Applicants' Representations:

1. The Trust is an open-end management investment company registered under the Act and organized as a Delaware statutory trust. The Trust offers series that operate pursuant to the Prior Order. The Adviser, which is registered as an investment adviser under the Investment Advisers Act of 1940 ("Advisers Act"), or an entity controlled by or under common control with the Adviser will serve as investment adviser to each Fund.

2. Applicants request relief that would provide greater operational flexibility to the Funds by permitting: (a) the Funds to enter into short positions in the component securities comprising the relevant Underlying Index ("Component Securities"); (b) each Conventional Fund to invest at least 80% of its total assets (exclusive of collateral held for purposes of securities lending) in Component Securities and/or investments that have economic characteristics that are substantially identical to the economic characteristics of Component Securities; and (c) Leveraged Funds (defined below) to determine what percentage, if any, of its total assets to invest in Component Securities. Applicants state this greater operational flexibility will provide the Funds with the ability to pursue more cost-effective techniques in seeking to achieve their investment objectives. "Leveraged Funds" are Funds that seek a specified multiple, up to 300%, of the performance of an Underlying Index and "Inverse Funds" are Funds that seek a specified multiple, up to 300%, of the inverse performance of an Underlying Index.

3. Applicants also seek to amend the terms and conditions of the Prior Application to provide that all representations and conditions contained in the Prior Application that require a Fund to disclose particular information in the Fund's prospectus ("Prospectus") and/or annual report shall be effective with respect to the Fund until the time that the Fund complies with the disclosure requirements adopted by the Commission in Investment Company Act Release No. 28584 (Jan. 13, 2009) ("Summary Prospectus Rule"). Applicants state that such amendment is warranted because the Commission's amendments to Form N-1A with regard to exchange-traded funds as part of the Summary Prospectus Rule reflect the Commission's view with respect to the appropriate types of prospectus and annual report disclosures for an exchange-traded fund.

4. Applicants also seek relief to introduce Conventional Funds that will be 130/30 Funds. Applicants state that in general, "130/30" strategies: (a) establish long positions in securities such that total long exposure amounts to approximately 130% of net assets; and (b) simultaneously establish short positions in other securities such that total short exposure amounts to approximately 30% of net assets. Each 130/30 Fund will hold at least 80% of its total assets (exclusive of collateral held for purposes of securities lending) in the Component Securities that are specified for the long positions and could invest up to 20% in such Component Securities, cash equivalents or other securities. The 130/30 Funds would also enter into financial instruments to obtain any remaining 50% long and 30% short positions dictated by its Underlying Index. The 130/30 Funds will provide full portfolio disclosure so that the intraday value of a 130/30 Fund can accurately be calculated, market participants will be able to understand the principal investment strategies of the 130/30 Funds, and informed trading of 130/30 Funds' ETS may occur. The creation and redemption process for the 130/30 Funds will

be the same as for the existing Leveraged Funds in that Creation Units of 130/30 Funds will generally be purchased and redeemed for a basket of in-kind securities and cash, or solely cash.

5. Applicants believe that the requested relief continues to meet the necessary exemptive standards.

Applicants' Legal Analysis:

1. Section 6(c) of the Act provides that the Commission may exempt any person, security or transaction, or any class of persons, securities or transactions, from any provision of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

2. Applicants seek to amend the Prior Order to delete the relief granted from section 24(d) of the Act. Applicants state that the deletion of the exemption from section 24(d) that was granted in the Prior Order is warranted because the adoption of the Summary Prospectus Rule should supplant any need by a Fund to use a product description ("Product Description"). The deletion of the relief granted with respect to section 24(d) of the Act from the Prior Order will also result in the deletion of related discussions in the Prior Application, revision of the Prior Application to delete references to Product Description including in the conditions, and the deletion of condition 4 of the Prior Order.

Applicants' Conditions:

Applicants agree that any amended order granting the requested relief will be subject to the same conditions as those imposed by the Prior Order except for condition 4 which will be deleted. All representations and conditions contained in the application and the Prior Application that require a Fund to disclose particular information in the Fund's Prospectus

and/or annual report shall remain effective with respect to the Fund until the time that the Fund complies with the disclosure requirements adopted by the Commission in Investment Company Act Release No. 28584 (Jan. 13, 2009).

For the Commission, by the Division of Investment Management, pursuant to delegated authority.
