**Re: Easy Energy, Inc.  
Form S-1  
File No. 333-150468  
Filed April 25, 2008 and amended April 28, 2008**

Dear Sir or Madam:

We have reviewed your filing and have the following comments. Where indicated, we think you should revise your document in response to these comments. If you disagree, we will consider your explanation as to why our comment is inapplicable or a revision is unnecessary. Please be as detailed as necessary in your explanation. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filing. We look forward to working with you in these respects. We welcome any questions you may have about our comments or any other aspect of our review. Feel free to call us at the telephone numbers listed at the end of this letter.

Registration Statement

1. We note that the registration statement covers the resale of common shares that may be being offered by an affiliate (Meitav Gemel, Meitav Pension and Meitav Mishan entities) in a large amount. Generally, we view resale transactions by related parties of this amount as an offering “by or on behalf of the issuer” for purposes of Rule 415(a) (4) of Regulation C. Under the rule, equity securities offered by or on behalf of the registrant cannot be sold “at the market” price unless the offering satisfies the requirements set forth in the rule. Therefore, you should:

- file a registration statement for the “resale” offering at the time of each

exercise because you are not eligible to conduct the offering on a delayed or continuous basis under Rule 415(a)(1)(x);

- register the transaction on a form that you are eligible to register a primary offering;
- identify the affiliate selling shareholder as an underwriter in the registration statement; and
- include the fixed price at which the underwriter will sell the securities for the duration of the offering.

If you do not agree, please advise the staff of the company's basis for determining that the transaction is appropriately characterized as a transaction that is eligible to be made on a shelf basis under Rule 415(a)(1)(i). Address in your analysis shares previously registered for resale by the affiliate and all other relationships you have with the affiliate.

#### Fee Table

2. Please tell us how you determined that \$0.225 was the most appropriate price to use for purposes of calculating the filing fee.

#### Summary of Financial Data, page 2

3. We note that you disclose a net gain of \$324,942 on page 2 for the period from May 17, 2007 (inception) to March 31, 2008. Your Statement of Operations on page F-3 indicates that you had a loss for this period of \$347,555. Please revise to disclose the correct amount on page 2.

#### Risk Factors, page 3

4. Please add a risk factor which discusses the limitations inherent in a provisional patent application, including 12-month expiration. We note you filed your provisional application on August 20, 2007. In an appropriate place in the prospectus explain your present intentions and plans regarding filing a non-provisional application. Disclose the dollar amount in your "estimated expenses" you will devote to this purpose.

#### We have no operating history...page 3

5. It is unclear why you refer to "the development, testing and marketing of our website." Please clarify.
6. Please clarify the basis for anticipating revenues could be generated as early as 8-

10 months.

Because our executive officers and directors live outside...page 5

7. Please revise to clarify why you recently changed the identification of your executive offices location from Karmiel, Israel to Las Vegas, Nevada. We note that your two executive officers reside in Israel. Explain the nature of your offices in Las Vegas.

Because our executive officers control.... page 6

8. The ownership position of your executive officers stated here is inconsistent with disclosure at page 22. Please reconcile.

Selling Shareholders, page 9

9. As to each selling shareholder briefly describe the transaction(s) in which the shareholder acquired the shares. Where services were received in exchange for the selling stockholders stock, please include a description of the services rendered. Provide the date(s), form of consideration, and price paid.
10. Please identify the individuals with beneficial ownership over the shares held by the entities identified in this table.
11. Describe any affiliations among the company, its officers and directors and/or each of the selling shareholders. For example, we note multiple entities are listed as "Meitav Gemel Ltd," "Meitav Pension Ltd," and "Meitav Mishan Ltd."
12. Please confirm supplementally that shares hereby registered on behalf of Tailor Made Capital do not include any shares to be sold pursuant to the equity line portion of the March 10, 2008 Securities Purchase Agreement.
13. It appears the shares registered on behalf of Tailor Made Capital may be unearned until performance under the equity line is completed. If so, then such securities may not be registered until the investment transaction is completed. Please revise or advise.

Description of Business, page 13

14. Please provide us source copies of market statistics presented. Please mark the copies to clearly identify the information you cite, and cross-reference to the place the market data appears in the prospectus. Tell us whether the sources of

the cited data have consented to your use of their names and data and whether any of the reports were commissioned by you or prepared specifically for your use.

15. We note your references to Internet addresses. Please see footnotes 41-43 and the related text of SEC Release 33-7856 (April 28, 2000) regarding your responsibility for hyperlinked information and the related filing requirements.

Technical Brief, page 14

16. We note on your website what is represented as your product, including illustrations of the product in use. Please clarify in your disclosure the status of the product so depicted and described.
17. Please explain why time to charge 10% is considered significant or representative. How is this related to cellular phone battery operating characteristics? Also, are incremental levels of effort and charge proportional? For example, is a 100% charge achieved by 20 minutes of generation? Also, it appears that to achieve a 50% charge would take 5 cycles of 2-minute string-pulling followed by 6-10 minutes of power transfer. Please revise to clarify the effort and time involved in achieving meaningful charging of the device battery.
18. Please describe the basis for the performance claim of 20 watts. Include voltage and amperage figures for the generator and the internal battery. Further, if not validated by independent expert third party testing, so disclose.
19. Clarify whether any prototype models created to date have achieved the performance levels noted herein.

Competition, page 15

20. Please provide adequate description of competitive products in the prospectus. Do not cite competitors' websites as a means of providing disclosure.

Management's Discussion, page 17

Overview, page 17

21. We note the discussion on page 17 which states, "on January 29, 2008 we announced on the completion of the fully working prototype of the man-powered charger solution for battery powered small devices." Your discussion further indicates that one of your business objectives is to complete the design of your product. This discussion does not clearly indicate the status or expected plan of

your product development, including, for example, the personnel or organization which has been hired to implement the plan. Please revise to clearly discuss the status of the development of your product and indicate the expected time frame and costs to fully develop your product.

22. We reference Note \*\* on page 18 which indicates that you prepaid \$100,000 of this amount. Please reconcile this with the prepayments of \$250,000 discussed on page 4. In addition, the discussion on page 18 indicates that the projected operating expenses for the next twelve month period total \$727,000. Please clarify if you have already prepaid \$250,000 of this amount and indicate the additional amount you will need for estimated expenses in the next twelve months.
23. Please revise to provide a discussion of your results of operations and the specific expense amounts recorded in your financial statements each period.

Security Ownership..., page 22

30. Please ensure that the table includes any groups, such as investment entities under common control. See Regulation S-K Item 403(a). In this regard we note multiple entities listed as "Meitav Gemel Ltd," "Meitav Pension Ltd," and "Meitav Mishan Ltd." in the Selling Shareholder section and also note that the warrants held by them are immediately exercisable. Please also provide the

footnote information required by Item 403(a).

Report of Independent Registered Public Accounting Firm, page F-1

34. We note that the third paragraph of the report of your independent registered public accounting firm states, "since inception on May 17, 2008 through March 31, 2008". Please have your Independent Registered Public Accounting Firm revise their report to include the correct inception date. In addition, the last paragraph references an accumulated deficit of \$397,544, which does not agree with the amounts in your financial statements. Please tell us why these amounts do not agree.

Please tell us where the \$250,000 in prepaid expenses is recorded in your financial statements. The accounting for your prepaid expenses should be clearly disclosed. We note that you have included \$105,000 as a contra-equity account on your balance sheet on page F-2. Please disclose the nature of this amount and the related accounting treatment.

Statements of Cash Flows, page F-5

38. Please tell us what you mean by "net loss being cash from operating activities" in the first line in your statements of cash flows on page F-5. In addition, tell us where the \$50,000 increase in prepaid expenses is reflected in the balance sheet. Please tell us why stock issued for services is reflected as a non-cash activity and not included as an addition in net cash (used) by operating activities and whether this value represents non-cash compensation included in expenses for the period.

Note 8 – Recent Accounting Pronouncements, page F-10

43. We reference your discussion of recent accounting pronouncements on page F-10. We also note that the adoption of these Statements is not expected to have a material effect on your financial statements. 53. We note that your CEO and CFO have evaluated the registrant's internal controls over financial reporting and have concluded that your system of internal controls is adequate and comparable to those of issuers of a similar size and nature. It does not appear that your certifying officers have reached a conclusion that your internal controls over financial reporting are *effective*. Please revise to address your officers' conclusions regarding the effectiveness of your internal controls over financial reporting. Refer to Item 308T of Regulation S-K.
