CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities to be Registered	Amount to be Registered	Proposed Maximum Offering Price Per Share (2)	Proposed Maximum Aggregate Offering Price	Amount of Registration Fee (1)
Common Stock Shares	1,000,000	\$0.25	\$25,000	\$0.98

(1) This is an initial offering and no current trading market exists for our common stock. The price paid for the currently issued and outstanding common stock was valued at \$.005 per share.

(2) Estimated solely for purposes of calculating the registration fee pursuant to Rule 457.

The Registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with section 8(a) of the Securities Act of 1933 or until the registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to such section 8(a), may determine.

PROSPECTUS

WOLFE CREEK MINING, INC. 1,000,000 Shares of Common Stock \$.025 per share

This is the initial offering of Common stock of Wolfe Creek Mining, Inc. and no public market exists for the securities being offered. We are offering for sale a total of 1,000,000 shares of Common Stock on a “self-underwritten” all-or-none basis. The shares will be offered at a fixed price of \$.025 per share for a period not to exceed 180 days from the date of this prospectus. There is no minimum number of shares required to be purchased. We intend to open a standard bank checking account to be used only for the deposit of funds received from the sale of shares in this offering. This offering is on a best effort, all-or-none basis, meaning if all shares are not sold and the total offering amount is not deposited by the expiration date of the offering, all monies will be returned to investors, without interest or deduction, however there is no assurance we will be able to do so. See “Use of Proceeds” and “Plan of Distribution”.

Wolfe Creek Mining, Inc. is an exploration stage, start-up company and currently has no operations. Any investment in the shares offered herein involves a high degree of risk. You should only purchase shares if you can afford a complete loss of your investment.

***BEFORE INVESTING, YOU SHOULD CAREFULLY READ THIS PROSPECTUS AND,
PARTICULARLY, THE RISK FACTORS SECTION, BEGINNING ON PAGE 4.***

Neither the U.S. Securities and Exchange Commission nor any state securities division has approved or disapproved these securities, or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	<u>Offering Price Per Share</u>	<u>Total Amount of Offering</u>	<u>Underwriting Commissions</u>	<u>Proceeds To Us</u>
Common Stock	\$.025	\$25,000	\$0	\$25,000

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the U.S. Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

Subject to Completion, Dated _____, 200__

SUMMARY OF PROSPECTUS

You should read the following summary together with the more detailed business information, financial statements and related notes that appear elsewhere in this prospectus. In this prospectus, unless the context otherwise denotes, references to “we,” “us,” “our”, “Wolfe Creek” and “Wolfe Creek Mining” are to Wolfe Creek Mining, Inc.

General Information about Our Company

Wolfe Creek Mining, Inc. was incorporated in the State of Delaware on June 26, 2007 to engage in the acquisition, exploration and development of natural resource properties. We intend to use the net proceeds from this offering to develop our business operations. (See “Business of the Company” and “Use of Proceeds”.) We are an exploration stage company with no revenues or operating history. The principal executive offices are located at 15868 SW Kimball Avenue, Lake Oswego, OR 97035. The telephone number is (760)564-8967.

We received our initial funding of \$15,000 through the sale of common stock to our officer and director who purchased 3,000,000 shares of our common stock at \$0.005 per share on October 15, 2007. From inception until the date of this filing we have had limited operating activities. Our financial statements from inception (June 26, 2007) through the year ended December 31, 2007 report no revenues and a net loss of \$9,105. Our independent auditor has issued an audit opinion for Wolfe Creek Mining, Inc. which includes a statement expressing substantial doubt as to our ability to continue as a going concern.

Our mineral claim has been staked and we hired a professional mining engineer to prepare a geological report. We have not yet commenced any exploration activities on the claim. Our property, known as the Eureka Load Mining Claim may not contain any reserves and funds that we spend on exploration will be lost. Even if we complete our current exploration program and are successful in identifying a mineral deposit we will be required to expend substantial funds to bring our claim to production.

There is no current public market for our securities. As our stock is not publicly traded, investors should be aware they probably will be unable to sell their shares and their investment in our securities is not liquid.

The Offering

Securities Being Offered	1,000,000 shares of common stock.
Price per Share	\$0.025
Offering Period	The shares are offered for a period not to exceed 180 days, unless extended by our board of directors for an additional 90 days.
Net Proceeds	\$25,000
Securities Issued and Outstanding	3,000,000 shares of common stock were issued and outstanding as of the date of this prospectus.
Registration costs	We estimate our total offering registration costs to be \$4,500.

RISK FACTORS

An investment in these securities involves an exceptionally high degree of risk and is extremely speculative in nature. Following are what we believe to be all the material risks involved if you decide to purchase shares in this offering.

Risks Associated With Our Company:

We are an exploration stage company but have not yet commenced exploration activities on our claim. We expect to incur operating losses for the foreseeable future.

We have not yet commenced exploration on the Eureka Lode Mineral Claim. Accordingly, we have no way to evaluate the likelihood that our business will be successful. We were incorporated on June 26, 2007 and to date have been involved primarily in organizational activities and the acquisition of the mineral claim. We have not earned any revenues as of the date of this prospectus. Potential investors should be aware of the difficulties normally encountered by new mineral exploration companies and the high rate of failure of such enterprises. The likelihood of success must be considered in light of the problems, expenses, difficulties, complications and delays encountered in connection with the exploration of the mineral properties that we plan to undertake. These potential problems include, but are not limited to, unanticipated problems relating to exploration, and additional costs and expenses that may exceed current estimates. Prior to completion of our exploration stage, we anticipate that we will incur increased operating expenses without realizing any revenues. We expect to incur significant losses into the foreseeable future. We recognize that if we are unable to generate significant revenues from development and production of minerals from the claim, we will not be able to earn profits or continue operations. There is no history upon which to base any assumption as to the likelihood that we will prove successful, and it is doubtful that we will generate any operating revenues or ever achieve profitable operations. If we are unsuccessful in addressing these risks, our business will most likely fail.

Without the funding from this offering we will be unable to implement our business plan.

Our current operating funds are less than necessary to complete the intended exploration program on our mineral claim. We will need the funds from this offering to complete our business plan. As of December 31, 2007, we had cash in the amount of \$5,895. We currently do not have any operations and we have no income.

Our independent auditor has issued an audit opinion for Wolfe Creek Mining, Inc. which includes a statement describing our going concern status. Our financial status creates a doubt whether we will continue as a going concern.

As described in Note 6 of our accompanying financial statements, our lack of operations and any guaranteed sources of future capital create substantial doubt as to our ability to continue as

a going concern. If our business plan does not work, we could remain as a start-up company with limited operations and revenues.

Because management has no technical experience in mineral exploration, our business has a higher risk of failure.

Our director has no professional training or technical credentials in the field of geology and specifically in the areas of exploring, developing and operating a mine. As a result, we may not be able to recognize and take advantage of potential acquisition and exploration opportunities in the sector without the aid of qualified geological consultants. Management's decisions and choices may not take into account standard engineering or managerial approaches mineral exploration companies commonly use. Consequently our operations, earnings and ultimate financial success may suffer irreparable harm as a result.

There is the risk that our property does not contain any known bodies of ore resulting in any funds spent on exploration being lost.

There is the likelihood of our mineral claim containing little or no economic mineralization or reserves of silver or other minerals. We have a geological report detailing previous exploration in the area, and the claim has been staked per Nevada regulations. However; there is the possibility that the previous work was not carried out properly and our claim does not contain any reserves, resulting in any funds spent on exploration being lost.

Because we have not surveyed the Eureka Lode Mineral Claim, we may discover mineralization on the claims that is not within our claim boundaries.

While we have conducted a mineral claim title search, this should not be construed as a guarantee of claim boundaries. Until the claim is surveyed, the precise location of the boundaries of the claim may be in doubt. If we discover mineralization that is close to the claim boundaries, it is possible that some or all of the mineralization may occur outside the boundaries. In such a case we would not have the right to extract those minerals.

If we discover commercial reserves of precious metals on our mineral property, we can provide no assurance that we will be able to successfully advance the mineral claims into commercial production.

If our exploration program is successful in establishing ore of commercial tonnage and grade, we will require additional funds in order to advance the claim into commercial production. Obtaining additional financing would be subject to a number of factors, including the market price for the minerals, investor acceptance of our claims and general market conditions. These factors may make the timing, amount, terms or conditions of additional financing unavailable to us. The most likely source of future funds is through the sale of equity capital. Any sale of

share capital will result in dilution to existing shareholders. We may be unable to obtain any such funds, or to obtain such funds on terms that we consider economically feasible and you may lose any investment you make in this offering.

Government regulation or other legal uncertainties may increase costs and our business will be negatively affected.

Laws and regulations govern the exploration, development, mining, production, importing and exporting of minerals; taxes; labor standards; occupational health; waste disposal; protection of the environment; mine safety; toxic substances; and other matters. In many cases, licenses and permits are required to conduct mining operations. Amendments to current laws and regulations governing operations and activities of mining companies or more stringent implementation thereof could have a substantial adverse impact on us. Applicable laws and regulations will require us to make certain capital and operating expenditures to initiate new operations. Under certain circumstances, we may be required to stop exploration activities, once started, until a particular problem is remedied or to undertake other remedial actions.

Based on consumer demand, the growth and demand for any ore we may recover from our claims may be slowed, resulting in reduced revenues to the company.

Our continued success will be dependent on the growth of demand for ore. If consumer demand slows our revenues may be significantly affected. This could limit our ability to generate revenues and our financial condition and operating results may be harmed.

Because our current officer and director has other business interests, she may not be able or willing to devote a sufficient amount of time to our business operations, causing our business to fail.

Kristen Paul, our sole officer and director, currently devotes approximately 5-6 hours per week providing management services to us. While she presently possesses adequate time to attend to our interests, it is possible that the demands on her from other obligations could increase, with the result that she would no longer be able to devote sufficient time to the management of our business. This could negatively impact our business development.

Risks Associated With This Offering:

The trading in our shares will be regulated by Securities and Exchange Commission Rule 15g-9 which established the definition of a “penny stock.”

The shares being offered are defined as a penny stock under the Securities and Exchange Act of 1934, and rules of the Commission. The Exchange Act and such penny stock rules generally impose additional sales practice and disclosure requirements on broker-dealers who

sell our securities to persons other than certain accredited investors who are, generally, institutions with assets in excess of \$5,000,000 or individuals with net worth in excess of \$1,000,000 or annual income exceeding \$200,000 (\$300,000 jointly with spouse), or in transactions not recommended by the broker-dealer. For transactions covered by the penny stock rules, a broker-dealer must make a suitability determination for each purchaser and receive the purchaser's written agreement prior to the sale. In addition, the broker-dealer must make certain mandated disclosures in penny stock transactions, including the actual sale or purchase price and actual bid and offer quotations, the compensation to be received by the broker-dealer and certain associated persons, and deliver certain disclosures required by the Commission. Consequently, the penny stock rules may make it difficult for you to resell any shares you may purchase, if at all.

We are selling this offering without an underwriter and may be unable to sell any shares.

This offering is self-underwritten, that is, we are not going to engage the services of an underwriter to sell the shares; we intend to sell them through our officer and director, who will receive no commissions. She will offer the shares to friends, relatives, acquaintances and business associates, however; there is no guarantee that she will be able to sell any of the shares. Unless she is successful in selling all of the shares and we receive the proceeds from this offering, we may have to seek alternative financing to implement our business plans.

Due to the lack of a trading market for our securities, you may have difficulty selling any shares you purchase in this offering.

We are not registered on any public stock exchange. There is presently no demand for our common stock and no public market exists for the shares being offered in this prospectus. We plan to contact a market maker immediately following the completion of the offering and apply to have the shares quoted on the OTC Electronic Bulletin Board (OTCBB). The OTCBB is a regulated quotation service that displays real-time quotes, last sale prices and volume information in over-the-counter (OTC) securities. The OTCBB is not an issuer listing service, market or exchange. Although the OTCBB does not have any listing requirements per se, to be eligible for quotation on the OTCBB, issuers must remain current in their filings with the SEC or applicable regulatory authority. Market makers are not permitted to begin quotation of a security whose issuer does not meet this filing requirement. Securities already quoted on the OTCBB that become delinquent in their required filings will be removed following a 30 or 60 day grace period if they do not make their required filing during that time. We cannot guarantee that our application will be accepted or approved and our stock listed and quoted for sale. As of the date of this filing, there have been no discussions or understandings between Wolfe Creek Mining, Inc., or anyone acting on our behalf, with any market maker regarding participation in a future trading market for our securities. If no market is ever developed for our common stock, it will be difficult for you to sell any shares you purchase in this offering. In such a case, you may find that you are unable to achieve any

benefit from your investment or liquidate your shares without considerable delay, if at all. In addition, if we fail to have our common stock quoted on a public trading market, your common stock will not have a quantifiable value and it may be difficult, if not impossible, to ever resell your shares, resulting in an inability to realize any value from your investment.

You will incur immediate and substantial dilution of the price you pay for your shares.

Our existing stockholder acquired her shares at a cost of \$.005 per share, a cost per share substantially less than that which you will pay for the shares you purchase in this offering. Upon completion of this offering the net tangible book value of the shares held by our existing stockholder (3,000,000 shares) will be increased by \$.006 per share without any additional investment on her part. The purchasers of shares in this offering will incur immediate dilution (a reduction in the net tangible book value per share from the offering price of \$.025 per share) of \$.017 per share. As a result, after completion of the offering, the net tangible book value of the shares held by purchasers in this offering would be \$.008 per share, reflecting an immediate reduction in the \$.025 price per share they paid for their shares.

We will be holding all the proceeds from the offering in a standard bank checking account until all shares are sold. Because the shares are not held in an escrow or trust account there is a risk your money will not be returned if all the shares are not sold.

All funds received from the sale of shares in this offering will be deposited into a standard bank checking account until all shares are sold and the offering is closed, at which time, the proceeds will be transferred to our business operating account. In the event all shares are not sold we have committed to promptly return all funds to the original purchasers. However since the funds will not be placed into an escrow, trust or other similar account, there can be no guarantee that any third party creditor who may obtain a judgment or lien against us would not satisfy the judgment or lien by executing on the bank account where the offering proceeds are being held, resulting in a loss of any investment you make in our securities.

We will incur ongoing costs and expenses for SEC reporting and compliance. Without revenue we may not be able to remain in compliance, making it difficult for investors to sell their shares, if at all.

Our business plan allows for the payment of the estimated \$4,500 cost of this registration statement to be paid from existing cash on hand and if necessary funds advanced to the company by our director. We plan to contact a market maker immediately following the close of the offering and apply to have the shares quoted on the OTC Electronic Bulletin Board. To be eligible for quotation, issuers must remain current in their filings with the SEC. In order for us to remain in compliance we will require future revenues to cover the cost of these filings,

which could comprise a substantial portion of our available cash resources. If we are unable to generate sufficient revenues to remain in compliance it may be difficult for you to resell any shares you may purchase, if at all.

