#### Other Information:

The Fund utilizes various inputs in determining the value of its investments as of the reporting period end. These inputs are summarized in three broad levels as follows:

Level 1 – quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including the Fund's own assumption in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

A summary of the inputs used as of September 30, 2009 in valuing the Fund's net assets were as follows:
