During the first quarter of 2008, spot tanker freight rates strengthened from the previous quarter primarily driven by growing tanker demand, limited fleet growth, and increasing discrimination against single-hull tankers. Early in the second quarter of 2008, freight rates for crude tankers experienced a considerable counter seasonal increase and have thus far averaged above those experienced during the first quarter of 2008. The strength of the spot tanker markets is being driven primarily by higher volumes of crude imports into China (up approximately 15 percent from the prior year), which in turn is driving higher volumes of ton-mile intensive Atlantic to Pacific crude oil movements.

In its May 2008 report, the International Energy Agency (or *IEA*) estimated 2008 oil demand growth of 1.0 million barrels per day (mb/d), a 1.2 percent increase from 2007. Nearly all of the growth in global oil demand in 2008 is expected to originate from energy intensive developing economies which have so far been only marginally affected by the economic slowdown in the United States.

The trend of tanker sales for conversion to offshore units and dry bulk vessels continues to dampen tanker supply growth. In addition, record-high scrap steel prices have led to an increase in oil tankers being sold for demolition. The removal of these tankers should help keep tanker supply and demand finely-balanced during the remainder of 2008.

#### **Teekay Tankers' Fleet**

The following table summarizes the Company's fleet as of April 30, 2008:

	<b>Aframax Fleet</b>	<b>Suezmax Fleet</b>	<b>Number of Owned Vessels</b>
Time-Charter Vessels	5	1	6
Spot-Charter Vessels	4	1	5
<b>Total</b>	<b>9</b>	<b>2</b>	<b>11</b>

On April 7, 2008, the Company acquired two double-hull Suezmax-class oil tankers, the 2002-built *Ganges Spirit* and the 2003-built *Narmada Spirit*, from Teekay Corporation for a total cost of \$186.9 million. The Company financed the acquisition by assuming existing debt related to the vessels and utilizing the Company's undrawn revolving credit facility for the remainder of the purchase price. The *Ganges Spirit* will be employed on its pre-existing time-charter contract that expires in May 2012 and the *Narmada Spirit* is currently employed in spot market trading as part of Teekay's Gemini Pool.

#### **Future Growth Opportunities**

Teekay has agreed to offer the Company, within 18 months following the completion of Teekay Tankers' IPO in December 2007, the right to purchase from it an additional two existing Suezmax-class oil tankers. The Company anticipates additional opportunities to expand its fleet through acquisitions of tankers from third parties and additional tankers that it expects Teekay Corporation will offer to it from time to time. These tankers may include crude oil and product tankers.

#### **Liquidity**

As of March 31, 2008, the Company had total liquidity of \$159.5 million, comprising \$44.5 million in cash and \$115.0 million in an undrawn revolving credit facility. As of April 30, 2008, after the acquisition of the *Ganges Spirit* and the *Narmada Spirit* as mentioned above, the Company had total liquidity of \$93.8 million, comprising \$53.1 million in cash and \$40.7 million in an undrawn revolving credit facility.