Kristen Paul, the sole officer and director of the company, beneficially owns 100% of the outstanding shares of our common stock. After the completion of this offering she will own 75% of the outstanding shares. If she chooses to sell her shares in the future, it might have an adverse effect on the price of our stock.

Due to the amount of Kristen Paul's share ownership in our company, if she chooses to sell her shares in the public market, the market price of our stock could decrease and all shareholders suffer a dilution of the value of their stock. If she does sell any of her common stock, she will be subject to Rule 144 under the 1933 Securities Act which restricts the ability of our director or officer to sell her shares.

USE OF PROCEEDS

Assuming sale of all of the shares offered herein, of which there is no assurance, the net proceeds from this Offering will be \$25,000. The proceeds are expected to be disbursed, in the priority set forth below, during the first twelve (12) months after the successful completion of the Offering:

Total Proceeds to the Company	\$ 25,000
Phase One Exploration Program	7,000
Phase Two Exploration Program	10,500
Legal and Accounting	4,500
Administration and Office Expense	<u>3,000</u>
Total Use of Net Proceeds	<u>\$ 25,000</u>

DETERMINATION OF OFFERING PRICE

The offering price of the shares has been determined arbitrarily by us. The price does not bear any relationship to our assets, book value, earnings, or other established criteria for valuing a privately held company. In determining the number of shares to be offered and the offering price we took into consideration our capital structure and the amount of money we would need to implement our business plans. Accordingly, the offering price should not be considered an indication of the actual value of our securities.

DILUTION OF THE PRICE YOU PAY FOR YOUR SHARES

Dilution represents the difference between the offering price and the net tangible book value per share immediately after completion of this offering.

Net tangible book value is the amount that results from subtracting total liabilities and intangible assets from total assets. Dilution arises mainly as a result of our arbitrary determination of the offering

price of the shares being offered. Dilution of the value of the shares you purchase is also a result of the lower book value of the shares held by our existing stockholder.

As of December 31, 2007, the net tangible book value of our shares was \$5,895 or approximately \$.002 per share, based upon 3,000,000 shares outstanding.

Upon completion of this Offering, but without taking into account any change in the net tangible book value after completion of this Offering other than that resulting from the sale of the shares and receipt of the total proceeds of \$25,000, the net tangible book value of the 4,000,000 shares to be outstanding will be \$30,895, or approximately \$.008 per Share. Accordingly, the net tangible book value of the shares held by our existing stockholder (3,000,000 shares) will be increased by \$.006 per share without any additional investment on her part. The purchasers of shares in this offering will incur immediate dilution (a reduction in the net tangible book value per share from the offering price of \$.025 per Share) of \$.017 per share. As a result, after completion of the offering, the net tangible book value of the shares held by purchasers in this offering would be \$.008 per share, reflecting an immediate reduction in the \$.025 price per share they paid for their shares.

After completion of the offering, the existing shareholder will own 75% of the total number of shares then outstanding, for which she will have made a cash investment of \$15,000, or \$.005 per Share. Upon completion of the offering, the purchasers of the shares offered hereby will own 25% of the total number of shares then outstanding, for which they will have made a cash investment of \$25,000, or \$.025 per Share.

The following table illustrates the per share dilution to the new investors and does not give any effect to the results of any operations subsequent to December 31, 2007:

Price Paid per Share by Existing Shareholder	\$.005
Public Offering Price per Share	\$.025
Net Tangible Book Value Prior to this Offering	\$.002
Net Tangible Book Value After this Offering	\$.008
Increase in Net Tangible Book Value per Share Attributable to cash payments from purchasers of the shares offered	\$.006
Immediate Dilution per Share to New Investors	\$.017

The following table summarizes the number and percentage of shares purchased, the amount and percentage of consideration paid and the average price per Share paid by our existing stockholder and by new investors in this offering:

	<u>Price Per Share</u>	<u>Total Number of Shares Held</u>	<u>Percent of Ownership</u>	<u>Consideration Paid</u>
Existing Stockholder	\$.005	3,000,000	75%	\$ 15,000
Investors in This Offering	\$.025	1,000,000	25%	\$ 25,000

PLAN OF DISTRIBUTION

Offering will be Sold by Our Officers and Director

This is a self-underwritten offering. This Prospectus is part of a Prospectus that permits our officer and director to sell the Shares directly to the public, with no commission or other remuneration payable to her for any Shares she sells. There are no plans or arrangements to enter into any contracts or agreements to sell the Shares with a broker or dealer. Kristen Paul, our officer and director, will sell the shares and intends to offer them to friends, family members and business acquaintances. In offering the securities on our behalf, she will rely on the safe harbor from broker dealer registration set out in Rule 3a4-1 under the Securities Exchange Act of 1934.

She will not register as a broker-dealer pursuant to Section 15 of the Securities Exchange Act of 1934, in reliance upon Rule 3a4-1, which sets forth those conditions under which a person associated with an Issuer may participate in the offering of the Issuer's securities and not be deemed to be a broker-dealer.

- a. Our officer and director is not subject to a statutory disqualification, as that term is defined in Section 3(a)(39) of the Act, at the time of her participation; and
- b. Our officer and director will not be compensated in connection with her participation by the payment of commissions or other remuneration based either directly or indirectly on transactions in securities; and
- c. Our officer and director is not, nor will she be at the time of her participation in the offering, an associated person of a broker-dealer; and
- d. Our officer and our director meets the conditions of paragraph (a)(4)(ii) of Rule 3a4-1 of the Exchange Act, in that she (A) primarily performs, or is intended primarily to perform at the end of the offering, substantial duties for or on behalf of our company, other than in connection with transactions in securities; and (B) is not a broker or dealer, or been associated person of a broker or dealer, within the preceding twelve months; and (C) has not participated in selling and offering securities for any Issuer more than once every twelve months other than in reliance on Paragraphs (a)(4)(i) (a)(4)(iii).

Our officer, director, control person and affiliates of same do not intend to purchase any shares in this offering.

Terms of the Offering

The shares will be sold at the fixed price of \$.025 per share until the completion of this offering. There is no minimum amount of subscription required per investor, and subscriptions, once received, are irrevocable.

This offering will commence on the date of this prospectus and continue for a period not to exceed 180 days (the "Expiration Date").

Deposit of Offering Proceeds

This is an "all or none" offering and, as such, we will not be able to spend any of the proceeds unless and until all shares are sold and all proceeds are received. We intend to hold all monies collected for subscriptions in a separate bank account until the total amount of \$25,000 has been received. At that time, the funds will be transferred to our business account for use in the implementation of our business plans. In the event the offering is not sold out prior to the Expiration Date, all monies will be returned to investors, without interest or deduction.

Procedures and Requirements for Subscription

If you decide to subscribe for any shares in this offering, you will be required to execute a Subscription Agreement and tender it, together with a check or certified funds to us. Subscriptions, once received by the company, are irrevocable. All checks for subscriptions should be made payable to Wolfe Creek Mining, Inc.

DESCRIPTION OF SECURITIES

Common Stock

Our authorized capital stock consists of 75,000,000 shares of common stock, par value \$.001 per share. The holders of our common stock (i) have equal ratable rights to dividends from funds legally available therefore, when, as and if declared by our Board of Directors; (ii) are entitled to share in all of our assets available for distribution to holders of common stock upon liquidation, dissolution or winding up of our affairs; (iii) do not have preemptive, subscription or conversion rights and there are no redemption or sinking fund provisions or rights; and (iv) are entitled to one non-cumulative vote per share on all matters on which stockholders may vote.

Non-cumulative Voting

Holders of shares of our common stock do not have cumulative voting rights, which means that the holders of more than 50% of the outstanding shares, voting for the election of directors, can elect all of the directors to be elected, if they so choose, and, in such event, the holders of the remaining shares will not be able to elect any of our directors. After this offering is completed, the present stockholder will own 75% of our outstanding shares and the purchasers in this offering will own 25%.

