## INDEPENDENT ACCOUNTANT'S COMPILATION REPORT

To Board of Directors and Management  
Universal Solar Technology, Inc.  
Houston, Texas

Management is responsible for the accompanying interim financial statements of Universal Solar Technology, Inc. (a Nevada corporation), which comprise the balance sheet as of September 30, 2020, and the related statements of operations, stockholder's deficit and cash flows for the quarter then ended, and the related notes to the interim financial statements in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the interim financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. We do not express an opinion, a conclusion, nor provide any assurance on these interim financial statements.

### Emphasis of Matter

The accompanying interim financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 9 to the interim financial statements, the Company has been experiencing losses and liquidity issues. The Company has also been affected significantly by conditions in the marketplace due to the COVID-19 pandemic. These matters indicate that substantial doubt exists about the Company's ability to continue as a going concern. Management's plans concerning these matters are also discussed in Note 9 to the financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

## Notes to Financial Statements

---

### NOTE 1: ORGANIZATION

Universal Solar Technology, Inc. (the “Company”) was incorporated under the laws of the State of Nevada on July 24, 2007. When in operation, the Company will provide services in financial technology (fintech) through its renewable energy platform. The Company also plans the installation of a closed loop waste to energy technology with a global consequential impact. The Company plans to serve clients world-wide.

### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of the Company is presented to assist in understanding the financial statements. The financial statements and notes are the representations of its management, who is responsible for their integrity and objectivity. These accounting policies reflect industry practices, which conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

#### *Cash and Cash Equivalents*

Cash and Cash Equivalents include cash on hand, cash in banks, and all highly liquid investments with original maturities of three months or less at the time of purchase. As of September 30, 2020, cash and cash equivalents total \$4,065.

#### *Income Taxes*

The Company account for income taxes under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements. Under this method, the Company determines deferred tax assets and liabilities on the basis of the differences between the financial statement and tax bases of assets and liabilities by using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date. The Company recognizes deferred tax assets to the extent that management believes that these assets are more likely than not to be realized. In making such a determination, management consider all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax-planning strategies, and results of recent operations. If management determines that the Company would be able to realize its deferred tax assets in the future in excess of their net recorded amount, management would make an adjustment to the deferred tax asset valuation allowance, which would reduce the provision for income taxes.

**Universal Solar Technology, Inc.**  
**Notes to Financial Statements**

---

**NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***Income Taxes (Continued)***

Management records uncertain tax positions in accordance with ASC 740 on the basis of a two-step process in which (1) management determines whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more-likely-than-not recognition threshold, management recognizes the largest amount of tax benefit that is more than 50 percent likely to be realized upon ultimate settlement with the related tax authority.

Based on its evaluation, the Company has concluded that there are no significant uncertain tax positions requiring recognition in its financial statements. The Partnership's evaluation was performed for the tax periods ended October 31, 2015 through September 30, 2020 for U.S. Federal and applicable states, the tax years which principally remain subject to examination by major tax jurisdictions as of September 30, 2020.

***Concentrations of Credit Risk***

Cash deposits are insured by Federal Deposit Insurance Corporation (FDIC) up to \$250,000. Management believes any credit risk is low due to the overall financial strength of the financial institution.

***Fair Value Considerations***

The Company may use fair value to measure certain financial and nonfinancial assets and liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The fair value hierarchy established and prioritized fair value measurements into three levels based on the nature of the inputs. The hierarchy gives the highest priority to inputs based on market data from independent sources (observable inputs-Level 1) and the lowest priority to a reporting entity's internal assumptions based upon the best information available when external market data is limited or unavailable (unobservable inputs-Level 3).

The fair value option allows entities to choose, at specified election dates, to measure eligible financial assets and financial liabilities at fair value that are not otherwise required to be measured at fair value. If an organization elects the fair value option for an eligible item, changes in that item's fair value in subsequent reporting periods must be recognized in current earnings. The Company did not elect the fair value option for the measurement of any eligible assets or liabilities.

The Company's financial instruments are carried in the accompanying balance sheet at amounts which approximate fair value.

**Universal Solar Technology, Inc.**  
**Notes to Financial Statements**

---

**NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***Long-Lived Assets***

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets might not be recoverable. Conditions that would necessitate an impairment assessment include a significant decline in the observable market value of an asset, a significant change in the extent or manner in which an asset is used, or any other significant adverse change that would indicate that the carrying amount of an asset or group of assets may not be recoverable.

