2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statement has been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

The financial statement was approved by management and available to be issued on January 25, 2016. Subsequent events have been evaluated through this date.

Cash

The Company maintains its cash balance in a bank account with one financial institution. The Company has not experienced any losses in this account and does not believe there to be any significant credit risk with respect to these deposits.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement. Actual results could differ from those estimates.

3. Net Capital Requirement

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3- 1. This rule requires the maintenance of minimum net capital (as defined) and that the ratio of aggregate indebtedness to net capital (both as defined), shall not exceed 15 to 1. The rule also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. 4. Exemption from Rule 15c3-3

The Company is exempt from the Security Exchange Commission Rule 15c3- 3; therefore, it is not required to maintain a " Special Reserve Bank Account for the Exclusive Benefit of Customers".

5. Commitments and Contingencies

The Company has no commitments, no contingent liabilities and had not been named as a defendant in any lawsuit at December 31, 2015 or during the year then ended.

6. Guarantees

FASB ASC 460, Guarantees, requires the Company to disclose information about its obligations under certain guarantee arrangements. FASB ASC 460 defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in an underlying factor (such as an interest or foreign exchange rate, security or commodity price, an index or the occurrence or nonoccurrence of a specified event) related to an asset, liability or equity security of a guaranteed party. This guidance also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement as well as indirect guarantees of indebtedness of others.

8. Recently Issued Accounting Pronouncements

The Financial Accounting Standards Board (the "FASB") has established the Accounting Standards Codification ("Codification" or "ASC") as the authoritative source of generally accepted accounting principles ("GAAP") recognized by the FASB. The principles embodied in the Codification are to be applied by nongovernmental entities in the preparation of financial statements in accordance with GAAP in the United States. New accounting pronouncements are incorporated into the ASC through the issuance of Accounting Standards Updates ("ASUs").

For the year ending December 31, 2015, various ASUs issued by the FASB were either newly issued or had effective implementation dates that would require their provisions to be reflected in the financial statement for the year then ended. The Company has either evaluated or is currently evaluating the implications, if any, of each of these pronouncements and the possible impact they may have on the Company's financial statement. In most cases, management has determined that the pronouncement

has either limited or no application to the Company and, in all cases, implementation would not have a material impact on the financial statement taken as a whole.