Preferred Stock

Our Certificate of Incorporation authorizes the issuance of 25,000,000 shares of preferred stock, .001 par value per share. No preferred shares have been issued nor are contemplated to be issued in the near future.

Cash Dividends

As of the date of this prospectus, we have not paid any cash dividends to stockholders. The declaration of any future cash dividend will be at the discretion of our Board of Directors and will depend upon our earnings, if any, our capital requirements and financial position, our general economic conditions, and other pertinent conditions. It is our present intention not to pay any cash dividends in the foreseeable future, but rather to reinvest earnings, if any, in our business operations.

INTEREST OF NAMED EXPERTS AND COUNSEL

None of the below described experts or counsel have been hired on a contingent basis and none of them will receive a direct or indirect interest in the Company.

Our audited financial statement for the period from inception to December 31, 2007, included in this prospectus has been audited by Moore & Associates, Chartered Accountants. We include the financial statements in reliance on their report, given upon their authority as experts in accounting and auditing.

Joseph I. Emas, Attorney at Law, has passed upon the validity of the shares being offered and certain other legal matters and is representing us in connection with this offering.

Laurence Sookochoff, P. Eng. of Sookochoff & Associates, has provided us with the geology report contained herein.

DESCRIPTION OF OUR BUSINESS

General Information

Wolfe Creek Mining, Inc. was incorporated in Delaware on June 26, 2007 to engage in the business of acquisition, exploration and development of natural resource properties. At that time Kristen Paul was named sole officer and director of the company and the Board voted to seek capital and begin development of our business plan. We received our initial funding of \$15,000 through the sale of common stock to Kristen Paul who purchased 3,000,000 shares of our Common Stock at \$0.005 per share on October 15, 2007.

We are an exploration stage company with no revenues and a limited operating history. Our independent auditor has issued an audit opinion which includes a statement expressing substantial doubt as to our ability to continue as a going concern. The source of information contained in this discussion is our geology report that has been included as Exhibit 99.2 to our S-1 registration statement.

There is the likelihood of our mineral claim containing little or no economic mineralization or reserves of silver and other minerals. The Eureka Lode Mineral Claim is comprised of one located claim with an area of 20 acres, and is located in the easternmost portion the Goodsprings (Yellow Pine) Mining District within the southwestern corner of the State of Nevada, U.S.A. The region is known for its historic production of lead, zinc, silver and gold. If our claim does not contain any reserves all funds that we spend on exploration will be lost. Even if we complete our current exploration program and are successful in identifying a mineral deposit we will be required to expend substantial funds on further drilling and engineering studies before we will know if we have a commercially viable mineral deposit or reserve.

The one property on which the net proceeds of the offering will be spent, is the Eureka Lode Mineral Claim which is comprised of one located claim with an area of 20 acres located in the Goodsprings (Yellow Pine) Mining District within the southwestern corner of the State of Nevada.

Access from Las Vegas, Nevada to the Eureka Lode Claim is southward via Interstate Highway #15 for 31 miles, to within five miles past Jean, Nevada, thence westerly for five miles to within 1,000 feet of the Eureka Lode Claim. Las Vegas offers the necessary resources required to base and carry-out an exploration program (accommodations, communications, equipment and supplies).

The area is of a typically desert climate with relatively high temperatures and low precipitation. Vegetation consists mainly of desert shrubs and cactus.

There is not a plant or any equipment currently located on the property. It is expected that the initial exploration phase will be supported by generators. Water required for exploration and development of the claim is available from valley wells.

A three phased exploration program of geophysical and geochemical surveys, trenching, sampling, and diamond drilling estimated to cost US\$ 87,500.00 is recommended to explore for, and delineate, potentially economic lead/zinc/silver bearing mineral zones on the Eureka Lode Claim. As exploration work is conducted and assessed, a decision would be made as to its importance and priority. The next phase of work will be determined by the results from the preceding phase.

The cost of the initial phase of exploration is \$7,000, \$10,500 for the contingent second phase and \$70,000 for the contingent third phase. We plan to commence Phase 1 of the exploration program in the summer of 2008 if we are able to raise the necessary funds from this offering.

The discussions contained herein are management's estimates based on information provided by the consulting geologist who prepared the geology report for the project. Because we have not commenced our exploration program we cannot provide a more detailed discussion of our plans if we find a viable store of minerals on our property, as there is no guarantee that exploitable mineralization will be found, the quantity or type of minerals if they are found and the extraction process that will be required. We are also unable to assure you we will be able to raise the additional funding to proceed with any subsequent work on the claims if mineralization is found.

Acquisition of the Eureka Lode Mining Claim

We entered into a purchase agreement dated December 19, 2007 with Larry Sostad pursuant to which we acquired a 100% interest in the Eureka Lode Mining Claim for cash consideration of \$9,000. The Eureka Claim is comprised of one unpatented lode mineral claim within an area of 20 acres, located in the Yellow Pine Mining District, Clark County, Nevada.

Requirements or Conditions for Retention of Title

In addition to the State regulations, Federal regulations require a yearly maintenance fee to keep the claim in good standing. In accordance with Federal regulations, the Eureka Lode Claim is in good standing to September 1, 2008. A yearly maintenance fee of \$125.00 is required to be paid to the Bureau of Land Management prior to the expiry date to keep the claim in good standing for an additional year.

Location, Access, Climate, Local Resources & Infrastructure

The Eureka Lode Claim, comprising 20 acres, was located on November 26, 2007 and was filed in the Clark County recorder's office in Las Vegas on November 30, 2007 as No 3368 File 080 Page00887 in the official records book No.20071130.

The Eureka Lode Claim is located within Sections 27 & 34 Range 58E, Township 25S at the easternmost portion of the Yellow Pine Mining District of Clark County, Nevada.