For long-lived assets used in operations, including lease assets, impairment losses are only recorded if the asset's carrying amount is not recoverable through its undiscounted, probability-weighted future cash flows. We measure the impairment loss based on the difference between the carrying amount and estimated fair value. Long-lived assets are considered held for sale when certain criteria are met, including when management has committed to a plan to sell the asset, the asset is available for sale in its immediate condition, and the sale is probable within one year of the reporting date.

***Use of Estimates***

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates that have the most impact on financial position and results of operations primarily relate to the collectability of accounts receivable, the useful lives of property and equipment and certain accrued liabilities. Management believes these estimates and assumptions provide a reasonable basis for the fair presentation of the financial statements.

**NOTE 3: LOAN RECEIVABLE**

**NOTE 7: LOSS FROM DISPOSAL OF ASSETS**

Management evaluated long lived assets and determined that it would not realize the remaining carrying value of property and equipment. In July 2020, management recorded a loss from disposal of assets totaling \$8,361.

**NOTE 8: INCOME TAXES**

For financial reporting purposes, loss before income tax benefit consists of operating expenses incurred. The benefit for income taxes consists of the:

Current, Federal	\$ 33,520
Deferred, Federal	<u>11,254</u>
Total Tax Benefit	<u>\$ 44,774</u>

Reconciliation between the effective tax rate on loss from continuing operations and the statutory tax rate is as follows:

Income tax benefit at the federal statutory rate	\$ 44,774
Change in valuation	<u>-</u>
Income tax benefit	<u>\$ 44,774</u>

The Company has income tax net operating loss (NOL) carryforwards. Recorded deferred tax assets of \$44,774 reflecting the benefit of in loss carryforwards expire as follows:

2039	\$ 11,254
2040	<u>33,250</u>
Total	<u>\$ 44,774</u>

We believe that it is more likely than not that the benefit from Federal NOL carryforwards will be realized. In recognition of this risk, we have not provided a valuation allowance on the deferred tax assets related to NOL carryforwards. If or when recognized, the tax benefits related to any reversal of the valuation allowance on deferred tax assets as of September 30, 2020, will be accounted for as follows: approximately \$XXX will be recognized as a reduction of income tax expense and \$XXX will be recorded as an increase in equity. The federal NOL carryforwards in the income tax returns filed included unrecognized tax benefits. The deferred tax assets recognized for those NOLs are presented net of these unrecognized tax benefits.

#### NOTE 9: EMPHASIS OF MATTER

##### Going Concern

These financial statements have been prepared on a going concern basis in accordance with generally accepted accounting principles in the United States. The going concern basis assumes that the Company will continue in operations for a reasonable period of time and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business.

The Company has been in development since inception and has relied on advances primarily from one related party and financing from the SBA to raise monies for operations. Without revenues, the Company has incurred losses, negative cash flows and a stockholders' deficit. Need for additional financing and the uncertainties surrounding our ability to obtain such financing raise substantial doubt about our ability to continue as a going concern.

The Company's anticipated merger with Entrex will position the Company to generate revenue from a more diverse strategic investment approach. Likewise, the Company is in the final stages of negotiations for a partnership with a waste to energy company which will position it for revenue generation within the next 12 months.

The achievement of these goals is paramount to the mitigation of the factors described. To fail in completing these actions will cast substantial doubt as to our ability to continue as a going concern. If we become unable to continue as a going concern, we may have to liquidate our assets, and potentially realize significantly less than the values at which they are carried on our financial statements, and the holders of our securities could lose all or part of their investment.

##### Business Disruption

In December 2020, the World Health Organization declared the outbreak to constitute a "Public Health Emergency of International Concern" with respect to a novel strain of coronavirus. On March 24, 2020, the Houston Mayor declared a stay-at-home order, similar to other counties, states and countries. The COVID-19 outbreak disrupted all areas of business and the economy across a range of industries.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such, it is uncertain as to the full magnitude that pandemic will have on the Company's financial condition, liquidity, and future results of operations. Management is actively monitoring the situation on its financial condition, liquidity and operations. Given the changing conditions of the pandemic, the Company is not able to estimate the effects of the COVID-19 outbreak on its results of operations, financial conditions or liquidity for 2021.
