented to date in terms of percentage of completion and expenditures. Since you have stated your belief that the modernization plan will address the FDA’s concerns, please state the anticipated time and money necessary to complete implementation of the plan. Also, please expand the discussion to indicate when the FDA’s re-inspection began and when you anticipate receiving the results of the re-inspection.

“We depend on third parties to supply raw materials...” page 13

3. We note your response to comment 7 and reissue the comment.
4. We note your response to comment 8 and reissue the comment in part. Please identify the third party you rely upon to supply you with paclitaxel.

5. We note your response to comment 9 and reissue the comment. Please expand the discussion to explain what you mean by the phrase “we received a unique reimbursement “J” code for Abraxane.” We also note your reference to “approved Abraxane use.” If the approval process for reimbursement for Abraxane is different than that for other drugs containing paclitaxel for the same indication, please expand the discussion to address this distinction and how it may affect reimbursement.

- a. You state that the value of the projects acquired were prepared using an independent third-party. This reference suggests to an investor that you are placing reliance on the firm. Please include the name of the valuation firm in the '34 Act filing. Additionally, a consent from the valuation specialist must be provided in any future '33 Act registration statement for which the valuation specialist has been named in the filing.
- b. As previously requested, please revise your existing disclosure to discuss the impact of any delays on your expected investment return, results of operations and financial condition.