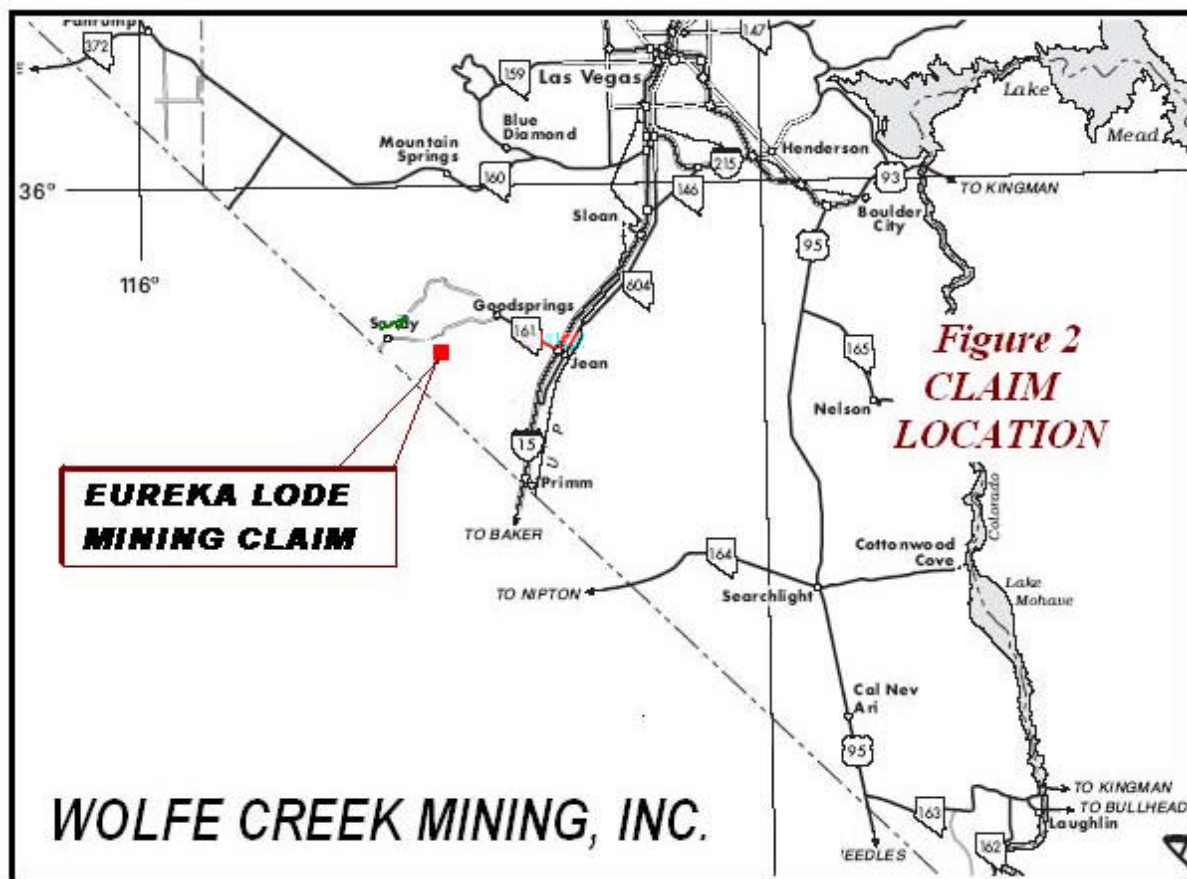

Access from Las Vegas, Nevada to the Eureka Lode Claim is southward via Interstate Highway #15 for approximately 31 miles, to within five miles past Jean, Nevada, thence westerly for five miles to within 1,000 feet of the Eureka Lode Claim.

Infrastructure such as highways and back roads, communications, accommodations and supplies that are essential to carrying-out an exploration program are available in Las Vegas.

Physiography

The Eureka Lode Claim is situated at the southern end of the Sheep Mountain Range, a north-south trending range of mountains with peaks reaching an elevation of 4,184 feet. The Claim covers the southwesterly facing slopes of a northerly trending ridge. Elevations within the confines of the Claim are within the range of 250 feet.

The area is of a typically desert climate with relatively high temperatures and low precipitation. Vegetation consists mainly of desert shrubs and cactus. Sources of water would be available from valley wells.

History

The history of the Yellow Pine Mining District stems from 1856 when Mormon missionaries reported ore in the area. In 1857 the smelting of ore produced 9,000 pounds of lead and in 1898 a mill was built south of Goodsprings. As a result of the mill availability, exploration activity led to the discovery of many of the mines in the area.

Although less famous than many of the other mining districts of the Great Basin it nevertheless ranks second only to Tonopah in total Nevada lead and zinc production. During World War I this district was one of the most productive in the West, but by the end of World War II only a few mines remained in operation.

Even though the mines of this district have been worked primarily for their lead-zinc-silver values, an estimated 91,000 ounces of gold has been recovered as a by-product of copper-lead-silver mining.

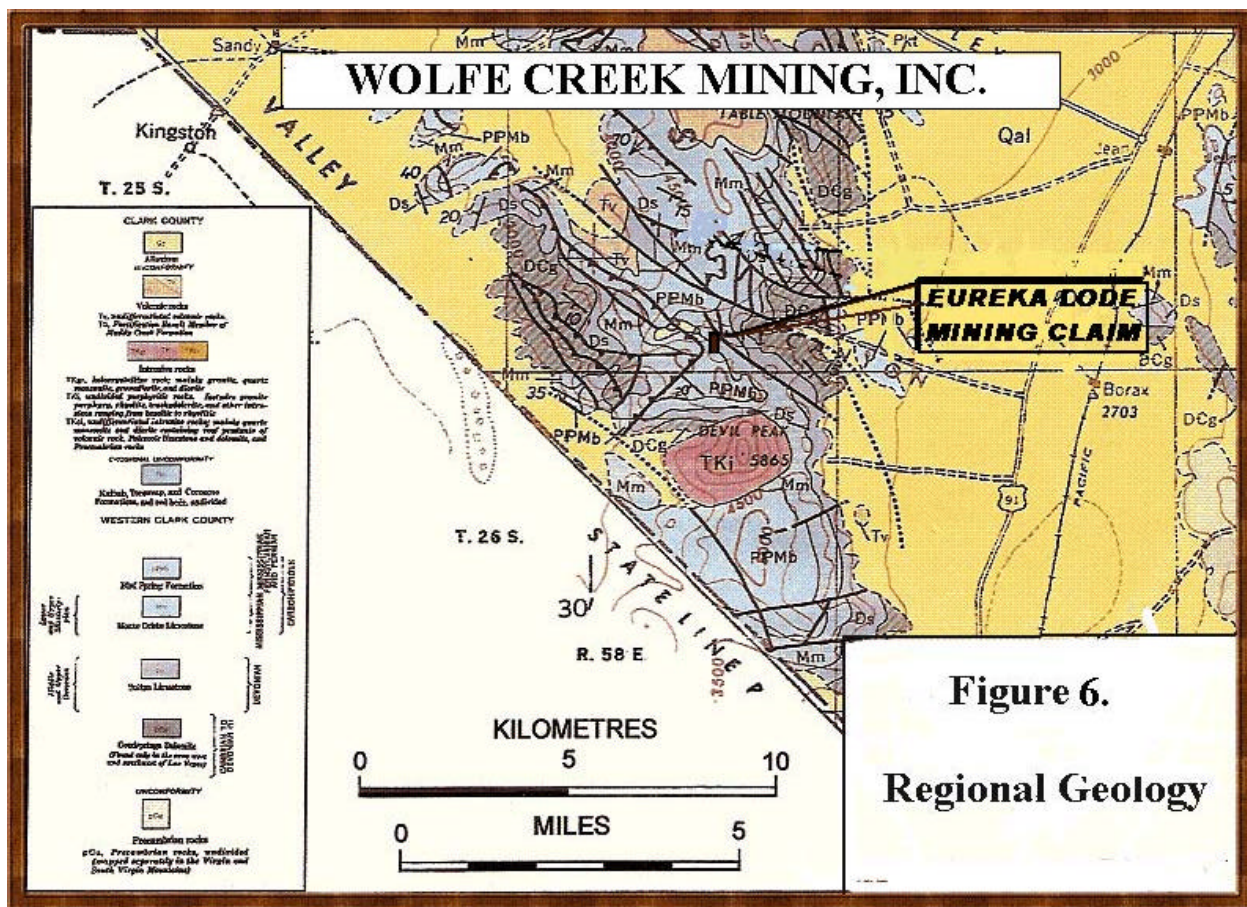

Geological Setting

Regional Geology

In the Yellow Pine district, the Spring Mountain Range in the west, and the Sheep Mountain Range in the east consist mainly of Paleozoic sediments which have undergone intense folding accompanied by faulting. A series of Carboniferous sediments consist largely of siliceous limestones and include strata of pure crystalline limestone and dolomite with occasional intercalated beds of fine grained sandstone. These strata have a general west to southwest dip of from 15 to 45 degrees which is occasionally disturbed by local folds. Igneous rocks are scarce and are represented chiefly by quartz-monzonite porphyry dikes and sills. The quartz-monzonite porphyry is intruded into these strata and is of post-Jurassic age, perhaps Tertiary.

