GALT FINANCIAL GROUP, INC.
(a subchapter S corporation)
NOTES TO FINANCIAL STATEMENTS
For the Year Ended December 31, 2021

NOTE 1 -Organization

Galt Financial Group, Inc. (the "Company") is a California corporation incorporated on May 26, 2007. The Company became a registered broker-dealer in securities under the Securities Exchange Act of 1934, on September 29, 2008. The Company is a member of the Financial Industry Regulatory Authority ("FINRA"), and the Securities Investor Protection Corporation ("SIPC").

The Company is allowed to engage in the following types of business: (1) mutual fund retailer, (2) broker or dealer selling variable life insurance or annuities, (3) broker or dealer selling tax shelters or limited partnerships in primary distributions, (4) real estate investment trusts, (5) private placements of securities. The company derives revenue primarily from the sale of mutual funds, variable life insurance and annuities and investment banking fees earned through the placement of securities.

The Company is a wholly-owned subsidiary of HSH Financial, Inc. ("Parent")

NOTE 2 -Summary of Significant Accounting Policies

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

S-Corp election

The Company, with the consent of its Stockholder, has elected to be a qualified subchapter S Corporation and, accordingly, has its income taxed under Sections 1361-1379 of the Internal Revenue Code. Subchapter S of the Code provides that the Stockholder, rather than the Company, are subject to tax on the Company's taxable income. Therefore, no provision or liability for Federal Income Taxes is included in these financial statements.

Operating Leases

In February 2016, the Financial Accounting Standards Board ("FASB" or "the Board") issued its leasing standard in ASU 2016-02 ("ASC 842" or "the new standard") for both lessees and lessors. ASC 842 requires lessees to capitalize (i.e., recognize a right-of-use asset and a lease liability) all leases with a term of more than one year. Recognition of expense by a lessee will depend on the classification of a lease as either operating or financing. Expense for an operating lease will generally continue to be reported on a straight-line basis over the lease term, whereas the expense for a finance lease will follow a financing model (amortization of the asset and interest on the lease liability). The lease accounting guidance in ASC 842 applies to any arrangement that conveys control over an identified asset to another party. An arrangement is a lease or contains a lease if (1) there is an explicitly or implicitly identified asset and (2) use of the asset is controlled by the customer (user of the asset or taker of the output from the asset).

Upon further review of the current office agreement and application under FASB's new standard, Leases (ASC 842), the Company's analysis is as follows: (i) Term: the current agreement is on a month-to-month basis and therefore is not a term of more than one year; (ii) Identified Asset: as this is a shared office environment, it would appear that the lessor can or could substitute the office for another office to fulfil the arrangement throughout the term of the arrangement and such move would economically benefit Lessor to do; (iii) Right to Control: the shared office may not be entirely physically distinct as the occupants do not have the right to obtain substantially all of the economic benefits nor do the occupants have the right to direct the use of the identified asset throughout the period of the arrangement.

Revenue Recognition

ASC 606, Revenue from Contracts with Customers

The Financial Accounting Standards Board (FASB) and International Accounting Standards Board (IASB) issued substantially converged final standards on revenue recognition. The FASB's Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606)*, provides a robust framework for addressing revenue recognition issues, and upon its effective date, replaces almost all pre-existing revenue recognition guidance in current U.S. generally accepted accounting

principles (GAAP) (i.e., legacy GAAP), including industry-specific guidance and the Securities and Exchange Commission's (SEC) Staff Accounting Bulletin Topic 13, *Revenue Recognition* (which is also part of legacy GAAP for public entities).

Customer security transactions and the related commission income and expense are recorded as of the trade date.

The Company generally acts as an agent in executing customer orders to buy or sell securities, primarily variable annuities, mutual funds and Real Estate Investment Trusts (REITs), in which it does not make a market, and charges commissions based on the services the Company provides to its customers.

Cash and Cash Equivalents

The Company considers all highly liquid temporary cash investments with an original maturity of three months or less when purchased, to be cash equivalents.

Fair Value of Financial Instruments

FASB requires that the Company disclose estimated fair values of financial instruments. The carrying amounts reported in the statement of financial position for current assets and current liabilities qualifying as financial instruments approximate fair value because of their short maturities.

On July 1, 2008, the Company adopted the provisions of Accounting Standard Codification ("ASC") Topic 820, which defines fair value for accounting purposes, establishes a framework for measuring fair value and expands disclosure requirements regarding fair value measurements. The Company's adoption of ASC 820 did not have a material impact on its financial statements. Fair value is defined as an exit price, which is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date. The degree of judgment utilized in measuring the fair value of assets and liabilities generally correlates to the level of pricing observability. Financial assets and liabilities with readily available, actively quoted prices or for which fair value can be measured from actively quoted prices in active markets generally have more pricing observability and require less judgment in measuring fair value. Conversely, financial assets and liabilities that are rarely traded or not quoted have less price observability and are generally measured at fair value using valuation methods that require more judgment. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency of the asset, liability or market and the nature of the asset or liability. The Company has categorized its financial assets and liabilities measured at fair value into a three level hierarchy in accordance with ASC 820.