Property Geology

The Eureka Lode Claim is indicated to be underlain by the Yellowpine Limestone member of the Monte Cristo Limestone Formation where lead/zinc mineralization often occurs in a breccia at the base of the limestone.

Competition

We do not compete directly with anyone for the exploration or removal of minerals from our property as we hold all interest and rights to the claim. Readily available commodities markets exist in the U.S. and around the world for the sale of gold, silver and other minerals. Therefore, we will likely be able to sell any gold, silver or other minerals that we are able to recover.

We will be subject to competition and unforeseen limited sources of supplies in the industry in the event spot shortages arise for supplies such as dynamite, and certain equipment such as bulldozers and excavators that we will need to conduct exploration. We have not yet attempted to locate or negotiate with any suppliers of products, equipment or services and will not do so until funds are received from this offering. If we are unsuccessful in securing the products, equipment and services we need we may have to suspend our exploration plans until we are able to do so.

Bankruptcy or Similar Proceedings

There has been no bankruptcy, receivership or similar proceeding.

Reorganizations, Purchase or Sale of Assets

There have been no material reclassifications, mergers, consolidations, or purchase or sale of a significant amount of assets not in the ordinary course of business.

Compliance with Government Regulation

We will be required to comply with all regulations, rules and directives of governmental authorities and agencies applicable to the exploration of minerals in the United States generally, and in Nevada specifically. We will also be subject to the regulations of the Bureau of Land Management.

Patents, Trademarks, Franchises, Concessions, Royalty Agreements, or Labor Contracts

We have no current plans for any registrations such as patents, trademarks, copyrights, franchises, concessions, royalty agreements or labor contracts. We will assess the need for any copyright, trademark or patent applications on an ongoing basis.

Need for Government Approval for its Products or Services

We are not required to apply for or have any government approval for our products or services.

Research and Development Costs during the Last Two Years

We have not expended funds for research and development costs since inception.

Employees and Employment Agreements

Our only employee is our sole officer, Kristen Paul who currently devotes 5-6 hours per week to company matters and after receiving funding she plans to devote as much time as the board of directors determines is necessary to manage the affairs of the company. There are no formal employment agreements between the company and our current employee.

DESCRIPTION OF PROPERTY

We do not currently own any property. We are currently operating out of the premises of our President, Kristen Paul on a rent free basis during our exploration stage. The office is at 15868 SW Kimball Avenue, Lake Oswego, OR 97035. We consider our current principal office space arrangement adequate and will reassess our needs based upon the future growth of the company.

LEGAL PROCEEDINGS

We are not involved in any pending legal proceeding nor are we aware of any pending or threatened litigation against us.

MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

No public market currently exists for shares of our common stock. Following completion of this offering, we intend to apply to have our common stock listed for quotation on the Over-the-Counter Bulletin Board.

Penny Stock Rules

The Securities and Exchange Commission has also adopted rules that regulate broker-dealer practices in connection with transactions in penny stocks. Penny stocks are generally equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system).

A purchaser is purchasing penny stock which limits the ability to sell the stock. The shares offered by this prospectus constitute penny stock under the Securities and Exchange Act. The shares will remain penny stocks for the foreseeable future. The classification of penny stock makes it more difficult for a broker-dealer to sell the stock into a secondary market, which makes it more difficult for a purchaser to liquidate his/her investment. Any broker-dealer engaged by the purchaser for the purpose of selling his or her shares in us will be subject to Rules 15c-1 through 15c-10 of the Securities and Exchange Act. Rather than creating a need to comply with those rules, some broker-dealers will refuse to attempt to sell penny stock.

The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from those rules, to deliver a standardized risk disclosure document, which:

- contains a description of the nature and level of risk in the market for penny stock in both public offerings and secondary trading;
- contains a description of the broker's or dealer's duties to the customer and of the rights and remedies available to the customer with respect to a violation of such duties or other requirements of the Securities Act of 1934, as amended;

- contains a brief, clear, narrative description of a dealer market, including “bid” and “ask” price for the penny stock and the significance of the spread between the bid and ask price;
- contains a toll-free telephone number for inquiries on disciplinary actions;
- defines significant terms in the disclosure document or in the conduct of trading penny stocks; and
- contains such other information and is in such form (including language, type, size and format) as the Securities and Exchange Commission shall require by rule or regulation;

The broker-dealer also must provide, prior to effecting any transaction in a penny stock, to the customer:

- the bid and offer quotations for the penny stock;
- the compensation of the broker-dealer and its salesperson in the transaction;
- the number of shares to which such bid and ask prices apply, or other comparable information relating to the depth and liquidity of the market for such stock; and
- monthly account statements showing the market value of each penny stock held in the customer’s account.

In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from those rules; the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser’s written acknowledgment of the receipt of a risk disclosure statement, a written agreement to transactions involving penny stocks, and a signed and dated copy of a written suitability statement. These disclosure requirements will have the effect of reducing the trading activity in the secondary market for our stock because it will be subject to these penny stock rules. Therefore, stockholders may have difficulty selling their securities.

Regulation M

Our officer and director, who will offer and sell the Shares, is aware that she is required to comply with the provisions of Regulation M promulgated under the Securities Exchange Act of 1934, as amended. With certain exceptions, Regulation M precludes the officers and directors, sales agents, any broker-dealer or other person who participate in the distribution of shares in this offering from bidding for or purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of the distribution until the entire distribution is complete.

Reports

We are subject to certain reporting requirements and will furnish annual financial reports to our stockholders, certified by our independent accountants, and will furnish un-audited quarterly financial reports in our quarterly reports filed electronically with the SEC. All reports and information filed by us can be found at the SEC website, www.sec.gov.

Stock Transfer Agent

The company's stock transfer agent is Signature Stock Transfer.

FINANCIAL STATEMENTS

Our fiscal year end is December 31. We intend to provide financial statements audited by an Independent Registered Public Accounting Firm to our shareholders in our annual reports. The audited financial statements for the period from inception, June 26, 2007, to December 31, 2007 immediately follow.

MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

We have generated no revenue since inception and have incurred \$9,105 in expenses through December 31, 2007.

The following table provides selected financial data about our company for the period from the date of incorporation through December 31, 2007. For detailed financial information, see the financial statements included in this prospectus.

<u>Balance Sheet Data:</u>	<u>12/31/2007</u>
Cash	\$ 5,895
Total assets	\$ 5,895
Total liabilities	\$ 0
Shareholders' equity	\$ 5,895

Other than the shares offered by this prospectus, no other source of capital has been identified or sought. If we experience a shortfall in operating capital prior to funding from the proceeds of this offering, our director has verbally agreed to advance the company funds to complete the registration process.

Plan of Operation

Going Concern

Our auditor has issued a going concern opinion. This means that there is substantial doubt that we can continue as an on-going business for the next twelve months unless we obtain additional capital to pay our bills. This is because we have not generated revenues and no revenues are anticipated until we begin removing and selling minerals. There is no assurance we will ever reach that point.

Our current cash balance is \$5,895. We believe our cash balance is sufficient to fund our limited levels of operations until we receive funding. If we experience a shortage of funds prior to funding we may utilize funds from our director, who has informally agreed to advance funds to allow us to pay for offering costs, filing fees, and professional fees, however she has no formal commitment, arrangement or legal obligation to advance or loan funds to the company. In order to achieve our business plan goals, we will need the funding from this offering. We are an exploration stage company and have generated no revenue to date. We have sold \$15,000 in equity securities to pay for our minimum level of operations.

Our exploration target is to find exploitable minerals on our property. Our success depends on achieving that target. There is the likelihood of our mineral claim containing little or no economic mineralization or reserves of gold, silver and other minerals. There is the possibility that our claim does not contain any reserves and funds that we spend on exploration will be lost. Even if we complete our current exploration program and are successful in identifying a mineral deposit we will

be required to expend substantial funds to bring our claim to production. We are unable to assure you we will be able to raise the additional funds necessary to implement any future exploration or extraction program even if mineralization is found.

Our plan of operation for the twelve months following the date of this prospectus is to complete the first two phases of the exploration program on our claim consisting of geological mapping, soil sampling and rock sampling. In addition to the \$7,000 we anticipate spending for Phase 1 and \$10,500 on Phase 2 of the exploration program as outlined below, we anticipate spending an additional \$13,000 on professional fees, including fees payable in connection with the filing of this registration statement and complying with reporting obligations, and general administrative costs. Total expenditures over the next 12 months are therefore expected to be approximately \$30,500. We will require the funds from this offering to proceed.

The following work program has been recommended by the consulting geologist who prepared the geology report for the Eureka Lode Mining Claim.

Phase 1

VLF-EM and magnetometer surveys	\$ 7,000
---------------------------------	----------

Phase 2

Localized soil surveys, trenching and sampling over known and indicated mineralized zones	\$ 10,500
---	-----------

Phase 3

Test diamond drilling	<u>\$ 70,000</u>
-----------------------	------------------

Total	<u>\$ 87,500</u>
-------	------------------

If we are successful in raising the funds from this offering we plan to commence Phase 1 of the exploration program on the claim in the summer of 2008. We have a verbal agreement with Sookochoff Consultants Inc., the consulting geology firm who prepared the geology report on our claim, to retain their services for our planned exploration program. We expect this phase to take two weeks to complete and an additional three months for the consulting geologist to receive the results from the assay lab and prepare his report. If Phase 1 of the exploration program is successful we anticipate commencing Phase 2 in the fall of 2008. We expect this phase to take three weeks to complete and an additional three months for the consulting geologist to receive the results from the assay lab and prepare his report.

The above program costs are management's estimates based upon the recommendations of the professional consulting geologist's report and the actual project costs may exceed our estimates. To date, we have not commenced exploration.

Following phase two of the exploration program, if it proves successful in identifying mineral deposits, we intend to proceed with phase three of our exploration program if we are able to raise the funds necessary. The estimated cost of this program is \$70,000 and will take approximately 4 weeks to complete and an additional three to four months for the consulting geologist to receive the results from the assay lab and prepare his report.

Subject to financing, we anticipate commencing the third phase in spring 2009. We will require additional funding to proceed with phase three and any subsequent work on the claim, we have no current plans on how to raise the additional funding. We cannot provide investors with any assurance that we will be able to raise sufficient funds to proceed with any work after the first phase of the exploration program.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Limited Operating History; Need for Additional Capital

There is no historical financial information about us on which to base an evaluation of our performance. We are an exploration stage company and have not generated revenues from operations. We cannot guarantee we will be successful in our business operations. Our business is subject to risks inherent in the establishment of a new business enterprise, including limited capital resources, possible delays in the exploration of our property, and possible cost overruns due to increases in the cost of services.

To become profitable and competitive, we must conduct the exploration of our properties before we start into production of any minerals we may find. We are seeking funding from this offering to provide the capital required for the first two phases of our exploration program. We believe that the funds from this offering will allow us to operate for one year.

We have no assurance that future financing will materialize. If that financing is not available to us for the second phase of our exploration program we may be unable to continue.

Liquidity and Capital Resources

To meet our need for cash we are attempting to raise money from this offering. We cannot guarantee that we will be able to sell all the shares required. If we are successful any money raised will be applied to the items set forth in the Use of Proceeds section of this prospectus. If the first two phases of our exploration program are successful in identifying mineral deposits we will attempt to raise the necessary funds to proceed with phase three, and any subsequent drilling and extraction. The sources of funding we may consider to fund this work include a second public offering, a private placement of our securities or loans from our director or others.

Our director has agreed to advance funds as needed until the offering is completed or failed and has agreed to pay the cost of reclamation of the property should exploitable minerals not be found and we abandon the third phase of our exploration program and there are no remaining funds in the company. While she has agreed to advance the funds, the agreement is verbal and is unenforceable as a matter of law.

The one property in the Company's portfolio, on which the net proceeds of the offering will be spent, is the Eureka Lode Mineral Claim on approximately 20 acres. We have not carried out any exploration work on the claim and have incurred no exploration costs.

We received our initial funding of \$15,000 through the sale of common stock to Kristen Paul, our officer and director, who purchased 3,000,000 shares of our common stock at \$0.005 per share on June 26, 2007. From inception until the date of this filing we have had no operating activities. Our financial statements from inception (June 26, 2007) through the year ended December 31, 2007 report no revenues and a net loss of \$9,105.

Significant Accounting Policies

Basis of Presentation

The Company reports revenue and expenses using the accrual method of accounting for financial and tax reporting purposes.

Use of Estimates

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses.

Mineral Property Acquisition and Exploration Costs

Mineral property acquisition, exploration and development costs are expensed as incurred until such time as economic reserves are quantified. To date the Company has not established any proven or probable reserves on its mineral properties.

Depreciation, Amortization and Capitalization

The Company records depreciation and amortization, when appropriate, using both straight-line method over the estimated useful lives of the assets (five to seven years). Expenditures for maintenance and repairs are charged to expense as incurred. Additions, major renewals and

replacements that increase the property's useful life are capitalized. Property sold or retired, together with the related accumulated depreciation is removed from the appropriate accounts and the resultant gain or loss is included in net income.

Income Taxes

The Company accounts for its income taxes in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes". Under Statement 109, a liability method is used whereby deferred tax assets and liabilities are determined based on temporary differences between basis used for financial reporting and income tax reporting purposes. Income taxes are provided based on tax rates in effect at the time such temporary differences are expected to reverse. A valuation allowance is provided for certain deferred tax assets if it is more likely than not, that the Company will not realize the tax assets through future operations.

Fair Value of Financial Instruments

Financial accounting Standards Statement No. 107, "Disclosures about Fair Value of Financial Instruments", requires the Company to disclose, when reasonably attainable, the fair market values of its assets and liabilities which are deemed to be financial instruments. The Company's financial instruments consist primarily of cash and certain investments.

Investments

Investments that are purchased in other companies are valued at cost less any impairment in the value that is other than temporary in nature.

Per Share Information

The Company computes per share information in accordance with SFAS No. 128, "Earnings per Share" which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing the net loss available to common shareholders by the weighted average number of common shares outstanding during such period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive. The Company has basic and diluted loss per share of \$0.001

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS

Directors of the corporation are elected by the stockholders to a term of one year and serve until a successor is elected and qualified. Officers of the corporation are appointed by the Board of Directors

to a term of one year and serves until a successor is duly appointed and qualified, or until he or she is removed from office. The Board of Directors has no nominating, auditing or compensation committees.

The name, address, age and position of our officer and director is set forth below:

<u>Name and Address</u>	<u>Age</u>	<u>Position(s)</u>
Kristen Paul 15868 SW Kimball Avenue Lake Oswego, OR 97035	44	President, Secretary, Chief Financial Officer, Chief Executive Officer, Sole Director

The person named above has held her offices/positions since the inception of our Company and is expected to hold said offices/positions until the next annual meeting of our stockholders. The officer and director is our only officer, director, promoter and control person.