Concentrations of Credit Risk

The Company is engaged in various trading and brokerage activities in which counterparties include broker/dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends upon the creditworthiness of the counterparty or issuer of the instrument. To mitigate the risk of loss, the Company maintains its accounts with credit worthy customers and counterparties. 47% of the Company's revenues are primarily from Private Placements/Real Estate Investment Trusts (REITs)/1031 Exchanges and for those exceeding 10% of the Company's revenue: approx. 46% of the Company's revenues are from annuity companies.

Defined Benefit Plan

The Company and owners determine on a year by year basis whether to contribute to the existing Defined Benefit Plan.

Recent Accounting Pronouncements

Management does not believe there are any issued, but not yet effective, accounting standards if currently adopted which would have a material effect on the accompanying consolidated financial statements.

NOTE 3 – Related Party Transactions

During the year ended December 31, 2021, the Company charged to operation \$202,111 as payroll expenses to President and Chief Compliance Officer, together owning 100% shares in the Company. The Company also made contributions to its Defined Benefit Plan for the President and Chief Compliance Officer for a total of \$245,000. The Defined Benefit Plan is accounted for through the services of the plan Third Party Administrator including actuarial calculations and required tax filings.

(a subchapter S corporation)
NOTES TO FINANCIAL STATEMENTS
For the Year Ended December 31, 2021

NOTE 4 –Fair Value Measurements

The financial assets of the Company measured at fair value on a recurring basis are cash. The Company's cash equivalents is generally classified within Level 1 of the fair value hierarchy because it is valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency.

Various inputs are used in determining the fair value of our financial assets and liabilities and are summarized into three broad categories:

Level 1: quoted prices in active markets for identical securities;

Level 2: other significant observable inputs, including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.; and

Level 3: significant unobservable inputs, including our own assumptions in determining fair value.

The carrying amount of the Company's other assets and liabilities approximate fair value as of December 31, 2021.

NOTE 5 –Net Capital Requirements

The Company is a registered broker-dealer and is subject to the SEC's Uniform Net Capital Rule 15c3-1. This requires that the Company maintain minimum net capital of \$5,000 and also requires that the ratio of aggregate indebtedness, as defined, to net capital, shall not exceed 15 to 1 (and the rule of the "applicable" exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1).

As of December 31, 2021, the Company's net capital exceeded the requirement by \$80,075. The Company's aggregate indebtedness to net capital ratio was 0.088 to 1.

Advances, dividend payments and other equity withdrawals are restricted by the regulations of the SEC, and other regulatory agencies are subject to certain notification and other provisions of the net capital rules of the SEC.

The Company no longer qualifies under the exemptive provisions of Rule 15c3-3 under Section (k)(2)(i). In August 2020, the Company filed a Membership Application Change with FINRA based on its review and interpretation of the SEC's Division of Trading and Markets FAQ 18 in the Frequently Asked Questions Concerning the Amendments to Certain Broker-Dealer Financial Responsibility Rules and FAQs 8, 8.1, 12, 12.1 and 12.2 in the Frequently Asked Questions Concerning the July 30, 2013 Amendments to the Broker-Dealer Financial Reporting Rule. Upon review, it appeared that the Company did not meet any of the exemption conditions of paragraph (k) of SEA Rule 15c3-3 (i.e., paragraph (k)(1), (k)(2)(i) or (k)(2)(ii)), and that it (1) does not directly or indirectly receive, hold, or otherwise owe funds or securities for or to customers, other than money or other consideration received and promptly transmitted in compliance with paragraph (a) or (b)(2) of SEA Rule 15c2-4; (2) does not carry accounts of or for customers; and (3) does not carry PAB accounts (as defined in Rule 15c3-3) (referred to in the SEC staff's FAQ guidance as a "Non-Covered Firm"). Therefore, as a newly classified "Non-Covered Firm" pursuant to Footnote 74 to SEC Release 34-70073, dated July 30, 2013, and as discussed in Q&A 8 of the related FAQ issued by SEC on April 4, 2014, Item B(2) of the Company's FINRA membership agreement was updated to state, "The Firm will not claim an exemption from SEA Rule 15c3-3, in reliance on footnote 74 to SEC Release 34-70073, and as discussed in Q&A 8 of the related FAQ issued by SEC staff. The Firm has represented that it does not and will not, (1) directly or indirectly receive, hold, or otherwise owe funds or securities for or to customers, (2) does not and will not carry accounts of or for customers, and (3) does not and will not carry PAB accounts."

NOTE 6 –COVID-19 Impact

Management is currently evaluating the COVID-19 pandemic and its impact on the financial services industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's operations, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 7 –Subsequent Events

In accordance with FASB ASC 855 "Subsequent Events", the Company has evaluated subsequent events through March 1, 2022. There have been no material subsequent events which require recognition or disclosure.