Background Information about Our Officer and Director

Kristen Paul has been president and CEO and Chairman of the Board of Directors of the company since inception. Since 2005 Kristen has been designer, ceramist and owner of Earth & Hand Studios. Kristen founded earth & hand studios in 2005. Prior to that, beginning in 1998, Kristen was a consultant and sales representative for Braden Enterprises, the parent company of the Vic Braden Tennis College and Vic Braden Sports Instruction, a video/DVD/book retail business. Her experience, comprised of 15 years in sales and marketing, helped launch a successful internet sales presence. Kristen spent 9 years in the Entertainment Industry working with several production companies coordinating television commercials, documentaries and music videos.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our directors and executive officers, and persons who own more than ten percent of our common stock, to file with the Securities and Exchange Commission initial reports of ownership and reports of changes of ownership of our common stock. Officers, directors and greater than ten percent stockholders are required by SEC regulation to furnish us with copies of all Section 16(a) forms they file.

We intend to ensure to the best of our ability that all Section 16(a) filing requirements applicable to our officers, directors and greater than ten percent beneficial owners are complied within a timely fashion.

EXECUTIVE COMPENSATION

Currently, our officer and director receives no compensation for her services during the exploration stage of our business operations. She is reimbursed for any out-of-pocket expenses that she incurs on our behalf. In the future, we may approve payment of salaries for officers and directors, but currently, no such plans have been approved. We do not have any employment agreements in place with our sole officer and director. We also do not currently have any benefits, such as health or life insurance, available to our employees.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth, as of the date of this prospectus, the total number of shares owned beneficially by our director, officers and key employees, individually and as a group, and the present owners of 5% or more of our total outstanding shares. The table also reflects what the percentage of ownership will be assuming completion of the sale of all shares in this offering, which we can't guarantee. The stockholder listed below has direct ownership of his shares and possesses sole voting and dispositive power with respect to the shares.

<u>Name and Address Beneficial Owner</u>	<u>No. of Shares Before Offering</u>	<u>No. of Shares After Offering</u>	<u>Percentage of Ownership: Before Offering After Offering</u>	
Kristen Paul 15868 SW Kimball Avenue Lake Oswego, OR 97035	3,000,000	3,000,000	100%	75%
All Officers and Directors as a Group	3,000,000	3,000,000	100%	75%

Future Sales by Existing Stockholders

A total of 3,000,000 shares have been issued to the existing stockholder, all of which are held by our sole officer and director and are restricted securities, as that term is defined in Rule 144 of the Rules and Regulations of the SEC promulgated under the Act. Under Rule 144, such shares can be publicly sold, subject to volume restrictions and certain restrictions on the manner of sale, commencing six months after their acquisition. Any sale of shares held by the existing stockholder (after applicable restrictions expire) and/or the sale of shares purchased in this offering (which would be immediately resalable after the offering), may have a depressive effect on the price of our common stock in any market that may develop, of which there can be no assurance.

Our principal shareholder does not have any plans to sell her shares at any time after this offering is complete.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Kristen Paul is our sole officer and director. We are currently operating out of the premises of Kristen Paul on a rent-free basis for administrative purposes. There is no written agreement or other material terms or arrangements relating to said arrangement.

On October 15, 2007 the Company issued a total of 3,000,000 shares of common stock to Kristen Paul for cash at \$0.005 per share for a total of \$15,000.

We do not currently have any conflicts of interest by or among our current officer, director, key employee or advisors. We have not yet formulated a policy for handling conflicts of interest; however, we intend to do so upon completion of this offering and, in any event, prior to hiring any additional employees.

DISCLOSURE OF COMMISSION POSITION OF INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the “Act”) may be permitted to directors, officers and controlling persons of the small business issuer pursuant to the By-Laws of the company, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act, and is, therefore unenforceable.

In the event that a claim for indemnification against such liabilities (other than the payment of expenses incurred or paid by a director, officer or controlling person in the successful defense of any action, suit or proceeding) is asserted by such director, officer, or other control person in connection with the securities being registered, we will, unless in the opinion of our legal counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it, is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

AVAILABLE INFORMATION

We have filed a registration statement on Form S-1, of which this prospectus is a part, with the U.S. Securities and Exchange Commission. Upon completion of the registration, we will be subject to the informational requirements of the Exchange Act and, in accordance therewith, will file all requisite reports, such as Forms 10-K, 10-Q and 8-K, proxy statements, under Sec.14 of the Exchange Act, and other information with the Commission. Such reports, proxy statements, this registration statement and other information, may be inspected and copied at the public reference facilities maintained by the Commission at 100 Fifth Street NE, Washington, D.C. 20549. Copies of all materials may be obtained from the Public Reference Section of the Commission’s Washington, D.C. office at prescribed rates. You may obtain information regarding the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The Commission also maintains a Web site that contains reports, proxy and information statements and other information regarding registrants that file electronically with the Commission at <http://www.sec.gov>.

Dealer Prospectus Delivery Obligation

“Until _____, all dealers that effect transactions in these securities, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to the dealers’ obligation to deliver a prospectus when acting as underwriters and with respect to their unsold allotments or subscriptions.”

PART II - INFORMATION NOT REQUIRED IN PROSPECTUS

Item 13. Other Expenses of Issuance and Distribution.

Expenses incurred, or expected, relating to this Prospectus are as follows:

Legal and Professional Fees	\$ 1,500
Accounting and auditing	2,500
Printing of Prospectus	<u>500</u>
 TOTAL	 <u>\$ 4,000</u>

Item 14. Indemnification of Directors and Officers.

Wolfe Creek Mining, Inc.'s By-Laws allow for the indemnification of the officers and directors in regard to their carrying out the duties of their offices. The board of directors will make determination regarding the indemnification of the director, officer or employee as is proper under the circumstances if he/she has met the applicable standard of conduct set forth in the Delaware General Corporation Law.

As to indemnification for liabilities arising under the Securities Act of 1933 for directors, officers or persons controlling Wolfe Creek Mining, Inc., we have been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy and unenforceable.

Item 15. Recent Sales of Unregistered Securities.

Set forth below is information regarding the issuance and sales of securities without registration since inception. No such sales involved the use of an underwriter; no advertising or public solicitation was involved; the securities bear a restrictive legend; and no commissions were paid in connection with the sale of any securities.

On October 15, 2007 the Company issued a total of 3,000,000 shares of common stock to Kristen Paul for cash at \$0.005 per share for a total of \$15,000.

These securities were issued in reliance upon the exemption contained in Section 4(2) of the Securities Act of 1933. These securities were issued to a promoter of the company and bear a restrictive legend.

Item 16. Exhibits.

The following exhibits are included with this registration statement:

<u>Exhibit Number</u>	<u>Description</u>
3.1	Articles of Incorporation
3.2	Bylaws
5	Opinion re: Legality
10	Mineral Property Purchase Agreement
23.1	Consent of Independent Auditor
23.3	Consent of Counsel (See Exhibit 5)

Item 17. Undertakings

a. The undersigned registrant hereby undertakes:

1. To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - i. To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;
 - ii. To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.
 - iii. To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;
2. That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
3. To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

4. That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:
 - i. If the registrant is relying on Rule 430B (230.430B of this chapter):
 - a. Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and
 - b. Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or
 - ii. If the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

5. That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities: The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:
- i. Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
 - ii. Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
 - iii. The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
 - iv. Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

Insofar as indemnification for liabilities arising under the 1933 Act may be permitted to our director, officer and controlling persons of the small business issuer pursuant to the foregoing provisions, or otherwise, the small business issuer has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the 1933 Act, and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities (other than the payment by the small business issuer of expenses incurred or paid by a director, officer or controlling person of the small business issuer in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the small business issuer will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the 1933 Act, and will be governed by the final adjudication of such issue.

SIGNATURES

In accordance with the requirements of the Securities Act of 1933, the registrant has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Lake Oswego, Oregon on March 10, 2008.

Wolfe Creek Mining, Inc., Registrant
